Zone wide Queuing Penalty: 221

## Appendix D - APRIL 2023 TRAFFIC COUNTS

|            |                                   |
|------------|-----------------------------------|
| Study Name | 8th&Colorado                      |
| Start Date | Tuesday, April 25, 2023 11:00 AM  |
| End Date   | Wednesday, April 26, 2023 6:45 PM |
| Site Code  |                                   |

Overview

This report contains turning movement volume (TMV) data of vehicular traffic in the intersection of study.

Content

|           |                                                                                              |
|-----------|----------------------------------------------------------------------------------------------|
| Summary   | Contains a TMV summary of all vehicular traffic in the intersection for defined peak periods |
| TMV Table | Contains a pivot table of the TMV road and crosswalk data                                    |
| TMV Data  | Contains measured TMV data of all vehicular traffic in the intersection for each approach    |
| Ped Data  | Contains detected pedestrian information for the intersection's crosswalks                   |

Traffic Study

|                           |                                                           |         |

Overview

This report contains turning movement volume (TMV) data of vehicular traffic in the intersection of study.

Content

|           |                                                                                              |
|-----------|----------------------------------------------------------------------------------------------|
| Summary   | Contains a TMV summary of all vehicular traffic in the intersection for defined peak periods |
| TMV Table | Contains a pivot table of the TMV road and crosswalk data                                    |
| TMV Data  | Contains measured TMV data of all vehicular traffic in the intersection for each approach    |
| Ped Data  | Contains detected pedestrian information for the intersection's crosswalks                   |

| Study Name | 9th & Grand                      |
| Start Date | Tuesday, April 25, 2023 11:00 AM |
| End Date   | Thursday, April 27, 2023 6:45 PM |
| Site Code  |                                  |

Overview

This report contains turning movement volume (TMV) data of vehicular traffic in the intersection of study.

Content

|           |                                                                                              |
|-----------|----------------------------------------------------------------------------------------------|
| Summary   | Contains a TMV summary of all vehicular traffic in the intersection for defined peak periods |
| TMV Table | Contains a pivot table of the TMV road and crosswalk data                                    |
| TMV Data  | Contains measured TMV data of all vehicular traffic in the intersection for each approach    |
| Ped Data  | Contains detected pedestrian information for the intersection's crosswalks                   |

Overview

This report contains turning movement volume (TMV) data of vehicular traffic in the intersection of study.

Content

|           |                                                                                              |
|-----------|----------------------------------------------------------------------------------------------|
| Summary   | Contains a TMV summary of all vehicular traffic in the intersection for defined peak periods |
| TMV Table | Contains a pivot table of the TMV road and crosswalk data                                    |
| TMV Data  | Contains measured TMV data of all vehicular traffic in the intersection for each approach    |
| Ped Data  | Contains detected pedestrian information for the intersection's crosswalks                   |

## Overview

This report contains turning movement volume (TMV) data of vehicular traffic in the intersection of study.

## Content

|           |                                                                                              |
|-----------|----------------------------------------------------------------------------------------------|
| Summary   | Contains a TMV summary of all vehicular traffic in the intersection for defined peak periods |
| TMV Table | Contains a pivot table of the TMV road and crosswalk data                                    |
| TMV Data  | Contains measured TMV data of all vehicular traffic in the intersection for each approach    |
| Ped Data  | Contains detected pedestrian information for the intersection's crosswalks                   |

## Appendix C. Figures and Tables

**Figure C1. Guidelines for the Installation of Pedestrian Hybrid Beacons on Low-Speed Roadways**

**Figure C2. Guidelines for the Installation of Pedestrian Hybrid Beacons on High-Speed Roadways**

**Table C1. Criteria for Pedestrian Crossing Treatments at Uncontrolled Locations**

The criteria for pedestrian crossing treatments at uncontrolled locations is intended as a general minimum. Engineering judgment should be used on a case-by-case basis. Prevailing speed may be used if significantly different than posted speed.

| Roadway Configuration                         | Roadway ADT and Posted Speed (mph) |    |    |     |                    |    |    |     |                     |    |    |     |              |    |    |     |
|-----------------------------------------------|------------------------------------|----|----|-----|--------------------|----|----|-----|---------------------|----|----|-----|--------------|----|----|-----|
|                                               | 1,500 – 9,000 vpd                  |    |    |     | 9,001 – 12,000 vpd |    |    |     | 12,001 – 15,000 vpd |    |    |     | > 15,000 vpd |    |    |     |

#### Treatment Descriptions:

- ☐ A. Install marked crosswalk with enhanced roadside signs.

*Install a marked crosswalk with a standard W11-2 with a W16-7p plaque mounted on the side of the roadway at the crosswalk location and a standard W11-2 advanced pedestrian warning sign. Use S1-1 signs for school crossing locations. An optional R6-1 may be used in addition.*

- ☐ B. Install marked crosswalk with enhanced roadside and in-roadway signs.

- ☐ C. Install marked crosswalk with enhanced signs and geometric improvements to increase pedestrian visibility and reduce exposure.

- ☐ D. Install marked crosswalk with enhanced signs, pedestrian activated RRFBs, and geometric improvements to increase visibility pedestrian and reduce exposure.

- ☐ E. Do not install marked crosswalk at uncontrolled crossing. Determine if speed limit can effectively be reduced to 40 mph by making geometric or other infrastructure changes (i.e., bulb out, median refuge, etc.). If so, utilize criteria D above. If this is not possible, if pedestrian volume meets warrants, consider a pedestrian hybrid beacon, pedestrian traffic signal, or grade separated crossing.

- ☐ F. Do not install marked crosswalk at uncontrolled crossings with three (3) or more through lanes per direction or where the speed limit is greater or equal to 45 mph and/or there is not a median refuge on a 5-lane crossing. Consider pedestrian hybrid beacon, pedestrian traffic signal, or separated crossing.

SURVEYING

1. PRIOR TO BEGINNING WORK ON THE PROJECT, THE CONTRACTOR'S SURVEYOR SHALL PERFORM A SURVEY TO VERIFY ALL SURVEY CONTROL POINTS, SECTION CORNERS, AND BENCHMARKS AS SHOWN ON THE HORIZONTAL CONTROL PLAN. THE CONTRACTOR SHALL BE RESPONSIBLE FOR REPLACING ALL LAND SURVEY MONUMENTS DISRUPTED BY CONSTRUCTION ACTIVITIES OR BY NEGLIGENCE ON THE PART OF THE CONTRACTOR. THE CONTRACTOR IS REQUIRED TO FOLLOW COLORADO STATE LAW REGARDING SURVEY MONUMENTS. THE CONTRACTOR SHALL RETAIN A COLORADO LICENSED PROFESSIONAL LAND SURVEYOR TO RESET ANY AFFECTED SURVEY MONUMENTS. THIS WILL NOT BE PAID SEPARATELY, BUT SHALL BE INCLUDED IN THE WORK.
2. PROPOSED FINISHED GROUND ELEVATIONS FOR ITEMS TO BE ADJUSTED, RESET OR MODIFIED SHALL BE FIELD VERIFIED BY THE CONTRACTOR. CONTRACTOR SHALL NOTIFY THE DESIGN ENGINEER IF DISCREPANCIES ARE NOTED.

GENERAL

1. THE CONTRACTOR SHALL PREPARE A TRAFFIC CONTROL PLAN AND OBTAIN CITY APPROVAL PRIOR TO ANY WORK WITHIN PUBLIC RIGHT-OF-WAY. THE CLOSURE AND DETOUR DURATION SHOULD BE LIMITED AS MUCH AS POSSIBLE.
2. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL ASPECTS OF SAFETY INCLUDING, BUT NOT LIMITED TO EXCAVATION, TRENCHING, SHORING, TRAFFIC CONTROL, AND SECURITY.
3. THE CONTRACTOR SHOULD REMOVE MATERIALS AND EQUIPMENT FROM THE ROADWAY ROW AT THE CLOSE OF DAILY OPERATIONS. THE CONTRACTOR SHALL NOT STOCKPILE MATERIAL IN THE CLEAR ZONE OF THE TRAVELED WAY.
4. THE CONTRACTOR IS RESPONSIBLE FOR OBTAINING ALL PROJECT PERMITS ASSOCIATED WITH CONSTRUCTION. THE CONTRACTOR IS RESPONSIBLE FOR BEING AWARE OF, NOTIFYING, COORDINATING AND SCHEDULING ALL INSPECTIONS REQUIRED FOR FINAL APPROVALS AND PROJECT ACCEPTANCE. ALL WORK, INCLUDING CORRECTION WORK, IS SUBJECT TO NOTIFICATION AND INSPECTION REQUIREMENTS.
5. IF ANY OF THE CONTRACTOR'S OPERATIONS DESTROY OR DAMAGE ANY PROPERTY, PUBLIC OR PRIVATE, THE CONTRACTOR SHALL PROMPTLY REPAIR OR REPLACE SUCH PROPERTY, TO THE SATISFACTION OF THE PROJECT MANAGER, BEFORE THE CITY WILL ACCEPT OR PAY FOR THE WORK PERFORMED UNDER THE CONTRACT. IF THE CONTRACTOR FAILS TO REPAIR OR REPLACE SUCH PROPERTY, THE CITY, AT THE SOLE DISCRETION OF THE MANAGER, MAY UNDERTAKE SUCH REPAIR OR REPLACEMENT AND DEDUCT THE COST OF THE SAME FROM AMOUNTS PAYABLE TO THE CONTRACTOR UNDER THE CONTRACT.
6. THE CONTRACTOR SHALL BE RESPONSIBLE FOR RECORDING AS-BUILT INFORMATION ON A SET OF RECORD DRAWINGS KEPT ON THE CONSTRUCTION SITE, AND AVAILABLE TO THE CITY INSPECTOR AT ALL TIMES. UPON COMPLETION OF THE WORK, THE CONTRACTOR SHALL SUBMIT RECORD DRAWINGS, IN AN AUTOCAD COMPATIBLE FORMAT, TO THE CITY. THE PRODUCTION OF THESE DOCUMENTS WILL NOT BE PAID FOR SEPARATELY, BUT SHALL BE INCLUDED IN THE COST OF THE WORK.
7. PRIOR TO FINAL ACCEPTANCE, ALL DISTURBED PORTIONS OF ROADWAY ROW SHALL BE CLEANED UP AND RESTORED TO THEIR ORIGINAL CONDITION, SUBJECT TO CITY APPROVAL.
8. NO WORK SHALL BE PERMITTED ON WEEKENDS OR HOLIDAYS WITHOUT PRIOR AUTHORIZATION OR UNLESS OTHERWISE SPECIFIED. THE CITY MAY RESTRICT WORK IN THE ROW DURING ADVERSE WEATHER CONDITIONS OR DURING PERIODS OF HIGH TRAFFIC VOLUME.
9. NO CLEATED OR TRACKED EQUIPMENT MAY WORK IN OR MOVE OVER PAVED SURFACES WITHOUT MATS.
10. IF UNKNOWN/UNIDENTIFIED UNDERGROUND STORAGE TANKS, DRUMS, ODOROUS SOIL, STAINED SOIL, ASBESTOS-CEMENT PIPE, TRANSITE, BUILDING DEBRIS OR WASTE MATERIALS ARE ENCOUNTERED DURING THE PROJECT, CONTRACTOR SHALL IMMEDIATELY STOP WORK IN THE AREA AND INFORM THE OWNER.
11. CONTRACTOR SHALL TAKE REASONABLE MEASURES TO PREVENT PARTICULATE MATTER FROM BECOMING AIRBORNE AND TO PREVENT THE VISIBLE DISCHARGE OF FUGITIVE PARTICULATE EMISSIONS BEYOND THE PROPERTY ON WHICH THE EMISSIONS ORIGINATE. THE MEASURES TAKEN MUST BE EFFECTIVE IN THE CONTROL OF FUGITIVE PARTICULATE EMISSIONS AT ALL TIMES ON THE SITE, INCLUDING PERIODS OF INACTIVITY SUCH AS EVENINGS, WEEKENDS, AND HOLIDAYS AS WELL AS ANY OTHER PERIOD OF INACTIVITY.
12. THE CONTRACTOR SHALL PROPERLY DISPOSE OF ALL WASTE FROM PROJECT IN ACCORDANCE WITH LOCAL, STATE AND FEDERAL REQUIREMENTS.
13. A STATE CONSTRUCTION STORMWATER DISCHARGE PERMIT IS REQUIRED AND IT IS THE CONTRACTOR'S RESPONSIBILITY TO OBTAIN THE PERMIT. 'FOR REFERENCE' EROSION CONTROL PLAN DRAWINGS ARE PROVIDED FOR INFORMATION PURPOSES ONLY.

PROJECT PLANS, SPECIFICATIONS, PERMITS

1. ALL MATERIAL, EQUIPMENT, INSTALLATION AND CONSTRUCTION WITHIN THE ROW SHALL BE IN ACCORDANCE WITH THE LATEST EDITION OF THE FOLLOWING STANDARD REFERENCES AS APPLICABLE:
  - 1.1. CITY OF GLENWOOD SPRINGS ENGINEERING STANDARDS
  - 1.2. COLORADO DEPARTMENT OF TRANSPORTATION (CDOT) STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION AND STANDARD PLANS, (M&S STANDARDS)
  - 1.3. FEDERAL HIGHWAY ADMINISTRATION (FHWA), MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES (MUTCD) FOR STREETS AND HIGHWAYS AND THE COLORADO SUPPLEMENT THERETO
  - 1.4. AMERICAN ASSOCIATION OF STATE AND HIGHWAY TRANSPORTATION OFFICIALS (AASHTO) ROADSIDE DESIGN GUIDE
2. THE OWNER RESERVES THE RIGHT TO ACCEPT OR REJECT ANY MATERIALS AND WORKMANSHIP THAT DOES NOT CONFORM TO THE LATEST EDITION OF THE APPLICABLE STANDARDS SPECIFICATIONS, OR HALT CONSTRUCTION UNTIL THE CONFLICT IS RESOLVED.
3. THE CONTRACTOR SHALL HAVE ONSITE AT ALL TIMES, ONE COPY OF THE APPROVED PLANS, ONE COPY OF THE APPROPRIATE STANDARDS AND SPECIFICATIONS, AND COPIES OF ANY PERMITS AND EXTENSION AGREEMENTS NEEDED FOR THE JOB.
4. IF DURING THE CONSTRUCTION PROCESS, CONDITIONS ARE ENCOUNTERED WHICH COULD INDICATE A SITUATION THAT IS NOT IDENTIFIED ON THE PLANS OR SPECIFICATIONS, THE CONTRACTOR SHALL CONTACT THE OWNER IMMEDIATELY.

UTILITIES

1. THE TYPE, SIZE, LOCATION AND NUMBER OF ALL KNOWN UNDERGROUND UTILITIES ARE APPROXIMATE WHEN SHOWN ON THE DRAWINGS, UNLESS OTHERWISE NOTED. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO VERIFY THE EXISTENCE AND LOCATION OF ALL UNDERGROUND UTILITIES ALONG THE ROUTE OF THE WORK BEFORE COMMENCING NEW CONSTRUCTION. THE CONTRACTOR SHALL COOPERATE WITH COMPANIES TRYING TO COORDINATE THE RELOCATION EFFORT. LINES NOT RELOCATED SHALL BE PROTECTED BY THE CONTRACTOR IN PLACE. THE CONTRACTOR SHALL CONTACT THE UTILITY NOTIFICATION CENTER OF COLORADO (UNCC) AT 811, AT LEAST 2 WORKING DAYS PRIOR TO BEGINNING EXCAVATION OR GRADING.
2. THE CONTRACTOR SHALL BE RESPONSIBLE FOR PROTECTING UTILITIES DURING CONSTRUCTION AND SHALL HOLD THE CITY AND ITS ENGINEERS HARMLESS FOR DAMAGES ARISING FROM THE CONTRACTOR'S FAILURE TO ADEQUATELY PROTECT EXISTING UTILITIES. DAMAGED UTILITIES SHALL BE REPAIRED BY AND AT THE EXPENSE OF THE CONTRACTOR.
3. THE CONTRACTOR IS REQUIRED TO RESET, ADJUST OR REPLACE ANY UTILITIES THAT ARE IMPACTED BY CONSTRUCTION AND ARE INTENDED TO REMAIN WITHIN THE PROJECT LIMITS.
4. FIRE HYDRANT ASSEMBLY INCLUDES INSTALLATION OF ALL MATERIALS SHOWN ON WATER STANDARD DETAIL W03 (FIRE HYDRANT ASSEMBLY DETAIL)
5. CITY INSPECTIONS ARE REQUIRED FOR THE ENTIRE LENGTH OF BOTH WATER AND SEWER SERVICE LINES. PROVIDE CITY 2 BUSINESS DAYS' NOTICE.
6. PER SB18-167, ALL NEW UNDERGROUND FACILITIES INSTALLED ON OR AFTER JANUARY 1, 2020, MUST BE ELECTRONICALLY LOCATABLE WHEN INSTALLED.

WATER

1. WATER SERVICE LINES ARE TO BE K COPPER OR PLASTIC POLY ETHYLENE (PE) ONLY, NO COPPER PIPE LARGER THAN 1" IN DIAMETER IS PERMITTED. USE PE OR DUCTILE IRON PIPE (DIP) ABOVE 1" DIAMETER. ONLY NSF61 MATERIALS ARE TO BE USED. GALVANIZED AND BLACK IRON PIPING AND FITTINGS ARE NOT ALLOWED ON THE DOMESTIC LINE AND ARE ONLY PERMITTED AFTER THE BF ON FIRE LINES.
2. SERVICE LINES ARE TO BE ALL NEW MATERIAL WITHOUT ANY UV FADING, KINKS, OR ANY DAMAGE.
3. NO SERVICES SHALL HAVE IN-LINE COUPLINGS UNLESS APPROVED IN ADVANCE BY INSPECTOR.
4. ONLY COMPRESSION TYPE CORPORATION AND CURB-STOP VALVES AND FITTINGS ARE PERMITTED UNDERGROUND, NO SOLDER OR GLUE JOINTS ARE PERMITTED ON UNDERGROUND WATER PIPES.
5. SERVICE VALVE MUST HAVE A McDONALD TYPE CURB BOX WITH STEM. THE CAP MUST BE PROTECTED AND BE AT OR ABOVE FINISHED GRADE, PROVIDE FLAT 12" STONE OR CONCRETE PAD UNDER VALVE, LOCATED WITHIN 1' PROPERTY LINE.
6. ANY EXTENSION COUPLINGS TO CURB BOX MUST BE WELDED. CAP IS TO BE "HAND TIGHT".
7. 6" MINIMUM BEDDING UNDER PIPE, 12" OVER TOP - ¾" MINUS SCREENED AGGREGATE, BACK FILL WITH 6" MINUS STRUCTURAL FILL OR 6" MINUS PIT RUN.
8. THE MINIMUM EARTH COVER OVER WATER TRANSMISSION AND DISTRIBUTION LINES SHALL BE 5.5 FEET. A GREATER DEPTH SHALL BE PROVIDED TO AVOID EXCESSIVE HIGH POINTS IN THE MAIN OR WHERE IT IS NECESSARY TO CLEAR EXISTING STRUCTURES OR OBSTRUCTIONS. WATER SERVICE LINES SHALL HAVE THE SAME MINIMUM COVER.
9. CONNECTIONS TO CITY WATER MAINS MUST BE PERFORMED WITH CITY INSPECTOR ON SITE.
10. CONTRACTOR MUST PROVIDE AS-BUILT DRAWING OF ALL NEW PRIVATE LINES.

SANITARY SEWER

1. SDR-35 PUSH-ON GASKET JOINT, PVC PIPE ONLY – 90 DEGREE GASKET SDR-35 WYE FOR CLEANOUT REQUIRED.
2. NO GLUE TOGETHER PIPE JOINTS UNDERGROUND OUTSIDE FOUNDATION.
3. 6" MINIMUM BEDDING UNDER PIPE, 12" OVER TOP - ¾" MINUS SCREENED AGGREGATE, BACK FILL WITH 6" MINUS STRUCTURAL FILL OR 6" MINUS PIT RUN.
4. BELL ENDS MUST FACE UP-HILL, ALL JOINTS FULLY INSERTED.
5. USE FOOD GRADE LUBRICANT "DUCK BUTTER" AT ALL SLIP JOINTS.
6. SEWER LINES MUST BE AT LEAST 10' FROM WATER LINES.
7. IF CROSSING WATER LINES, CENTER A 20" STICK OF C-905 OR SDR-35 OF SEWER SERVICE PIPE AT THE CROSSING.
8. SLOPE MUST BE GREATER THAN 2%.
9. NO 90 DEGREE FITTINGS.
10. CLEAN OUT WITH "Y" EVERY 150' OF PIPE RUN OR EVERY 180 DEGREES OF BENDS.
11. CLEAN OUT WITH DOUBLE "Y" WITHIN 5' OF OUTSIDE BUILDING FOUNDATION WALL, A SINGLE "Y" CLEANOUT IS ALLOWED IF A CO IS ACCESSIBLE INSIDE BUILDING.
12. ACCESS TO CLEAN OUT WILL BE AT 4" (+/-1") ABOVE FINISH GRADE, WATERTIGHT CAPPED AND MARKED WITH REBAR OR IRON POST. ACCESS WITHIN PAVED AREAS WILL REQ. STREET BOX.
13. CONTRACTOR WILL PROVIDE AS-BUILT DRAWING OF ALL NEW PRIVATE SERVICE LINES.

REMOVALS, EXISTING ITEMS, SAW CUTTING

1. ALL ITEMS TO BE REMOVED AND NOT RESET SHALL BECOME THE PROPERTY OF THE CONTRACTOR AND SHALL BE REMOVED FROM THE SITE AND DISPOSED OF PROPERLY.
2. WHERE IT IS REQUIRED TO REMOVE EXISTING CONCRETE OR ASPHALT, CUTTING SHALL BE DONE TO A NEAT WORK LINE TO FULL DEPTH USING A SAW, CUTTING WHEEL, OR OTHER METHOD APPROVED BY THE PROJECT MANAGER. THIS WILL NOT BE PAID SEPARATELY, BUT SHALL BE INCLUDED IN THE WORK.
3. REMOVAL OF EXISTING CURB AND GUTTER, SIDEWALK, DRIVEWAYS, CURB CUTS, AND OTHER CONCRETE ITEMS THAT ARE ATTACHED OR ADJACENT TO OTHER CONCRETE ITEMS SHALL BE REMOVED TO THE NEAREST JOINT, AS NEEDED TO AVOID DAMAGING THE REMAINING CONCRETE ITEMS. THE CONTRACTOR SHALL BE RESPONSIBLE FOR DAMAGE TO ADJACENT SIDEWALK DURING CURB AND GUTTER REMOVAL AND SHALL REPLACE DAMAGED SECTIONS AT NO ADDITIONAL COST TO THE PROJECT.
4. THE CONTRACTOR IS REQUIRED TO RESET, ADJUST, OR REPLACE ANY UTILITIES, LANDSCAPING, SPRINKLER SYSTEMS, SIGNS, SIDEWALKS, ETC. THAT ARE IMPACTED BY CONSTRUCTION AND ARE NOT DESIGNATED TO BE REMOVED.

PAVEMENT

1. A TACK COAT IS REQUIRED PRIOR TO THE PLACEMENT OF SUBSEQUENT LIFTS OF HMA.
2. WHERE NEW CONSTRUCTION IS TO ABUT EXISTING PAVEMENT, THE EXISTING PAVEMENT SHALL BE REMOVED TO A NEAT VERTICAL LINE TO CREATE A CLEAN CONSTRUCTION JOINT.
3. WHEN AN EXISTING ASPHALT STREET IS CUT, THE STREET MUST BE RESTORED TO A CONDITION EQUAL TO OR BETTER THAN ITS ORIGINAL CONDITION. THE EXISTING STREET CONDITION SHALL BE DOCUMENTED BEFORE ANY CUTS ARE MADE. PATCHING SHALL BE DONE IN CONFORMANCE WITH THE PROJECT STANDARDS. THE FINISHED PATCH SHALL BLEND SMOOTHLY INTO THE EXISTING SURFACE. ALL LARGE PATCHES SHALL BE PAVED WITH AN ASPHALT LAY-DOWN MACHINE.

EARTHWORK AND EXCAVATIONS

1. THE CONTRACTOR SHALL LIMIT CONSTRUCTION ACTIVITIES TO THOSE AREAS WITHIN THE LIMITS OF DISTURBANCE AND TOES OF SLOPE AS SHOWN ON THE PLANS. ANY DISTURBANCE BEYOND THESE LIMITS SHALL BE RESTORED TO ORIGINAL CONDITIONS AT THE EXPENSE OF THE CONTRACTOR.
2. WATER SHALL BE USED AS A DUST PALLIATIVE WHERE REQUIRED. COST FOR DUST PALLIATIVE SHALL NOT BE MEASURED AND PAID FOR SEPARATELY, BUT SHALL BE CONSIDERED INCIDENTAL TO THE WORK.
3. MOISTURE DENSITY CONTROL SHALL BE APPLIED FULL DEPTH FOR ALL FILL.
4. DURING EACH PHASE OF CONSTRUCTION, THE CONTRACTOR SHALL SHAPE TO DRAIN AND COMPACT THE WORK AREA TO A UNIFORM CROSS-SECTION. ELIMINATE ALL RUTS AND LOW SPOTS THAT COULD HOLD WATER. AREAS AND FACILITIES SUBJECTED TO FLOODING, REGARDLESS OF THE SOURCE OF WATER, SHALL BE PROMPTLY DEWATERED AND RESTORED AT NO ADDITIONAL COST TO THE CITY.
5. WHERE CONSISTENT WITH SAFETY AND SPACE CONSIDERATIONS, EXCAVATED MATERIAL IS TO BE PLACED ON THE UPHILL SIDE OF TRENCHES.
6. CONTRACTOR TO REVIEW AND COMPLY WITH RECOMMENDATIONS OF THE "FINAL REPORT, GEOTECHNICAL INVESTIGATION, RFTA WEST GLENWOOD SPRINGS PARK N RIDE, PAVEMENT AND RETAINING WALL RECOMMENDATIONS, GLENWOOD SPRINGS, COLORADO" JULY 30, 2015 PREPARED BY YEH AND ASSOCIATES.

7. EXISTING ONSITE SOIL MATERIALS MAY BE REUSED AS FILL UNDER PAVING AFTER SCREENING AND RECOMPACTION OF MATERIAL TO RECOMMENDATIONS IN PROJECT GEOTECHNICAL STUDY. MATERIALS BENEATH FOUNDATIONS SHALL BE STRUCTURAL FILL.

CONCRETE

1. IF CONCRETE REPLACEMENT IS NECESSARY, THE ENTIRE AFFECTED SLAB OR PANEL MUST REPLACED.
2. SIDEWALK SHALL BE CLASS P CONCRETE. THE USE OF ¾ INCH (#67) TOP SIZE AGGREGATE IS ALLOWED.
3. BENDER BOARDS (TWO INCH MINIMUM THICKNESS) SHALL BE USED ON ALL CURVES OF LESS THAN 75 FOOT RADIUS.
4. THE CONTRACTOR SHALL INSTALL ½ IN EXPANSION JOINT MATERIAL BETWEEN THE CURB, CURB AND GUTTER AND THE SIDEWALK, AND AROUND INLET STRUCTURES OR BLOCKOUTS OR AS DIRECTED BY THE PROJECT MANAGER.
5. CURB RAMPS SHALL BE CONSTRUCTED USING TRUNCATED DOMES AS SHOWN IN THE CITY STANDARD DETAILS. TRUNCATED DOMES AND GROOVES SHALL NOT BE PAID SEPARATELY, BUT INCLUDED IN THE COST OF THE CONCRETE CURB RAMP.

TRAFFIC

1. THE CONTRACTOR IS RESPONSIBLE FOR PROVIDING AND MAINTAINING ADEQUATE TRAFFIC CONTROL THROUGHOUT THE PROJECT, INCLUDING PROPER TRAFFIC CONTROL DEVICES AND PERSONNEL.
2. CONTRACTOR IS RESPONSIBLE FOR OBTAINING ANY PERMITS REQUIRED FOR WORK IN CDOT RIGHT-OF-WAY.

DRAINAGE

1. ALL SEWER PIPES SHALL BE INSTALLED WITH CLASS B BEDDING AS A MINIMUM.
2. SANITARY SEWER PIPES SHALL BE SDR 26 PVC AND CONFORM TO ASTM D3034.
3. THE CONTRACTOR PERFORMING WORK ON ANY PUBLIC OR PRIVATE STORM SEWER FACILITY OR APPURTENANCE MUST BE PROPERLY TRADE LICENSED AS A COMPANY AND HAVE A LICENSED PLUMBER OR CERTIFIED JOURNEYMAN DRAINLAYER ON SITE DURING THE WORK.
4. ACCESS MUST BE MAINTAINED FOR ALL SEWER MANHOLES DURING CONSTRUCTION. MINIMUM ACCESS TO EACH MANHOLE IS A 20 FOOT WIDE LANE FROM THE NEAREST PUBLIC RIGHT OF WAY, CENTERED AT THE MANHOLE INCLUDING A 10 FOOT RADIUS AROUND THE MANHOLE AND 22.0 FEET OF VERTICAL CLEARANCE.

EROSION CONTROL

1. THE CONTRACTOR MUST IMPLEMENT AND COMPLY WITH THE APPROVED EROSION CONTROL PLAN AND ASSOCIATED DOCUMENTS FOR THIS PROJECT.
2. THE CONTRACTOR SHALL PREVENT SEDIMENT, DEBRIS AND ALL OTHER POLLUTANTS FROM ENTERING THE STORM SEWER SYSTEM DURING ALL DEMOLITION, EXCAVATION, TRENCHING, BORING, GRADING, OR OTHER CONSTRUCTION OPERATIONS THAT ARE PART OF THIS PROJECT. THE CONTRACTOR SHALL BE HELD RESPONSIBLE FOR REMEDIATION OF ANY ADVERSE IMPACTS TO THE MUNICIPAL SEPARATE STORM SEWER SYSTEM, RECEIVING WATERS, WATERWAYS, WETLANDS, AND OR OTHER PUBLIC OR PRIVATE PROPERTIES, RESULTING FROM WORK DONE AS PART OF THIS PROJECT.
3. THE CONTRACTOR SHALL REMOVE ALL SEDIMENT, MUD, CONSTRUCTION DEBRIS, OR OTHER POTENTIAL POLLUTANTS THAT MAY HAVE BEEN DISCHARGED TO OR ACCUMULATE IN, THE FLOWLINES, STORM DRAINAGE APPURTENANCES, AND PUBLIC RIGHTS OF WAYS OF THE CITY AS A RESULT OF CONSTRUCTION ACTIVITIES ASSOCIATED WITH THIS SITE DEVELOPMENT OR CONSTRUCTION PROJECT. SAID REMOVAL SHALL BE CONDUCTED IN A TIMELY MANNER.
4. SOIL STABILIZATION MEASURES SHALL BE IMPLEMENTED WITHIN FOURTEEN (14) DAYS FOLLOWING COMPLETION OF GRADING ACTIVITIES. STABILIZATION OF DISTURBED AREAS ADJACENT TO RECEIVING WATERS OR WITH SLOPES 3 TO 1 OR GREATER SHALL BE COMPLETED WITHIN SEVEN (7) DAYS FOLLOWING COMPLETION OF GRADING ACTIVITIES. NOTE: FEDERAL AND STATE REGULATIONS MAY SOON REQUIRE STABILIZATION WITHIN SEVEN (7) DAYS OF COMPLETION OF GRADING ACTIVITIES.
5. THE DEVELOPER, GENERAL CONTRACTOR, GRADING CONTRACTOR AND/OR THEIR AUTHORIZED AGENTS SHALL INSURE THAT ALL LOADS OF CUT AND FILL MATERIAL IMPORTED TO OR EXPORTED FROM THIS SITE SHALL BE PROPERLY COVERED TO PREVENT LOSS OF THE MATERIAL DURING TRANSPORT ON PUBLIC RIGHTS OF WAY.
6. THE USE OF REBAR TO ANCHOR BEST MANAGEMENT PRACTICES IS PROHIBITED.
7. SOILS THAT WILL BE STOCKPILED FOR MORE THAN THIRTY (30) DAYS SHALL BE PROTECTED FROM WIND AND WATER EROSION WITHIN FOURTEEN (14) DAYS OF STOCKPILE CONSTRUCTION. STABILIZATION OF STOCKPILES LOCATED WITHIN 100 FEET OF RECEIVING WATERS, OR WITH SLOPES 3 TO 1 OR GREATER SHALL BE COMPLETED WITHIN SEVEN (7) DAYS FOLLOWING STOCKPILE CONSTRUCTION. STABILIZATION AND PROTECTION OF THE STOCKPILE MAY BE ACCOMPLISHED BY ANY OF THE FOLLOWING: MULCHING, TEMPORARY/PERMANENT REVEGETATION OPERATIONS, OR EROSION CONTROL MATTING/GEOTEXTILES. IF STOCKPILES ARE LOCATED WITHIN 100 FEET OF RECEIVING WATERS, A DRAINAGEWAY OR THE SITE PERIMETER, ADDITIONAL SEDIMENT CONTROLS SUCH SHALL BE REQUIRED.

EROSION CONTROL

8. APPROVED EROSION AND SEDIMENT CONTROL 'BEST MANAGEMENT PRACTICES' SHALL BE MAINTAINED AND KEPT IN GOOD REPAIR FOR THE DURATION OF THIS PROJECT. AT A MINIMUM, THE PERMITTEE OR CONTRACTOR SHALL PRODUCE AND RETAIN WEEKLY WRITTEN INSPECTION RECORDS FOR ALL BMPS AND AFTER SIGNIFICANT PRECIPITATION EVENTS. ALL NECESSARY MAINTENANCE AND REPAIR SHALL BE COMPLETED IMMEDIATELY. ADDITIONALLY, STREET SWEEPING IS TO BE COMPLETED BY THE CLOSE OF THE BUSINESS DAY OR (AND) ON AN AS NEEDED BASIS THROUGHOUT THE DAY.
9. WATER USED IN THE CLEANING OF CEMENT TRUCK DELIVERY CHUTES SHALL BE DISCHARGED INTO A PREDEFINED, CONCRETE WASHOUT AREA ON THE JOB SITE. BERMED CONTAINMENT OR COMMERCIALY AVAILABLE CONCRETE WASHOUT DEVICES THAT FULLY CONTAIN ALL WASH WATER ARE ACCEPTABLE. WASH WATER DISCHARGED INTO THE CONTAINMENT AREA OR DEVICE SHALL BE ALLOWED TO INFILTRATE, EVAPORATE, AND OR BE DISPOSED OF IN ACCORDANCE WITH ALL APPLICABLE REGULATIONS. DRIED CEMENT WASTE IS TO BE REMOVED FROM THE CONTAINMENT AREA AND PROPERLY DISPOSED.
10. THE CONTRACTOR SHALL PROTECT ALL STORM SEWER FACILITIES ADJACENT TO ANY LOCATION WHERE PAVEMENT CUTTING OPERATIONS INVOLVING WHEEL CUTTING, SAW CUTTING, OR ABRASIVE WATER JET CUTTING ARE TO TAKE PLACE. THE CONTRACTOR SHALL REMOVE AND PROPERLY DISPOSE OF ALL WASTE PRODUCTS GENERATED BY SAID CUTTING OPERATIONS ON A DAILY BASIS OR AS NEEDED THROUGHOUT THE WORK DAY. THE DISCHARGE OF ANY WATER CONTAMINATED BY WASTE PRODUCTS FROM CUTTING OPERATIONS TO THE STORM SEWER SYSTEM IS PROHIBITED.
11. PAVED AND IMPERVIOUS SURFACES WHICH ARE ADJACENT TO CONSTRUCTION SITES MUST BE SWEEPED ON A DAILY BASIS AND AS NEEDED DURING THE DAY WHEN SEDIMENT AND OTHER MATERIALS ARE TRACKED OR DISCHARGED ONTO THEM. EITHER SWEEPING BY HAND OR USE OF STREET SWEEPERS IS ACCEPTABLE. STREET SWEEPERS USING WATER WHILE SWEEPING IS PREFERRED IN ORDER TO MINIMIZE DUST. FLUSHING OFF PAVED SURFACES WITH WATER IS PROHIBITED.

|                                                                                                                                                                                                                                                                                                                                      |  |                       |      |             |          |                                                                                                                                                                     |  |                            |       |                      |  |                      |                   |                        |              |

GENERAL NOTES

- CONCRETE SHALL BE CLASS B.
- PROFILE GRADE OF CURBS AND GUTTERS SHALL BE LOCATED AT THE FLOW LINE.
- GUTTER CROSS SLOPES MAY BE ADJUSTED TO FACILITATE DRAINAGE FOR PROFILE GRADES AS SHOWN ON THE PLANS.
- THICKNESS OF CURB AND GUTTER SECTION SHALL MATCH CONCRETE PAVEMENT THICKNESS IF SHOWN ON THE PLANS. CURB AND GUTTER SHALL BE CLASS P CONCRETE IF PLACED MONOLITHICALLY WITH CONCRETE PAVEMENT.
- INCREASE SIDEWALK THICKNESS TO 6 IN. AT LOCATIONS SHOWN ON THE PLANS.
- WHEN TIE BARS ARE REQUIRED, THE GUTTER THICKNESS SHALL BE INCREASED TO THE PAVEMENT THICKNESS (T). BARS SHALL BE EPOXY-COATED #4 CONFORMING TO AASHTO M 284 AND SPACED AT 3 FT. INTERVALS. THEY SHALL BE INSERTED T/2 AND 1#2 LENGTH INTO THE GUTTER.

\*GUTTER SLOPE EQUALS 1"/FT. WHEN ADJACENT TO ASPHALT PAVEMENT. GUTTER SLOPE TO MATCH ADJACENT CONCRETE SLOPE WHEN ADJACENT TO CONCRETE PAVEMENT.

CONCRETE PAVEMENT  
SECTION

NTS

ASPHALT PAVEMENT  
SECTION

NTS

CONCRETE SIDEWALK  
SECTION

NTS

PAVEMENT NOTES:

ABC: CDOT CLASS 6 AGGREGATE BASE COURSE

PAVEMENT COMPACTED SUBGRADE: THE COLLAPSING SOILS HAVE TO BE ADDRESSED BEFORE ANY PAVEMENT OR STRUCTURE IS CONSTRUCTED AT THIS SITE BY SUBEXCAVATING THE TOP 5 FEET OF THE EXISTING SOIL AND RECOMPACTING IT AT OPTIMUM OR ABOVE OPTIMUM MOISTURE CONTENT, REMOVING AND REPLACING THE EXISTING COLLAPSING SOIL AND PLACING SELECT MATERIAL AT A DEPTH SUFFICIENT TO MINIMIZE COLLAPSING OR SETTLEMENT OR IMPORTING ADDITIONAL FILL AND ALLOWING IT TO SETTLE BEFORE CONSTRUCTION.

SIDEWALK COMPACTED SUBGRADE: SUBEXCAVATION OF 12 INCHES BELOW GRADE FOR PROPOSED SIDEWALK CONSTRUCTION. NATURAL LOOSE SAND AND GRAVEL SOILS BELOW THE SUBGRADE SHALL BE REMOVED AND REPLACED AS RECOMMENDED ABOVE. GREATER DEPTHS OF MOISTURE-DENSITY CONDITIONING OF THE SUBGRADE SOILS MAY BE NEEDED LOCALLY, DEPENDING ON THE CONDITIONS EXPOSED.

PAVEMENT PROOFROLLING: THE PAVEMENT SUBGRADE SHOULD BE PROOF ROLLED WITH A HEAVILY LOADED PNEUMATIC-TIRE VEHICLE. AREAS THAT DEFORM MORE THAN 1/2-INCH UNDER HEAVY WHEEL LOADS SHOULD BE REMOVED, REPLACED IF NECESSARY, AND REWORKED TO ACHIEVE A STABLE SUBGRADE PRIOR TO PAVING. WE RECOMMEND THAT PROOF ROLLING AND COMPACTION TESTS BE OBSERVED AND DOCUMENTED BY A REPRESENTATIVE OF A REGISTERED PROFESSIONAL ENGINEER.

SIDEWALK PROOFROLLING: PRIOR TO PLACEMENT OF FILL, A PROOF ROLL SHOULD BE PERFORMED TO IDENTIFY AREAS THAT EXHIBIT INSTABILITY AND DEFLECTION. THE DELETERIOUS SOILS IN THESE AREAS SHOULD BE REMOVED AND REPLACED WITH PROPERLY COMPACTED FILL AS MENTIONED ABOVE. PROOFROLL TESTS ARE IN ADDITION TO THE REQUIREMENT TO PLACING AND COMPACTION OF SUBGRADE FILL SOILS WITHIN THE RECOMMENDED RANGES OF MOISTURE CONTENT AND RELATIVE COMPACTION PRESENTED IN THIS REPORT.

THE SIDEWALK CONSTRUCTION SHOULD CONSIST OF CONTROL JOINTS EXTENDING TO AN EFFECTIVE DEPTH IF NECESSARY AND SPACED NO MORE THAN 10 FEET APART.

SECTIONS ARE BASED ON RECOMMENDATIONS BY "FINAL REPORT GEOTECHNICAL INVESTIGATION RFTA WEST GLENWOOD SPRINGS PARK N RIDE PAVEMENT AND RETAINING WALL RECOMMENDATIONS" BY YEH AND ASSOCIATES INC., JULY 30, 2015.

CONTRACTOR TO PREPARE A JOINTING PLAN FOR ENGINEER REVIEW AND APPROVAL MINIMUM 7 DAYS PRIOR TO PLACING ANY CONCRETE PAVEMENT.

- ## NOTES
1. 8-30" (200-750 mm) GRATES/SOLID COVERS SHALL BE DUCTILE IRON PER ASTM A536 GRADE 70-50-05
  2. 12-30" (300-750 mm) FRAMES SHALL BE DUCTILE IRON PER ASTM A536 GRADE 70-50-05
  3. DRAIN BASIN TO BE CUSTOM MANUFACTURED ACCORDING TO PLAN DETAILS
  4. DRAINAGE CONNECTION STUB JOINT TIGHTNESS SHALL CONFORM TO ASTM D3212 FOR CORRUGATED HDPE (ADS & HANCOR DUAL WALL) & SDR 35 PVC

GENERAL NOTES

1. CONTRACTOR SHALL NOT WILLFULLY PROCEED WITH CONSTRUCTION AS DESIGNED WHEN IT IS OBVIOUS THAT UNKNOWN OBSTRUCTIONS, AREA DISCREPANCIES AND/OR GRADE DIFFERENCES EXIST THAT MAY NOT HAVE BEEN KNOWN DURING DESIGN. SUCH CONDITIONS SHALL BE IMMEDIATELY BROUGHT TO THE ATTENTION OF THE OWNER. THE CONTRACTOR SHALL ASSUME FULL RESPONSIBILITY FOR ALL NECESSARY REVISIONS DUE TO FAILURE TO GIVE SUCH NOTIFICATIONS.

2. EXISTING UTILITY ALIGNMENTS AND GRADES SHOWN ON THE DRAWINGS ARE BASED ON A FIELD SURVEY. THE CONTRACTOR SHALL STILL BE RESPONSIBLE FOR VERIFYING AND DETERMINING EXACT LOCATIONS, DIMENSIONS, DEPTHS, AND MATERIALS AT TIME OF CONSTRUCTION. THE CONTRACTOR SHALL VERIFY THE LOCATION OF ALL EXISTING UNDERGROUND UTILITIES FAR ENOUGH IN ADVANCE OF NEW CONSTRUCTION TO ALLOW FOR POSSIBLE GRADE, DEPTH, ALIGNMENT, OR MATERIAL CHANGES. THE CONTRACTOR SHALL PROTECT EXISTING UTILITIES DURING ALL DEMOLITION AND CONSTRUCTION OPERATIONS. CONTRACTOR SHALL TAKE SOLE RESPONSIBILITY FOR COSTS INCURRED DUE TO DAMAGE AND REPLACEMENT OF SAID UTILITIES.

3. CONTRACTOR SHALL BE RESPONSIBLE FOR ANY COORDINATION WITH SUBCONTRACTORS AS REQUIRED TO ACCOMPLISH ALL CONSTRUCTION OPERATIONS. ALL PIPING, CONDUIT, SLEEVES, ETC., SHALL BE SET IN PLACE PRIOR TO INSTALLATION OF CONSTRUCTION ITEMS.

4. ALL EXISTING IMPROVEMENTS TO REMAIN SHALL BE PROPERLY AND ADEQUATELY PROTECTED FROM DAMAGE DURING CONSTRUCTION AND DEMOLITION OPERATIONS. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO RESTORE TO THE ORIGINAL CONDITION ANY EXISTING ITEMS THAT ARE DAMAGED OR DISTURBED IN ANY WAY. ALL MATERIALS TO BE REUSED OR SALVAGED SHALL BE STORED IN AN AREA DESIGNATED BY THE OWNER FOR THAT PURPOSE. ALL SALVAGED MATERIALS SHALL REMAIN THE PROPERTY OF THE OWNER.
5. ALL MATERIALS SPECIFIED TO BE REMOVED SHALL BE DISPOSED OF OFF-SITE PER LOCAL CODES AND REGULATIONS.

6. THE CONTRACTOR SHALL BE RESPONSIBLE FOR OBTAINING ALL PERMITS TO SATISFY ALL PERTINENT LOCAL AND REGIONAL CODES AND REGULATIONS PRIOR TO THE START OF WORK.

7. THE CONTRACTOR SHALL OBTAIN A TRAFFIC CONTROL PERMIT FROM THE CITY PRIOR TO COMMENCING WORK WITHIN.

8. REFER TO SOILS REPORTS FOR FOOTING, FOUNDATION, AND COMPACTION RECOMMENDATIONS.

9. PRESERVE AND PROTECT ALL EXISTING TREES ON SITE, UNLESS NOTED AS A REMOVAL.

10. ALL DEMOLITION MUST BE COORDINATED WITH THE OWNER, THE CIVIL ENGINEER, AND BE FIELD VERIFIED.

P:\Carbondale\BETA Glenwood HQ - 230198\_CD\CAD\Sheets\0-23019-PLANTING\_TRANSIT.dwg 9/17/2024 3:00 PM

PLANTING NOTES

1.

CONTRACTOR TO CONTACT THE UTILITY NOTIFICATION CENTER OF COLORADO BEFORE DIGGING, INCLUDING BUT NOT LIMITED TO, TRENCHING AND SHRUB AND TREE PLANTING PITS. IF UTILITIES OCCUR AT LOCATIONS OF PROPOSED SHRUBS, OR WITHIN EIGHT (8) FEET OF PROPOSED TREES, THE CONTRACTOR SHALL REPORT SUCH CONDITIONS TO THE OWNER'S REPRESENTATIVE. DAMAGE TO EXISTING UTILITIES BY THE LANDSCAPE CONTRACTOR IS THE RESPONSIBILITY OF THE LANDSCAPE CONTRACTOR.
2.

THE LANDSCAPE PLAN AND DETAILS ARE TO BE USED IN CONJUNCTION WITH THE CIVIL AND ARCHITECTURAL PLANS TO FORM COMPLETE INFORMATION REGARDING SITE WORK. CONTRACTOR SHALL BE RESPONSIBLE FOR ANY COORDINATION WITH SUBCONTRACTORS AS REQUIRED TO ACCOMPLISH ALL CONSTRUCTION OPERATIONS. ALL PIPING, CONDUIT, SLEEVES, ETC., SHALL BE SET IN PLACE PRIOR TO INSTALLATION OF CONSTRUCTION ITEMS.
3.

ALL EXISTING IMPROVEMENTS TO REMAIN, INCLUDING BUT NOT LIMITED TO UTILITIES, CURB AND GUTTER, WALKWAYS, EXISTING IRRIGATION , AND EXISTING STRUCTURES, SHALL BE PROPERLY AND ADEQUATELY PROTECTED FROM DAMAGE DURING CONSTRUCTION OPERATIONS. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO RESTORE TO THE ORIGINAL CONDITION ANY EXISTING ITEMS THAT ARE DAMAGED OR DISTURBED IN ANY WAY, AND AT NO ADDITIONAL COST TO THE OWNER.
4.

TO THE MAXIMUM EXTENT POSSIBLE, TOPSOIL THAT IS REMOVED DURING CONSTRUCTION ACTIVITY SHALL BE STOCKPILED ON-SITE FOR LATER USE ON AREAS REQUIRING REVEGETATION AND LANDSCAPING.
6.

DURING ROUGH CLEARING AND GRUBBING, AND ESTABLISHMENT OF ROUGH GRADE, EARTHMOVING CONTRACTOR TO REMOVE ROOTS, STUMPS, LARGE BOULDERS, ORGANIC MATERIAL, AND OTHER DELETERIOUS MATERIAL PER THE CIVIL REQUIREMENTS FOR MASS EXCAVATION AND ROUGH GRADING.
7.

PRIOR TO PLACING OF TOPSOIL OR SOIL AMENDMENTS, CONTRACTOR TO REMOVE SURFACE STONES AND PREPARE SUBGRADE AS FOLLOWS:

a.

NATIVE SEED AREAS: BOULDERS AND ROCKS RETAINED BY A 4" SCREEN

b.

IN-GROUND PLANTING BED AREAS: SCARIFY NATIVE SOIL TO A DEPTH OF 18" BELOW FINISHED GRADE; REMOVE STONES LARGER THAN 6" (IN ANY DIMENSION); ADDITIONALLY REMOVE A VOLUME OF NATIVE SOIL SUFFICIENT TO ALLOW FOR ADDITION OF COMPOST AMENDMENT AS DESCRIBED BELOW. REMOVE ROCKS LARGER THAN 1" FROM THE TOP 6" OF NATIVE SOIL PRIOR TO AMENDING WITH COMPOST.

c.

ALL PLANTED AREAS IMPACTED BY UTILITY INSTALLATION, PAVING SUBGRADE, OR VEHICLE TRACKING: REMOVE GRAVELS AND SCARIFY SOILS TO CREATE A PLANTING LENS OF SOIL NO LESS THAN 6". SCARIFICATION AND PLANTING SOIL MAY BE DEEPER FOR SPECIFIC AREAS AS IDENTIFIED ON THE LANDSCAPE PLANS.

d.

TREE PLANTING TRENCH AT STRUCTURAL SOILS: EXCAVATE AND REMOVE NATIVE SOILS TO THE DEPTHS INDICATED IN THE PLANS AND DETAILS TO ALLOW FOR THE SPECIFIED VOLUMES OF STRUCTURAL SOIL AND PLANTING SOIL.

d.

IN NO CIRCUMSTANCE SHALL CONTRACTOR EXCAVATE SUBSOILS IN A MANNER THAT WILL UNDERMINE STRUCTURAL SUBGRADE, FOOTINGS, PAVING, UTILITIES, OR VIOLATE SPECIFICATIONS FOR RETAINING WALLS OR THE RECOMMENDATIONS OF THE GEOTECHNICAL SOILS STUDY.
8.

CONTRACTOR SHALL FOLLOW THE LANDSCAPE PLAN. ANY DISCREPANCIES BETWEEN THE PLAN AND FIELD CONDITIONS SHALL BE REPORTED TO THE OWNER'S AUTHORIZED REPRESENTATIVE BEFORE PROCEEDING WITH WORK.
9.

CONTRACTOR SHALL USE LOCAL BEST MANAGEMENT PRACTICES FOR OBTAINING AND INSTALLING LANDSCAPE MATERIALS. COMPLETE THE WORK USING SKILLED PERSONNEL, PROFICIENT IN THE TRADES REQUIRED & IN A NEAT , ORDERLY AND RESPONSIBLE MANNER & WITH RECOGNIZED STANDARDS OF WORKMANSHIP.
10.

ALL PLANTS TO BE APPROVED BY OWNER'S REPRESENTATIVE PRIOR TO INSTALLATION. NOTIFY OWNER FOR INSPECTION AND APPROVAL OF PLANT MATERIAL AT TIME OF DELIVERY. TREES ARE TO BE TAGGED AT THE NURSERY BY OWNER'S REPRESENTATIVE. ANY PLANT NOT MEETING OWNER'S APPROVAL MAY BE REJECTED AT ANY TIME PRIOR TO FINAL ACCEPTANCE.
11.

PLANT MATERIAL MUST MEET CURRENT LANDSCAPE NURSERY STANDARDS &/OR ANSI Z60.1.
12.

IF PLANTS ARE NOT AVAILABLE, NOTIFY OWNER FOR APPROVAL OF CHANGE BEFORE MAKING SUBSTITUTIONS, INCLUDING SUB-SPECIES OR VARIETIES OF SPECIFIED PLANT.
13.

THE OWNER'S AUTHORIZED REPRESENTATIVE MUST APPROVE ALL PLANTING LAYOUTS PRIOR TO PLANTING. ALL ADJUSTMENTS SHALL BE MADE BY THE CONTRACTOR PRIOR TO INSTALLING PLANTS. THE CONTRACTOR SHALL NOT DIG PLANT PITS UNTIL LOCATIONS ARE APPROVED.
14.

MINOR FIELD ADJUSTMENTS TO THE PLANTING PLANS MAY BE NECESSARY BASED ON THE ACTUAL LOCATION OF LIGHTS, TRANSFORMERS, GROUND-MOUNTED CABINETS, UTILITY PEDESTALS, AND SIMILAR FEATURES. CONTRACTOR MUST OBTAIN APPROVAL FROM THE OWNER PRIOR TO ADJUSTING THE DESIGN.
15.

IF THERE IS A DISCREPANCY BETWEEN THE PLANT COUNTS ON THE CALL-OUTS ON THE PLANS & THE ACTUAL NUMBER OF PLANT SYMBOLS DEPICTED ON THE PLANS, THE CONTRACTOR IS RESPONSIBLE FOR INSTALLING THE ACTUAL NUMBER OF PLANTS AS SYMBOLICALLY DEPICTED ON THE PLANS.
16.

ALL SHRUB BEDS AND SOD AREAS, IF ANY, SHALL BE CONTAINED BY A STEEL EDGER, OR A CONCRETE CURB, WALK, OR OTHER SHRUB BED DEFINING ELEMENT - AS PER PLANS AND SPECIFICATIONS.
17.

SOD AREAS SHALL RECEIVE A MINIMUM OF 5 CU. YDS PER 1000 S.F. OF A-1 ORGANIC'S BIOCOMP, OR A WELL DECOMPOSED COMPOST APPROVED BY THE OWNER'S AUTHORIZED REPRESENTATIVE. SHRUB BEDS SHALL RECEIVE A MINIMUM OF 4 CU. YDS. PER 1000 S.F. OF ONE OF THE ABOVE MATERIALS. ALL AMENDMENTS SHALL BE THOROUGHLY TILLED A MIN. OF 6" INTO THE SOIL.
18.

SEEDED AREAS ARE TO RECEIVE AN AMENDMENT OF TRITON RICHLAWN OR APPROVED EQUAL. SOIL AMENDMENTS ARE TO BE APPLIED AT MANUFACTURER'S RECOMMENDED RATES AND IN THE SEQUENCE IDENTIFIED IN THESE NOTES.
19.

IN-GROUND SHRUB BEDS ARE TO RECEIVE A MINIMUM OF 4 CUBIC YARDS OF COMPOST PER 1,000 SQUARE FEET OF BED AREA, TILLED INTO THE TOP 6" OF NATIVE SOILS FOLLOWING SUBSOIL PREPARATION AS IDENTIFIED ABOVE.
20.

PLANTING BEDS, SHRUB PITS, TREE PITS ARE TO BE EXCAVATED PER THE PLANTING DETAILS. PLANTING PIT BACKFILL (AKA PLANTER MIX, AKA PLANTING SOIL) IS TO BE: 1 PART COMPOST TO 3 PARTS TOPSOIL PROVIDED BY A LOCAL TOPSOIL PROCESSING FACILITY. CONTRACTOR TO PROVIDE NUTRIENT ANALYSIS FOR PLANTING PIT BACKFILL FOR APPROVAL.
21.

ALL LANDSCAPE AREAS WILL BE IRRIGATED WITH A FULLY AUTOMATIC UNDERGROUND IRRIGATION SYSTEM.
22.

IRRIGATION SLEEVING SHALL BE INSTALLED PRIOR TO INSTALLING CONCRETE FLATWORK
23.

MULCH - ALL PLANTING BEDS SHALL BE COVERED BY SOIL PEP MULCH (OR ACCEPTED SUBSTITUTION) AS APPROVED BY OWNER. ALSO REFER TO SPECIFICATIONS AND DETAILS.

23.1.

ALL SHRUB BEDS SHALL RECEIVE A MINIMUM OF 4" OF MULCH

23.1.1.

EXCEPT GROUNDCOVERS SHALL RECEIVE 3" OF MULCH.

23.1.2.

DO NOT BURY PERENNIALS OR ORNAMENTAL GRASSES WITH MULCH.

23.1.3.

MULCH RINGS AROUND SHRUBS IN NATIVE AREAS SHALL BE A MINIMUM OF 2'.

23.1.4.

MULCH RINGS AT TREES SHALL BE 4" DEEP IN NON-TURF AREAS & 2" DEEP IN TURF AREAS.

23.1.1.

PULL MULCH BACK 4-6" FROM TRUNK OF TREES AS PER DETAILS.

23.1.2.

DO NOT PROVIDE A WATER BASIN FOR TREES IN LAWN AREAS
24.

SPACING / LAYOUT

24.1.

TREES TO BE CENTERED IN LANDSCAPE STRIPS OR TREE LAWNS UNLESS OTHERWISE NOTED. ALL OTHER TREES TO BE A MINIMUM OF 6' FROM HARDSCAPE.

24.2.

TREES TO BE A MINIMUM OF 8' FROM CENTER LINE OF UNDERGROUND UTILITIES SUCH AS STORM SEWERS, WATER MAINS, ETC.

24.3.

ALL EVERGREEN TREES SHALL BE A MINIMUM OF 12' FROM TRAILS, OR WALKS. EDGING SHALL BE MINIMUM OF 8' FROM EVERGREEN TREES.

24.4.

LARGE SHRUBS (THOSE OVER 6' SPACING AS SHOWN IN THE PLANT SCHEDULE) SHALL BE PLANTED A MINIMUM OF 5' FROM EDGER OR WALKS.

24.5.

SMALLER SHRUBS (THOSE LESS THAN 6' SPACING AS SHOWN IN THE PLANT SCHEDULE) SHALL BE PLANTED A MINIMUM OF 3' FROM EDGER OR WALKS.
25.

ALL LANDSCAPE EDGING SHALL BE INSTALLED CAREFULLY SO AS TO NOT IMPACT THE ROOTS OF EXISTING TREES.

SEEDING NOTES:

BROADCAST SEEDING

1.

SITE PREPARATION

1.1.

PREPARE AND PLAN - LIMIT SITE PREPARATION TO THOSE AREAS THAT WILL BE PLANTED WITHIN 24-48 HOURS AND WILL NOT BE ADVERSELY EFFECTED BY PREDICTED WEATHER PATTERNS. SEED IMMEDIATELY AFTER PREPARATION OF SOILS BETWEEN THE APPROVED SEEDING TIMES.

1.2.

SEED DURING OPTIMAL GERMINATION TIMES - SEEDING EFFORTS SHOULD OCCUR WHEN SOIL MOISTURE AND TEMPERATURE ARE OPTIMUM FOR GERMINATION:

1.3.

SPRING – APPLY SEED FOLLOWING THE SPRING SNOW MELT FROM LATE APRIL TO THE BEGINNING OF MAY.

1.4.

LATE FALL – DORMANT SEEDING PRIOR TO THE FIRST PERENNIAL SNOW FALL, FROM MID-OCTOBER TO EARLY NOVEMBER.

1.5.

REMOVE DEBRIS AND VEGETATION - STONES LARGER THAN 5-INCHES IN SIZE, TRASH, DEBRIS, TWIGS, STEMS, ROOT MAT, AND OTHER MATTER DETRIMENTAL TO VEGETATION GROWTH SHALL BE REMOVED

1.6.

LOOSEN AND TEXTURIZE TOPSOIL - THE SITE SHOULD BE PREPARED BY LOOSENING THE TOPSOIL TO A MINIMUM DEPTH OF TWO (2) INCHES, THE SOIL SHOULD BE TEXTURIZED PARALLEL TO THE CONTOUR OF THE PLANTING BED TO CREATE A ROUGHENED SURFACE. THIS CAN BE ACCOMPLISHED BY DISKING, CHAIN DRAGGING, TRACKED IMPLEMENTS OR USE OF HAND RAKES. FOR SMALLER, PATCHWORK AREAS THAT ARE TO BE BROADCAST SEEDED, HAND RAKES ARE RECOMMENDED. IT IS CRITICAL THAT THE SEEDBED BE LOOSENEED TO A POINT THAT THERE ARE SPACES FOR SEED TO FILTER INTO CRACKS AND CREVICES AND DOES NOT JUST SIT ON THE SURFACE OF THE SOIL.
2.

SEED INSTALLATON

2.1.

USE SEED THAT IS IN GOOD CONDITION - DO NOT USE WET SEED OR SEED THAT IS MOLDY OR OTHERWISE DAMAGED IN TRANSIT OR STORAGE. DELIVER SEED TO JOB SITE IN THE ORIGINAL UNOPENED CONTAINERS.

2.2.

SEED DURING OPTIMAL CONDITIONS - SEEDING OPERATIONS SHOULD BE PERFORMED ONLY DURING PERIODS WHEN BENEFICIAL RESULTS CAN BE OBTAINED. DO NOT SEED DURING HIGH WINDS OR WHEN THE GROUND IS FROZEN OR OTHERWISE UNABLE TO BE WORKED. AVOID SEEDING DURING TIMES OF DROUGHT OR EXCESSIVE MOISTURE EVENTS.

2.3.

CHECK THE SEEDING RATE - BROADCAST SEEDING RATES SHOULD BE DOUBLE THE SEEDING RATE FOR DRILL SEEDING.

2.4.

EVENLY APPLY SEED – SOW SEED IN AN EVEN AND MEASURED WAY SO THAT APPLICATION ACROSS THE SITE IS UNIFORM AND EVEN.

2.5.

APPLY TWICE - THE SEEDING SHALL BE DONE IN TWO (2) SEPARATE APPLICATIONS CROSSING THE AREA AT RIGHT ANGLES TO ONE ANOTHER TO GUARANTEE EVEN COVERAGE.

2.6.

RAKE - BROADCAST SEEDING SHALL BE RAKED INTO THE SOIL TO A DEPTH OF APPROXIMATELY ONE-QUARTER INCH (1/4") TO ONE-HALF INCH (1/2").
3.

MULCHING

3.1.

ONLY SEED AS MUCH AS YOU CAN MULCH – DO NOT SEED MORE IN ONE DAY THAN YOU CAN MULCH IN THAT SAME DAY. SEEDED AREAS SHOULD NOT BE LEFT EXPOSED OVERNIGHT.

3.2.

APPLY MULCH AND TACKIFIER - CERTIFIED WEED FREE STRAW AND TACKIFIER TO BE APPLIED IMMEDIATELY FOLLOWING SEEDING APPLICATION. ALTERNATIVELY, HYDROSTRAW (800) 545-1755 MAY BE APPLIED AT A RATE OF 2,500 LBS/ACRE. HYDROSTRAW MAY NOT BE SPREAD IN A SINGLE APPLICATION.

3.3.

INSTALL CERTIFIED WEED FREE STRAW COMPLETELY AND THOROUGHLY OVER ALL SEEDING AREAS IMMEDIATELY AFTER SEEDING. ADEQUATE MULCH DEPTH IS ACHIEVED WHEN STRAW MULCH COVERS SEEDING AREA WITHOUT MAJOR GAPS.

3.4.

APPLY TACKIFIER ON TOP OF WEED FREE STRAW MULCH IMMEDIATELY AFTER INSTALLING CERTIFIED WEED FREE MULCH. TACKIFIER SHOULD COMPLETELY COVER MULCH. USE APPROVED SPRAYING MACHINES.

3.5.

USE OF ORGANIC TACKIFIER: PLANTAGO OR GUAR BASE TACKIFIER APPLIED AT (150 LB/ACRE). STRICTLY COMPLY WITH EQUIPMENT MANUFACTURER'S INSTALLATION INSTRUCTIONS AND RECOMMENDATIONS.

3.6.

SPREAD UNIFORMLY AT A MINIMUM RATE OF 2 TONS PER ACRE (45 KG PER 100 SQ. M) TO FORM A CONTINUOUS BLANKET 1- ½-INCHES LOOSE DEPTH OVER SEEDED AREAS. SPREAD BY HAND, BLOWER OR OTHER SUITABLE EQUIPMENT.

3.7.

WATCH OUT FOR EROSION - PROTECT SEEDED SLOPES EXCEEDING 3:1 AGAINST EROSION WITH EROSION-CONTROL BLANKETS INSTALLED ON TOP OF SEED, MUCH AND TACKIFIER, AND STAPLED ACCORDING TO MANUFACTURER'S RECOMMENDATIONS.

3.8.

PROTECTION OF SEEDED AREAS - PROVIDE BARRIERS AS REQUIRED TO PREVENT PEDESTRIAN TRAFFIC OVER NEWLY SEEDED AREAS UNTIL COMPLETION AND ESTABLISHMENT OF DESIRED VEGETATION.

NATIVE SEED MAINTENANCE

1.

ESTABLISHMENT GOALS: TYPICALLY, SUCCESSFULLY ESTABLISHING NATIVE SEED REQUIRES MULTIPLE YEARS OF REGULAR MAINTENANCE. MAINTENANCE INCLUDES MECHANICAL AND CHEMICAL REMOVALS OF WEEDS, MANAGING FOR DISTURBANCE, AND IRRIGATION. ESTABLISHMENT TIMELINE BELOW. UNTIL NATIVE SEED IS ESTABLISHED, IT REQUIRES MAINTENANCE. ONCE IT IS ESTABLISHED, IT WILL REQUIRE MINIMAL MAINTENANCE.

1.1.

ESTABLISHMENT TIMELINE:

1 YEAR: 50% TOTAL VEGETATION COVER, WITH 80% NATIVE AND 20% NOXIOUS VEGETATION COVER.

2 YEAR: 70% TOTAL VEGETATION COVER, WITH 90% NATIVE AND 10% NOXIOUS VEGETATION COVER.

5 YEAR: 85% TOTAL VEGETATION COVER, WITH 90% NATIVE AND 10% NOXIOUS VEGETATION COVER.

10 YEAR: 85% TOTAL VEGETATION COVER, WITH 95% NATIVE AND 5% NOXIOUS VEGETATION COVER.

1.2.

ESTIMATES FOR SUCCESS BASED UPON PERCENT COVER.

1.3.

ANY AREA GREATER THAN 500 SQ. FT THAT HAS LESS THAN DESIRED TOTAL VEGETATION COVERAGE, WILL NEED TO BE RESEEDED. IF NOXIOUS VEGETATION EXCEEDS DESIRED PERCENTAGE, INCREASE/ALTER MANAGEMENT EFFORTS
2.

IN WILDFLOWER AREAS, ADDITIONAL WILDFLOWERS CAN BE ADDED THROUGH INNER SEEDING TO ACHIEVE THE DESIRED EFFECT. MOW DOWN ESTABLISHED NATIVE SEED PRIOR TO INNER SEEDING.
3.

ONCE THE LANDSCAPE DESIGN IS FINALIZED, DHM WILL PUT TOGETHER AN ADAPTIVE MANAGEMENT PLAN. THIS WILL INCLUDE HOW TO CONTROL FOR VARIOUS SPECIES OF NOXIOUS VEGETATION TYPICAL TO PITKIN COUNTY.

STRUCTURAL SOILS CHART

| TREE SIZE                             | CROWN PROJECTION (SQ. FT.)           | AVAILABLE WATER 8% (CU-Soil)                                                                   | AVAILABLE WATER 15% (LOAM)    |
|---------------------------------------|--------------------------------------|------------------------------------------------------------------------------------------------|-------------------------------|
| SMALL-MEDIUM TREE, CROWN DIAMETER 20' | 314 square feet under dripline       | 440 cubic feet (16.3 cu. yards) CU-Soil with 100 cubic feet (3.5 yds) loam in tree pit opening | 330 cubic feet (12 cu. yards) |
| MEDIUM-LARGE TREE, CROWN DIAMETER 30' | 706.5 square feet under the dripline | 1225 cubic feet (45 cu. yards) CU-Soil with 100 cubic feet (3.5 yds) loam in tree pit opening  | 753 cubic feet (28 cu. yards) |

HYDROZONE NOTES

- THIS PLAN IS FOR IRRIGATION DESIGN PURPOSES ONLY. IRRIGATION DESIGNER SHALL SUBMIT AN IRRIGATION DESIGN TO LANDSCAPE ARCHITECT FOR REVIEW AND APPROVAL PRIOR TO INSTALLATION.
- SOURCE OF WATER: TBD. GLENWOOD MEADOWS RAW WATER SYSTEM PREFERRED SOURCE.
- FOR DESIGN PURPOSES, ASSUME STATIC PRESSURE OF 75 PSI. MAXIMUM FLOW PER ZONE IS 25 GPM.
- ALL VALVES SHALL BE SCRUBBER-TYPE SUITABLE FOR USE WITH RAW/DIRTY WATER SYSTEMS.
- MAINLINE SHALL BE SCHEDULE 40 PVC.
- SLEEVING IS REQUIRED FOR MAINLINE AND ALL LATERALS LOCATED UNDER HARDSCAPE, SEE PLAN FOR LOCATIONS. (1) 3" PVC PIPE FOR IRRIGATION SLEEVING AND (1) 1 1/2" PVC PIPE FOR ELECTRICAL SLEEVING SHALL BE PROVIDED IN EACH LOCATION.
- THE HYDROZONES INDICATED MAY BE SEPARATED INTO ADDITIONAL ZONES, BUT NO ZONES SHALL BE JOINED TOGETHER.
- PLANTING BEDS SHALL BE SPRAY IRRIGATED WITH POP-UPS WHERE FEASIBLE; FOR SMALL AREAS OR AREAS WITH RESTRICTIVE GEOMETRY, DRIP CAN BE USED. DO NOT COMBINE DRIP AND SPRAY IRRIGATION ON THE SAME VALVE.
- ALL TREES OUTSIDE PLANTING BEDS SHALL BE DRIP/BUBBLER IRRIGATED.
- REVEGETATION AREAS SHALL BE TEMPORARILY IRRIGATED WITH ROTOR SPRAY. TEMPORARY IRRIGATION SHALL BE BURIED AS TYPICAL, BUT ABANDONED UPON ESTABLISHMENT OF LIVE COVER.
- DO NOT COMBINE DIFFERENT IRRIGATION TYPES ON ONE ZONE.
- NOTIFY LANDSCAPE ARCHITECT OF ANY DISCREPANCIES BETWEEN PLANS AND/OR BID AND CONSTRUCTION DOCUMENTS

STRUCTURAL TOPSOIL MIX & PROCEDURE

- 1) SUBMITTALS NEEDED:
- SOIL ANALYSIS TOPSOIL/ OVERBURDEN AND COMPOST MIX. SOME PROJECTS HAVE SUCCESSFULLY USED THE OVERBURDEN SEAN MELLOW HAS AT THE PIT AND CACALOCO MATERIAL FOR THE COMPOST.
  - PARTICLE SIZE DISTRIBUTION FOR 1.5" SCREENED ROCK
- 2) WHEN WE RECEIVE AND APPROVE THE SUBMITTALS OUTLINED ABOVE, WE WILL MEET ON SITE TO MIX A TRIAL RUN OF THE STRUCTURAL TOPSOIL. PLEASE PROVIDE SOPRIS ENGINEERING AT LEAST A WEEK NOTICE TO SCHEDULE TRIAL RUN. WE WILL NEED YOUR MATERIALS TESTER ON HAND TO COLLECT A SAMPLE OF WHAT WE MIX.

STEPS TO BUILD:

PRELIMINARY RATIOS:

- 1 BUCKET POND TAILINGS/OVERBURDEN
  - 3 BUCKETS COMPOST
  - 4 BUCKETS 1.5" ROCK
- a) WASH 1.5" SCREENED ROCK
- b) MIX COMPONENTS IN DOG DISH WITH WATER UNTIL ENTIRE MIX IS WET.
- c) MATERIALS TESTER WILL COLLECT A SAMPLE AND PROVIDE US WITH A TOPSOIL GRADATION AND HYDROMETER TEST ON THE MIXED MATERIAL.

WHEN WE RECEIVE THE TEST RESULTS WE WILL DETERMINE IF WE NEED TO ADJUST THE MIX AND RE-TEST. WHEN WE HAVE A SUCCESSFUL MIX WE WILL FOLLOW THE STEPS BELOW TO BUILD AN INSTALL.

1. WASH 1.5" ROCK
2. MIX COMPONENTS IN DOG DISH WITH WATER UNTIL ENTIRE MIX IS WET
3. TRANSPORT MATERIAL IN LOADER
4. PLACE GENTLY IN TRENCH WITH LOADER
5. SPREAD AS NECESSARY WITH MINI
6. 12" LIFTS
7. ONE PASS FORWARD AND BACK WITH WALK BEHIND

|                                                                                                                                                                                                                                                                                          |  | <div></div>     |            |          |       |                                                                                                                               |  |                        |  |                 |           |  |                          |                  |  |

NOTE: MULCH SHOULD BE 4" DEEP IN NON-TURF AREAS, MULCH SHOULD BE 2" DEEP IN TURF AREAS.

## 1 DECIDUOUS TREE PLANTING

NOT TO SCALE

- NOTES:
- PULL MULCH BACK 2" TO 3" FROM TRUNK OF TREE
  - INSTALL SPECIFIED MULCH TO DRIP LINE OF TREE WHERE PLANTED IN LAWN AREAS. MULCH TO BE 2" DEEP IN LAWN AREAS.
  - DO NOT PROVIDE WATER BASIN IN IRRIGATED LAWN AREAS.

## 2 EVERGREEN TREE PLANTING

NOT TO SCALE

- NOTES:
- ANY BROKEN OR CRUMBLING ROOTBALLS WILL BE REJECTED.
  - REMOVING THE CONTAINERS WILL NOT BE AN EXCUSE FOR DAMAGED ROOTBALLS.
  - HOLD GRADE 1" BELOW EDGE OF WALK OR CURB

## 4 SHRUB PLANTING

NOT TO SCALE

- NOTES:
- REFER TO VARIOUS SPECIFIC TREE INSTALLATION DETAILS FOR STAKING, GUYING, MULCHING, ETC.
  - THIS INSTALLATION SHALL APPLY TO ALL TREE TYPES AND SIZES PLANTED ON SLOPES LESS THAN 2:1.

## 5 TREE PLANTING ON SLOPE

NOT TO SCALE

- NOTES:
- SET ALL EDGING 1" ABOVE FINISH GRADE AS SHOWN.
  - EDGING SHALL ABUT ALL CONCRETE CURBS AND WALKS PERPENDICULAR, AND FLUSH W/ GRADES OF CONCRETE.
  - ALL JOINTS TO BE SECURELY STAKED.

## 7 STEEL EDGER

NOT TO SCALE

- NOTES:
- ALL WORK TO BE DONE AT TIME OF PLANTING
  - PEEL BACK ONLY TOP OF BURLAP REQUIRED TO PERFORM WORK. REPLACE BURLAP BEFORE MOVING TREE INTO PLANTING PIT. DO NOT REMOVE WIRE BASKET UNTIL INSIDE PLANTING PIT.
  - MEASURE NEW HEIGHT OF ROOTBALL AND DIG PLANTING PIT SO FINAL TOP ROOTBALL GRADE IS 3" ABOVE FINAL GRADE SURROUNDING BALL.

## 3 FINAL TOP ROOTBALL GRADE

NOT TO SCALE

| PLANT SPACING | A   | B   | C   | D   |
|---------------|-----|-----|-----|-----|
| 6"            | 6"  | 6"  | 5"  | 6"  |
| 8"            | 8"  | 6"  | 7"  | 8"  |
| 12"           | 12" | 8"  | 10" | 12" |
| 18"           | 18" | 9"  | 15" | 18" |
| 24"           | 24" | 18" | 21" | 24" |
| 30"           | 30" | 15" | 26" | 30" |
| 36"           | 36" | 30" | 31" | 36" |
| 48"           | 48" | 30" | 42" | 48" |
| 60"           | 60" | 36" | 52" | 60" |

NOTE: ALIGN FRONT ROW PARALLEL TO BED LINE

## 8 SHRUB / FLOWERS / GROUNDCOVERS

TRIANGULAR SPACING NOT TO SCALE

|                                                                                                                                                                                                     |                 |          |          |       |                                       |  |               |               |                   |                   |                  |

IRRIGATION CONSTRUCTION NOTES

1.

DRAWINGS AND BASE INFORMATION - ALL BASE AND PLANTING INFORMATION HAVE BEEN PROVIDED BY DHM DESIGN. THE CONTRACTOR IS RESPONSIBLE TO NOTIFY HYDROSYSTEMS\*KDI OF ANY DISCREPANCIES BETWEEN THE UTILITY OR PLANTING PLANS AND THE IRRIGATION PLAN. IF CONTRACTOR FAILS TO NOTIFY HYDROSYSTEMS\*KDI AND MAKES CHANGES TO THE IRRIGATION SYSTEM DESIGN, THEY ASSUME ALL COSTS AND LIABILITIES ASSOCIATED WITH THOSE FIELD CHANGES. REFER TO SPECIFICATIONS FOR ADDITIONAL PROJECT REQUIREMENTS. CONTACT IRRIGATION CONSULTANT FOR CURRENT SPECIFICATIONS IF NOT PROVIDED.
2.

SYSTEM PRESSURE - HYDROSYSTEMS\*KDI HAS CONTACTED THE LOCAL WATER DISTRICT THAT SERVES THIS SITE AND THEY HAVE BEEN TOLD THAT THE STATIC WATER PRESSURE IN THIS AREA SHOULD BE 70-74 PSI. THE CONTRACTOR IS RESPONSIBLE TO FIELD VERIFY PRESSURE PRIOR TO COMMENCING ANY CONSTRUCTION AND NOTIFY HYDROSYSTEMS\*KDI OF ANY VARIANCE FROM THE STATED PRESSURE IMMEDIATELY. WRITTEN DOCUMENTATION OF PRESSURE TEST AND RESULTS SHALL BE PROVIDED TO HYDROSYSTEMS\*KDI AT CONSTRUCTION ONSET. IF CONTRACTOR FAILS TO FIELD VERIFY PRESSURE AND/OR NOTIFY HYDROSYSTEMS\*KDI OR ANY VARIATIONS FROM THIS PRESSURE, THEN THEY ASSUME ALL CONSTRUCTION AND ENGINEERING COSTS ASSOCIATED WITH SYSTEM MODIFICATIONS REQUIRED TO ACCOMMODATE ACTUAL SITE PRESSURE. THIS SYSTEM HAS BEEN DESIGNED FOR A REQUIRED STATIC PRESSURE OF 70-74 PSI MINIMUM (AS NOTED AT EACH LOCATION).
3.

IRRIGATION SYSTEM OPERATION INTENT - THIS IRRIGATION SYSTEM HAS BEEN DESIGNED TO IRRIGATE THE ESTABLISHED LANDSCAPE WITHIN A SIX NIGHT PER WEEK, EIGHT HOUR PER NIGHT WATERING WINDOW. ESTABLISHMENT WATERING WILL REQUIRE UP TO TWICE AS MUCH IRRIGATION FOR A FOUR TO SIX WEEK PERIOD. THE DESIGN IS BASED ON THE FOLLOWING PROJECTED WEEKLY APPLICATION RATES AFTER ESTABLISHMENT. THESE FIGURES ARE BASED ON A 30-YEAR AVERAGE WEATHER DATA AND WILL NEED TO BE ADJUSTED DUE TO SEASONAL CHANGES AND WEATHER CONDITIONS ABOVE AND BELOW THE AVERAGE VALUES UTILIZED.

BLUEGRASS TURF1.50" PER WEEK PEAK SEASON

ORNAMENTAL PLANTINGS0.89" PER WEEK PEAK SEASON

NATIVE SEED MIXES0.74" PER WEEK PEAK SEASON (TWO SEASONS)

NOTE: IT IS THE INTENT OF THIS DESIGN THAT NATIVE AREAS WOULD ONLY BE IRRIGATED FOR ESTABLISHMENT. SYSTEM WILL REMAIN FOR USE DURING YEARS WITH LESS THAN NORMAL RAINFALL.
4.

EQUIPMENT INSTALLATION - IT IS THE INTENT OF THIS DESIGN THAT ALL IRRIGATION EQUIPMENT BE INSTALLED WITHIN PROPERTY LIMITS AND WITHIN LANDSCAPED AREAS. INSTALLATION SHALL BE COORDINATED WITH OTHER UTILITY WORK. ALL OTHER UTILITIES SHALL TAKE PRECEDENCE OVER IRRIGATION LOCATION. ANY EQUIPMENT OTHER THAN VALVE BOXES OR SLEEVEING THAT CONTAINS PIPE OR WIRES SHOWN OUTSIDE OF THESE LIMITS IS SHOWN IN THAT LOCATION FOR GRAPHICAL CLARITY ONLY. ALL VALVE BOXES SHALL BE INSTALLED A MINIMUM OF 2'-0" FROM EDGE OF ANY PAVED SURFACES UNLESS SPECIFICALLY INDICATED ON PLANS. BOXES INSTALLED IN OPEN TURF AREAS SHALL BE KEPT TO EDGES AND STAKED FOR REVIEW IF ALONG HIGH TRAFFIC AREAS. ALL VALVE BOXES SHALL BE PLACED A MINIMUM OF 3'-0" FROM THE CENTERLINE OF ANY DRAINAGE SWALE. ALL VALVE BOXES WITHIN PAVEMENT SHALL BE TIER 15 RATED BOXES FOR HEAVY DUTY. NON-DELIBERATE TRAFFIC, BOX LID COLOR SHALL MATCH ADJACENT MATERIALS, I.E. GREEN IN TURF, TAN IN WOOD MULCH, GRAY IN STONE MULCH, PURPLE FOR RECLAIMED WATER SYSTEMS (IF REQUIRED). REFER TO LANDSCAPE PLANS FOR MATERIAL COLORS AND TYPES. ALL BOXES SHALL BE INSTALLED TO BE FLUSH WITH GRADE AND IN AN ORDERLY MANNER. WHERE MORTAR PAVING LIDS ARE INSTALLED ABOVE BOXES, IRRIGATION BOX WITH LID SHALL BE LOWERED TO ACCOMMODATE PAVING LID. REFER TO LANDSCAPE FOR ADDITIONAL INFORMATION, TO BE INSTALLED PER MANUFACTURE RECOMMENDATIONS.
5.

PIPING INSTALLATION - IRRIGATION PIPING SHALL MAINTAIN A MINIMUM DISTANCE FROM BUILDING FOUNDATIONS OF 5 FEET OR AS DESCRIBED IN SOILS REPORT, WHICHEVER IS GREATER. NO SPRAY IRRIGATION SHALL OCCUR WITHIN 10 FEET OF THE FOUNDATION. NO DRIP IRRIGATION SHALL OCCUR WITHIN 5 FEET OF THE FOUNDATION UNLESS SOIL MOISTURE SENSORS ARE INSTALLED ON VALVES SERVICING THESE AREAS. ALL IRRIGATION PIPING AND EMISSION DEVICES LOCATED ON TOP OF OR WITHIN BUILDING STRUCTURE SHALL CONFORM TO WATERPROOFING CONSULTANT REQUIREMENTS. PIPE ROUTING MAY BE SHOWN WITHIN THESE DISTANCES FOR GRAPHICAL CLARITY ONLY.
6.

MANUAL DRAIN VALVES - CONTRACTOR TO INSTALL ONE MANUAL DRAIN VALVE AT ALL LOW POINTS AND DEAD ENDS OF PRESSURE SUPPLY PIPING TO ENSURE COMPLETE DRAINAGE OF SYSTEM. CONTRACTOR SHALL BE RESPONSIBLE FOR DETERMINING THESE LOCATIONS IN-FIELD AND INSTALLATION LOCATIONS SHALL BE NOTED ON AS-BUILTS.
7.

POP-UP SPRAY NOZZLES - CONTRACTOR TO INSTALL PLASTIC NOZZLES ON ALL POP-UP SPRAY HEADS. INSTALL 15 SERIES NOZZLES ON ALL HEADS SPACED AT 12' TO 14'. INSTALL 12 SERIES NOZZLES ON ALL HEADS SPACED 10' TO 11'. INSTALL 10 SERIES NOZZLES ON ALL HEADS SPACED AT 8' TO 9'. INSTALL 8 SERIES NOZZLES ON ALL HEADS SPACED AT 6' TO 7'. INSTALL 5' NOZZLES ON ALL HEADS SPACED AT 5'. INSTALL SIDE STRIP NOZZLES ON ALL HEADS WITH AN 'S' DESIGNATION AND RIGHT AND LEFT CORNER STRIP NOZZLES ON ALL HEADS WITH AN 'L' OR 'R' DESIGNATION. VARIABLE ARC NOZZLES SHOULD BE UTILIZED ADJACENT TO CURVILINEAR SHRUB BEDS OR FOR ANY ANGLES THAT ARE NOT A STANDARD NOZZLE ANGLE.
8.

UNLABELED PIPING - ALL UNLABELED LATERAL PIPING SHALL BE 1" MINIMUM UNLESS OTHERWISE NOTED.
9.

SLEEVEING - ALL SLEEVEING UNDER PAVED SURFACES SHOWN ON PLANS IS BY CONTRACTOR UNLESS OTHERWISE NOTED. SLEEVEING SHALL BE INSTALLED IN THE SIZES AND QUANTITIES SHOWN ON PLANS OR BASED ON THE SCHEDULE BELOW. WHERE SLEEVES ARE SHOWN, BUT NOT LABELED, FOLLOW THE SCHEDULE BELOW. ALL MAINLINE, CONTROL WIRES AND DRIP LINES UNDER PAVED SURFACES ARE TO BE INSTALLED IN SLEEVEING. ALL MAINLINE SLEEVE LOCATIONS TO INCLUDE A SEPARATE WIRE SLEEVE.

SLEEVED PIPE SIZE/WIRE QUANTITY

REQUIRED SLEEVE SIZE & (QUANTITY)

3/4" - 1 1/4" PIPING2" PVC (1)

1 1/2" - 2" PIPING4" PVC (1)

2 1/2" - 3" PIPING6" PVC (1)

2-WIRE CABLE2" PVC (1)

10.

2-WIRE SYSTEM NOTES - CONTRACTOR SHALL INSTALL ALL TWO-WIRE COMPONENTS PER MANUFACTURER'S RECOMMENDATIONS AND STANDARDS.

10.1. CONTRACTOR SHALL USE ONLY MANUFACTURED 2-WIRE DECODER CABLE (SEE SCHEDULE FOR SPECIFIC 2-WIRE CABLE).

10.2. ONLY USE SINGLE STATION DECODERS (SEE SCHEDULE FOR SPECIFIC MODEL).

10.3. LOOP 5' OF 2-WIRE DECODER CABLE INTO ALL VALVE BOXES (WITH DECODERS AND SPLICES) FOR MAINTENANCE.

10.4. LOOP 2' OF 2-WIRE DECODER CABLE AS AN EXPANSION LOOP AT ALL CHANGES OF DIRECTION.

10.5. USE ONLY 3M DBR-6 WATERPROOF CONNECTORS ON ALL WIRE SPLICES AND ALL WIRE SPLICES ARE TO BE MADE WITHIN A VALVE BOX WITH CONTROL VALVES OR A SEPARATE 10" ROUND VALVE BOX FOR WIRE SPLICES.

10.6. INSTALL SURGE PROTECTOR RODS OR PLATES & LF. PERPENDICULARLY FROM VALVES, DECODERS, AND COMMUNICATION WIRE. WHERE & LF IS NOT AVAILABLE, REFER TO ASIC GUIDELINES FOR PLATE LAYOUT.

10.7. GROUNDING SHALL BE IN AN IRRIGATED AREA.

10.8. GROUND ALL DECODERS AND DECODER WIRE A MINIMUM OF EVERY 600' AND AT ALL ENDS OF 2-WIRE DECODER CABLE RUN.

11.

ADJUSTMENT - CONTRACTOR SHALL FINE TUNE/ADJUST THE IRRIGATION SYSTEM TO REDUCE/AVOID OVERSPRAY ONTO HARD SURFACES BY ADJUSTING NOZZLE DIRECTION AND NOZZLE RADIUS.

12.

PLANS AND SPECIFICATIONS - CONTRACTOR RESPONSIBLE TO ENSURE WORK CONFORMS TO PLANS AND SPECIFICATIONS. AT ONSET OF CONSTRUCTION, VERIFY PLANS ARE CURRENT. DO NOT CONSTRUCT ANY PORTIONS OF THE IRRIGATION OFF OF PLANS MARKED NOT FOR CONSTRUCTION OR FOR REVIEW ONLY. FAILURE TO VERIFY CURRENT PLANS MAY RESULT IN RECONSTRUCTION AT CONTRACTOR'S EXPENSE. WHERE REQUIRED BY CITY OR TOWN, CONTRACTOR SHALL CONSTRUCT ONLY OFF CITY OR TOWN STAMPED PLANS. REVISIONS TO CITY OR TOWN STAMPED PLANS SHALL CONFORM TO CITY OR TOWN FIELD CHANGE PROCEDURES AND DOCUMENTATION.

13.

EXISTING IRRIGATION DAMAGE - CONTRACTOR SHALL REPAIR OR REPLACE ANY EXISTING IRRIGATION SYSTEMS DAMAGED DURING NEW INSTALLATION. REPAIR OR REPLACEMENT SHALL BE DETERMINED BY OWNER OR OWNER'S REPRESENTATIVE AND PAID FOR BY THE LANDSCAPE CONTRACTOR.

14.

EXISTING IRRIGATION COORDINATION - EXISTING IRRIGATION SYSTEM SHALL NOT BE TURNED OFF FOR MORE THAN 24 HOURS MAXIMUM. CONTRACTOR SHALL COORDINATE TURN OFF OF SYSTEM WITH OWNER OR MAINTENANCE STAFF 72 HOURS PRIOR TO ANY NEW CONSTRUCTION.

15.

SIMULTANEOUS ZONE OPERATION - THIS IRRIGATION SYSTEM HAS BEEN DESIGNED TO OPERATE MULTIPLE ZONES SIMULTANEOUSLY BASED ON INDIVIDUAL ZONE FLOW. THE DESIGN IS INTENDED TO OPERATE MULTIPLE VALVES, UP TO THE MAXIMUM FLOW IN THE POINT OF CONNECTION NOTE. REFER TO CONTROLLER SPECIFICATION FOR MAXIMUM SIMULTANEOUS VALVE COUNT.

16.

WATER BUDGETS AND PROJECTIONS - HYDROSYSTEMS-KDI HAS BASED THE IRRIGATION DESIGN AND THE ASSOCIATED PROJECTED WATER USE UPON SUCH FACTORS AS CITY OR WATER DISTRICT IMPOSED REQUIREMENTS, PUBLISHED PLANT SPECIES WATER NEEDS, SELECTED IRRIGATION METHOD EFFICIENCIES AS REPORTED BY INDEPENDENT TESTING FACILITIES, HISTORICAL WEATHER DATA FOR THE PROJECT LOCATION, AND PROPER MAINTENANCE PROCEDURES. HYDROSYSTEMS\*KDI IS NOT RESPONSIBLE, AND ACCEPTS NO RESPONSIBILITY, FOR THE ACTUAL WATER USAGE VARIATION THAT IS A RESULT OF FIELD MODIFICATIONS TO THE SYSTEM NOT MATCHING CONSTRUCTION DOCUMENTS, IMPROPER MAINTENANCE, WASTE DUE TO SYSTEM DAMAGE OR VANDALISM, OR WEATHER CONDITIONS THAT DEVIATE FROM PUBLISHED 30 YEAR HISTORICAL AVERAGES.

IRRIGATION DEVELOPMENT DESIGN NOTES

1.

THE IRRIGATION SYSTEM SHALL BE DESIGNED TO PROVIDE PEAK SEASON IRRIGATION WITHIN AN SIX NIGHT, SIX HOUR PER NIGHT WATERING PERIOD. IRRIGATION SHALL OCCUR BETWEEN THE HOURS OF 10:00 PM AND 4:00 AM.

2.

THE MAINLINE SYSTEM WILL BE DESIGNED SUCH THAT VELOCITIES WITHIN THE MAINLINE PIPING DO NOT EXCEED FIVE FEET PER SECOND.

3.

THE MAXIMUM FLOW RATE REQUIRED FOR THE SITE IS (TBD) GPM. THE STATIC PRESSURE AVAILABLE AT THE SITE IS (TBC) PSI

4.

THE IRRIGATION INFORMATION SHOWN ON THESE PLANS IS CONCEPTUAL.

5.

IRRIGATION DESIGN APPROACH

5.1. NATIVE AREAS

5.1.1. SMALL AREAS (25 FEET WIDE OR LESS) SHALL BE IRRIGATED WITH FIXED NOZZLE POP-UP SPRAY HEADS (12" HEIGHT) WITH MATCHED PRECIPITATION NOZZLES. NOZZLES SHALL BE SIZES TO PROVIDE HEAD TO HEAD COVERAGE.

5.1.2. LARGE TURF AREAS (WIDER THAN 25 FEET) SHALL BE IRRIGATED WITH GEAR DRIVEN ROTOR HEADS (12" HEIGHT) WITH A MINIMUM PRECIPITATION RATE OF .45" PER HOUR FOR A FULL CIRCLE HEAD.

5.2. SHRUB BED AREAS - BED AREAS WITH PLANT MATERIAL ONE GALLON IN SIZE OR LARGER SHALL BE DRIP IRRIGATED.

5.3. TREES (IN NATIVE AREAS) - SHALL BE SPRAY IRRIGATED WITH 12" POP-UP SPRAY HEADS WITH A BUBBLER NOZZLE (2 PER TREE).

6.

IRRIGATION SYSTEM SHALL BE FULLY AUTOMATIC AND INCLUDE A WEATHER SENSING DEVICE.

- NOTE:
- SET HEAD PERPENDICULAR TO FINISH GRADE.
  - APPLY TEFLON TAPE TO MALE PVC THREADED FITTINGS.
  - DOUBLE CLAMP 1/2" & 2" DIAMETER FITTINGS.

### POP-UP SPRAY HEAD

9

- NOTE:
- SET HEAD PERPENDICULAR TO FINISH GRADE SWING.
  - FLEX PIPE SHALL BE ATTACHED TO BOTTOM SPRAY HEAD INLET ONLY.
  - APPLY TEFLON TAPE TO ALL MALE PVC THREADED FITTINGS AND NIPPLES.

### HI-POP SPRAY HEAD

SWING PIPE - PVC

10

SET HEAD PERPENDICULAR TO FINISH GRADE

### GEAR DRIVEN ROTOR

11

- NOTE:
- DIAMETERS OF FITTINGS AND NIPPLES SHALL EQUAL ROTOR INLET DIAMETER.
  - SET ROTOR PERPENDICULAR TO FINISH GRADE.
  - APPLY TEFLON TAPE ALL PVC MALE THREADED FITTINGS.

### HI-POP GEAR DRIVEN ROTOR

12

- NOTE:
- SET BUBBLER(S) ON UPHILL SIDE OF ROOT BALL WHERE TREES PLANTED ON SLOPES EQUAL TO OR GREATER THAN 4:1 TO 1.
  - APPLY TEFLON TAPE TO ALL MIPT FITTINGS

### BUBBLER

13

- NOTE:
- INSTALL ASSEMBLY TO REST ON GRAVEL SUMP. CONTAIN ENTIRE ASSEMBLY WITHIN BOX. NO VALVE BOX EXTENSIONS WILL BE ACCEPTED. PROVIDE 3'-4\"/>

### DRIP VALVE

WORK INCLUDED IN THE CONTRACT IS DENOTED IN BOLD. EXISTING CONDITIONS TO REMAIN ARE DENOTED LIGHTLY.<br>2. ALL ELECTRICAL WORK PERFORMED UNDER THIS CONTRACT SHALL CONFORM WITH THE 2021 INTERNATIONAL BUILDING CODES, 2021 INTERNATIONAL ENERGY CONSERVATION CODE, 2021 INTERNATIONAL FIRE CODE AND, LOCAL BUILDING AND FIRE DEPARTMENT REQUIREMENTS AND THE 2023 NATIONAL ELECTRICAL CODE (NEC).<br>3. ELECTRICAL CONTRACTOR SHALL FULLY COORDINATE WITH OWNER REPRESENTATIVES. PERFORM WORK IN ACCORDANCE WITH REQUIREMENTS OF OWNER REPRESENTATIVES. ELECTRICAL CONTRACTOR SHALL NOTIFY THE ARCHITECT AND ENGINEER OF ANY CHANGES REQUIRED BY THE BUILDING MANAGEMENT AND TENANT REPRESENTATIVES.<br>4. THE ELECTRICAL DRAWINGS ARE DIAGRAMMATIC AND INDICATE THE GENERAL ARRANGEMENT OF ELECTRICAL WORK. LOCATIONS ARE APPROXIMATE AND SHALL BE SUBJECT TO MINOR MODIFICATIONS AS DIRECTED BY THE GENERAL CONTRACTOR AND OWNER REPRESENTATIVES. ELECTRICAL CONTRACTOR SHALL BE RESPONSIBLE FOR THE EXACT FITTING OF ALL MATERIALS, EQUIPMENT, ETC., IN THE BUILDING AND TENANT SPACE. ALL DIMENSIONS SHALL BE VERIFIED ON THE JOB. ELECTRICAL CONTRACTOR SHALL CUT, CHANNEL, CHASE, AND/OR DRILL FLOORS, WALLS, PARTITIONS, CEILINGS, OR OTHER SURFACES AS REQUIRED FOR INSTALLATION. UPPORT, ANCHORAGE, ETC., OF WORK, PROVIDE X-RAY OF FLOOR PRIOR TO CORE DRILLS. THE GENERAL CONTRACTOR SHALL BE RESPONSIBLE FOR THE SUBSEQUENT PATCHING WORK.<br>5. A DETAILED WRITTEN METHOD OF PROCEDURE IS REQUIRED WHEN A CONSTRUCTION ACTIVITY OR AN OUTAGE AFFECTS THE SAFETY OF OCCUPANTS, TELEPHONE/DATA/FIRE ALARM EQUIPMENT OR COMPONENTS OF ANY SYSTEM WHICH SUPPORTS THIS EQUIPMENT OR ESSENTIALLY AFFECTS THE BUILDING MANAGEMENT, OPERATIONS OR SECURITY. SEE SPECIFICATIONS FOR ADDITIONAL INFORMATION.<br>6. PRIOR TO SUBMITTING BIDS, THE ELECTRICAL CONTRACTOR SHALL VISIT THE SITE TO VERIFY EXISTING ELECTRICAL EQUIPMENT CONDITIONS AND DIFFICULTIES THAT WILL AFFECT EXECUTION OF THE WORK. FIELD VERIFY QUANTITIES OF EXISTING LIGHT FIXTURES, ELECTRICAL DEVICES, COMMUNICATION DEVICES, FIRE ALARM DEVICES, AND ELECTRICAL EQUIPMENT. NOTIFY THE ARCHITECT AND ENGINEER OF ANY EXISTING CONDITIONS, WHICH MODIFY THE SCOPE OF WORK AS SHOWN ON THE CONSTRUCTION DOCUMENTS. SUBMISSION OF A BID PROPOSAL WILL BE CONSTRUED AS EVIDENCE THAT SUCH AN EXAMINATION HAS BEEN MADE AND LATER CLAIMS FOR MOBILIZATION, LABOR, EQUIPMENT, AND/OR MATERIALS REQUIRED BECAUSE OF DIFFICULTIES ENCOUNTERED WILL NOT BE RECOGNIZED.<br>7. PROTECT STRUCTURE AND OWNER EQUIPMENT FROM DAMAGE. IMMEDIATELY REPLACE OR REPAIR, TO ORIGINAL CONDITION, DAMAGE CAUSED BY THE CONTRACTOR WHETHER EQUIPMENT APPEARS TO BE CURRENTLY IN USE OR NOT, UNLESS WRITTEN AUTHORIZATION FROM THE OWNER INDICATED OTHERWISE. PREPARE LISTING OF ALL EXISTING DAMAGED ITEMS AND SUBMIT TO OWNER PRIOR TO BEGINNING WORK.<br>8. EXISTING INFORMATION SHOWN ON THE DRAWINGS HAS BEEN TAKEN FROM OWNER FURNISHED DRAWINGS AND/OR LIMITED FIELD OBSERVATIONS. CMO CONSULTING ENGINEERS, LLC IS NOT RESPONSIBLE FOR THE ACCURACY OF ANY INFORMATION OR THE ADEQUACY, SAFETY AND CONFORMANCE TO CURRENT PREVAILING CODES OF ANY WORK SHOWN AS EXISTING ON THESE DRAWINGS.<br>9. FIELD LOCATE EXISTING UNDERGROUND PUBLIC AND OWNER UTILITIES OF ALL TRADES AND BUILDING GROUNDING/LIGHTNING PROTECTION SYSTEMS PRIOR TO ANY EXCAVATION. REPLACE OR REPAIR DAMAGED UTILITIES AND GROUNDING/LIGHTNING PROTECTION SYSTEMS TO ORIGINAL CONDITION.<br>10. INSTALL CONDUIT CONCEALED IN FINISHED AREAS UNLESS OTHERWISE NOTED.<br>11. DO NOT ROUTE CONDUIT WITHIN STRUCTURAL OR TOPPING SLABS OF FLOORS UNLESS SPECIFICALLY NOTED OTHERWISE AND WRITTEN APPROVAL IS OBTAINED FROM THE STRUCTURAL ENGINEER.<br>12. FIRE SEAL ALL FIRE RATED WALL AND FLOOR PENETRATIONS. VERIFY RATED WALL LOCATIONS ON ARCHITECTURAL DRAWINGS.<br>13. PROVIDE SEPARATE INSULATED GROUNDING CONDUCTOR IN ALL FEEDER, HOMERUN AND BRANCH CIRCUITS.<br>14. REFER TO ARCHITECTURAL AND MECHANICAL EQUIPMENT DRAWINGS FOR EXACT LOCATIONS OF ELECTRICAL DEVICES AND LIGHT FIXTURES. DO NOT SCALE FROM THE ELECTRICAL PLANS. ADDITIONAL ELECTRICAL REQUIREMENTS ON ARCHITECTURAL PLANS, KITCHEN EQUIPMENT PLANS, AND MECHANICAL PLANS SHALL BE INCLUDED IN THE ELECTRICAL CONTRACTOR'S BID.<br>15. DEMOLITION OF ANY ELECTRICAL, LOW VOLTAGE, AND COMMUNICATIONS CONDUIT, WIRING, CABLING, OR DEVICE MEANS TO REMOVE IN ITS ENTIRETY. REMOVE UNUSED CONDUITS FROM CEILING SPACES IN AREAS OF WORK. RETURN UNUSED ELECTRICAL EQUIPMENT AND LIGHT FIXTURES TO BUILDING MANAGEMENT FOR STORAGE AND/OR REMOVAL FROM SITE AS DIRECTED BY OWNERS.<br>16. WHERE REMODELING INTERFERES WITH EXISTING CIRCUITS AND EQUIPMENT WHICH ARE NOT TO BE REMOVED OR ARE OUTSIDE OF THE PROJECT AREA, SUCH CIRCUITS AND EQUIPMENT SHALL BE REWORKED AND RELOCATED AS REQUIRED TO COMPLETE THE PROJECT.<br>17. MINIMUM WORKING CLEARANCES PER THE LATEST EDITION OF THE NATIONAL ELECTRICAL CODE SHALL BE PROVIDED AROUND AND IN FRONT OF ALL ELECTRICAL EQUIPMENT.<br>18. ELECTRICAL CONTRACTOR SHALL MAINTAIN ON THE JOB AN UP TO DATE SET OF WORKING DRAWINGS, MARKED UP TO SHOW ELECTRICAL SYSTEMS AS INSTALLED. PROVIDE TENANT REPRESENTATIVES WITH ONE SET OF REPRODUCIBLES WITH "AS BUILT" PROJECT RECORD INFORMATION CLEARLY INDICATED. ELECTRICAL CONTRACTOR SHALL OBTAIN AND PAY FOR ALL LOCAL FEES, PERMITS, AND SERVICES OF INSPECTION AUTHORITIES REQUIRED BY ELECTRICAL WORK FOR THIS ELECTRICAL CONSTRUCTION<br>19. PROVIDE TYPED, UPDATED, COMPLETE AND ACCURATE PANELBOARD CIRCUIT DIRECTORIES AT THE COMPLETION OF WORK. CLEAN EXPOSED PANELBOARD SURFACES AND CHECK TIGHTNESS OF ELECTRICAL CONNECTIONS. REPLACE DAMAGED CIRCUIT BREAKERS AS REQUIRED AND PROVIDE FILLER PLATES FOR VACANT SPACES.<br>20. PROVIDE UPDATED LABELING OF ALL NEW AND RELOCATED ELECTRICAL EQUIPMENT IN SCOPE OF WORK INCLUDING, BUT NOT LIMITED TO, ENGINE GENERATOR SYSTEMS, TRANSFER SWITCHES, TRANSFORMERS, SWITCHGEAR, SWITCHBOARDS, PANELBOARDS, MOTOR CONTROL CENTERS, AND DISCONNECTS TO INDICATE THE AMPERE RATING, VOLTAGE RATING, PHASE, CONDUCTOR COLOR CODING WITHIN THE EQUIPMENT AND APPLICABLE AIC RATING.<br>21. ALL NEW AND MODIFIED ELECTRICAL EQUIPMENT, SUCH AS SWITCHBOARDS, PANELBOARDS, INDUSTRIAL CONTROL PANELS, METER SOCKET ENCLOSURES, AND MOTOR CONTROL CENTERS, THAT ARE LIKELY TO REQUIRE EXAMINATION, ADJUSTMENT, SERVICING, OR MAINTENANCE WHILE ENERGIZED SHALL BE FIELD MARKED TO WARN QUALIFIED PERSONS OF POTENTIAL ELECTRIC ARC FLASH HAZARDS. THE MARKING SHALL BE LOCATED SO AS TO BE CLEARLY VISIBLE TO QUALIFIED PERSONS BEFORE EXAMINATION, ADJUSTMENT, SERVICING, OR MAINTENANCE OF THE EQUIPMENT PER NEC ARTICLE 110.16. |  |              |  |               |  |
| PANELS: CONDUIT ## FIRE ALARM NOTES:

1. FIRE ALARM DEVICE LOCATIONS ON THE DRAWINGS ARE DIAGRAMMATIC AND DO NOT NECESSARILY INDICATE EVERY REQUIRED PIECE OF EQUIPMENT AND DEVICE. LOCATE FIRE ALARM DEVICES PER NFPA 72 AND MANUFACTURERS REQUIREMENTS. PROVIDE ALL ITEMS INCLUDING THOSE NOT SPECIFICALLY NOTED ON THE DRAWINGS, BUT WHICH ARE NECESSARY TO MAKE A COMPLETE WORKING INSTALLATION IN ACCORDANCE WITH CODE REQUIREMENTS OF THE AUTHORITY HAVING JURISDICTION. THE CONTRACTOR IS RESPONSIBLE FOR DESIGNING A SYSTEM THAT MEETS ALL NATIONAL AND LOCAL CODES. ALL FIRE ALARM SYSTEM MODIFICATIONS AND WIRING TO BE PERFORMED BY TENANT AND/OR BUILDING MANAGEMENT SHALL BE APPROVED FIRE ALARM CONTRACTOR. CONNECT DEVICES TO FIRE ALARM ZONES IN ACCORDANCE WITH MANUFACTURER'S RECOMMENDATIONS. PROVIDE 120 VOLT CIRCUIT FOR ADDITIONAL FIRE ALARM BOOSTER PANELS IF REQUIRED FOR NEW FIRE ALARM DEVICES. PROVIDE SPOT SMOKE DETECTOR ABOVE ADDITIONAL FIRE ALARM BOOSTER PANELS. AFTER THE INSTALLATION IS COMPLETE, TENANT'S FIRE ALARM SYSTEM REPRESENTATIVE SHALL TEST THE ENTIRE FIRE ALARM SYSTEM FOR SYSTEM INTEGRITY AND OPERATION.
2. THE ELECTRICAL CONTRACTOR SHALL PROVIDE FULLY ENGINEERED FIRE ALARM SHOP DRAWINGS FOR REVIEW BY THE LOCAL BUILDING AND FIRE DEPARTMENT. THE FIRE ALARM SHOP DRAWINGS SHALL BE SIGNED AND SEALED BY A REGISTERED PROFESSIONAL ENGINEER IN THE PROJECT'S STATE AND SHALL MEET ALL REQUIREMENTS OF IFC AND NFPA 72.

## POWER NOTES:

1. MAKE ALL FINAL ELECTRICAL CONNECTIONS TO EQUIPMENT REQUIRING ELECTRICAL CONNECTION. THIS SHALL INCLUDE BUT NOT BE LIMITED TO ALL MECHANICAL AND OTHER EQUIPMENT INCLUDED IN THIS PROJECT.
2. PROVIDE FUSES SIZED PER EQUIPMENT MANUFACTURER'S REQUIREMENTS.
3. DISCONNECT SWITCH LOCATIONS ARE SHOWN DIAGRAMMATICALLY AND SHALL BE INSTALLED IN ACCESSIBLE LOCATIONS TO SUIT EQUIPMENT AND SPACE. DISCONNECT SWITCHES SHALL BE WITHIN SIGHT OF THE EQUIPMENT THEY SERVE AND MOUNTED AT 6'-3", MAXIMUM, TO TOP OF CABINET. MAINTAIN NEC WORK SPACE REQUIREMENTS.
4. RECEPTACLES INDICATED TO BE MOUNTED ABOVE COUNTER ARE TO BE MOUNTED HORIZONTALLY 6" ABOVE COUNTER WITH NEUTRAL UP.
5. COORDINATE AND VERIFY EXACT MOUNTING LOCATIONS OF WALL AND FLOOR DEVICES WITH ARCHITECTURAL ELEVATIONS, AND ANY FURNITURE OR SPECIALTY EQUIPMENT SUPPLIER DRAWINGS PRIOR TO ROUGH-IN.
6. COORDINATE EXACT REQUIREMENTS AND LOCATIONS OF MECHANICAL EQUIPMENT WITH MECHANICAL DRAWINGS AND MECHANICAL CONTRACTOR PRIOR TO ROUGH-IN.
7. PROVIDE A DEDICATED NEUTRAL CONDUCTOR FOR EACH 120V SINGLE PHASE CIRCUIT.
8. ALL RECEPTACLE OUTLETS LOCATED IN TOILET ROOMS, SHOWER ROOMS, ROOFTOPS, OUTDOOR LOCATIONS, MECHANICAL ROOMS, WITHIN 6 FEET OF A SINK, OR OTHER WET LOCATIONS SHALL BE PROVIDED WITH GFCI PROTECTION PER NEC ARTICLE 210.
9. PROVIDE TAMPER RESISTIVE RECEPTACLES IN ALL HALLWAYS, CORRIDORS, WAITING AREAS, OFFICES, TOILET ROOMS AND EXAM ROOMS.
10. WHERE RECEPTACLES ARE DESIGNATED AS 'USB', PROVIDE DUPLEX RECEPTACLE WITH USB AND USB-C CONNECTIONS.

## LIGHTING NOTES:

1. REFER TO ARCHITECTURAL ELEVATIONS AND REFLECTED CEILING PLANS FOR EXACT MOUNTING LOCATIONS AND MOUNTING HEIGHTS OF DEVICES AND LUMINAIRES. MOUNTING HEIGHTS ON ARCHITECTURAL PLANS TAKE PRECEDENCE OVER ELECTRICAL DRAWINGS.
2. COORDINATE LUMINAIRE LOCATIONS WITH MECHANICAL PIPING, DUCTWORK, ETC., TO AVOID CONFLICTS. SEE SPECIFICATIONS FOR COORDINATION REQUIREMENTS.
3. FIELD COORDINATE EXACT LOCATION OF CEILING MOUNTED OCCUPANCY/VACANCY SENSORS PER MANUFACTURER'S INSTRUCTIONS. THE LOCATIONS OF THE OCCUPANCY/VACANCY SENSORS ON THE DRAWINGS ARE DIAGRAMMATIC.
4. EXIT AND EGRESS LIGHTING ARE TO REMAIN UNSWITCHED.
5. COORDINATE DIMMING VACANCY SENSOR TYPE WITH LUMINAIRE.
6. AIM DIRECTIONAL LIGHTING AS DIRECTED BY OWNER.

TYPICAL DEVICE MOUNTING HEIGHTS  
NO SCALE

- NOTES:
- HEIGHTS SHOWN ARE TYPICAL TO CENTERLINE OF BOX UNLESS NOTED OTHERWISE.
  - WHERE EVER DEVICES ARE INDICATED TO BE ABOVE DOORS, DEVICE SHALL BE CENTERED BETWEEN TOP OF DOOR TRIM AND CEILING LINE.
  - MOUNTING HEIGHTS SHOWN ON ARCHITECTURAL ELEVATIONS SHALL GOVERN OVER THOSE SHOWN ABOVE.

NOTE: ALL DEVICES INDICATED TO BE INSTALLED AT DIFFERENT MOUNTING HEIGHTS AND LOCATED WITHIN ONE STUD SPACE FROM EACH OTHER SHALL ALIGN VERTICALLY, ON THE SAME SIDE OF THE STUD. WHERE WALL MOUNTED TELEPHONES OCCUR OVER LIGHT SWITCHES, VOLUME CONTROLS, ETC. OFFSET ONE STUD SPACE.

# LAND TITLE GUARANTEE COMPANY

## DISCLOSURE STATEMENTS

Note: Pursuant to CRS 10-11-122, notice is hereby given that:

- A) The subject real property may be located in a special taxing district.
- B) A Certificate of Taxes Due listing each taxing jurisdiction may be obtained from the County Treasurer's authorized agent.
- C) The information regarding special districts and the boundaries of such districts may be obtained from the Board of County Commissioners, the County Clerk and Recorder, or the County Assessor.

Note: Effective September 1, 1997, CRS 30-10-406 requires that all documents received for recording or filing in the clerk and recorder's office shall contain a top margin of at least one inch and a left, right and bottom margin of at least one half of an inch. The clerk and recorder may refuse to record or file any document that does not conform, except that, the requirement for the top margin shall not apply to documents using forms on which space is provided for recording or filing information at the top margin of the document.

Note: Colorado Division of Insurance Regulations 3-5-1, Paragraph C of Article VII requires that "Every title entity shall be responsible for all matters which appear of record prior to the time of recording whenever the title entity conducts the closing and is responsible for recording or filing of legal documents resulting from the transaction which was closed". Provided that Land Title Guarantee Company conducts the closing of the insured transaction and is responsible for recording the legal documents from the transaction, exception number 5 will not appear on the Owner's Title Policy and the Lenders Policy when issued.

Note: Affirmative mechanic's lien protection for the Owner may be available (typically by deletion of Exception no. 4 of Schedule B, Section 2 of the Commitment from the Owner's Policy to be issued) upon compliance with the following conditions:

- A) The land described in Schedule A of this commitment must be a single family residence which includes a condominium or townhouse unit.
- B) No labor or materials have been furnished by mechanics or material-men for purposes of construction on the land described in Schedule A of this Commitment within the past 6 months.
- C) The Company must receive an appropriate affidavit indemnifying the Company against un-filed mechanic's and material-men's liens.
- D) The Company must receive payment of the appropriate premium.
- E) If there has been construction, improvements or major repairs undertaken on the property to be purchased within six months prior to the Date of the Commitment, the requirements to obtain coverage for unrecorded liens will include: disclosure of certain construction information; financial information as to the seller, the builder and or the contractor; payment of the appropriate premium fully executed Indemnity Agreements satisfactory to the company, and, any additional requirements as may be necessary after an examination of the aforesaid information by the Company.

No coverage will be given under any circumstances for labor or material for which the insured has contracted for or agreed to pay.

Note: Pursuant to CRS 10-11-123, notice is hereby given:

This notice applies to owner's policy commitments containing a mineral severance instrument exception, or exceptions, in Schedule B, Section 2.

- A) That there is recorded evidence that a mineral estate has been severed, leased, or otherwise conveyed from the surface estate and that there is a substantial likelihood that a third party holds some or all interest in oil, gas, other minerals, or geothermal energy in the property; and
- B) That such mineral estate may include the right to enter and use the property without the surface owner's permission.

Nothing herein contained will be deemed to obligate the company to provide any of the coverages referred to herein unless the above conditions are fully satisfied.

## JOINT NOTICE OF PRIVACY POLICY

OF

### LAND TITLE GUARANTEE COMPANY AND LAND TITLE INSURANCE CORPORATION AND OLD REPUBLIC NATIONAL TITLE INSURANCE COMPANY

Title V of the Gramm-Leach-Bliley Act (GLBA) generally prohibits any financial institution, directly or through its affiliates, from sharing nonpublic personal information about you with a nonaffiliated third party unless the institution provides you with a notice of its privacy policies and practices, such as the type of information that it collects about you and the categories of persons or entities to whom it may be disclosed. In compliance with the GLBA, we are providing you with this document, which notifies you of the privacy policies and practices of Land Title Guarantee Company and Land Title Insurance Corporation and Old Republic National Title Insurance Company.

We may collect nonpublic personal information about you from the following sources:

- Information we receive from you such as on applications or other forms.
- Information about your transactions we secure from our files, or from our affiliates or others.
- Information we receive from a consumer reporting agency.
- Information that we receive from others involved in your transaction, such as the real estate agent or lender.

Unless it is specifically stated otherwise in an amended Privacy Policy Notice, no additional nonpublic personal information will be collected about you.

We may disclose any of the above information that we collect about our customers or former customers to our affiliates or to nonaffiliated third parties as permitted by law.

We also may disclose this information about our customers or former customers to the following types of nonaffiliated companies that perform marketing services on our behalf or with whom we have joint marketing agreements:

- \* Financial service providers such as companies engaged in banking, consumer finance, securities and insurance.
- \* Non-financial companies such as envelope stuffers and other fulfillment service providers.

**WE DO NOT DISCLOSE ANY NONPUBLIC PERSONAL INFORMATION ABOUT YOU WITH ANYONE FOR ANY PURPOSE THAT IS NOT SPECIFICALLY PERMITTED BY LAW.**

We restrict access to nonpublic personal information about you to those employees who need to know that information in order to provide products or services to you. # Commitment to Insure

ALTA Commitment - 1970 Rev.

OLD REPUBLIC NATIONAL TITLE INSURANCE COMPANY, a Minnesota corporation, herein called the Company, for a valuable consideration, hereby commits to issue its policy or policies of title insurance, as identified in Schedule A, in favor of the proposed Insured named in Schedule A, as owner or mortgagee of the estate or interest covered hereby in the land described or referred to in Schedule A, upon payment of the premiums and charges therefor; all subject to the provisions of Schedule A and B and to the Conditions and Stipulations hereof.

This Commitment shall be effective only when the identity of the proposed Insured and the amount of the policy or policies committed for have been inserted in Schedule A hereof by the Company, either at the time of the issuance of this Commitment or by subsequent endorsement.

This Commitment is preliminary to the issuance of such policy or policies of title insurance and all liability and obligations hereunder shall cease and terminate six months after the effective date hereof or when the policy or policies committed for shall issue, whichever first occurs, provided that the failure to issue such policy or policies is not the fault of the Company.

## CONDITIONS AND STIPULATIONS

1. The term "mortgage", when used herein, shall include deed of trust, trust deed, or other security instrument.
2. If the proposed Insured has or acquires actual knowledge of any defect, lien, encumbrance, adverse claim or other

matter affecting the estate or interest or mortgage thereon covered by this Commitment other than those shown in Schedule B hereof, and shall fail to disclose such knowledge to the Company in writing, the Company shall be relieved from liability for any loss or damage resulting from any act of reliance hereon to the extent the Company is prejudiced by failure of the proposed Insured to so disclose such knowledge. If the proposed Insured shall disclose such knowledge to the Company, or if the Company otherwise acquires actual knowledge of any such defect, lien, encumbrance, adverse claim or other matter, the Company at its option may amend Schedule B of this Commitment accordingly, but such amendment shall not relieve the Company from liability previously incurred pursuant to paragraph 3 of these Conditions and Stipulations.

3. Liability of the company under this Commitment shall be only to the named proposed Insured and such parties included under the definition of Insured in the form of policy or policies committed for and only for actual loss incurred in reliance hereon in undertaking in good faith (a) to comply with the requirements hereof or (b) to eliminate exceptions shown in Schedule B, or (c) to acquire or create the estate or interest or mortgage thereon covered by this Commitment. In no event shall such liability exceed the amount stated in Schedule A for the policy or policies committed for and such liability is subject to the insuring provisions and the Conditions and Stipulations and the Exclusions from Coverage of the form of policy or policies committed, for in favor of the proposed Insured which are hereby incorporated by reference and made a part of this Commitment except as expressly modified herein.

4. Any action or actions or rights of action that the proposed Insured may have or may bring against the Company arising out of the status of the title to the estate or interest or the status of the mortgage thereon covered by this Commitment must be based on and are subject to the provisions of this Commitment.

## STANDARD EXCEPTIONS

In addition to the matters contained in the Conditions and Stipulations and Exclusions from Coverage above referred to, this Commitment is also subject to the following:

1. Rights or claims of parties in possession not shown by the public records.
2. Easements, or claims of easements, not shown by the public records.
3. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, and any facts which a correct survey and inspection of the premises would disclose and which are not shown by the public records.
4. Any lien, or right to a lien, for services, labor or material theretofore or hereafter furnished, imposed by law and not shown by the public records.
5. Defects, liens, encumbrances, adverse claims or other matters, if any, created, first appearing in the public records or attaching subsequent to the effective date hereof but prior to the date the proposed insured acquires of record for value the estate or interest or mortgage thereon covered by this Commitment.

IN WITNESS WHEREOF, Old Republic National Title Insurance Company has caused its corporate name and seal to be hereunto affixed by its duly authorized officers on the date shown in Schedule A, to be valid when countersigned by a validating officer or other authorized signatory.

COUNTY OF GARFIELD  
STATE OF COLORADO

ALTA COMMITMENT

Schedule B-1

(Requirements)

Our Order No. GW243987

The following are the requirements to be complied with:

Payment to or for the account of the grantors or mortgagors of the full consideration for the estate or interest to be insured.

Proper instrument(s) creating the estate or interest to be insured must be executed and duly filed for record, to-wit:

1. A BOUNDARY SURVEY CONTAINING AN ADEQUATE LEGAL DESCRIPTION OF THE PROPERTY TO BE CONVEYED MUST BE RECEIVED BY LAND TITLE GUARANTEE COMPANY.
2. RELEASE OF DEED OF TRUST DATED JANUARY 30, 2004, FROM GLENWOOD MEADOWS, LLC, A COLORADO LIMITED LIABILITY COMPANY TO THE PUBLIC TRUSTEE OF GARFIELD COUNTY FOR THE USE OF ALPINE BANK TO SECURE THE SUM OF \$250,000.00 RECORDED FEBRUARY 02, 2004, IN BOOK 1558 AT PAGE 566, UNDER RECEPTION NO. 645916.
3. PARTIAL RELEASE OF DEED OF TRUST DATED SEPTEMBER 06, 1996, FROM GLENWOOD LAND COMPANY, LLC TO THE PUBLIC TRUSTEE OF GARFIELD COUNTY FOR THE USE OF LAWRENCE MARX AND ROBERT APPEL TO SECURE THE SUM OF \$2,000,000.00 RECORDED SEPTEMBER 06, 1996, IN BOOK 991 AT PAGE 438.

AFFIDAVIT OF PRINCIPAL BALANCE OWING AGREEMENT IN CONNECTION WITH SAID DEED OF TRUST WAS RECORDED MAY 19, 2004 IN BOOK 1589 AT PAGE 194.

SUBORDINATION AGREEMENT IN CONNECTION WITH SAID DEED OF TRUST WAS RECORDED MAY 19, 2004 IN BOOK 1589 AT PAGE 201.

4. PARTIAL RELEASE OF DEED OF TRUST DATED MAY 07, 2004, FROM GLENWOOD MEADOWS, LLC, A COLORADO LIMITED LIABILITY COMPANY TO THE PUBLIC TRUSTEE OF GARFIELD COUNTY FOR THE USE OF ALPINE BANK TO SECURE THE SUM OF \$2,000,000.00 RECORDED MAY 19, 2004, IN BOOK 1589 AT PAGE 207.
5. PARTIAL RELEASE OF DEED OF TRUST DATED OCTOBER 16, 1998, FROM GLENWOOD MEADOWS, LLC, A COLORADO LIMITED LIABILITY COMPANY TO THE PUBLIC TRUSTEE OF GARFIELD COUNTY FOR THE USE OF GLENWOOD LAND COMPANY, LLC TO SECURE THE SUM OF \$2,586,940.00 RECORDED NOVEMBER 23, 1998, IN BOOK 1099 AT PAGE 608.

SUBORDINATION AGREEMENT IN CONNECTION WITH SAID DEED OF TRUST WAS RECORDED

ALTA COMMITMENT

Schedule B-1

(Requirements)

Our Order No. GW243987

Continued:

FEBRUARY 02, 2004 IN BOOK 1558 AT PAGE 562.

SUBORDINATION AGREEMENT IN CONNECTION WITH SAID DEED OF TRUST WAS RECORDED  
MAY 19, 2004 IN BOOK 1589 AT PAGE 195.

6. WARRANTY DEED FROM GLENWOOD MEADOWS, LLC, A COLORADO LIMITED LIABILITY  
COMPANY TO ROARING FORK TRANSPORTATION AUTHORITY CONVEYING SUBJECT  
PROPERTY.

NOTE: ITEMS 1-3 OF THE STANDARD EXCEPTIONS WILL BE DELETED UPON RECEIPT OF  
AN APPROVED SURVEY. MATTERS DISCLOSED BY SAID SURVEY MAY BE ADDED TO  
SCHEDULE B-2 HEREOF.

UPON THE APPROVAL OF THE COMPANY AND THE RECEIPT OF A NOTARIZED FINAL LIEN  
AFFIDAVIT, ITEM NO. 4 OF THE STANDARD EXCEPTIONS WILL BE AMENDED AS  
FOLLOWS:

ITEM NO. 4 OF THE STANDARD EXCEPTIONS IS DELETED AS TO ANY LIENS OR FUTURE  
LIENS RESULTING FROM WORK OR MATERIAL FURNISHED AT THE REQUEST OF GLENWOOD  
MEADOWS, LLC, A COLORADO LIMITED LIABILITY COMPANY.  
OLD REPUBLIC NATIONAL TITLE INSURANCE COMPANY SHALL HAVE NO LIABILITY FOR  
ANY LIENS ARISING FROM WORK OR MATERIAL FURNISHED AT THE REQUEST OF  
ROARING FORK TRANSPORTATION AUTHORITY.

NOTE: ITEM 5 OF THE STANDARD EXCEPTIONS WILL BE DELETED IF LAND TITLE  
GUARANTEE COMPANY CONDUCTS THE CLOSING OF THE CONTEMPLATED TRANSACTION(S)  
AND RECORDS THE DOCUMENTS IN CONNECTION THEREWITH.

## LAND TITLE GUARANTEE COMPANY

### DISCLOSURE STATEMENTS

Note: Pursuant to CRS 10-11-122, notice is hereby given that:

- A) The subject real property may be located in a special taxing district.
- B) A Certificate of Taxes Due listing each taxing jurisdiction may be obtained from the County Treasurer's authorized agent.
- C) The information regarding special districts and the boundaries of such districts may be obtained from the Board of County Commissioners, the County Clerk and Recorder, or the County Assessor.

Note: Effective September 1, 1997, CRS 30-10-406 requires that all documents received for recording or filing in the clerk and recorder's office shall contain a top margin of at least one inch and a left, right and bottom margin of at least one half of an inch. The clerk and recorder may refuse to record or file any document that does not conform, except that, the requirement for the top margin shall not apply to documents using forms on which space is provided for recording or filing information at the top margin of the document.

Note: Colorado Division of Insurance Regulations 3-5-1, Paragraph C of Article VII requires that "Every title entity shall be responsible for all matters which appear of record prior to the time of recording whenever the title entity conducts the closing and is responsible for recording or filing of legal documents resulting from the transaction which was closed". Provided that Land Title Guarantee Company conducts the closing of the insured transaction and is responsible for recording the legal documents from the transaction, exception number 5 will not appear on the Owner's Title Policy and the Lenders Policy when issued.

Note: Affirmative mechanic's lien protection for the Owner may be available (typically by deletion of Exception no. 4 of Schedule B, Section 2 of the Commitment from the Owner's Policy to be issued) upon compliance with the following conditions:

- A) The land described in Schedule A of this commitment must be a single family residence which includes a condominium or townhouse unit.
- B) No labor or materials have been furnished by mechanics or material-men for purposes of construction on the land described in Schedule A of this Commitment within the past 6 months.
- C) The Company must receive an appropriate affidavit indemnifying the Company against un-filed mechanic's and material-men's liens.
- D) The Company must receive payment of the appropriate premium.
- E) If there has been construction, improvements or major repairs undertaken on the property to be purchased within six months prior to the Date of the Commitment, the requirements to obtain coverage for unrecorded liens will include: disclosure of certain construction information; financial information as to the seller, the builder and or the contractor; payment of the appropriate premium fully executed Indemnity Agreements satisfactory to the company, and, any additional requirements as may be necessary after an examination of the aforesaid information by the Company.

No coverage will be given under any circumstances for labor or material for which the insured has contracted for or agreed to pay.

Note: Pursuant to CRS 10-11-123, notice is hereby given:

This notice applies to owner's policy commitments containing a mineral severance instrument exception, or exceptions, in Schedule B, Section 2.

- A) That there is recorded evidence that a mineral estate has been severed, leased, or otherwise conveyed from the surface estate and that there is a substantial likelihood that a third party holds some or all interest in oil, gas, other minerals, or geothermal energy in the property; and
- B) That such mineral estate may include the right to enter and use the property without the surface owner's permission.

Nothing herein contained will be deemed to obligate the company to provide any of the coverages referred to herein unless the above conditions are fully satisfied.

**JOINT NOTICE OF PRIVACY POLICY**  
**OF**  
**LAND TITLE GUARANTEE COMPANY AND LAND TITLE INSURANCE CORPORATION AND**  
**OLD REPUBLIC NATIONAL TITLE INSURANCE COMPANY**

Title V of the Gramm-Leach-Bliley Act (GLBA) generally prohibits any financial institution, directly or through its affiliates, from sharing nonpublic personal information about you with a nonaffiliated third party unless the institution provides you with a notice of its privacy policies and practices, such as the type of information that it collects about you and the categories of persons or entities to whom it may be disclosed. In compliance with the GLBA, we are providing you with this document, which notifies you of the privacy policies and practices of Land Title Guarantee Company and Land Title Insurance Corporation and Old Republic National Title Insurance Company.

We may collect nonpublic personal information about you from the following sources:

- Information we receive from you such as on applications or other forms.
- Information about your transactions we secure from our files, or from our affiliates or others.
- Information we receive from a consumer reporting agency.
- Information that we receive from others involved in your transaction, such as the real estate agent or lender.

Unless it is specifically stated otherwise in an amended Privacy Policy Notice, no additional nonpublic personal information will be collected about you.

We may disclose any of the above information that we collect about our customers or former customers to our affiliates or to nonaffiliated third parties as permitted by law.

We also may disclose this information about our customers or former customers to the following types of nonaffiliated companies that perform marketing services on our behalf or with whom we have joint marketing agreements:

- \* Financial service providers such as companies engaged in banking, consumer finance, securities and insurance.
- \* Non-financial companies such as envelope stuffers and other fulfillment service providers.

**WE DO NOT DISCLOSE ANY NONPUBLIC PERSONAL INFORMATION ABOUT YOU WITH ANYONE FOR ANY PURPOSE THAT IS NOT SPECIFICALLY PERMITTED BY LAW.**

We restrict access to nonpublic personal information about you to those employees who need to know that information in order to provide products or services to you. We maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

This Deed, Made this 20<sup>th</sup> day of July in the year of our Lord one thousand nine hundred and 1905, between Fred. O. Atkinson

of the County of Garfield and State of Colorado, of the first part, and Mary P. G. Demerut

of the County of Garfield and State of Colorado, of the second part, WITNESSETH, That the said part Mary P. G. Demerut of the first part, for and in consideration of the sum of One Dollar, and other valuable considerations to the said part Fred. O. Atkinson of the first part in hand paid by the said part Fred. O. Atkinson of the second part, the receipt whereof is hereby confessed and acknowledged, has remised, released, sold, conveyed and QUIT-CLAIMED, and by these presents doth remise, release, sell, convey and QUIT-CLAIM unto the said part Mary P. G. Demerut of the second part her heirs and assigns forever, all the right, title, interest, claim and demand which the said part Fred. O. Atkinson of the first part has in and to the following described real estate situate, lying and being in the County of Garfield and State of Colorado, to-wit:

Beginning at the South-east corner of Sec. 5 Township 6, S. R. 87 West of the 10th P.M., thence North on the East line of the said Section 5, 342 feet to a point, thence South 62 degrees West 335 feet to a point; thence South 28 degrees E., to the South line of said Sec. 5; thence East on said South line to the place of beginning. Said tract of land so conveyed hereby adjoining the Locke 2.74 acre tract on the North side of the track as conveyed hereby. Also beginning at a point on the East line of said Sec. 5, 650.4 feet north of the S.E. corner of said section 5; thence South 62 degrees West 339.2 feet to a point; thence North on a line parallel with the East line of said Sec. 5, to the center of the channel of the Grand River; thence South easterly along said center of channel to said East line of Section 5; thence South on said East line to the place of beginning. Said tract of land so conveyed, adjoining the Locke 2.74 acre tract on the Southeast side of said tract so conveyed hereby. Also conveying a private right of way to be used in common with the owners or owners of the lands formerly owned by Maurice E. Morrow and other adjoining lands, formerly owned by Amos. A. Rice, such private way consisting of a road, way as now laid out and used, and extending from the South line of said Section 5 Southwesterly and near the East line of the NE 1/4 of the NE 1/4 of Sec. 8, and a portion of the NE 1/4 of the NE 1/4 of said Sec. 8, and thence Southwesterly near the NE 1/4, NW 1/4 of Sec. 9, following the right of way of the Colorado Midland Railway, in part and extending to the East line of said NE 1/4, NW 1/4, all in T. 6, S. R. 87 West of the 10th P.M., the said roadway being now fenced on both sides throughout. It being understood and agreed that in case said roadway or any part thereof hereafter hereafter abandoned, all rights conveyed hereby shall revert back to and become the sole and separate property of that part, bearing this instrument. That party also grants a right of way and easement as set forth from the East line of said NE 1/4, NW 1/4 of Sec. 9, right of way and to be used for a road or for a railroad to have and to hold the same, together with all and singular the appurtenances and privileges thereto belonging or in anywise thereto appertaining, and all the estate, right, title, interest and claim whatsoever of the said part Fred. O. Atkinson of the first part, either in law or equity, to the only proper use, benefit and behoof of the said part Mary P. G. Demerut of the second part, her heirs and assigns forever.

IN WITNESS WHEREOF, The said part Fred. O. Atkinson of the first part has hereto set his hand and seal the day and year first above written.

PIPELINE AGREEMENT

THIS INDENTURE, Made and entered into this 17 day of July, A. D. 1951, by and between D. E. DUNSDON, of the County of Garfield, State of Colorado, party of the first part, and C. E. BELL, of the County and State aforesaid, party of the second part, WITNESSETH:

WHEREAS, the party of the first part is the owner of a certain tract of land situate in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ , Section 5, Township 6, South Range 89 West of the 6th P. M. in the County of Garfield and State of Colorado, which tract of land will for brevity be referred to hereinafter as "said premises"; and

WHEREAS, the party of the second part is desirous of securing an easement or right of way for a water pipeline for the use and benefit of certain land lying northerly of said premises;

NOW, THEREFORE, for and in consideration of the sum of One Dollar and other valuable considerations paid by said party of the second part to said party of the first part, the receipt whereof is hereby confessed and acknowledged, and of the covenants of the party of the second part hereinafter contained, party of the first part hereby grants and conveys to the party of the second part, his heirs, executors, administrators and assigns forever and in perpetuity a right of way or easement through, under, and across the said premises for the purpose of installing, maintaining and repairing a pipeline four inches in diameter, which right of way or easement is described as follows, to-wit:

A right-of-way for a water pipeline situate in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ , Section 5, Township 6 South Range 89 West of the 6th Principal Meridian, the center line of which right-of-way is described as follows: Beginning at a point on the North line of the property of the party of the first part whence the South Quarter corner of Section 35, Township 5, South Range 89 West of the 6th Principal Meridian bears

There is also hereby conveyed the right of ingress and egress to and from said premises for the purpose of installing, main-  
taining and repairing said pipeline.

Each and all the terms, conditions, covenants and agreements herein contained shall extend to and become binding upon the heirs, executors, administrators and assigns of the respective parties hereto.

## RIGHT OF WAY

THIS AGREEMENT, dated the 5th day of October, 1981, by and between  
UNION OIL COMPANY OF CALIFORNIA, a corporation, hereinafter termed Grantor, and ROCKY MOUNTAIN  
NATURAL GAS COMPANY, INC., hereinafter termed Grantee.

WITNESSETH:

Grantor, for and in consideration of the full and prompt performance of the acts to be performed by Grantee as herein set forth, hereby grants to Grantee, subject to termination as herein provided and under the terms, conditions and provisions hereof, the right and privilege to lay, erect, construct, maintain, operate, repair, renew, and remove, inspect and protect:

One (1) pipeline not to exceed 5 " in diameter for the transportation of fuel gas and necessary valves and valve boxes over and above the course hereafter described in the premises situated in the County of Garfield, State of Colorado to-wit:

Township 6 South, Range 89 West of the 6th P.M.

Section 5: S $\frac{1}{2}$  of S $\frac{1}{2}$   
Section 8: NE $\frac{1}{4}$  NE $\frac{1}{4}$   
Section 9: W $\frac{1}{4}$  NW $\frac{1}{4}$

The pipeline shall follow a course described as follows: Beginning at a point on the East line of the SW $\frac{1}{4}$  NW $\frac{1}{4}$  of Section 9, Twp. 6 S., Rge. 89 W., 6th P. M., which point is North 289.90' from the Southeast Corner of said SW $\frac{1}{4}$  NW $\frac{1}{4}$ ; thence N. 41°19' W. 245.6'; thence N. 43°34' W. 500.1'; thence N. 42°14' W. 1168.7'; thence N. 33°27' W. 61.7'; thence N. 25°42' W. 146.0'; thence N. 37°56' W. 266.7'; thence N. 42°19' W. 324.1'; thence N. 34°39' W. 443.7'; thence N. 40°32' W. 430.7'; thence N. 55°13' W. 515.1'; thence N. 65°17' W. 163.7'; thence N. 75°12' W. 191.7'; thence N. 70°59' W. 210.8'; thence N. 64°08' W. 717.8'; thence N. 67°31' W. 859.5'; thence N. 2°32' E. 179.2', to a point on the North line of the SE $\frac{1}{4}$  SW $\frac{1}{4}$  of Section 5, Twp. 6 S., Rge. 89 W., being a distance of 389.34 rods.

Consideration to Grantor for this agreement shall be the sum of Ten and more Dollars (\$10.00) receipt of which is hereby acknowledged.

Grantor shall not interfere with or obstruct the use of said premises by Grantee, or injure or interfere with any person or property on or about said premises.

[illegible]

In the event that the facility constructed hereunder is a pipe line, Grantee shall bury the same so that it will pass beneath previously laid pipe lines which it may cross and so that it will be at all points at least <sup>18</sup>/<sub>24</sub> inches below the surface of the ground and shall promptly and properly backfill all excavations made by or for Grantee on the premises.

Whenever, in the opinion of Grantor, the facility constructed hereunder, interferes with Grantor's use of or operations upon the premises, Grantee shall, at its own expense and risk, within sixty (60) days after written request therefor by Grantor, raise, lower or relocate and reconstruct said facility in the manner and at the place within the boundaries of said premises specified by Grantor in such request, and shall restore said premises as nearly as possible to the same state and condition as that in which they were prior to such rearrangement, relocation or reconstruction, as the case may be.

Route # 314

Grantee and its employees and agents, at any and all times when necessary, shall have free access to the facility constructed hereunder, over such reasonable route as Grantor may designate or approve, for the purpose of exercising the rights hereby granted.

The rights and privileges hereby conveyed are personal to Grantee and shall not be assigned by Grantee, in whole or in part, without the written consent of Grantor first being had. No written consent by Grantor hereunder shall be deemed a waiver by Grantor of any of the provisions hereof, except to the extent of such consent.

It is further understood and agreed that this agreement and the rights and privileges herein given Grantee shall terminate in the event that Grantee shall fail for a period of one year to maintain and operate the facility constructed hereunder.

~~Grantee hereby agrees to indemnify and hold Grantor harmless from and against all claims and demands of third parties arising out of or in connection with the operations of the facility constructed hereunder.~~

In the event of the termination of this agreement by Grantor, Grantor shall, at his own expense and risk, remove all property placed by or for Grantee upon said land, and restore said premises as nearly as possible to the same state and condition as existing prior to any construction hereunder; but, if it should fail so to do within sixty (60) days after such termination, Grantor may sue at the risk of Grantee and all cost and expense of such removal and the restoration of said premises, as aforesaid, together with interest thereon at the rate of ten per cent per annum, shall be paid by Grantee upon demand; and in case of a suit to enforce or collect the same, Grantee agrees to pay Grantor in addition a reasonable attorney's fee to be fixed and allowed by the court.

Upon the termination of the rights hereby granted, Grantee shall execute and deliver to Grantor, within thirty (30) days after service of a written demand therefor, a good and sufficient quitclaim deed to the rights hereby granted. Should Grantee fail or refuse to deliver to Grantor a quitclaim deed as aforesaid, a written notice by Grantor reciting the failure or refusal of Grantee to execute and deliver said quitclaim deed, as herein provided, and terminating said grant, shall, after ten (10) days from the date of recitation of said notice, be conclusive evidence against Grantee and all persons claiming under Grantee of the termination of said grant.

Grantee shall and will pay, before the same become delinquent, all charges, taxes, rates and assessments upon or against said facility and any other property or improvements placed by or for Grantee upon said premises; but Grantor may, at all times after any delinquency, pay and discharge all of such delinquent charges, taxes, rates and assessments; after reasonable verification thereof, and all such payments so made by Grantor with interest thereon at the rate of ten per cent per annum from date of payment will be paid by Grantee upon demand. The amount of such payments and interest shall be a charge and lien against all property placed by or for Grantee on said premises and in case of a suit, after such demand, to enforce or collect the same, Grantee agrees to pay Grantor in addition thereon a reasonable attorney's fee to be fixed and allowed by the court.

Grantee hereby releases and discharges Grantor from all claims and demands by Grantee for loss of or damage to Grantee's property, and agrees to indemnify Grantor against and save Grantor harmless from all costs and expenses, including attorney's fees, and all liability and claims and demands of others, for loss of or damage to property, or injury to or death of persons, which may result directly or indirectly from the granting, use or termination of, or operations under, this agreement. Grantee agrees to pay Grantor in full and promptly upon demand for any and all loss of or damage to Grantor's property caused by Grantee, by or growing out of any operations of Grantee hereunder or in connection herewith.

Any notice provided herein to be given by either party hereto to the other may be served by depositing in the United States Post Office, postage prepaid, a sealed envelope containing a copy of such notice and addressed to said other party at its principal place of business, and the same shall be sufficient service of such notice.

Grantee hereby recognizes Grantor's title and interest in and to the land over which the aforesaid right of way is granted, and agrees never to assail or resist Grantor's title or interest therein.

Except as otherwise provided herein, the terms and conditions of this agreement shall inure to the benefit of, and be binding upon, the successors and assigns of the parties hereto.

It is understood and agreed that the privileges herein given are subordinate to and subject to all valid and existing licenses, leases, grants, exceptions and reservations affecting said premises.

IN WITNESS WHEREOF the said parties hereto have caused this agreement to be executed in duplicate by their proper officers, who are thereunto duly authorized.

**EASEMENT** 6387

THIS INSTRUMENT, made this 12th day of October, 1966, in the year of our Lord one thousand nine hundred and sixty-six, between  
**UNION OIL COMPANY OF CALIFORNIA** a California corporation

of the County of Los Angeles, and State of California, grantor  
and **PUBLIC SERVICE COMPANY OF COLORADO**, a corporation duly organized and existing under and by virtue of the laws of the State of Colorado, grantee.

WITNESSETH that the said grantor, for and in consideration of the sum of  
Ten Dollars (\$10.00) and other valuable consideration

to the said grantee, has paid by the said grantee the receipt whereof is hereby confessed and acknowledged, has granted, conveyed, sold and conveyed and by these presents does grant, bargain, sell, convey and confirm unto the said Public Service Company of Colorado, its successors and assigns forever, an easement for the construction, reconstruction, operation and maintenance of conductors and conduits for the transmission of electricity, together with the necessary poles, towers, crossarms, cables, wires, guywires, supports and other fixtures and devices used or useful in the operation of electric transmission lines through or over and across the following described lands, to-wit:

A parcel of land in the S-34 of Section 5 and the SE-SE of Section 6, all in Township 6 South, Range 80 West, of the 6th Principal Meridian, County of Garfield, State of Colorado, said parcel being more particularly described as follows: Beginning at a point in the east line of the SE-4 of said Section 6, distant N. 29°15'30" E., along said line 1050.6 feet from the southeast corner of said Section 6; thence N. 83°39' E., 529.2 feet to a point; thence N. 86°31' E., 200.3 feet to a point; thence N. 83°39' E., 236.8 feet to a point; thence N. 84°33'30" E., 195.3 feet to a point; thence N. 88°11'30" E., 155.3 feet to a point; thence S. 81°15' E., 190.6 feet to a point; thence S. 80°55' E., 290.4 feet to a point; thence S. 78°25' E., 194.8 feet to a point; thence S. 15°26' W., 30.0 feet to a point; thence N. 80°18'10" W., 672.2 feet to a point; thence S. 84°26'10" W., 1779.3 feet to a point; thence S. 85°32'40" W., 1818.1 feet to a point; thence N. 2°07'30" E., 30.0 feet to a point; thence N. 86°21' E., 36.1 feet to a point; thence N. 83°39' E., 677.1 feet to a point; thence S. 82°19' E., 103.1 feet to a point; thence N. 83°39' E., 470.8 feet, more or less, to the point of beginning.

It is understood and agreed by and between the parties hereto that all poles to be installed and constructed on said easement by the grantee shall be located at a distance of not to exceed 7.5 feet southerly of the southerly right-of-way line of the D & R-G.W.R.R. across said premises.

Together with the right to ingress and egress over said premises and to remove objects or structures therefrom, and also to survey, construct, reconstruct, maintain, operate, control and use said lines and facilities.

The grantor reserves the right to cultivate and use said premises for any purpose consistent with the rights and privileges above granted and which will not interfere with or endanger the grantee's facilities thereon or the use thereof or any of the rights herein granted. Such reservation by the grantor shall not include the right to erect or place any structures or objects, including signs or drill or operate any wells on, upon, above or over the easement herein granted. In case the permanent abandonment of said easement, all right, privilege and interest herein granted shall end, cease and determine.

The work of installing, maintaining and reconstructing its facilities shall be done with care and all damage to the premises caused thereby shall be paid for or repaired at the expense of the grantee.

The provisions of this easement shall be binding upon and shall inure to the benefit of the heirs, executors, administrators, successors and assigns of the parties hereto.

Signed and delivered this 12th day of October, A.D. 1966.

RECEIVED OF PUBLIC SERVICE COMPANY OF COLORADO

Whereas the undersigned of which [Name] hereby grant and said Company, its successors and assigns the right, privilege and authority to construct, operate and maintain its electric transmission and/or distribution line, with all poles, cross-arms, cables, wires, guys, support fixtures and devices, used or useful in the operation of said line through and along and across said line, may be hereafter constructed line through, over and across the

6 South Range 93 West of the 6 Township  
Garfield State of Colorado, the approximate center line of said right of way is more particularly described as follows:  
Beginning at a point on the Western boundary of said Lot 5 about 962 ft. North of its Southern boundary. Thence N 65 deg. 59' E 80 ft. Thence South 89 deg. 42' E 1180 ft. to the Eastern boundary of said Lot 5.

Together with the right to enter upon said premises, survey, construct, maintain, operate, control and use said transmission line and to remove objects interfering therewith, and the right to permit the attachment of wires of any other Company. The undersigned reserves the right to cultivate, use and occupy said premises for any purpose consistent with the rights and privileges above granted, which will not interfere with or hinder any of the purposes, poles, thereon or use thereof. In case of the permanent abandonment of said right of way, all rights, title and interest herein granted shall cease and determine. The work of installing and erecting power transmission or distribution line shall be done with care and all damage to the premises caused thereby shall be repaired at the expense of the Company. This grant is subject to existing mineral leases covering any part of the above described land.

and E-29D

PAGE THREE - Permanent Easement

Also

A tract or parcel of land No. E-29D of the Department of Highways,  
State of Colorado, Project No. 1 70-1(8)113 Section 1 containing  
0.117 acres, more or less, in the SE $\frac{1}{4}$  of the SW $\frac{1}{4}$  of Section 5  
Township 6 South, Range 89 West, of the Sixth Principal Meridian,  
in Carfield County, Colorado, said tract or parcel being more  
particularly described as follows:

Beginning at a point from which the SE corner of Section 5, T.6 S.,  
R. 89 W., bears S. 66° 05' E., a distance of 3,256.2 feet;

1. Thence S. 74° 34' E., a distance of 30.0 feet;
2. Thence N. 15° 26' E., a distance of 108.4 feet, to  
the north line of the SE $\frac{1}{4}$  of the SW $\frac{1}{4}$  of Section 5;
3. Thence N. 88° 24' 30" W., along the north line of  
the SE $\frac{1}{4}$  of the SW $\frac{1}{4}$  a distance of 51.5 feet;
4. Thence S. 15° 26' W., a distance of 96.1 feet, more  
or less, to the point of beginning.

The above described parcel contains 0.117 acres, more or less.

for the purpose of:

Subject to the following terms and conditions:

And the Grantor hereby covenants and agrees with the Department that it has  
good title to the aforescribed premises; that it has good and lawful right  
to grant this easement; that it will warrant and defend the title and quiet  
possession thereof against the lawful claims of all persons whomsoever.

ORDINANCE NO. 47

Series of 1995

**AN ORDINANCE OF THE CITY OF GLENWOOD SPRINGS,  
COLORADO, PROVIDING FOR THE ANNEXATION TO THE  
CITY OF GLENWOOD SPRINGS, COLORADO, OF THAT  
TERRITORY DESCRIBED IN THIS ORDINANCE, LYING  
OUTSIDE OF BUT ADJACENT TO THE CITY OF GLENWOOD  
SPRINGS AND IN THE COUNTY OF GARFIELD, COLORADO.  
(WULFSOHN WEST PARCEL).**

WHEREAS, on or before August 18, 1995, one hundred percent (100%) of the landowners of the territory included in the area described in Exhibit "A" attached hereto and made a part hereof, exclusive of public streets and alleys, filed a Petition with the Clerk of the City of Glenwood Springs, Colorado, requesting that the City Council of the City of Glenwood Springs, Colorado, commence proceedings to annex to the City of Glenwood Springs, Colorado, the territory described in Exhibit "A" hereof; and

WHEREAS, the City Council of the City of Glenwood Springs, Colorado, commenced proceedings to annex the territory described in Exhibit "A" hereof to the City of Glenwood Springs, Colorado, and held a public hearing thereon on October 19, 1995, for the purpose of determining whether the territory described in Exhibit "A" met the applicable requirements of the Colorado Municipal Annexation Act of 1965 and was eligible for annexation; and

WHEREAS, the City Council, by Resolution No. 95-21, found and concluded, based upon the findings and conclusions more particularly set forth in said Resolution, that the territory described in Exhibit "A" hereof met the applicable requirements of the Colorado Municipal Annexation Act of 1965 and resolved to annex said territory to the said City of Glenwood springs, Colorado, by ordinance.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF GLENWOOD SPRINGS, COLORADO ORDAINS:

Section 1.

The territory described in Exhibit A hereby is annexed to and made a part of the City of Glenwood Springs, Colorado

Section 2.

In accordance with C.R.S. 31-12-113, the City Clerk is hereby directed to:

- A File one (1) copy of the annexation map with the original of the annexation ordinance in her office

- B. File for recording two (2) certified copies of the annexation ordinance and map of the area annexed containing a legal description of such area with the Garfield County Clerk and Recorder.

Series of 1995

**AN ORDINANCE OF THE CITY OF GLENWOOD SPRINGS,  
COLORADO, ZONING LAND RECENTLY ANNEXED TO  
THE CITY OF GLENWOOD SPRINGS (WULFSOHN  
ANNEXATION).**

WHEREAS, by Ordinance No. 47, Series of 1995, the City Council annexed to the City of Glenwood Springs, Colorado, the land described in Exhibit "A" attached hereto and incorporated herein by this reference; and

WHEREAS, after a public hearing on September 27, 1995, the Planning and Zoning Commission recommended that the subject property be zoned in the C-1 District; and

WHEREAS, after a second public hearing conducted by the City Council on October 19, 1995, the City Council affirmed the recommendation of the Planning and Zoning Commission and approved C-1 zoning for the subject property; and

WHEREAS, the City Council makes the following express findings:

- A Zoning of the subject property in the C-1 District is consistent with City Goals, policies and plans and is compatible with adjacent zoning designations and uses; and
- B The C-1 District is consistent with annexation policy.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF GLENWOOD SPRINGS, COLORADO, ORDAINS:

**Section 1.**

The property described in Exhibit "A", attached hereto and incorporated herein by this reference, is hereby zoned and included in the C-1 District. The official zoning map of the City is hereby amended to reflect the inclusion of the subject property in said District.

**Section 2.**

Any and all subdivision and development approvals heretofore granted by the City Council affecting the subject property are hereby ratified as being consistent with the zoning approval granted by the City Council on October 19, 1995. The execution of necessary agreements and permits consistent with any such approvals is hereby authorized. Nothing contained herein shall supersede Municipal Code requirements for issuing or exercising any Development Permit heretofore approved.

*City of Glenwood Springs  
806 Cooper Ave., 65 008/601*

Section 3.

The City Clerk is hereby directed to file a certified copy of this Ordinance for recordation with the Garfield County Clerk and Recorder.

# MIDLAND AVENUE RIGHT-OF-WAY ACQUISITION AGREEMENT

THIS AGREEMENT is made and entered into as of September 1, 1994, by and between UNION OIL COMPANY OF CALIFORNIA, a California corporation (hereinafter "Unocal"), and the CITY OF GLENWOOD SPRINGS, a Colorado home-rule municipality (hereinafter "City");

## WITNESSETH:

WHEREAS, Unocal is the owner of certain real property located in Garfield County, Colorado, commonly known as the Wulfsohn Ranch (hereinafter "Wulfsohn Ranch"); and

WHEREAS, Unocal is the owner of various water rights decreed to the Atkinson Canal, the headgate for which is generally located as described in the decree entered September 7, 1976, in Case No. W-2910 (Water Division No. 5); and

WHEREAS, the Atkinson Canal begins at a point south of the 27th Street bridge in the City of Glenwood Springs, extends northwesterly and generally parallel to the Roaring Fork River and Midland Avenue, then crosses the Wulfsohn Ranch; and

WHEREAS, the Atkinson Canal is used to provide irrigation water to irrigated portions of the Wulfsohn Ranch; and

WHEREAS, the City desires and intends to extend the existing Midland Avenue within the City of Glenwood Springs to the northwest from its current terminus, located south of the Wulfsohn Ranch, across the Wulfsohn Ranch, to a new bridge to be constructed across the Colorado River near the existing Interstate 70 exit for West Glenwood Springs (hereinafter the "Midland Extension Project"); and

WHEREAS, on January 13, 1994, and again on July 19, 1994, the City pursuant to C.R.S. §38-1-121 provided Unocal with formal notice of the City's intent to acquire that portion of the Wulfsohn Ranch which is needed to construct the Midland Extension Project; and

WHEREAS, as permitted under C.R.S. § 38-1-121, the City and Unocal have prepared appraisals and engaged in negotiations concerning the City's intended condemnation of a portion of the Wulfsohn Ranch; and

WHEREAS, Unocal has, under threat of condemnation by the City, agreed to convey to the City title to that portion of the Wulfsohn Ranch described in this Agreement, subject to the terms and conditions of this Agreement; and

WHEREAS, the parties desire to set forth herein their agreement concerning the conveyance from Unocal to the City of that portion of the Wulfsohn Ranch required for the Midland Extension Project, the compensation for such taking, and related matters.

NOW, THEREFORE, for and in consideration of the above recitals, the mutual covenants and agreements contained herein, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Unocal and the City agree as follows:

1. Taking. Conveyance of Midland Extension Right-of-Way. Under threat of condemnation, and in order to allow for the completion of the Midland Extension Project, Unocal shall, at closing, convey by warranty deed to the City that portion of the Wulfsohn Ranch described on Exhibit A, attached hereto and incorporated herein by this reference. The deed form shall be a Bradford Form No. 40B (Rev. 5-84), warranty deed from a corporation. Unocal shall reserve from this conveyance an easement thirty feet (30') in width for maintenance, operation, repair, and replacement of the Atkinson Canal, with such easement lying fifteen feet (15') on either side of centerline of the Atkinson Canal. Such conveyance shall be subject to easements, reservations, restrictions, and rights-of-way of record, existing and in place. The property conveyed shall hereinafter be referred to as the "Midland Extension Right-of-Way Parcel." The City shall obtain at its sole expense a title insurance commitment and title insurance policy for the Midland Extension Right-of-Way Parcel. Unocal shall be under no obligation whatsoever to cure or otherwise address any title exception or other adverse condition of title. The City agrees and acknowledges that Unocal's warranty of title shall be limited solely to those matters insured under the title insurance policy obtained by the City, and that the amount recoverable for any claim or matter arising with regard to said warranty shall be limited to insured amount as stated on the title insurance policy. Until the construction of the boundary line fence as provided in Paragraph 11, below, the City hereby licenses Unocal to use, at Unocal's sole risk, the Midland Extension Right-of-Way Parcel.

2. Compensation. At closing, the City shall pay to Unocal the following amounts as just compensation for the Midland Extension Right-of-Way Parcel, damages to the remainder of the Wulfsohn Ranch, and damages to Unocal's water rights historically used to irrigate portions of the Wulfsohn Ranch:

| <u>Item of Taking or Damage</u>          | <u>Compensation</u> |
|------------------------------------------|---------------------|
| A. Midland Extension Right-of-Way Parcel | \$40,330.00         |
| B. Damage to remainder (2-acre parcel)   | 2,500.00            |
| C. Damage to remainder (water rights)    | 34,000.00           |
| D. Temporary Construction Easement       | 250.00              |
| TOTAL                                    | \$77,080.00         |

3. Closing. Closing of the above-referenced transaction shall occur within ten (10) days of the execution of this Agreement. The City shall pay all costs of closing, except that real property taxes shall be prorated to the day of closing based upon the most recent mill levy and

meet recent assessment and shall be determined by the ratio the Midland Extension Right-of-Way Parcel bears to the Wulfsohn Ranch.

4. Water Rights. Nothing in this Agreement shall require or be construed as a conveyance by Unocal of any water rights decreed to the Atkinson Canal or otherwise appurtenant to the Wulfsohn Ranch. The City expressly acknowledges that Unocal shall retain title to any and all water rights appurtenant to the Midland Extension Right-of-Way Parcel conveyed to the City. In any water court proceeding Unocal undertakes involving the water rights appurtenant to the Midland Extension Right-of-Way Parcel, the City shall not file a statement of opposition alleging that Unocal has abandoned such water rights, nor shall the City intervene or otherwise participate in the case upon such basis.

5. Midland Extension Plans and Specifications. If and when the City proceeds to construct the Midland Extension Project, the City shall, at its sole expense and at no expense to Unocal except as expressly provided for herein, undertake and complete all road installation, road surfacing, grading, drainage improvements, fencing, culverting, and other work for the Midland Extension Project in accordance with (A) the plans entitled "City of Glenwood Springs, Alternate Route," prepared by Schmueser Gordon Meyer, Inc., bearing Job No. 92029, consisting of 12 sheets, and dated January 1, 1993 (Sheets 1-3), October 12, 1992 (Sheets 4-9 and 12) and December 4, 1992 (Sheets 10-12) (hereinafter "Midland Extension Project Plans"); (B) the April 1994 technical specifications prepared by Schmueser Gordon Meyer, Inc. for materials for canal culverting previously approved by Unocal in that certain agreement between the parties dated April 19, 1994, (hereinafter "Midland Extension Project Specifications"), and (C) the Engineering Standards attached hereto as Exhibit B and incorporated herein by this reference (hereinafter "Engineering Standards"). The Midland Extension Project Plans, the Midland Extension Project Specifications, and the Engineering Standards are hereinafter referred to individually, or collectively as the Midland Extension Project Plans and Specifications. Unocal hereby approves the Midland Extension Project Plans and Specifications, subject to the provisions of Paragraph 10, below.

6. Purpose. One of the purposes of this Agreement is to ensure that Unocal's interests, including specifically Unocal's ownership and use of the Atkinson Canal and Unocal's ownership of the remaining portions of the Wulfsohn Ranch, are not adversely affected by the City's Midland Extension Project. For purposes of this Agreement, all references to "Midland Extension Project" refers solely and specifically to those components of the City's project, as shown on the Midland Project Plans and Specifications, which affect the Atkinson Canal structure or easement, or drainage which affects the Atkinson Canal structure or easement, or any interest in the Wulfsohn Ranch retained by Unocal.

7. Project Control. The City shall be solely responsible for the construction, installation, and completion of the Midland Extension Project and appurtenant facilities and, except as expressly provided for herein to the contrary, all costs associated therewith. The City is authorized to commence the Midland Extension Project, as contemplated in the Midland Extension Project Plans and Specifications, upon execution of this Agreement by all parties

hereto; provided, however, no construction shall interfere with Unocal's ability to use the Atkinson Canal for irrigation purposes during the irrigation season, or otherwise interfere with Unocal's activities upon or operation of that portion of the Wulfsohn Ranch retained by Unocal.

8. Access to Wulfsohn Ranch. The City shall instruct its agents, contractors, subcontractors, material suppliers and employees to keep gates closed and take all steps consistent with sound construction site management to prevent third parties from accessing the Wulfsohn Ranch, and shall cooperate with Unocal to prevent third parties from accessing the Wulfsohn Ranch. Except for the temporary construction easement referred to in Paragraph 19, below, the City shall not without Unocal's prior written consent, enter upon or allow its agents, contractors, subcontractors, material suppliers or employees to enter upon those portions of the Wulfsohn Ranch owned by Unocal.

9. Non-Interference with Agricultural Operations. The City agrees, for itself and its agents, employees, contractors, subcontractors and material suppliers, to (A) keep construction activity for the Midland Extension Project within the Midland Extension Right-of-Way Parcel and the temporary construction easement referred to in Paragraph 19, below; (B) ensure that Unocal, its tenants and lessees will have access to the Wulfsohn Ranch during work on the Midland Extension Project, and (C) ensure that the Atkinson Canal will carry irrigation water and will be operational for use by Unocal, its tenants and lessees for irrigation and other purposes during the irrigation season (April 15-October 31) and, for that purpose, the City shall not undertake canal culverting or other work on the Atkinson Canal during the irrigation season.

10. Modifications of Midland Extension Project Plans and Specifications. In the event the City desires to subsequently modify the Midland Extension Project, as defined in Paragraph 6, above, from the Midland Extension Project Plans and Specifications, the City shall forward the proposed modifications to Unocal, which shall approve or disapprove the proposed modifications, and Unocal's approval shall not be unreasonably withheld. In the event Unocal disapproves the proposed modifications, the City Engineer (and/or consulting engineers) shall meet with Unocal representatives and Unocal's engineer to formulate alternatives necessary to implement this Agreement and complete the Midland Extension Project. The parties agree that time is of the essence to secure agreement upon any modifications to the Midland Extension Project Plans and Specifications. Notwithstanding the foregoing, in the event the City and Unocal cannot agree, the City shall construct the Midland Extension Project pursuant to the original Midland Extension Project Plans and Specifications.

11. Fencing. Prior to commencement of any work on the Midland Extension Project, but in no event later than April 15, 1995, the City shall at its expense install fencing along the Midland Extension Right-of-Way Parcel boundary as provided in this Paragraph. In those areas not subject to the temporary construction easement as provided in Paragraph 19, below, the City shall install permanent fencing, which shall be four-strand barbed wire. In those areas subject to temporary easements as provided in Paragraph 19, below, the City shall install temporary fencing which shall be replaced with permanent fencing (four-strand barbed wire) at the time the project is completed or at the time the temporary easement is no longer required, whichever first

occurs. After completion of the Midland Extension Project, the City at its expense shall maintain, repair and replace all fencing along the Midland Extension Right-of-Way Parcel, unless damage is caused by ranching operations on the Wulfsohn Ranch.

12. Inspections. Unocal shall have the right to undertake such inspections of the Midland Extension Project as Unocal deems appropriate at any time prior to, during, or after completion of the same; provided, however, that such inspections shall be limited to Unocal's interest in the Midland Extension Project as set forth in Paragraph 6, above. Further, the City agrees to provide Unocal's engineer seven (7) days' written notice prior to the commencement of any work on or within the Atkinson Canal easement reserved by Unocal. The City shall not cover or bury any portion of culvert installed for the Atkinson Canal until it has provided Unocal and Unocal's engineer forty-eight (48) hours' notice and the opportunity to inspect and approve the facilities, and until it has received notice from Unocal that the City may proceed to cover or bury the facilities. If Unocal fails to respond within 48 hours to a notice the City provides prior to burying or covering facilities, the City shall be entitled to treat such non-response as approval and proceed to cover or bury the culverts or facilities.

13. Nonconforming Work. In the event the City completes or constructs the Midland Extension Project, as defined in Paragraph 6, above, contrary in a material manner to the Midland Extension Project Plans and Specifications and any modifications approved pursuant to Paragraph 10, above, or fails to complete the Midland Extension Project, which installation or failure adversely affects Unocal's interest as determined by Unocal in its reasonable discretion, the City, at its sole expense, shall upon demand by Unocal undertake all work required to bring the Midland Extension Project into conformance with the Midland Extension Project Plans and Specifications. Unocal shall be entitled to enforce this right by an action at law or equity, including an action for specific performance.

14. Midland Extension Access Points.

A. Farm Access. The City shall provide to Unocal three access points for use by Unocal in connection with its farming and ranching operations on the Wulfsohn Ranch. For this purpose, the City shall install two farm access points on the south boundary and one farm access point on the north boundary (which shall provide for access to the approximately 5-acre outparcel created by the conveyance of the Midland Extension Right-of-Way Parcel and located north of such right-of-way in the westerly end of the Wulfsohn Ranch). Such farm access points shall be gates located in the fence constructed pursuant to Paragraph 11, above, which gates shall be a minimum of 16 feet in width. The City hereby grants Unocal the right to utilize such access points pending development of the Wulfsohn Ranch property and the conversion of or replacement of such access points to or with the development access points as provided for in subparagraph B, below. Prior to closing, Unocal shall specify the location of the access points, which locations shall be mutually agreed upon by the parties, and which agreement shall not be unreasonably withheld. The gates shall have or be of

equal or better specifications than those for the existing 16-foot (16') gate at the entrance to the Wulfsohn Ranch.

- B. Development Access Points. The City agrees to provide to Unocal three access points from the Midland Extension Right-of-Way Parcel onto the Wulfsohn Ranch property at such time as Unocal desires to develop the Wulfsohn Ranch property. One access point shall be for the north outparcel created on the west end of the Wulfsohn Ranch as a result of the Midland Extension Project. Two access points shall be for the developable portions of the Wulfsohn Ranch property located south of the Midland Extension Right-of-Way Parcel. The actual location and design of such access points shall be subject to engineering considerations and approval by the City, which approval shall not be unreasonably withheld. Such accesses shall be constructed to agreed upon specifications at Unocal's sole expense; provided, however, the City shall not, as a condition of granting such accesses, require Unocal to pay the City any consideration whatsoever.
- C. Existing Access to 2-Acre Outparcel. Unocal shall be entitled to maintain its existing farm access to the 2-acre outparcel created by conveyance of the Midland Extension Right-of-Way Parcel and located in the southeastern portion of the Wulfsohn Ranch; provided, however, that such access point may be relocated as or converted to a development access by mutual consent of Unocal and the City, and consistent with sound engineering practices.

15. Farm Access Road and Pump Relocation. As a result of the City's acquisition of the Midland Extension Right-of-Way Parcel and the construction of the Midland Extension Project, a new farm access road will be required from the existing Midland Avenue on the south end of the Wulfsohn Ranch. In addition, Unocal will be required to relocate its existing pump station in the Atkinson Canal, also located generally in the southeastern portion of the Wulfsohn Ranch. Unocal shall undertake the construction of a new farm access road and the relocation of the pump station. The City agrees to pay Unocal the sum of \$12,000.00 at closing as total compensation for such costs. The City also agrees to extend electrical service to the relocated pump station at the City's sole cost. Unocal agrees to convey to the City a non-exclusive easement, not to exceed fifteen feet (15') in width, for installation, maintenance, operation, repair and replacement of the electric facilities. The easement shall be adjacent to the new farm access road or in location mutually agreed upon by the parties.

16. Atkinson Canal Crossings; Utility Sleeves. The City shall as part of the Midland Extension Project, and at its expense, install those crossing and culverts for the Wulfsohn Ranch portion of Atkinson Canal as shown on the Midland Extension Project Plans and Specifications. Unocal shall have the right to purchase sleeves for utility installation and other utility purposes. The City shall install the utility sleeves at Unocal's expense as part of the Midland Extension Project. The location of and specifications for any utility sleeves shall be mutually agreed upon by Unocal and the City, and the City's approval shall not be unreasonably withheld. The City further agrees that, subject to engineering considerations to ensure that the use of the Midland

Extension Right-of-Way is not interfered with for road and access purposes. Unocal shall be entitled to install underground utilities within the Midland Extension Right-of-Way, subject to the City's line extension policy in effect at the time of installation.

17. Completion; Conveyance of Unocal Facilities. Upon completion of the Midland Extension Project, the City Engineer shall furnish Unocal with a reproducible copy of the as-built drawings for all portions of the Midland Extension Project, together with written certification that the Atkinson Canal crossings, culverts and appurtenant facilities, and utility sleeves, were completed in substantial conformance with the Midland Extension Project Plans and Specifications, and any approved modifications and change orders. Upon such receipt, Unocal shall then provide the City written notification of its acceptance of the Atkinson Canal crossings, culverts, and appurtenant facilities, which date shall be known as the Acceptance Date. Within thirty (30) days of the Acceptance Date, the City shall execute a bill of sale conveying to Unocal, free and clear of all liens and encumbrances, the Atkinson Canal culverts and other facilities which the parties mutually agree shall be conveyed to Unocal. The City shall also provide Unocal with lien waivers for all property conveyed from all contractors, subcontractors, and material suppliers. Once conveyed to Unocal, subject to the warranty provisions of Paragraph 18, below, Unocal shall be solely responsible for operation, maintenance, repair, and replacement of Atkinson Canal culverts and appurtenant facilities.

18. Warranty. The City shall warrant all facilities which are conveyed to Unocal pursuant to this Agreement for a period of one (1) year from the Acceptance date. Specifically, but not by way of limitation, the City shall warrant that any and all facilities conveyed to Unocal shall be free of any defects in materials or workmanship for a period of one (1) year.

19. Temporary Construction Easement. Unocal hereby grants to the City a temporary construction easement (shoofly construction easement), more particularly described on Exhibit C, attached hereto and incorporated herein by this reference, not to exceed a total 0.1 acres, upon the Wulfsohn Ranch for the sole purpose of the Midland Extension Project. The City shall use these temporary easements only as necessary, as determined pursuant to the engineering and construction requirements for the Midland Extension and installation of appurtenant facilities. All temporary construction easements shall terminate upon completion of the Midland Extension or on December 31, 1996, whichever first occurs.

20. Drainage and Tailwater. Unocal shall have the right to continue irrigation of the retained portions of the Wulfsohn Ranch. The Midland Extension Project shall include adequate facilities and/or provisions for disposal of tailwater. To the extent the Midland Extension Project creates any alteration of historical drainage patterns which result in disputes with or claims by downgradient drainage recipients, the City hereby acknowledges that it shall at its expense be solely responsible for resolving such disputes or claims, and that it shall indemnify Unocal as provided in Paragraph 23, below.

21. Gas Line Relocation. In the event Rocky Mountain Natural Gas undertakes to relocate its existing natural gas line located on the Wulfsohn Ranch, the City agrees to allow

Rocky Mountain Natural Gas to relocate such gas line within the Midland Extension Right-of-Way, provided such line does not interfere with the Midland Extension Right-of-Way.

22. Scope. This Agreement applies only to the City's Midland Avenue Extension Project upon Unocal's Wulfsohn Ranch. The terms hereof shall not extend to, nor shall they be construed in any manner to extend to or be a precedential effect, with regard to any other improvements to any other portion of the Atkinson Canal or other property interests of Unocal. The parties expressly agree the compensation paid pursuant to this Agreement shall be of no precedential or evidentiary value in any future eminent domain proceeding between the parties.

23. Indemnity. To the extent permitted by law, the City shall indemnify and hold Unocal, its parent, subsidiary, and/or affiliate companies and the respective directors, officers, agents, and employees thereof, free and harmless from and against any and all liabilities, suits, claims, actions, proceedings, judgments, decrees, settlements, demands, and causes of action of all kinds, including but not limited to claims of damages to or losses of property of Unocal or others, injury, illness, or death, attorneys' fees and costs which arise from or in any manner relate to:

- A. Work performed, facilities installed, or materials provided by the City, its contractors, subcontractors, materialmen, or others in connection with the City's work on or installation of the Midland Extension Project and appurtenant facilities.
- B. Damages of any type claimed by any landowner, tenant, or other person located downstream or downgradient of the Wulfsohn Ranch or Atkinson Canal which arise from or relate to the City's work on or installation of the Midland Extension and appurtenant facilities.
- C. Damages of any type claimed by any landowner, tenant, or other person located downstream of the Atkinson Canal or otherwise which are caused by the City's work on or installation of the Midland Extension Project.
- D. The City's use of the Wulfsohn Ranch or any activity done or permitted by the City.
- E. Any breach by the City of its obligations under this Agreement.
- F. Any act or omission of the City, its agents, contractors, employees, or invitees taken pursuant to this Agreement or upon the Wulfsohn Ranch

The City shall be solely responsible to defend any such action, proceeding, or claim for which Unocal may be entitled to indemnification, and Unocal hereby agrees to fully cooperate with the City in the defense or settlement, as the case may be, of such action, proceeding, or claim, but Unocal reserves the right to participate in the defense of any such action, proceeding,

or claim at its own expense. The City shall give written notice to Unocal within ten (10) days after the City's actual knowledge of any matter giving rise to the obligation contained in this Paragraph. No insurance requirements shall be construed to limit this indemnity, which shall be effective to the maximum extent permitted by applicable law. As between Unocal and the City, the City hereby expressly waives any defenses of governmental immunity as provided in C.R.S. §24-10-101 et seq., as necessary to effectuate this indemnity; except, however, that the City expressly reserves all rights to assert governmental immunity with regard to any claims of third parties against the City.

24. Attorneys' Fees. The City shall pay Unocal its reasonable attorneys' fees incurred in the negotiation, execution, and implementation of this Agreement in the amount of approximately \$11,000. Otherwise, each party shall bear its own attorneys' fees. However, in the event litigation is necessary to enforce the rights of the parties to this Agreement, as between themselves, the prevailing party in such litigation shall be entitled to reasonable attorneys' fees and costs of suit actually incurred.

25. Engineering and Consulting Fees. The City shall pay directly all of Unocal's engineering, consulting, surveying, and inspection costs and fees for the negotiation, execution, and implementation of this Agreement ("Engineering and Consulting Fees"). These Engineering and Consulting Fees shall specifically include, but not be limited to, costs and fees for review of plans, change orders, and contract documents; field work, inspections, and drafting. The parties agree that Unocal's Engineering and Consulting Fees incurred to date are approximately \$2,750. The Engineering and Consulting Fees Unocal anticipates incurring in the future are approximately \$3,000 and shall not, so long as the City complies with the terms of this Agreement, exceed \$5,000. Unocal shall submit to the City for its review, prior to payment, copies of all bills for Engineering and Consulting Fees.

26. Complete Agreement; Amendment. This Agreement constitutes the entire and complete agreement between the parties, and any modification or amendment hereto shall be evidenced by a writing signed by the parties.

27. Binding Effect; Survival. This Agreement shall be binding upon and inure to the benefit of the parties, their successors, grantees, and assigns. Each term and condition of this Agreement shall survive the closing on the Midland Extension Right-of-Way Parcel.

28. Authority. Each person executing this Agreement represents and warrants that he has been duly authorized by the party which he purports to represent to execute this Agreement, and has authority to bind said party to the terms and conditions of this Agreement.

29. Governing Law. This Agreement shall be construed under the laws of the State of Colorado.

30. No Waiver. No provision of this Agreement may be waived except by an agreement in writing signed by the waiving party. A waiver of any term or provision shall not

be construed as a waiver of any other term or provision.

31. Headings. The paragraph headings in this Agreement shall not be used in the construction or interpretation hereof, as they have no substantive effect and are for convenience only.

32. Severability. If any part or section of this Agreement shall be found void or invalid by a court of competent jurisdiction, such finding shall not affect any remaining part or section, and said remaining parts or sections shall continue in full force and effect. The parties shall renegotiate in good faith any matter addressed by a part or section that is found void or invalid.

33. Notice. All notices required under this Agreement shall be in writing and shall be hand delivered or sent by registered or certified mail, return receipt requested, postage prepaid, to the addresses of the parties herein set forth. All notices so given shall be considered effective seventy-two (72) hours after deposit postage paid in the United States Mail with the proper address as set forth below. Either party by notice so given may change the address to which future notices shall be sent.

34. Signatures; Counterparts. Unocal and the City agree that signatures obtained by facsimile transmission shall be sufficient and binding for purposes of this Agreement, and that original signatures shall be forwarded to each party. This Agreement may be executed in multiple original counterparts, each of which shall constitute an original but all of which shall

0916 PAC: 874

constitute one and the same document.

IN WITNESS WHEREOF, the parties have executed this Midland Avenue Extension Agreement in duplicate originals on the day and year first written above.

Legal Description:

A parcel of land situated in Sections 5, 6, 8, and 9, Township 6 South, Range 89 West of the Sixth Principal Meridian, County of Garfield, State of Colorado, said parcel being more particularly described as follows:

Beginning at a point on the Southerly Right-of-Way of the Denver and Rio Grande Western Railroad whence the Southwest corner of said Section 5 bears South 35 degrees 52 minutes 14 seconds East (S 35°52'14" E), a distance of 1220.84 feet; thence

North 83 degrees 39 minutes 00 seconds East (N 83°39'00" E), along said Right-of-Way a distance of 189.97 feet; thence leaving said Right-of-Way

South 42 degrees 36 minutes 07 seconds East (S 42°36'07" E), a distance of 17.15 feet; thence

along a curve to the left having a radius of 710.00 feet, arc length of 677.30 feet, delta angle of 54 degrees 39 minutes 24 seconds (54°39'24"), a chord bearing of South 69 degrees 53 minutes 49 seconds East (S 69°53'49" E), and a chord length of 651.91 feet; thence

North 82 degrees 44 minutes 30 seconds East (N 82°44'30" E), a distance of 80.93 feet; thence

along a curve to the left having a radius of 500.00 feet, arc length of 194.98 feet, delta angle of 22 degrees 20 minutes 35 seconds (22°20'35"), a chord bearing of North 71 degrees 34 minutes 13 seconds East (N 71°34'13" E), and a chord length of 193.75 feet; thence

North 60 degrees 23 minutes 56 seconds East (N 60°23'56" E), a distance of 185.42 feet; thence

North 56 degrees 39 minutes 41 seconds East (N 56°39'41" E), a distance of 230.74 feet; thence

North 75 degrees 18 minutes 08 seconds East (N 75°18'08" E), a distance of 201.74 feet; thence

North 06 degrees 21 minutes 00 seconds West (N 06°21'00" W), a distance of 20.00 feet to a point on said Southerly Right-of-Way of said Denver and Rio Grande Western Railroad; thence along said Right-of-Way the following eighteen (18) courses:

North 83 degrees 39 minutes 00 seconds East (N 83°39'00" E), a distance of 103.88 feet; thence

North 84 degrees 33 minutes 30 seconds East (N 84°33'30" E), a distance of 195.3 feet; thence

along a curve to the right having a radius of 2181.8 feet, arc length of 155.4 feet, delta angle of 04 degrees 04 minutes 45 seconds (04°04'45"), a chord bearing of North 83 degrees 11 minutes 30 seconds East (N 83°11'30" E), and a chord length of 155.3 feet; thence

South 81 degrees 15 minutes 00 seconds East (S 81°15'00" E), a distance of 190.6 feet; thence

along a curve to the right having a radius of 2161.8 feet, arc length of 290.6 feet, delta angle of 07 degrees 42 minutes 09 seconds (07°42'09"), a chord bearing of

0916-20: 876

South 80 degrees 55 minutes 00 seconds East (S 80°55'00" E), and a chord length of 290.4 feet; thence

South 78 degrees 25 minutes 00 seconds East (S 78°25'00" E), a distance of 194.2 feet; thence

South 77 degrees 33 minutes 00 seconds East (S 77°33'00" E), a distance of 192.2 feet; thence

South 74 degrees 34 minutes 00 seconds East (S 74°34'00" E), a distance of 900.0 feet; thence

South 77 degrees 25 minutes 30 seconds East (S 77°25'30" E), a distance of 200.3 feet; thence

South 74 degrees 34 minutes 00 seconds East (S 74°34'00" E), a distance of 977.1 feet; thence

South 75 degrees 29 minutes 00 seconds East (S 75°29'00" E), a distance of 223.6 feet; thence

along a curve to the right having a radius of 1342.4 feet, arc length of 1063.7 feet, delta angle of 45 degrees 24 minutes 00 seconds (45°24'00"), a chord bearing of South 47 degrees 11 minutes 47 seconds East (S 47°11'47" E), and a chord length of 1036.1 feet; thence

South 21 degrees 28 minutes 30 seconds East (S 21°28'30" E), a distance of 223.7 feet; thence

South 19 degrees 50 minutes 00 seconds East (S 19°50'00" E), a distance of 125.9 feet; thence

South 28 degrees 22 minutes 00 seconds East (S 28°22'00" E), a distance of 101.1 feet; thence

South 19 degrees 50 minutes 00 seconds East (S 19°50'00" E), a distance of 361.9 feet; thence

South 21 degrees 31 minutes 00 seconds East (S 21°31'00" E), a distance of 237.0 feet; thence

along a curve to the left having a radius of 1507.4 feet, arc length of 526.55 feet, delta angle of 20 degrees 00 minutes 50 seconds (20°00'50"), a chord bearing of South 34 degrees 30 minutes 23 seconds East (S 34°30'23" E), and a chord length of 523.87 feet; thence leaving said Southerly Right-of-Way

South 54 degrees 54 minutes 14 seconds West (S 54°54'14" W), a distance of 20.00 feet; thence

South 35 degrees 05 minutes 46 seconds East (S 35°05'46" E), a distance of 163.12 feet; thence

along a curve to the left having a radius of 950.00 feet, arc length of 250.62 feet, delta angle of 15 degrees 06 minutes 54 seconds (15°06'54"), a chord bearing of South 42 degrees 39 minutes 13 seconds East (S 42°39'13" E), and a chord length of 249.89 feet; thence

South 50 degrees 12 minutes 40 seconds East (S 50°12'40" E), a distance of 91.26 feet; thence

South 39 degrees 47 minutes 20 seconds West (S 39°47'20" W), a distance of 10.00 feet; thence

South 50 degrees 12 minutes 40 seconds East (S 50°12'40" E), a distance of 18.00 feet; thence

0916-877

North 39 degrees 47 minutes 20 seconds East (N 39°47'20" E), a distance of 10.00 feet; thence

South 50 degrees 12 minutes 40 seconds East (S 50°12'40" E), a distance of 259.08 feet; thence

along a curve to the right having a radius of 1050.00 feet, arc length of 133.74 feet, delta angle of 07 degrees 17 minutes 53 seconds (07°17'53"), a chord bearing of South 46 degrees 33 minutes 43 seconds East (S 46°33'43" E), and a chord length of 133.65 feet; thence

South 42 degrees 54 minutes 47 seconds East (S 42°54'47" E), a distance of 112.05 feet; thence

along a curve to the left having a radius of 715.00 feet, arc length of 198.66 feet, delta angle of 15 degrees 55 minutes 11 seconds (15°55'11"), a chord bearing of South 50 degrees 52 minutes 22 seconds East (S 50°52'22" E), and a chord length of 198.03 feet to a point on the East line of the SW1/4NW1/4 said Section 9; thence along said East line,

South 00 degrees 39 minutes 40 seconds West (S 00°39'40" W), a distance of 50.40 feet to a point on the Southerly ROW of Midland Avenue; thence along said southerly ROW

South 44 degrees 34 minutes 25 seconds East (S 44°34'25" E), a distance of 112.84 feet to a point on the Northerly ROW of Red Mountain Drive; thence along said Northerly ROW

along a curve to the left having a radius of 124.00 feet, arc length of 73.43 feet, delta angle of 33 degrees 55 minutes 44 seconds (33°55'44"), a chord bearing of South 58 degrees 09 minutes 53 seconds West (S 58°09'53" W), and a chord length of 72.36 feet; thence

North 54 degrees 37 minutes 50 seconds West (N 54°37'50" W), a distance of 373.48 feet;

North 43 degrees 25 minutes 51 seconds West (N 43°25'51" W), a distance of 220.96 feet; thence

North 50 degrees 12 minutes 40 seconds West (N 50°12'40" W), a distance of 131.37 feet; thence

along a non-tangent curve to the left having a radius of 200.00 feet, arc length of 42.95 feet, delta angle of 12 degrees 18 minutes 18 seconds (12°18'18"), a chord bearing of North 72 degrees 17 minutes 46 seconds West (N 72°17'46" W), and a chord length of 42.87 feet; thence

North 78 degrees 26 minutes 55 seconds West (N 78°26'55" W), a distance of 27.55 feet; thence

along a curve to the right having a radius of 100.00 feet, arc length of 95.96 feet, delta angle of 54 degrees 58 minutes 54 seconds (54°58'54"), a chord bearing of North 50 degrees 57 minutes 28 seconds West (N 50°57'28" W), and a chord length of 92.32 feet; thence

North 23 degrees 28 minutes 01 seconds West (N 23°28'01" W), a distance of 143.44 feet; thence

North 41 degrees 03 minutes 52 seconds West (N 41°03'52" W), a distance of 291.31 feet; thence

North 30 degrees 38 minutes 03 seconds West (N 30°38'03" W), a distance of 271.57 feet; thence

0916-878

South 54 degrees 53 minutes 57 seconds West (S 54°53'57" W), a distance of 17.75 feet; thence

North 41 degrees 39 minutes 20 seconds West (N 41°39'20" W), a distance of 43.30 feet; thence

North 54 degrees 53 minutes 57 seconds East (N 54°53'57" E), a distance of 22.69 feet; thence

North 35 degrees 06 minutes 03 seconds West (N 35°06'03" W), a distance of 21.42 feet; thence

along a curve to the right having a radius of 1165.00 feet, arc length of 272.23 feet, delta angle of 13 degrees 23 minutes 18 seconds (13°23'18"), a chord bearing of North 28 degrees 24 minutes 24 seconds West (N 28°24'24" W), and a chord length of 271.61 feet; thence

North 21 degrees 42 minutes 46 seconds West (N 21°42'46" W), a distance of 764.09 feet; thence

South 68 degrees 17 minutes 14 seconds West (S 68°17'14" W), a distance of 29.01 feet; thence

North 23 degrees 26 minutes 12 seconds West (N 23°26'12" W), a distance of 78.05 feet; thence

North 68 degrees 17 minutes 14 seconds East (N 68°17'14" E), a distance of 31.36 feet; thence

North 21 degrees 42 minutes 46 seconds West (N 21°42'46" W), a distance of 179.06 feet; thence

along a curve to the left having a radius of 1190.00 feet, arc length of 1104.51 feet, delta angle of 53 degrees 10 minutes 46 seconds (53°10'46"), a chord bearing of North 48 degrees 18 minutes 08 seconds West (N 48°18'08" W), and a chord length of 1065.29 feet; thence

North 76 degrees 22 minutes 36 seconds West (N 76°22'36" W), a distance of 559.87 feet; thence

North 74 degrees 18 minutes 47 seconds West (N 74°18'47" W), a distance of 339.00 feet; thence

South 25 degrees 41 minutes 14 seconds West (S 25°41'14" W), a distance of 42.89 feet; thence

North 66 degrees 02 minutes 34 seconds West (N 66°02'34" W), a distance of 143.01 feet; thence

North 18 degrees 39 minutes 45 seconds West (N 18°39'45" W), a distance of 29.17 feet; thence

North 79 degrees 07 minutes 45 seconds West (N 79°07'45" W), a distance of 369.05 feet; thence

South 14 degrees 21 minutes 02 seconds West (S 14°21'02" W), a distance of 62.19 feet; thence

North 77 degrees 45 minutes 41 seconds West (N 77°45'41" W), a distance of 150.75 feet; thence

North 08 degrees 06 minutes 07 seconds West (N 08°06'07" W), a distance of 62.58 feet; thence

North 74 degrees 58 minutes 24 seconds West (N 74°58'24" W), a distance of 294.83 feet; thence

South 47 degrees 20 minutes 20 seconds West (S 47°20'20" W), a distance of 37.65 feet; thence

00916 879

North 87 degrees 48 minutes 31 seconds West (N 87°48'31" W), a distance of 164.69 feet; thence

North 72 degrees 50 minutes 12 seconds West (N 72°50'12" W), a distance of 30.90 feet; thence

North 15 degrees 26 minutes 00 seconds East (N 15°26'00" E), a distance of 81.35 feet; thence

North 79 degrees 21 minutes 26 seconds West (N 79°21'26" W), a distance of 693.85 feet; thence

South 13 degrees 24 minutes 04 seconds West (S 13°24'04" W), a distance of 18.04 feet; thence

South 24 degrees 13 minutes 10 seconds West (S 24°13'10" W), a distance of 200.33 feet; thence

North 83 degrees 20 minutes 39 seconds West (N 83°20'39" W), a distance of 29.12 feet; thence

North 04 degrees 06 minutes 37 seconds East (N 04°06'37" E), a distance of 84.94 feet; thence

North 89 degrees 22 minutes 01 seconds West (N 89°22'01" W), a distance of 220.22 feet; thence

along a curve to the left having a radius of 400.00 feet, arc length of 138.27 feet, delta angle of 19 degrees 48 minutes 21 seconds (19°48'21"), a chord bearing of South 80 degrees 43 minutes 49 seconds West (S 80°43'49" W), and a chord length of 137.58 feet; thence

South 70 degrees 49 minutes 38 seconds West (S 70°49'38" W), a distance of 233.79 feet; thence

South 62 degrees 29 minutes 21 seconds West (S 62°29'21" W), a distance of 379.58 feet; thence

South 02 degrees 31 minutes 55 seconds West (S 02°31'55" W), a distance of 137.01 feet; thence

South 89 degrees 05 minutes 38 seconds West (S 89°05'38" W), a distance of 386.55 feet; thence

along a curve to the right having a radius of 880.00 feet, arc length of 580.98 feet, delta angle of 37 degrees 49 minutes 37 seconds (37°49'37"), a chord bearing of North 71 degrees 59 minutes 34 seconds West (N 71°59'34" W), and a chord length of 570.49 feet; thence

North 53 degrees 04 minutes 45 seconds West (N 53°04'45" W), a distance of 232.27 feet; thence

North 44 degrees 34 minutes 50 seconds West (N 44°34'50" W), a distance of 72.53 feet to the point of beginning. Said parcel contains 27.13 acres more or less.

Subject to easements, reservations, restrictions and rights-of-way of record, existing and in place.

1) **Conveyance of Roadway Drainage away from Atkinson Canal**

Between STA. 314+00 and STA. 323+50 the Midland Extension across Wulfsohn Ranch is located immediately above the Atkinson Canal. No roadway drainage from either side of the road shall be allowed to discharge into the Atkinson Canal. This shall be accomplished at the City's discretion, by construction of either curb and gutter or drainage swales adjacent to the paved surface. Drainage swales or curb and gutter shall start at, and discharge into the 24" diameter CMP culvert identified on the plans at STA 313+25.60. The drainage swales or curb and gutter shall extend to and discharge into the 48" diameter CMP culvert identified on the plans at STA 324+95.11.

2) **Access to 2 ± Acre Ou. Parcel Located Northerly and Easterly of Proposed Midland Extension Between STA. 314+00 and STA 329+00.**

Historically, access to the Wulfsohn Ranch has been from the north terminus of Midland Avenue. Access along the historic route shall be maintained by construction of a new "farm access" driveway located at approximately STA 313+50. The exact location shall be at the discretion of the City but shall be located between STA 313+00 and STA 314+00. The farm access driveway shall tie into the existing access road and shall be constructed at a grade of 8% or less.

**EXHIBIT B**

Page 2 of 2

- 3) Location of Storm Drainage and Irrigation Tail water Ditches STA. 324 + 95.11 to STA 405 + 90.80.

All ditches constructed for the purposes of collecting storm water or irrigation runoff water shall be constructed within the Midland Extension Right-of-Way Parcel owned by the City. All such ditches shall discharge to culverts that will convey storm water and irrigation tail water across the Midland Extension. Where storm drainage and tail water ditches are located below historic irrigated land of the Wulfsohn Ranch such ditches shall be capable of conveying, at times, all water rights appurtenant to the Atkinson Canal totalling approximately 24 cfs.

## PARCEL # 1 LEGAL DESCRIPTION

All that property located in the NW1/4 NW1/4 and E1/2 NW1/4 of Section 8; that portion of the NW1/4 of said Section 8 located south of the Southerly Right of Way line of the Midland Avenue Right of Way Acquisition; that portion of the W1/2 NW1/4 of Section 9 located south of the Southerly Right of Way line of said Midland Avenue Right of Way Acquisition; that portion of the SE1/4 of the NW1/4 of said Section 9 being triangular in shape bounded on the west by the Westerly line of the SE1/4 NW1/4 of said Section 9, on the north by the Southerly line of said Midland Avenue Right of Way Acquisition and on the south by the West line of the Red Mountain Drive Right of Way; that portion of the S1/2 S1/2 of Section 5 located south of the Southerly Right of Way line of said Midland Avenue Right of Way Acquisition; that portion of the SE1/4 SE1/4 of Section 6 located south of the Southerly Right of Way line of said Midland Avenue Right of Way Acquisition and the Denver & Rio Grande Western Railroad Right of Way All located in Township 8 South, Range 80 East of the 6th Principal Meridian. The property as mentioned above being more particularly described by Metes and Bounds for acreage as follows:

Beginning at the South East corner of said Section 6; thence S75°55'37"E, a distance of 1316.18 feet along the Southerly line of said Section 6 to the East 1/16 corner common to said Sections 6 and 7; thence N8°07'55"E, a distance of 1253.02 feet along the West line of the SE1/4 SE1/4 of said Section 8 to the Southerly Right of Way line of said Denver Rio Grande Western Railroad Right of Way; thence along said Right of Way line the following (2) courses: thence N86°20'11"E, a distance of 58.27 feet; thence N83°38'11"E, a distance of 480.07 feet to the Southerly Right of Way line of said Midland Avenue Right of Way Acquisition; thence along said Right of Way line the following (47) courses, thence S44°38'36"E, a distance of 72.53 feet; thence S33°05'31"E, a distance of 232.27 feet; thence along the arc of a curve to the left a distance of 580.98 feet, having a radius of 880.00 feet, the chord of which bears S72°00'20"E, a distance of 570.49 feet; thence N89°04'52"E, a distance of 328.55 feet; thence N02°31'09"E, a distance of 137.01 feet; thence N62°28'36"E, a distance of 379.58 feet; thence N70°48'52"E, a distance of 238.79 feet; thence along the arc of a curve to the right a distance of 138.27 feet, having a radius of 400.00 feet, the chord of which bears N80°42'05"E, a distance of 139.58 feet; thence S89°22'47"E, a distance of 220.22 feet; thence S04°05'51"W, a distance of 84.94 feet; thence S88°21'25"E, a distance of 29.12 feet; thence N84°12'24"E, a distance of 200.33 feet; thence N15°31'18"E, a distance of 18.04 feet; thence S73°22'12"E, a distance of 698.85 feet; thence S16°35'14"W, a distance of 81.35 feet; thence S72°50'58"E, a distance of 30.30 feet; thence S87°49'17"E, a distance of 184.89 feet; thence N47°19'34"E, a distance of 37.65 feet; thence S75°59'10"E, a distance of 294.83 feet; thence S08°08'53"E, a distance of 62.58 feet; thence S74°45'37"E, a distance of 150.75 feet; thence N1°20'16"E, a distance of 62.19 feet; thence S79°09'31"E, a distance of 369.05 feet; thence S18°40'31"E, a distance of 29.17 feet; thence S68°09'20"E, a distance of 143.01 feet; thence N25°40'28"E, a distance of 42.89 feet; thence S74°19'35"E, a distance of 339.00 feet; thence S76°23'22"E, a distance of 559.87 feet; thence along the arc of a curve to the right a distance of 1104.51 feet, having a radius of 1190.00 feet, the chord of which bears S48°18'54"E, a distance of 1085.29 feet; thence S21°43'32"E, a distance of 179.05 feet; thence S88°18'28"W, a distance of 31.38 feet; thence S23°28'58"E, a distance of 78.06 feet; thence N88°18'48"E, a distance of 29.01 feet; thence S24°43'32"E, a distance of 764.09 feet; thence along the arc of a curve to the left a distance of 272.23 feet, having a radius of 1165.00 feet, the chord of which bears S28°25'10"E, a distance of 277.01 feet; thence S35°08'49"E, a distance of 221.42 feet; thence S64°53'11"E, a distance of 22.69 feet; thence S41°49'05"E, a distance of 43.30 feet; thence N64°53'11"E, a distance of 17.75 feet; thence S30°38'49"E, a distance of 271.57 feet; thence S41°04'38"E, a distance of 291.31 feet; thence S23°28'47"E, a distance of 143.44 feet; thence along the arc of a curve to the left a distance of 95.98 feet, having a radius of 100.00 feet, the chord of which bears S50°59'14"E, a distance of 92.32 feet; thence S78°27'41"E, a distance of 27.55 feet; thence along the arc of a curve to the right a distance of 42.95 feet, having a radius of 200.00 feet, the chord of which bears S72°18'32"E, a distance of 42.87 feet; thence S50°13'25"E, a distance of 131.37 feet; thence S43°26'37"E, a distance of 220.95 feet; thence S54°38'35"E, a distance of 372.46 feet to the Westerly Right of Way line of said Red Mountain Drive Right of Way; thence along said Right of Way line the following (2) courses: thence along the arc of a curve to the left a distance of 35.93 feet, having a radius of 124.00 feet, the chord of which bears S32°55'08"W, a distance of 35.80 feet to the East line of the SW1/4 NW1/4 of said Section 9; thence along said East line S00°39'40"W, a distance of 82.52 feet to the Center West 1/16 corner of said Section 9; thence leaving said Right of Way and along the East West center line of said Section 9 N88°48'57"W, a distance of 1318.50 feet to the East 1/4 corner of said Section 8; thence along the East West center line of said Section 8 N89°15'16"W, a distance of 2735.34 feet to the Center 1/4 corner of said Section 8; thence continuing along the East West center line of said Section 8 N89°15'16"W, a distance of 1363.17 feet to the Center West 1/16 corner of said Section 8; thence along the West line of the SE1/4 NW1/4 of said Section 8 N01°13'52"E, a distance of 1380.08 feet to the NW1/16 corner of said Section 8; thence along the South line of the NW1/4 NW1/4 of said Section 8 N88°45'05"W, a distance of 1387.68 feet to the N1/16 corner common to said Sections 7 and 8; thence along the West line to the NW corner of said Section 8 N01°04'56"E, a distance of 1389.30 feet to the Point of Beginning containing 425.84 acres more or less.

## ACQUISITION AND EXCHANGE AGREEMENT

**THIS AGREEMENT** is made and entered into as of March 16, 1999, by and between GLENWOOD MEADOWS, LLC, a Colorado limited liability company (hereinafter "GM"), and the CITY OF GLENWOOD SPRINGS, a Colorado home-rule municipality (hereinafter "City");

WHEREAS, the City is the owner of certain real property located within the municipal limits of the City, Garfield County, Colorado, commonly known as the Salt Plant Property (hereinafter the "Salt Plant Property") as described by Exhibit A attached hereto and by this reference incorporated herein; and

WHEREAS, GM is the owner of certain property located in Garfield County, Colorado, commonly known as the Wulfsohn Ranch (hereinafter "Wulfsohn Ranch"); and

WHEREAS, GM is the owner of various water rights decreed to the Atkinson Canal, the headgate for which is generally located as described in the decree entered September 7, 1976, in Case No. W-2910 (Water Division No. 5), which water rights, Atkinson Canal and existing lateral ditches are used to provide irrigation water to irrigated portions of the Wulfsohn Ranch ("Irrigated Acres"); and

WHEREAS, the City desires and intends to acquire approximately ten (10) to twelve (12) acres of presently Irrigated Acres and approximately twenty-five (25) acres of non-irrigated lands all on the Wulfsohn Ranch from GM (hereafter, the "Community Center Property") as described by Exhibit B attached hereto and by this reference incorporated herein, in exchange for approximately 8.856 acres, being all of the Salt Plant Property land situated in and around the City at the intersection of Devereux Road and Highway 6 & 24; and

WHEREAS, the City has provided GM with notice of the City's intent to exchange the Salt Plant Property for that portion of the Wulfsohn Ranch, identified as the Community Center Property, which is needed to construct the "City Community Center Project"; and

WHEREAS, the City and GM have (i) prepared and delivered appraisals, (ii) exchanged title insurance commitments, environmental and soils analysis and (iii) engaged in negotiations concerning the City's intended acquisition of the Community Center Property on the Wulfsohn Ranch and GM's intended acquisition of the Salt Plant Property; and

WHEREAS, GM has agreed to convey to the City title to that portion of the Wulfsohn Ranch described as the Community Center Property in this Agreement, subject to the terms and conditions of this Agreement; and

WHEREAS, the City has agreed to convey to GM title to the Salt Plant Property as described in this Agreement, subject to the terms and conditions of this Agreement; and

WHEREAS, the City has not used the Salt Plant Property, or any portion or part thereof, for any "municipal purpose" as that phrase is set forth and used in the City Charter or the City Municipal Code; and

GW 224834

Return to: City of Glenwood Springs  
ATTN: Teresa Williams  
806 Cooper Ave  
Glenwood Springs, CO 81600

WHEREAS, GM has commenced the process of annexing the Wulfsohn Ranch, including that portion identified herein as the Community Center Property; and

WHEREAS, the City agrees to cooperate with and join in said petition for annexation with respect to said Community Center Property; and

WHEREAS, the parties desire to set forth herein their agreement concerning the exchange and conveyance (i) from GM to the City of that portion of the Wulfsohn Ranch required for the Community Center Project, (ii) from the City to GM of the Salt Plant Property, and (iii) related matters.

NOW, THEREFORE, for and in consideration of the above recitals, the mutual covenants and agreements contained herein, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, GM and the City agree as follows:

1. Exchange and Conveyance of Community Center Property and The Salt Plant Property.

Upon closing of these premises at a mutually agreeable date and time between the date hereof and March 30, 1999, at the offices of Land Title Guarantee Company located at 817 Colorado Avenue, Glenwood Springs, Colorado, the following shall occur:

A. GM shall convey by Special Warranty Deed to the City that portion of the Wulfsohn Ranch described upon Exhibit A as annexed hereto. Said conveyance shall be subject to all matters of public record affecting the subject property as well as the following additional matters:

(i) GM shall reserve from the conveyance to the City a perpetual easement of thirty (30) feet in width for the maintenance, operation, repair and replacement of the Atkinson Canal, such easement lying fifteen (15) feet on either side of the centerline of any portion of the Atkinson Canal or lateral ditch structure presently situate on the lands to be conveyed to the City for so long as the Atkinson Canal shall be necessary to GM for the delivery of irrigation water to the remainder of the Wulfsohn Ranch; and

(ii) GM shall reserve from the conveyance to the City a five (5) year easement for the continued operation of the Pump Station presently situate on the real property to be conveyed to the City, together with an easement adequate to access said Pump Station for the purposes of maintenance, operation, repair and replacement.

(iii) GM shall reserve from the conveyance to the City a debris flow drainage easement situate between the Irrigated Acres and the remainder of the Community Center Property for the sole and exclusive purpose of directing and mitigating debris flows from other portions of the Wulfsohn Ranch; the precise location and dimensions of which debris flow drainage easement to be determined at a later date and subject to the approval of the City, which approval shall not be unreasonably withheld.

B. The City shall convey by General Warranty Deed to GM the three (3) lots which comprise the Salt Plant Property as described upon Exhibit B as annexed hereto,

together with all improvements thereon, geothermal water sources and rights historically used thereon or associated therewith and all other hereditaments appertaining thereto. Said conveyance shall be subject to all matters of public record affecting the subject property. The City shall also execute and deliver (i) a bill of sale transferring to GM all right, title and interest of the City in and to any personal property, easements, rights-of-way and other assets situate upon or historically associated with the Salt Plant Property and (ii) an Assignment and Assumption Agreement assigning to GM all right, title and interest of the City to any leases or other agreements affecting the Salt Plant Property.

C. Each party shall pay an equal amount of any closing costs associated with the transactions contemplated hereby.

D. Each party hereto shall pay all costs of recording such instruments received by that party, including any deeds, and each party hereto shall pay an equal amount of the costs of recording other closing documents required by this Agreement, including any covenants, and shall undertake all other reasonable steps necessary to effectuate the intent of this Agreement, specifically including, but without limitation whatsoever, (i) the recordation of any plats required to satisfy C.R.S 30-28-101 et. seq. with respect to the statutory exception from the definition of "subdivision" and the subdivision regulations of Garfield County, Colorado, and (ii) the filing of appropriate maps and other documents with the Garfield County Assessor's office.

E. With respect to the lands conveyed by each party hereto, the conveying party hereto shall pay the premium for and deliver to the other party, within a reasonable time after closing, an ALTA Form of title insurance policy based upon previously issued title insurance commitments. The amount of title insurance shall be equal to the valuation of the subject property by the appraisals previously issued.

Real property taxes shall be prorated to the day of closing based upon the most recent mill levy and most recent assessment and shall be determined by the ratio the Community Center Property bears to the Wulfsohn Ranch as a whole. The parties acknowledge and agree that under this Agreement, GM has not agreed to and does not intend to convey any of its water rights or any interest in and to the Atkinson Canal and its lateral ditches or GM's right to continue to utilize said water rights and said Atkinson Canal and lateral ditches for the irrigation of the Irrigated Acres and any additional lands which will be irrigated in replacement of the Irrigated Acres to be conveyed to the City.

2. Salt Plant Property Land Use Designations. The City hereby agrees and acknowledges that (i) the Salt Plant Property is comprised of three (3) separate and individual lots, each of which may be conveyed distinct from the others without the necessity of a subdivision process and the lot lines of which may be adjusted in accordance with the procedures set forth in the Glenwood Springs Land Use Code. The City further acknowledges and agrees that the zoning of the entire Salt Plant Property shall be or is within the C-1 Commercial zone district, has municipal utility service on site or within reasonable proximity thereto and has two (2) existing and legal access points to and from public roads and/or rights-of-way.

3. Community Center Project. If and when the City proceeds to construct the Community Center Project, the City shall, at its sole expense and at no expense to GM except as expressly provided for herein, undertake and complete all road installation, road surfacing, grading, drainage improvements, utility extensions, fencing, culverting, and other work for the Community Center Project in accordance with (A)

plans reviewed by GM (hereinafter "Community Center Project Plans") and accepted by GM with respect to such plans' impacts on GM's ongoing interests in (i) the Atkinson Canal and lateral ditches and (ii) the Pump Station, which review shall be timely and which acceptance shall not be unreasonably withheld; (B) technical specifications prepared for materials for canal culverting previously approved by GM (hereinafter "Community Center Project Specifications") which approval by GM shall not be unreasonably withheld, and (C) the Engineering Standards generally accepted in the industry (hereinafter "Engineering Standards"). The Community Center Project Plans, the Community Center Project Specifications and the Engineering Standards are hereinafter referred to individually, or collectively as the Community Center Project Plans and Specifications.

4. Purpose. One of the purposes of this Agreement is to ensure that GM's interests, including specifically GM's controlling ownership and use of the Atkinson Canal and the Atkinson Ditch Company, Inc. and GM's ownership of the remaining portions of the Wulfsohn Ranch, are not adversely affected by the City's Community Center Project. For purposes of this Agreement, all references to "Community Center Project" refer solely and specifically to those components of the City's project which affect (i) the Pump Station situated on the Community Center Property, (ii) the Atkinson Canal structures or easements, or (iii) drainage which affects the Atkinson Canal structure or easement.

5. Project Control. The City shall be solely responsible for the construction, installation, and completion of the Community Center Project and appurtenant facilities and, except as expressly provided for herein to the contrary, all costs associated therewith. Upon GM's opportunity to review and approve, which approval shall not be unreasonably withheld, the Community Center Project Plans and Specifications, the City shall be authorized to commence the Community Center Project, as contemplated in the Community Center Project Plans and Specifications; provided, however, no construction shall interfere with GM's ability to use the Atkinson Canal structures and the water carried thereby for irrigation purposes during the irrigation season.

6. Non-Interference with Agricultural Operations. The City agrees, for itself and its agents, employees, contractors, subcontractors and material suppliers, to (A) keep construction activity for the Community Center Project within the Community Center Property; (B) ensure that GM, its tenants and lessees will have access to the Wulfsohn Ranch during work on the Community Center Project, and (C) ensure that the Atkinson Canal will carry irrigation water and the Pump Station will direct such water and both will be operational for use by GM, its tenants and lessees for irrigation and other purposes during the irrigation season (April 15 - October 31) and, for that purpose, the City shall not undertake canal culverting or other work on the Atkinson Canal or similar work on the Pump Station during the irrigation season without the written consent of GM, which consent shall not be unreasonably withheld.

7. Fencing. To the extent possible, the parties hereto agree to maintain such existing fencing between the Community Center Property and the remainder of the Wulfsohn Ranch. Prior to commencement of any work on the Community Center Project, the City shall take all steps reasonably necessary to secure the Community Center Property from either (i) the agricultural activities of the adjacent remainder of the Wulfsohn Ranch and/or (ii) GM's development activities on the remainder of the Wulfsohn Ranch. After completion of the Community Center Project, the City at its expense shall maintain, repair and replace all fencing along the boundary between the Community Center Property and the Wulfsohn Ranch, unless damage is caused by ranching operations of GM, its tenants or lessees on the Wulfsohn Ranch.

8. Modifications of Community Center Project Plans and Specifications. In the event the City desires to subsequently modify the Community Center Project Plans and Specifications, as defined and limited in Paragraphs 3, 4 and 5 above, from the Community Center Project Plans and Specifications, the City shall forward the proposed modifications to GM, which shall approve or disapprove the proposed modifications, and GM's approval shall not be unreasonably withheld. In the event GM disapproves the proposed modifications, the City Engineer (and/or consulting engineers) shall meet with GM representatives and GM's engineer to formulate alternatives necessary to implement this Agreement and complete the Community Center Project. The parties agree that time is of the essence to secure agreement upon any modifications to the Community Center Project Plans and Specifications. Notwithstanding the foregoing, in the event the City and GM cannot agree, the City shall construct the Community Center Project pursuant to the original Community Center Project Plans and Specifications.

9. Inspections. GM shall have the right to undertake such inspections of the Community Center Project as GM deems appropriate at any time prior to, during, or after completion of the same; provided, however, that such inspections shall be limited to GM's interest in the Community Center Project as set forth in Paragraphs 3, 4 and 5, above. Further, the City agrees to provide GM's planners and engineers seven (7) days' written notice prior to the commencement of any work on or within the Atkinson Canal easement and Pump Station easement reserved by GM. The City shall not cover or bury any portion of culvert installed for the Atkinson Canal until it has provided GM and GM's planners and engineers forty-eight (48) hours' notice and the opportunity to inspect and approve the facilities. If GM fails to respond within 48 hours notice the City provides prior to burying or covering facilities, the City shall be entitled to treat such non-response as approval and proceed to cover or bury the culverts or facilities.

10. Nonconforming Work. In the event the City completes or constructs the Community Center Project, as defined in Paragraph 6, above, contrary in a material manner to the Community Center Project Plans and Specifications and any modifications approved pursuant to Paragraph 8, above, or fails to complete the Community Center Project, which installation or failure adversely affects GM's interest as determined by GM in its reasonable discretion, the City, at its sole expense, shall upon demand by GM undertake all work required to bring the Community Center Project into conformance with the Community Center Project Plans and Specifications. GM shall be entitled to enforce this right by an action at law or equity, including an action for specific performance.

11. Midland Extension Access Points.

A. Farm Access. The City has provided to GM (through that certain Midland Avenue Right of Way Extension Acquisition Agreement dated September 20, 1994) three access points for use by GM in connection with its farming and ranching and future development operations on the Wulfsohn Ranch. The City agrees that none of these three access points is to be considered as used for access to the Community Center Property. For these purposes, the City shall install one (1) new access point within the boundary of the Community Center Property (located east of the existing farm access point). The City hereby grants GM the right to utilize such access point for the stated purposes of using, maintaining,

repairing, replacing and operating the Atkinson Canal, the GM Water Rights and the Pump Station; provided, however, in the event of any such use by GM, GM shall be responsible for cleaning and removing any debris, mud or other substance arising from GM's use, maintenance, repair, replacement or operation of the Atkinson Canal, Water Rights or Pump Station. Any debris or trash removed from the Atkinson Canal or Pump Station by GM shall not be placed adjacent to the Atkinson Canal or elsewhere on the Community Center Property, but shall be, at GM's sole cost, immediately removed and properly disposed of. GM shall give the City at least 48 hours prior notice of GM's intent to access any part of the Community Center Property for the purposes set forth herein

B. Development Access Points. The City agrees to continue to provide to GM three access points from the Midland Extension Right-of-Way onto the Wulfsohn Ranch property at such time as GM desires to develop the Wulfsohn Ranch property. One access point shall be for the north outparcel created on the west end of the Wulfsohn Ranch as a result of the Midland Extension Project. Two access points shall be for the developable portions of the Wulfsohn Ranch property located south of the Midland Extension Right-of-Way Parcel and West and South of the Community Center Property. The actual location and design of such access points shall be subject to engineering considerations and approval of the City, which approval shall not be unreasonably withheld. Such accesses shall be constructed to agreed upon specifications at GM's sole expense; provided, however, the City shall not, as a condition of granting such accesses, require GM to pay the City any consideration whatsoever. This Agreement is not intended to alter or otherwise affect the existing agreements between the parties hereto with respect to these matters.

C. Community Center Access Point and Road. The City agrees that GM shall have the right to utilize the Road to be developed as part of the Community Center Project and that GM may incorporate such Road in its development plans for the remainder of the Wulfsohn Ranch.

12. Pump Station Relocation. As a result of the City's acquisition of the Community Center Property and the construction of the Community Center Project, GM will be required to relocate its existing pump station serving the Atkinson Canal and situated on the Community Center Property, located generally in the south-eastern portion of the Wulfsohn Ranch. In the event that after said five (5) year period, said Pump Station is still reasonably necessary for the irrigation of the remainder of the Wulfsohn Ranch or for the raw water irrigation of any development approved by the City, GM shall undertake the relocation of the Pump Station no later than five (5) years after the date of this Agreement. The City agrees to reimburse GM the reasonable costs of such relocation, which costs shall in no event exceed \$20,000.00. The City also agrees to extend electrical service to the relocated Pump Station at the City's sole cost at the time relocation is undertaken. GM agrees to convey to the City a non-exclusive easement, not to exceed fifteen feet (15') in width, for installation, maintenance, operation, repair and replacement of the electric facilities. The easement shall be in a location mutually agreed upon by the parties. Until such time as GM

shall re-locate its Pump Station, it shall have the easement rights described hereinabove from the City reasonably necessary to maintain and use the Pump Station as it is presently situated.

13. Atkinson Canal Crossings. The City shall as part of the Community Center Project, and at its expense, install those crossings and culverts for the portion of Atkinson Canal and its lateral ditches affected by the Community Center Project development and in accordance with the Community Center Project Plans and Specifications.

14. Completion; Conveyance of GM Facilities. Upon completion of the Community Center Project, the City Engineer shall furnish GM with written certification that the Atkinson Canal crossings, culverts and appurtenant facilities, Pump Station, access road, and utility sleeves were completed in substantial conformance with the Community Center Project Plans and Specifications, and any approved modifications and change orders. Upon such receipt, GM shall then provide the City written notification of its acceptance of the Atkinson Canal crossings, culverts, Pump Station, and appurtenant facilities, which date shall be known as the Acceptance Date. Within thirty (30) days of the Acceptance Date, the City shall execute a bill of sale conveying to GM, free and clear of all liens and encumbrances, the Atkinson Canal culverts and other facilities which the parties mutually agree shall be conveyed to GM. The City shall also provide GM with lien waivers for all property conveyed from all contractors, subcontractors, and material suppliers. Once conveyed to GM, subject to the warranty provisions of Paragraph 15, below, GM shall be solely responsible for operation, maintenance, repair, and replacement of Atkinson Canal culverts and appurtenant facilities.

15. Warranty. The City shall warrant all facilities which are conveyed to GM pursuant to this Agreement for a period of one (1) year from the Acceptance Date. Specifically, but not by way of limitation, the City shall warrant that any and all facilities conveyed to GM shall be free of any defects in materials or workmanship for a period of one (1) year.

16. Drainage and Tailwater. GM shall have the right to continue irrigation of the retained portions of the Wulfsohn Ranch. The Community Center Project shall include adequate facilities and/or provisions for disposal of tailwater and water seepage from the Atkinson Canal, the Pump Station and any lateral ditch structures. To the extent the Community Center Project creates any alteration of historical drainage patterns which result in disputes with or claims by down-gradient drainage recipients, the City hereby acknowledges that it shall at its expense be solely responsible for resolving such disputes or claims, and that it shall indemnify GM as provided in Paragraph 18, below.

17. Scope. This Agreement applies only to GM's acquisition of the Salt Plant Property and the City's acquisition and development of the Community Center Property and the Community Center Project upon GM's Wulfsohn Ranch. The terms hereof shall not extend to, nor shall they be construed in any manner to extend to or be a precedential effect, with regard to any other improvements to any other portion of the Atkinson Canal or other property interests of GM. The parties expressly agree that any compensation paid or consideration given pursuant to this Agreement shall be of no precedential or evidentiary value in any future proceedings between the parties hereto, specifically including any eminent domain proceeding between the parties.

18. Indemnity. To the extent permitted by law, and limited in duration to applicable statutes of limitation, the City shall indemnify and hold GM, its parent, subsidiary, and/or affiliate

companies and the respective directors, officers, agents, and employees thereof, free and harmless from and against any and all liabilities, suits, claims, actions, proceedings, judgments, decrees, settlements, demands, and causes of action of all kinds, including but not limited to claims of damages to or losses of property of GM or others, injury, illness, or death, attorneys' fees and costs which arise from or in any manner relate to:

- A. The City's ownership of the Salt Plant;
- B. Work performed, facilities installed, or materials provided by the City, its contractors, subcontractors, materialmen, or others in connection with the City's prior ownership of the Salt Plant Property or the City's future work on or development of the Community Center Project and appurtenant facilities.
- C. Damages of any type claimed by any landowner, tenant, or other person located downstream or downgradient of the Wulfsohn Ranch or Atkinson Canal which arise from or relate to the City's work on or development of the Community Center Project and appurtenant facilities.
- D. Damages of any type claimed by any landowner, tenant, or other person located downstream of the Atkinson Canal or otherwise which are caused by the City's work on or installation of the Community Center Project.
- E. The City's use of any part of the Wulfsohn Ranch or any activity done or permitted by the City.
- E. Any breach by the City of its obligations under this Agreement.
- F. Any act or omission of the City, its agents, contractors, employees, or employees taken pursuant to this Agreement or upon the Wulfsohn Ranch.

The City shall be solely responsible to defend any such action, proceeding, or claim for which GM may be entitled to indemnification, and GM hereby agrees to fully cooperate with the City in the defense or settlement, as the case may be, of such action, proceeding, or claim, but GM reserves the right to participate in the defense or any such action, proceeding, or claim at its own expense. The City shall give written notice to GM within ten (10) days after the City's actual knowledge of any matter giving rise to the obligation contained in this Paragraph. No insurance requirements shall be construed to limit this indemnity, which shall be effective to the maximum extent permitted by applicable law. As between GM and the City, the City hereby expressly waives any defenses of governmental immunity as provided in C.R.S. section 24-10-101 et seq., as necessary to effectuate this indemnity; except, however, that the City expressly reserves all rights to assert governmental immunity with regard to any claims of third parties against the City.

19. Amendment. Any modification or amendment hereto shall be evidenced by a writing

signed by the parties.

20. Binding Effect; Survival. This Agreement shall be binding upon and inure to the benefit of the parties, their successors, grantees, and assigns. Each term and condition of this Agreement shall survive the closing on the Community Center Property and the Salt Plant Property.

21. Authority. Each person executing this Agreement represents and warrants that he has been duly authorized by the party that he purports to represent to execute this Agreement, and has authority to bind said party to the terms and conditions of this Agreement.

22. Governing Law. This Agreement shall be construed under the laws of the State of Colorado.

23. No Waiver. No provision of this Agreement may be waived except by an agreement in writing signed by the waiving party. A waiver of any term or provision shall not be construed as a waiver of any other term or provision.

24. Headings. The paragraph headings in this Agreement shall not be used in the construction or interpretation hereof, as they have no substantive effect and are for convenience only.

25. Severability. If any part or section of this Agreement shall be found void or invalid by court of competent jurisdiction, such finding shall not affect any remaining part or section, and said remaining parts or sections shall continue in full force and effect. The parties shall renegotiate in good faith any matter addressed by a part or section that is found void or invalid.

26. Notice. All notices required under this Agreement shall be in writing and shall be hand delivered, sent by facsimile or sent by registered or certified mail, return receipt requested, postage prepaid, to the addresses of the parties herein set forth. All notices so given shall be considered effective seventy-two (72) hours after deposit postage paid in the United States Mail with the proper address as set forth below. Either party by notice so given may change the address to which future notices shall be sent.

27. Signatures: Counterparts. GM and the City agree that signatures obtained by facsimile transmission shall be sufficient and binding for purposes of this Agreement, and that original signatures shall be forwarded to each party. This Agreement may be executed in multiple original counterparts, each of which shall constitute an original but all of which shall constitute one and the same document.

IN WITNESS WHEREOF, the parties have executed this Acquisition and Exchange Agreement in duplicate originals on the day and year first written above.

Date

**WEST GLENWOOD SPRINGS SANITATION DISTRICT  
SPECIAL FEE AND COST REIMBURSEMENT AGREEMENT**

This Special Fee and Cost Reimbursement Agreement is entered into by and between the WEST GLENWOOD SPRINGS SANITATION DISTRICT, whose address is P. O. Box 866, Glenwood Springs, Colorado 81602 (hereinafter "District") and GLENWOOD MEADOWS, LLC, a Colorado limited liability company, whose address is 525 East Cooper Avenue, Aspen, Colorado 81611 (hereinafter "Glenwood Meadows" or "Applicant");

**WITNESSETH:**

WHEREAS, the District is a Colorado special district and quasi-municipal corporation formed and functioning under the authority of C.R.S. §32-1-101, *et seq.* and §31-35-401, *et seq.*, providing sanitary sewer service to the area around West Glenwood Springs, Colorado; and

WHEREAS, Glenwood Meadows is the owner of that certain real property described in Exhibit A, attached hereto and incorporated herein by this reference (the "Property"), and desires to undertake the projects or activities described in Paragraph 1, below; and

WHEREAS, the above activity or project will require the District to provide the special services and incur the costs set forth in Paragraph 2, below; and

WHEREAS, pursuant to C.R.S. §§32-1-1001(1)(d), (j-m) and §31-35-402(1)(f), the District has the authority to require reimbursement of its out-of-pocket costs in providing services to District customers, including but not limited to sewer connections, inclusions and exclusions from the District, and planning and review of line extensions and connections; and

WHEREAS, Sections 5.01, 7.04, and 8.01 of the Rules and Regulations of the District provide that the District may charge legal, engineering, publication, recording, inspection, and other fees of customers desiring services from the District; and

WHEREAS, the special fees paid and collected by virtue of this Agreement shall be used solely to pay for the cost of planning, engineering review and inspection, legal review, administrative review, and actual out-of-pocket costs incurred by the District in relation to the anticipated project; and

WHEREAS, the Board of Directors of the District and Glenwood Meadows desire to set forth their agreements and understandings concerning this matter.

NOW, THEREFORE, in consideration of the mutual covenants and promises of the parties, and for other good and valuable consideration, the adequacy and sufficiency of which is hereby acknowledged, the parties agree as follows:

1. Glenwood Meadows desires to undertake the following projects or activities involving the District or its sewer systems:

☐ Inclusion into the District  
☐ Exclusion from the District  
☒ Sewer line connection  
☐ Other (describe) Special Tap Fee Agreement

2. The activity or project being undertaken by Glenwood Meadows will require the District to provide the following special services or incur the following costs:

☒ Engineering review and advice  
☒ Legal review and advice  
☒ Preparation of plats or plans  
☒ Inspections  
☒ Recording fees  
☒ Filing fees  
☐ Other (describe):

3. Glenwood Meadows agrees to pay the District in full for all special services provided or actual costs incurred by the District in relation to the project or activity described above on receipt of an itemized billing for those services from the District. All such amounts are due within thirty (30) days of the date of the bill, with interest on any overdue amounts to be assessed at one percent (1%) per month. In the event that such amounts remain unpaid thirty (30) days after the date they are billed, the District reserves the right to cease supplying any and all sewer services being provided, review and processing of applications for service, inclusion, exclusion, and line extension. In the event the District is forced to pursue collection of any amounts due and unpaid under this provision, it shall be entitled to collect attorneys fees, filing, and recording fees incurred in such collection efforts in addition to the unpaid amounts due, plus interest.

4. Glenwood Meadows agrees to provide a deposit to the District in the amount of One Thousand Dollars (\$1,000) at the time of signing this Agreement. The District shall not commence to provide any of the services desired by the Applicant, or advance any further costs, until this deposit is received by the District. Further, in the event it is deemed necessary to purchase an easement or condemn an easement, Glenwood Meadows shall supplement the initial deposit in an amount to be determined by the District to pay in advance the expected amounts for such service prior to the District undertaking such services. Any amount by which the Applicant's deposit exceeds the cost assessed under this section shall be refunded to the Applicant within a reasonable time after final action has been taken on the project or applied toward the tap fees to be due under a Tap Fee Agreement to be executed by the parties. Any amount by which the deposit is less than the total costs due to the District under this Agreement shall be due and payable subject to the provisions of Paragraph 2, above.

5. The District specifically does not agree to act favorably on any application to the District made by Glenwood Meadows in exchange for payment of the special fees set forth above.

6. This Agreement constitutes the entire and complete agreement of the parties on the subject matter herein. No promise or undertaking has been made by any party, and no understanding exists with respect to the transaction contemplated, except as expressly set forth herein. All prior and contemporaneous negotiations and understandings between the parties are embodied and merged into this Agreement.

7. This Agreement may be amended from time to time by amendments made by the parties in written form and executed in the same manner as this Agreement.

8. This Agreement shall be binding upon and inure to the benefit of the parties and their assigns and successors in interest.

9. The undersigned by their signatures hereto warrant that they are fully authorized to execute this Agreement in the name of the entity for which each of them sign.

10. If any covenant, term, condition, or provision under this Agreement shall for any reason be held to be invalid or unenforceable, the invalidity or unenforceability of such covenant, term, condition, or provision shall not affect any other provision contained herein.

11. The parties agree and intend that this Agreement shall run with the land described in Exhibit A, attached hereto, and be a burden upon that property until final payment has been made to the District of all fees due and payable under this Agreement, or until the earlier termination of this Agreement.

IN WITNESS WHEREOF, the parties have executed this SPECIAL FEE AND COST REIMBURSEMENT AGREEMENT on the day and year adjacent to their respective signatures.

## LINE CONNECTION AGREEMENT

THIS LINE CONNECTION AGREEMENT is made and entered into this 31 day of March, 1999, by and between the WEST GLENWOOD SPRINGS SANITATION DISTRICT, a Colorado special district (hereinafter "District") and GLENWOOD MEADOWS, LLC, a Colorado limited liability company whose address is 525 East Cooper Avenue, Aspen, Colorado 81611 (hereinafter "Glenwood Meadows");

### WITNESSETH:

WHEREAS, the District provides sanitary sewer service to the area around West Glenwood Springs, Colorado; and

WHEREAS, Glenwood Meadows is the owner of that certain real property described in Exhibit A, attached hereto and incorporated herein by this reference (hereinafter "Property"); and

WHEREAS, the Property is proposed to be subdivided into two (2) parcels, and such proposal is currently under review by the City of Glenwood Springs, Colorado; and

WHEREAS, the District met and discussed the provision of District services to the Property, and said provision was conceptually approved by the Board of Directors for the District, subject to the terms and conditions of a Line Connection Agreement to be entered into between the parties; and

WHEREAS, Glenwood Meadows desires the District to provide sanitary sewer service to the Property, and Glenwood Meadows plans to do the excavations, constructions, installations, connections, and other work necessary to extend the sewer main lines to the Property in order to facilitate the provision of such service; and

WHEREAS, the District is willing to provide sanitary sewer service to the Property upon the terms and conditions set forth herein.

NOW, THEREFORE, for and in consideration of the mutual covenants and agreements of the parties, and other good and valuable consideration, the adequacy and sufficiency of which is hereby acknowledged, the parties agree as follows:

1. Rules and Regulations. The Rules and Regulations of the District in effect on the date of execution of this Agreement (hereinafter the "Rules and Regulations") are hereby incorporated into this Agreement by reference. In particular, Articles VII and VIII of the Rules and Regulations apply to line extensions and line connections. The provisions of this Agreement are intended to comply with the Rules and Regulations, and to the extent that any provision or provisions do not comply, they shall be interpreted in a manner that brings them into compliance.

with the Rules and Regulations in effect at the time this Agreement was executed. All capitalized terms used herein shall have the meanings defined for each term in the District's Rules and Regulations in effect on the date of execution hereof, unless otherwise specifically defined herein.

2. Ratification of Prior Agreements. The parties hereto have previously entered into the following agreements:

- a. West Glenwood Springs Sanitation District Pre-Inclusion Agreement, which Agreement is recorded in the office of the Clerk and Recorder of Garfield County in Book 1009 at Page 139 as Reception No. 504575 (hereinafter "Pre-Inclusion Agreement").
- b. West Glenwood Springs Sanitation District Special Fee and Cost Reimbursement Agreement dated ~~March~~ April 13, 1999, which Agreement is recorded in the office of the Clerk and Recorder of Garfield County in Book 1131 at Page 228 as Reception No. 546011 (hereinafter "Special Fee Agreement").

The parties hereto ratify and affirm the foregoing agreements.

3. Facility to be Installed by Glenwood Meadows. Glenwood Meadows has submitted for District review a written application for sewer line connection to the Property, engineering designs, and preliminary cost estimates. Pursuant to the Rules and Regulations of the District, the District Engineer must approve the plans for the line connection in writing before work commences. All construction and installations pursuant to the plan submitted shall comply with the Rules and Regulations of the District, including the Technical Specifications and Procedures, and the written approval, including any conditions contained therein, the District Engineer, and any applicable federal, state, county, or local laws. Upon review and approval of the plans by the District, Glenwood Meadows shall commence construction of the sewer line connection, including installation of all internal sewer lines. While it is the policy of the District to extend all internal sewer lines to the end of the lot line, the parties agree to temporarily relieve Glenwood Meadows of this requirement because it is the owner of the lands to the east and south that would be served by such an extension. Glenwood Meadows agrees that at the time sewer service is requested either for the east parcel created by the currently-proposed subdivision or for any other application for service in which service to the end of such east parcel is required, which ever comes first, Glenwood Meadows, or its successor in interest in any parcel of land in which service to the end of the east parcel shall be required, shall be obligated, at its sole cost, to extend the line to the south and/or east end of the parcel, as necessary, to provide service to such other lands, utilizing the easements to be included on the final plat as more fully outlined in Paragraph 6, below.

The parties agree that Glenwood Meadows shall construct a sewer line from the northwest corner of the Property along the northern property line, terminating at the property line contiguous to the two (2) subdivided parcels. Upon request by the District, Glenwood Meadows, or its successor in interest in any parcel of land in which service to the end of the east parcel shall be required, shall be required to extend the sewer line, at its sole cost, to the edge of the property line along one of the easements described in Paragraph 6, below. Said line connection shall be constructed and installed according to the final plans as approved in writing by the District Engineer, and any changes in or deviations from the final plans shall be separately approved in writing by the District Engineer.

4. Connection of District Sewer Service to the Property. Glenwood Meadows agrees that at the time the District's sewer services are extended to the Property, Glenwood Meadows shall connect all improvements to the District's sewer system and pay all fees due for such connections. Pursuant to the District's Rules and Regulations, no District service shall be provided and no connection shall be made to the District sewer systems until an application for service has been made, the applicable tap fee has been paid, and a tap permit has been issued.

5. Observation of Construction. All construction and installation of facilities by Glenwood Meadows shall be subject to the District's right to observation, at Glenwood Meadows' sole expense, by the District Engineer or such other authorized representative of the District as the District Board shall designate. Such observation may occur at any point during or upon completion of construction and may occur at any time after facilities are operational at reasonable intervals as the District may request. Glenwood Meadows shall ensure that the construction and installation of facilities is in accordance with the Rules and Regulations of the District and all applicable federal, state, county, and local laws. The District Engineer may direct Glenwood Meadows, on behalf of the District, to correct any deficiencies in the construction and installation of facilities that are not constructed or installed in conformance with the plans as approved. Glenwood Meadows shall coordinate with the District Engineer the timing of the construction and installation of facilities to facilitate compliance observations by the District Engineer. Observation, acquiescence, and/or approval by any engineering inspector of the construction of physical facilities, at any particular time, shall not constitute the approval by the District of any phase of the construction of such improvements. Such approvals shall be made by the District only after completion of construction and in the manner hereinafter set forth.

6. Easements. The final plat for subdivision of the Property shall dedicate utility easements as hereafter approved by the District across the Property, which shall be particularly described on the final utility plan and/or final plat. In connection herewith, Glenwood Meadows agrees to dedicate said easements to the District on the final plat, free and clear of all liens and encumbrances which would interfere, as determined by the District, with the District's use of the easements. All easements to be dedicated shall be general utility easements of a width determined by the District. Further, Glenwood Meadows agrees to dedicate all other easements, as necessary, for access or completion of work on the Property and for future expansion of District services to properties located south of Midland Avenue. Easements twenty-five feet

(25') in width shall run from the existing sewer line on the northwest corner of the Property, along the northern edge of the Property to the easternmost point on the Property. Additionally, an easement shall run from the northern point of the Property along the property line contiguous to the two (2) subdivided parcels to the southern point of the Property.

7. Acceptance of Facilities By District: Warranty. Upon completion of construction, installation, and connection of all sewer line facilities by Glenwood Meadows on the Property, the District Engineer shall certify to the District Board that such facilities have been constructed and installed in accordance with the provisions of the Rules and Regulations and in accordance with the applicable provisions of federal, state, county, and local laws. Thereupon, Glenwood Meadows shall request the District to accept said facilities and shall provide the District with the following information:

- a. A written summary of the actual costs of all facilities to be dedicated to the District. In addition, a certification that all such costs of construction have been fully paid, and written waivers of the right to claim mechanic's liens by all contractors performing work on the Property;
- b. A deed, bill of sale, and/or such other evidence as is satisfactory to the District, granting the District an easement or fee ownership of all property required by the plans as approved to be dedicated to the District in conjunction with the line connection project, free and clear of all liens and encumbrances, in a format acceptable to the District;
- c. Glenwood Meadows shall submit to the District a video tape of the interiors of the extended sewer lines;
- d. As-built drawings for the project which have been prepared by a registered land surveyor at Glenwood Meadows' expense and which satisfy the requirements of the Rules and Regulations and Technical Specifications and Procedures of the District. The drawings shall consist of one set of reproducible mylars and an auto-cad disk. The District's written acceptance of the as-built drawings and video tape shall complete Glenwood Meadows' dedication to the District of the facilities required by the plans;
- e. A two-year warranty guaranteeing to the District that the facilities have been constructed in a good and workmanlike manner for a period of two (2) years from the date of acceptance of the facility by the District. Ninety (90) days prior to the expiration of said warranty, Glenwood Meadows shall submit to the District a current videotape of the interiors of the extended sewer lines and, at the sole discretion of the District Engineer, shall repair any deficiencies. The guarantee shall be in a format acceptable to the District and shall be secured, if required by the District, in a form of security acceptable to the District; and

- f. Compliance with all other provisions and requirements of this Agreement.

Upon satisfactory completion of the above requirements, the District shall formally accept the line connection project by a motion entered in the minutes of the Board of Directors and refund to Glenwood Meadows all deposits made pursuant to this Agreement and not already released. Such acceptance, if given, shall constitute dedication by Glenwood Meadows of such facilities to the District. The parties agree that the District is under no obligation to provide sewer service to Glenwood Meadows until acceptance and dedication.

8. Breach by Glenwood Meadows: District's Remedies. In the event of a breach of any of the terms and conditions of this Agreement by Glenwood Meadows, the District Board of Directors (hereinafter the "Board") shall be notified immediately, and the District may take such action as the District deems necessary to protect the public health, safety, and welfare; to protect lot buyers and builders; and to protect the users of District facilities from hardship. In addition to all other remedies available at law, the District may:

- a. Refuse to approve Glenwood Meadows' plans and specifications for, or construction or installation of, sewer facilities; provided, however, that this remedy shall not be available to the District until after the affidavit described in (b), below, has been recorded;
- b. Record with the County Clerk and Recorder an affidavit, approved in writing by the Board and signed by the Chairman of the Board or any Board member, stating that the terms and conditions of this Agreement have been breached by Glenwood Meadows. At the next regularly scheduled Board meeting, the Board shall either approve the filing of said affidavit or direct a District representative to file an affidavit stating that the default has been cured. Upon the recording of such an affidavit, no further District services or assistance will be provided in connection with the Property until the default has been cured; an affidavit signed by the Chairman of the Board or any Board member and approved by the Board stating that the default has been cured shall remove this restriction;
- c. Demand that the security given for the completion of the improvements, if any, be paid or honored; and/or
- d. Refuse to provide services to the Property.

Unless necessary to protect the immediate health, safety, and welfare of the District users, the District shall provide Glenwood Meadows ten (10) days' written notice of its intent to take any action under this paragraph during which ten-day period Glenwood Meadows may cure the breach described in said notice and prevent further action by the District. Furthermore, unless an affidavit as described in (b), above, has been recorded with the Garfield County Clerk and Recorder, any person dealing with Glenwood Meadows shall be entitled to assume that no default by Glenwood Meadows has occurred hereunder unless a notice of default has been served

upon Glenwood Meadows as described above, in which event Glenwood Meadows shall be expressly responsible for informing any such third party of the District's claim of default.

9. Fees and Charges. Glenwood Meadows shall pay in full to the District all fees incurred by the District relating to the Glenwood Meadows' construction, installation, and connection of sewer lines on the Property, including engineering, surveying, legal, inspection, filing, or recording fees and related expenses.

10. Deposit. Because Glenwood Meadows has not received final plat approval, Glenwood Meadows has not posted or provided to the City of Glenwood Springs any performance guarantee for the completion of public improvements, and the parties acknowledge that Glenwood Meadows is proceeding at its own risk regarding the installation of the sewer utilities contemplated under this Agreement. In order to ensure that satisfactory as-built drawings for the project are submitted to the District as required by Section 7.05 of the Rules and Regulations, Glenwood Meadows shall deposit with the District One Thousand Dollars (\$1,000.00) in cash upon execution of this Agreement. Said deposit shall not be released back to Glenwood Meadows until satisfactory as-built drawings are submitted by Glenwood Meadows and approved in writing by the District Engineer.

11. Assignment. This Agreement may not be assigned by Glenwood Meadows without the prior written consent of the District, which consent shall not be unreasonably withheld. In the event Glenwood Meadows desires to assign its rights and obligations herein, it shall so notify the District in writing together with the proposed assignee's written agreement to be bound by the terms and conditions contained herein.

12. Indemnification. Glenwood Meadows agrees to indemnify and hold the District harmless from any and all claims or losses of any nature whatsoever resulting from Glenwood Meadows' construction and/or installation of improvements on the Property, for the dedication of easements to the District, and for any reimbursement agreements as stated or referred to herein. This indemnification shall include actual attorneys' fees incurred in the event that any party brings an action against the District for any of the approvals or dedications described herein. The parties hereto intend not to duplicate any legal services or other costs associated with the defense of any claims against either party described in this section. Thus, the parties hereto agree to cooperate in full to prevent duplicative expenses incurred as a result of the indemnification herein described.

13. Notice. This Agreement shall constitute actual notice of the terms and conditions herein to any and all future users of District services on the Property and all owners, tenants, or other persons who occupy units or reside upon the Property.

14. Covenants in This Agreement. The parties agree and intend that this Agreement shall run with the property described in Exhibit A, attached hereto, and be a burden and covenant on that property.

15. Recordation. Upon execution of this Agreement, the District shall record the Agreement in the Office of the Clerk and Recorder, Garfield County, Colorado.

16. Waiver of Defects. In executing this Agreement, Glenwood Meadows waives all objections it may have concerning defects, if any, in the formalities whereby the Agreement is executed, concerning the power of the District to impose conditions on Glenwood Meadows as set forth herein, and concerning the procedure, substance, and form of the ordinances or resolutions adopting this Agreement.

17. Release of Liability. It is expressly understood that the District cannot be legally bound by the representations of any of its officers or agents or their designees except in accordance with the Rules and Regulations and local, state, and federal laws, and that when dealing with the District, Glenwood Meadows acts at its own risk as to any representation or undertaking by District officers or agents or their designees which is subsequently held unlawful by a court of law.

18. Captions. The captions in this Agreement are inserted only for the purpose of convenient reference and in no way define, limit, or prescribe the scope or intent of this Agreement or any part thereof.

19. Invalid Provisions. If any provision of this Agreement shall be determined to be void by any court of competent jurisdiction, then such determination shall not affect any other provision hereof, all of which other provisions shall remain in full force and effect, and such void provision shall be replaced with a valid provision which most closely sets forth the intentions of the parties. It is the intention of the parties that, if any provision of this Agreement is capable of two constructions, one of which would render the provision void and the other of which would render the provision valid, then the provision shall have the meaning which renders it valid.

20. Governing Law. The laws of the State of Colorado shall govern the validity, performance, and enforcement of this Agreement. Should either party institute legal suit or action for enforcement of any obligation contained herein, it is agreed that the venue of such suit or action shall be in Garfield County.

21. Complete Agreement. This Agreement constitutes the entire and complete agreement of the parties on the installation by Glenwood Meadows of all internal sewer lines on the Property. No promise or undertaking has been made by any party, and no understanding exists with respect to the transaction herein contemplated, except as expressly set forth herein. All prior and contemporaneous negotiations and understandings between the parties are embodied and merged into this Agreement. Any modification or amendment must be in a written form and executed in the same manner as this Agreement.

22. Attorney Fees, Costs. In the event that either party deems it necessary to pursue litigation to enforce any provision of this Agreement, the prevailing party shall be entitled to

reasonable attorney fees and costs of suit actually incurred in such litigation.

23. Binding. This Agreement shall be binding upon and inure to the benefit of the parties and their assigns and successors in interest.

24. Counterparts. This Line Connection Agreement may be executed in duplicate original counterparts, each of which shall constitute an original, but all of which shall constitute one and the same document.

25. Notices. All notices, requests, demands, consents, and other communications pertaining to this Agreement shall be transmitted in writing and shall be deemed duly given when received by the parties at their addresses below or any subsequent addresses provided to the other party in writing.

EXHIBIT A

Glenwood Land Company Property:

A PARCEL OF LAND SITUATED IN SECTIONS 5 AND 6, TOWNSHIP 6 SOUTH, RANGE 89 WEST OF THE SIXTH PRINCIPAL MERIDIAN, COUNTY OF GARFIELD, STATE OF COLORADO, SAID PARCEL BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

BEGINNING AT A CONCRETE RIGHT-OF-WAY MONUMENT FOUND ON THE SOUTHERLY RIGHT-OF-WAY OF THE DENVER AND RIO GRANDE WESTERN RAILROAD WHENCE THE BLM ALUM. CAP IN PLACE AND PROPERLY MARKED FOR THE SOUTHWEST CORNER OF SAID SECTION 5 BEARS SOUTH  $23^{\circ}29'57''$  WEST 1196.71 FEET;  
THENCE ALONG SAID SOUTHERLY RIGHT-OF-WAY THE FOLLOWING (3) COURSES:  
THENCE SOUTH  $83^{\circ}38'11''$  WEST 901.40 FEET;  
THENCE NORTH  $82^{\circ}19'49''$  WEST 103.10 FEET;  
THENCE SOUTH  $83^{\circ}37'11''$  WEST 7.05 FEET LEAVING SAID SOUTHERLY RIGHT-OF-WAY;  
THENCE ALONG THE NORTHERLY RIGHT-OF-WAY OF THE MIDLAND AVE. RIGHT-OF-WAY ACQUISITION THE FOLLOWING (8) COURSES:  
THENCE SOUTH  $42^{\circ}36'53''$  EAST 17.15 FEET;  
THENCE ALONG A CURVE TO THE LEFT HAVING A RADIUS OF 710.00 FEET AND AN ARC LENGTH OF 677.30 FEET, THE CHORD OF WHICH BEARS SOUTH  $69^{\circ}56'35''$  EAST 651.91 FEET;  
THENCE NORTH  $82^{\circ}43'44''$  EAST 80.93 FEET;  
THENCE ALONG THE ARC OF A CURVE TO THE LEFT HAVING A RADIUS OF 500.00 FEET AND AN ARC LENGTH OF 194.98 FEET, THE CHORD OF WHICH BEARS NORTH  $71^{\circ}33'27''$  EAST 193.75 FEET;  
THENCE NORTH  $60^{\circ}23'10''$  EAST 185.42 FEET;  
THENCE NORTH  $56^{\circ}38'55''$  EAST 230.74 FEET;  
THENCE NORTH  $75^{\circ}17'22''$  EAST 201.74 FEET;  
THENCE NORTH  $06^{\circ}21'46''$  WEST 19.87 FEET LEAVING SAID NORTHERLY RIGHT-OF-WAY;  
THENCE ALONG SAID SOUTHERLY RIGHT-OF-WAY THE FOLLOWING (3) COURSES:  
THENCE SOUTH  $83^{\circ}38'11''$  WEST 132.79 FEET;  
THENCE SOUTH  $86^{\circ}30'11''$  WEST 200.30 FEET;  
THENCE SOUTH  $83^{\circ}38'11''$  WEST 98.60 FEET TO THE POINT OF BEGINNING.

## EASEMENT

THIS EASEMENT, granted this 17 day of January, 2000, between GLENWOOD MEADOWS, LLC, a Colorado limited liability company whose legal address is 525 East Cooper, Aspen, County of Pitkin, State of Colorado 81611, the Grantor, and the CITY OF GLENWOOD SPRINGS, COLORADO, a Colorado home-rule municipality whose legal address is 806 Cooper Avenue, Glenwood Springs, County of Garfield, State of Colorado 81601, the Grantee.

WITNESSETH, that the Grantor, for and in consideration of the sum of Ten and No/100 U.S. Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, does grant, bargain, sell, and convey, without warranty soever, to the Grantee a non-exclusive easement for the following purposes:

- (i) below ground utility installation, repair, replacement and maintenance of Grantee-owned services; specifically including the right to install line extensions of the Grantee's sewer and water systems as may be reasonably necessary to service the needs of the real property owned by both Grantor and Grantee and described hereinbelow;
- (ii) below ground utility installation, repair, replacement and maintenance of standard utilities reasonably necessary to service the needs of the real property owned by both Grantor and Grantee and described hereinbelow; specifically including the right to install natural gas, telephone, CATV, electric, fiberoptic and similar distribution, transmission and service lines;
- (iii) above ground debris flow mitigation and surface water drainage systems; and
- (iv) other reasonable utility purposes as may be agreed in writing by the parties hereto,

over and across the following described parcel of real property, owned as of the date hereof by Grantor, situate in the County of Garfield and State of Colorado to wit:

SEE EXHIBIT A, ATTACHED HERETO AND BY THIS  
REFERENCE, INCORPORATED HEREIN.

Provided, however, that the easement granted hereby may be relocated to other, contiguous real property owned by the Grantor upon the prior written agreement of the parties hereto. Upon such relocation, each party agrees to execute such instruments as shall be necessary to effect the release of the property described upon Exhibit A hereto from the tenure and encumbrance of the within easement.

This Easement is for the benefit of and appurtenant to that land, or any part thereof, situate in the County of Garfield and State of Colorado, and commonly known as the Wulfsohn Parcel as described by that certain Special warranty Deed conveying the same to Grantor dated September 6, 1996 and recorded in the Garfield County land records in Book \_\_\_ at Page \_\_\_. Grantee hereby covenants that it shall maintain the lands affected by Grantee's exercise of the easement rights granted hereunder, including any and all costs of mitigation, remediation, revegetation and landscaping. Grantee agrees to repair and maintain the easement granted herein at the cost and expense of the Grantee, and that said Grantee will in no way hinder or prevent the proper and reasonable use and enjoyment of Grantor's real property through which the easement is granted or contiguous thereto, including Grantor's unencumbered rights to ingress and egress.

This Easement is intended to be perpetual. In the exercise of the easement rights herein granted, Grantee may, at its own expense and with reasonable prior notice to Grantor, relocate existing fences and other removable above-ground fixtures which interfere with the efficient use of the easement.

My commission expires: 12/31/2001

**EXHIBIT A**

A strip of land not to exceed thirty (30) feet in width, generally situate southerly of and contiguous to the Midland Avenue Alternate Route Right of Way as surveyed and in place. Said strip of land shall commence at the western boundary of that parcel of real property conveyed by Grantor to Grantee under that certain Correction Special Warranty Deed dated January 26, 2000, commonly known and referred to as the City of Glenwood Springs Community Center Site. Said strip of land shall then extend west to the eastern boundary of that parcel of real property conveyed by Grantor to Grantee under that certain Special Warranty Deed dated January 26, 2000, commonly known and referred to as the City of Glenwood Springs Municipal Operations Center Site. Intervening alterations, enlargements or deviations of the aforementioned Midland Avenue Alternate Route Right of Way which may exist between the point of beginning and the terminus of the strip of land described herein shall not have the corresponding effect of extending the easement granted herein further to the south of the general alignment of said Midland Avenue Alternate Route Right of Way.

## PUBLIC UTILITY EASEMENT

KNOW ALL MEN BY THESE PRESENTS, that the undersigned, **GLENWOOD MEADOWS, LLC** (hereinafter called the "Grantor"), of the County of Garfield, State of Colorado, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, does hereby grant, bargain, and convey to the **CITY OF GLENWOOD SPRINGS, COLORADO**, a Municipal Corporation, whose address is 806 Cooper Avenue, Glenwood Springs, Colorado, 81601 (hereinafter called the "Grantee"), and its successors and assigns a non-exclusive public utility easement upon the lands of Grantor, situated in the County of Garfield, State of Colorado, said easement being more particularly described as follows:

A utility easement situated in Section 9, Township 6 South, Range 89 West of the 6th Principal Meridian, County of Garfield, State of Colorado, being 30 feet in width and lying 15 feet on each side of the following described centerline:

Beginning at a point whence the center west 1/16 corner of said Section 9 bears S 37°32'19" E, a distance of 1415.44 feet; thence S 51°26'25" E, a distance of 292.00 feet; thence S 52°58'53" E, a distance of 94.67 feet; thence 68.94 feet along the arc of a 419.58 feet radius curve to the right, having a central angle of 9°24'52" and subtending a chord bearing S 48°16'27" E, a distance of 68.86 feet; thence S 43°34'01" E, a distance of 500.94 feet; thence S 41°19'02" E, a distance of 250.17 feet to the point of ending; whence said center west 1/16 corner bears S 00°39'40" W, a distance of 286.68 feet.

Together with a temporary construction easement being 50 feet in width and lying 25 feet on each side of the above described easement centerline, said temporary easement will expire 1 Jan. 2002.

To construct, install, reconstruct, replace, repair, and maintain public utilities within the above described lands.

Together with the right to remove any and all fences and other structures, trees, bushes, vegetation within said easement when such is reasonably necessary for the exercise of the rights herein granted. After the exercise by Grantee of any of its rights hereunder, Grantee shall promptly restore the surface of the ground to its former condition as nearly as is practicable, at the sole expense of Grantee.

Neither the extent nor use of the easement granted herein shall be expanded or enlarged from its initial use without a specific written grant from Grantor for such expansion or enlargement.

Grantor agrees that all facilities installed by the Grantee within the easement shall remain the property of the Grantee and shall be removable at the option of the Grantee. In the event that the extent and use of this easement is abandoned or no longer used for the purpose described herein at any time hereafter for a period of one (1) year or more, the grant herein shall revert to the Grantor, its heirs, successors and assigns.

Except for the rights and privileges granted to the Grantee by this Agreement, the Grantor reserves the full, complete and uninterrupted right to use, possess and occupy all portions of the property encumbered by the easement granted herein, so long as such use, possession and occupancy does not unreasonably interfere with the purposes for which the easement is hereby granted.

TO HAVE AND TO HOLD, said permanent easement, unto Grantee, its successors and assigns, forever.

WITNESS the due execution hereof on Aug 8, 2000.

ANNEXATION AND DEVELOPMENT AGREEMENT (PRIVATE)  
GLENWOOD MEADOWS, LLC ANNEXATION

526

THIS ANNEXATION AND DEVELOPMENT AGREEMENT ("Agreement") is made and entered into this 18 day of September, 2002, by and between the CITY OF GLENWOOD SPRINGS, COLORADO, a Colorado municipal corporation (hereinafter "City"), and GLENWOOD MEADOWS, LLC, a Colorado limited liability company, its successors, assigns, and its legal or other representatives (hereinafter collectively "Owner");

**WITNESSETH:**

WHEREAS, Owner owns approximately three hundred forty-five (345) acres of real property currently located in unincorporated Garfield County, Colorado, and more particularly described on Exhibit A, attached hereto and incorporated herein by this reference (hereinafter "Property"), which Property shall be known as "Glenwood Meadows"; and

WHEREAS, Owner and City entered into that certain Pre-Annexation Agreement concerning the Property dated August 20, 1999 and subsequently amended by instrument dated January 12, 2000 (as amended, the "PAA"); and

WHEREAS, in February, 2000, Owner filed with the City Clerk a petition and request for annexation of the Property into the City; and

WHEREAS, a duly noticed public hearing was held on March 2, 2000, whereat the City adopted a Resolution finding said petition and request to be in substantial compliance with the statutory requirements for annexation of the Property to the City; and

WHEREAS, Owner applied to the City for approval of certain Planned Unit Development zoning for the Property in March, 2000 (Zoning Application #42-99), which zoning application was subsequently withdrawn by Owner at a public hearing before the City Council on November 15, 2000; and

WHEREAS, upon the request of the City, approximately 4.63 acres of the Property was approved for annexation and zoning as C-1 Limited Commercial (the "MOC Entrance Parcel") and is subject a separate Annexation Agreement between the Owner and City; and

WHEREAS, on September 19, 2001 (Zoning Application #59-01) Owner submitted an application to the City for approval of a zoning plan for the Property which included C-1 Limited Commercial, C-2 Core Commercial, C-4 Resort Commercial and R-3 Residential zoning districts for the portions of the Property not intended for public dedication (any portion of the Property intended for public dedication pursuant to this Agreement and the instruments incorporated herein may be zoned under the same application and review process as HP Hillside Preservation) as more fully described upon Exhibit B attached hereto and by this reference incorporated herein (the "Zoning Map"); and

WHEREAS, on March 21, 2002, the Owner did amend its original February, 2000 Annexation Petition to reflect the distinct characteristics of the Property subject to this Agreement and the MOC Entrance Parcel; and

514  
415/  
183

WHEREAS, on March 21, 2002 a Public Hearing was held pursuant to C.R.S. Section 31-12-109, as amended, at which public hearing it was determined that the annexation petition had satisfied all requirements of C.R.S. Section 31-12-101 et. Seq.; and

WHEREAS, on July 18, 2002 the City Council of the City of Glenwood Springs ("Council") did adopt Ordinance No. , Series of 2002, and Ordinance No. , Series of 2002, which respectively approved the Owner's petition and request for annexation of the Property and approved the Owner's application for municipal zoning of the Property; and

WHEREAS, during the public review of the annexation and zoning processes, the parties hereto have agreed to amend and eliminate the provisions of the prior PAA and to set forth and memorialize all agreements regarding the annexation, zoning and development of the Property in the instant Agreement; and

WHEREAS, the City and Owner desire to enter into this Agreement to set forth their agreements in writing concerning the terms and conditions of annexation of the Property to the City, the zoning of the Property under the City's Municipal Code and the adopted Zoning and Development Plan (Exhibit C attached hereto and by this reference incorporated herein), as well as the other conditions of the development of the Property as hereinafter described; and

WHEREAS, Owner intends to submit its development proposal to the City for subdivision review and approval and to construct the development in phases which correspond to the Zoning Plan parcels, it being understood that nothing herein shall confer upon Owner any other or further rights not expressly contained herein or by instruments incorporated herein.

**NOW, THEREFORE,** for and in consideration of the mutual promises and covenants contained herein, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the City and Owner agree as follows:

1. **Purpose.** The purpose of this Agreement is to set forth the terms and conditions of the annexation of the Property to the City, and the zoning and development of the Property in the City. Except as expressly provided for herein to the contrary, all conditions herein are in addition to any and all requirements concerning annexation and development contained in the Municipal Code of the City of Glenwood Springs, Colorado (hereinafter "Municipal Code"), the Municipal Annexation Act of 1965, as amended at C.R.S. §31-12-101 et seq., and other applicable laws.

Except as expressly provided herein to the contrary, the complete execution, delivery and recording of this Agreement shall render null and void the PAA between these same parties. Furthermore, and except as expressly stated otherwise herein, all terms and conditions of the following agreements, contracts and documents shall remain in full force and effect:

- (i) Midland Avenue Right Of Way Extension Agreement, dated September 20, 1994;
- (ii) Community Center Acquisition and Exchange Agreement, dated March 16, 1999;

- (iii) Municipal Operations Facility Site Acquisition Agreement, dated December 27, 1999
- (iv) MOC Water and Sewer Fee Credits Assignment and Bill of Sale, dated January 17, 2000;
- (v) MOC Entrance Parcel Annexation and Development Agreement.

2. Zoning Characteristics/Constraints/Requirements. The Zoning and Development Plan attached hereto as Exhibit C (the "Plan") shall govern the development of the Property. Any and all future site planning, whether in the form of an application for planned unit development, major or minor subdivision, major or minor development permit approval or any other form requiring the review and approval of the City, shall, as an element of its application for approval and review, evidence, to the satisfaction of the applicable City department, commission and/or City Council, compliance with the criteria and conditions of the Plan, as said Plan relates to such development application and the underlying Municipal Code requirements. All zoning and development hereunder is deemed to require the application of the more stringent of either (i) the Municipal Code or (ii) the Plan. An applicant may seek relief from specific elements of the Plan and/or the Municipal Code only through appropriate variance processes outlined in the City of Glenwood Springs Municipal Code.

Owner shall, within ninety (90) days after the mutual execution of this Agreement, submit a surveyed zoning map to the City. Such surveyed zoning map shall include legal descriptions for each of the twelve (12) zoning parcels (Parcels A through L, inclusive) identified by Exhibits B and C attached hereto. The City's Community Development Director and the City Attorney shall review such descriptions and, if generally consistent with the representations and approvals of the annexation and zoning public processes, shall approve the same. The City shall incorporate the surveyed zoning map into the Citywide zone district designation mapping and maintain an accurate and current copy thereof in accordance with State and local laws.

Prior to or contemporaneous with the first subdivision and/or development application for the Property, the Owner shall submit an overall geologic hazards map and mitigation plan of the Property to the City Engineer for his review and approval, which approval shall not be unreasonably withheld. The City shall incorporate the approved overall geologic hazards map and mitigation plan into the Citywide mapping and maintain an accurate and current copy thereof in accordance with applicable laws.

Prior to the first subdivision and/or development application for the Property, the Owner shall submit a Master Grading Plan and Master Drainage Plan for the development areas of the Property to the City Engineer. Said plans shall be consistent with the requirements of the Colorado Geologic Survey's letter dated October 23, 2001 and maintained on file with the City. Upon approval of said plans, Owner may apply for a grading permit to commence the preparation of all or part of the Property scheduled for development under the Plan. Based upon the detailed requirements and master planning of the Property as set forth herein and upon the Zoning and Development Plan attached hereto, such grading permit request may be granted by the City in advance of site specific development plans for an individual Parcel of the Property and may include certain off-site earth work, including, without limitation, (i) the "rough grading" of certain areas, as directed by the City, of Parcel L for said area's future use as active park facilities, and (ii) the

construction of debris mitigation structures within Parcel L as more fully described in Section 14 hereinbelow. All Master Grading Plans, Master Drainage Plans and grading permit requests shall include revegetation plans acceptable to the City Engineer and City Planning Department. At a minimum said revegetation plans shall incorporate grass, forb and shrub species into any debris flow mitigation structure development in a manner beneficial to wildlife for forage and cover and shall adequately address erosion control.

Prior to the first subdivision and/or development application for the Property, the Owner shall submit a Master Utility Plan for the development areas of the Property to the City Engineer. The City shall incorporate the Master Utility Plan into the Citywide mapping and maintain an accurate and current copy thereof in accordance with State and local laws and with City policy.

3. Non-Specific Assessments/Credits/Fees-in-Lieu of School Land Dedication

- a. Non-Specific Assessments/Credit. Any future impact fees, surcharges, special permit fees, special taxes or assessments, development fees or tap fees, and other items not addressed by this Agreement shall be exacted uniformly and non-discriminatorily on the Property and as exacted throughout the City. Notwithstanding the foregoing, nothing herein affects or shall affect the City's ability to exact impact fees for different facilities from certain residents or as to certain geographical areas. Owner shall receive full credit against any such future imposition for the full costs of all improvements, dedications, or payments made with respect to the matters to which such imposition relates. For example, in the event of a City's imposition of a fee for pedestrian trail facilities, Owner would be entitled to credit for the costs of all such trail improvements (as properly evidenced by invoices for design and construction) and dedications of land for trails (the value of which shall be established by the same appraisal mechanism described in Section 13.c. below) Owner had made up to that point in time on or concerning the Property.

Owner's credit for such costs shall include all costs incurred with respect to the applicable on-site or off-site improvements or dedications, including without limitation, all land costs (based upon the value of such land as vacant land, agricultural land or land for commercial or residential development, whichever is applicable, at the time the final plat for such land is approved), construction and construction management costs (excluding Owner's profit), and design, legal, consulting, and financing costs for the land so dedicated or on which the applicable improvements are constructed.

Notwithstanding the foregoing, Owner shall not receive credit as against such costs for the value of water rights dedicated or otherwise transferred to the City or the ownership shares of the attendant Atkinson ditch structure, both as more fully described by Section 11 hereinbelow. Further, in the case of an imposition of general applicability to provide general fund revenues, Owner shall not be entitled to credit against any impact fees or general assessments.

Except with respect to Parcel I as identified on Exhibits B and C hereof, Glenwood Meadows, its successors and assigns, shall not be required to pay any future Traffic/Transportation Impact Fee established by the City subsequent to the execution and recordation of this Agreement. The City and Glenwood Meadows have established the full and complete obligations of Glenwood Meadows with respect to on-site and off-site traffic/transportation improvements and financial contributions as set forth by Section 12 hereinbelow.

Owner does own, and the City acknowledges and ratifies such ownership herein, certain water and sewer system "Fee Credits" (specifically, 135 sewer system improvement fee credits and 135 water system improvement fee credits) arising from Owner's prior transfer to the City of certain lands for development of the Municipal Operations Center (see instruments dated December 27, 1999 "Municipal Operations Facility Site Acquisition Agreement" and January 17, 2000 "Assignment and Bill of Sale"). Owner and City shall maintain accurate records regarding Owner's use of such Fee Credits as the Property is developed.

- b. Fee-in-Lieu of School Land Dedication. Owner shall pay and the City shall accept fees in lieu of land dedication for the benefit of schools in the RE-1 School District (the "District") pursuant to Ordinance No. 34 Series of 1999 and Municipal Code Section 070.030.150. D.; or any amended version thereof in force and effect at the time of the final development permit approval of a given portion of the Property by the City. Such fees shall be applicable to the number of units proposed for all residential phases scheduled for development and shall be payable upon the issuance of a building permit for a residential dwelling unit. Owner shall have the right to seek relief from the obligation to pay such school impact fees for any "affordable housing dwelling units" or "employee housing dwelling units" provided by Owner or its assignees within the Property.

c. Credit to Owner for Actual Development of Public Facilities. Owner is specifically entitled to a credit against any City parkland improvement fee or similar fees if eventually implemented and which would be otherwise applicable to development on the Property as follows:

- (i) the value of land dedicated to public use and the costs of construction of pedestrian and bicycle trails within the Property as more fully described by Section 13(a) and 13 (b) below;
- (ii) the value of land dedicated to public use and the costs of construction or Owner's contributions to the costs of construction of pedestrian and bicycle trails outside the boundaries of the Property as more fully described by Section 13(c) below;
- (iii) the value of any "rough grading" performed by Owner, its successors and assigns, as requested by the City pursuant to the provisions of Section 15 below; and
- (iv) the value of land, if any, dedicated by the Owner to the City for public use and enjoyment as open space, active parklands and passive parklands in

Parcel L, which lands represent a dedication in excess of the quantity of such lands otherwise required to be dedicated in support of the development on the Property.

Owner shall not be entitled to any credit against such fees for the development of commonly owned open spaces and recreation facilities within the development of Parcels A through K.

4. Conditions Precedent.

a. The provisions of this Annexation Agreement shall not be effective until the following conditions have been satisfied in full:

(1) Final approval has occurred as follows:

(a) For the purposes of this Agreement, final approval occurs on the thirtieth (30th) day following the effective date of the latest of the motion, ordinance and/or resolution by which the City Council (hereinafter "Council") approves:

(i) This Agreement;

(ii) The formal annexation of the Property to the City;

(iii) The zoning for the Property as C-1 Limited Commercial, C-2 Core Commercial, C-4 Resort Commercial, R-3 Residential and HP Hillside Preservation; and

(2) Owner and City have mutually executed and delivered this Agreement for recordation with the Garfield County Clerk and Recorder.

b. If any legal proceedings, referenda, or elections are commenced regarding any of the items specified in Section 4(a) hereinabove, and in accordance with the City's Municipal Charter, but are not favorably concluded within fifteen (15) months thereafter (subject to each party's obligations pursuant to Section 5 below), this Agreement may be terminated by either party upon written notice to the other.

c. If none of the actions addressed in Section 4(b) above is taken or commenced within such thirty (30) days, or if an election is called pursuant to said Section 4(b) and ratification thereafter made by the voters of the City, then Final Approval shall occur upon conclusion of the election.

5. Cooperation in Defending Legal Challenges. If any legal or equitable action or other proceeding is commenced by a third party: (a) within one (1) year after the Final Approval, challenging the validity of the annexation of the Property into the City or the City's zoning of the Property or the City's execution and delivery of this Agreement, Owner and the City shall defend

such action or proceeding; or (b) subsequent to such one-year period, challenging the validity of any provision of this Agreement (other than as set forth in clause (a) above), Owner and the City agree to cooperate in defending such action or proceeding, and in connection with any such action or proceeding, the City shall bear its own expenses and Owner shall bear Owner's expenses. Unless the City and Owner otherwise agree, each party shall select its own legal counsel to represent it in connection with any such action or proceeding.

6. Interim Use of Available Raw Water During Site Development. The parties agree that the developer of the Property may utilize the Atkinson Canal and associated water rights being dedicated to the City for dust mitigation and site preparation during the grading and construction activities on the Property. If the developer elects to so utilize the water structures and water rights, all cost, including but not limited to construction, maintenance and legal fees associated with such use shall be borne exclusively by said developer.

7. Deannexation. The provisions of this Agreement, as well as acceptable City zoning of the Property, are material considerations of Owner's agreement to annex the Property to the City. Therefore, in the event (a) the City fails to perform under the terms of this Agreement, or (b) Owner is unable to obtain, either before or after annexation proceedings are complete, C-1 Limited Commercial, C-2 Core Commercial, C-4 Resort Commercial and R-3 Residential zoning and/or subdivision and/or development approval (subject to limitations herein set forth) which it in its sole discretion finds acceptable, Owner and the City stipulate and agree, pursuant to C.R.S. §31-12-501, that it shall be in the best interest of the City that the Property be de-annexed from the City. In such event, the City agrees that it shall initiate de-annexation proceedings, and to take all steps necessary to effect the de-annexation. The City further acknowledges and agrees that de-annexation is not prohibited by the City Charter or Municipal Code and ordinances, and that the City will not amend its ordinances to preclude a de-annexation permitted hereunder. The parties' right to de-annex shall be in addition to those rights set forth in Section 4, above. Upon the de-annexation of the Property from the municipal boundaries and specific jurisdiction of the City, the City agrees that it shall convey, assign, transfer and quitclaim to Owner, its successors and assigns, any and all land and water rights (the public dedication of which is more fully described by Section 11 hereof) previously dedicated by Owner hereunder to the City for the public use and benefit.

8. Owner Representations. All representations of Owner set forth in its annexation petition, annexation plat, public hearings on the application for C-1 Limited Commercial, C-2 Core Commercial, C-4 Resort Commercial and R-3 Residential zone district classification, the Zoning and Development Plan and mapping and related documents shall, if accepted by the City, be considered incorporated into this Agreement as if set forth in full herein. Notwithstanding their incorporation by reference, the City makes no representations about the accuracy of such documents.

9. Site Planning/Density Limits/Plats/Subdivision Improvements Agreements. The City and Owner agree to the following terms and conditions regarding site planning, vested rights, subdivision improvements agreements (hereinafter "SIAs") or development permit agreements (hereinafter, "Development Permits") and plat recordation:

- a. Site Planning. Unless otherwise mutually agreed upon by the parties, Owner shall develop the property in eleven (11) distinct phases; each of which shall correspond, according to the surveyed zoning map described by Section 2 hereinabove, to one of the zoning parcels (A through K) generally set forth by Exhibit B and Exhibit C (hereinafter, a "Parcel" or the "Parcels"). One or more zone parcels may be commenced as a single phase of site specific planning and development, provided the developer thereof complies with all obligations of each parcel's development; to wit, the timing and amount of applicable Off-Site Transportation Improvements (Section 12 hereof), the Geotechnical Mitigation requirements (including debris flow detention facility extensions) (Section 14 hereof) and all other applicable fees and conditions of development associated with each zoning parcel. During any planned unit development ("PUD") review process, subdivision process, development permit process or other development process, Owner shall submit to the City a final plat for each encompassed Parcel, which plat shall correspond to and indicate the proposed plan of development in each Parcel of the Property (the "final plat"), which shall include, at a minimum, the intended locations and densities of such development. The parties agree that the final plat shall be recorded promptly following approval.

The City and Owner agree that, together with the application for the first subdivision and/or development on the Property, except the subdivision and or development of Parcel I, and otherwise regardless of which zoning parcel or phase is involved, an element of the approval of the final plat thereof shall be the public dedication to the City, either by such plat or by separate conveyance instrument, of the HP Hillside Preservation (Parcel L) lands. It is further agreed that such conveyance shall and does provide part of the consideration herein agreed to and accepted by the parties as support for Owner's enforceable vested rights as further described and defined in Section 10 hereinbelow. It is also agreed that the dedication and conveyance of other, future public lands and facilities (such as publicly dedicated streets and utility easements) will occur in conjunction with future subdivision and/or development application approvals.

- b. Infrastructure Easements. Regardless of Owner's schedule, Owner agrees to provide infrastructure for roads, water and sewer facilities, electrical and natural gas service, and other facilities and services as mutually agreed upon by Owner and the City Engineer to serve the Property adequately during the period(s) between development of parcels. Such infrastructure shall be provided at Owner's expense, and shall be reviewed and subject to approval by the City. Owner will loop water or sewer lines or provide other stand-alone features of such infrastructure, all as approved by the City engineer, to accomplish this goal. The City shall accept easements for such public facilities pending the actual and final public dedication of the same upon the final platting of the affected Parcel(s).
- c. Density Cap. Notwithstanding the zoning designation of the Property as: (i) a C-1 Limited Commercial zoning district (Parcels A, C, D and H on the Plan) or C-2 Core Commercial zoning district (Parcels E, F and G on the Plan), Owner agrees that it shall not plan, develop, construct or sell more than 490,000 total square feet of

commercial space (exclusive of any development which may occur within that area of the C-4 Resort Commercial zone district identified as "Hospitality" [Parcel I on the Plan], the density maximums of which are separately limited by the City's Municipal Code) within the Property; and (ii) an R-3 Residential zoning district (Parcels B, J and K of the Plan), Owner agrees not to plan, develop, construct or sell more than 475 residential dwelling units (subject to the provisions of Section 9(c)(i) below) within Parcels B, J and K.

(i) *Specific Housing Agreements between Owner and City.* The Owner and its successors-in-interest shall comply with the City's community housing requirements contained in Ordinance #24, Series of 2001, Inclusionary Residential Requirements for Affordable Housing and the applicable Guidelines, as contained in Resolution #2001-16. Glenwood Meadows further agrees that a minimum of twenty (20) dwelling units shall be developed on the Property and shall be located within the mixed-use Parcels E, F and G. Finally, the City and Owner agree that no more than three hundred (300) of the total residential dwelling units permitted hereunder shall be commercial apartment rentals as "apartments" are now or may hereafter be defined in the City's Municipal Code.

(ii) *Limitation.* The foregoing density limits shall not apply to portions of the Property conveyed to or developed as (i) governmental services facilities (including a public school district facility) or (ii) non-governmental, non-profit health and human services facilities. Except as expressly provided herein to the contrary, proposed land uses which exceed the maximum density limits established hereby and reiterated by the incorporated Zoning and Development Plan shall require the written mutual execution of a specific amendment to this Agreement. No such amendment shall be valid unless approved at a duly and properly noticed, public hearing before both the City's Planning & Zoning Commission and the Glenwood Springs City Council on the question.

d. SIA/Development Permits and Plat Recordation. The City and Owner shall, following Council approval of the final plat of one or more of the Parcels of the Property's development, but before the final plat is recorded, negotiate acceptable terms of a separate subdivision improvements agreement ("SIA") for the Parcel(s) scheduled to proceed to development. The City shall authorize the Mayor to execute the SIA for the Parcel(s) following final plat approval. The City shall further authorize the Mayor to execute the SIAs for subsequent Parcel(s), subject to the foregoing:

- i. No SIA for any Parcel shall be recorded until all necessary documents in support of that Parcel, including a financial guarantee acceptable to the City, updated cost estimates for public improvements, and an updated title commitment, all pursuant to the Municipal Code (the "Financial Items") have been provided to the City and approved by City staff. For purposes of this Agreement, both (i) Off-Site Transportation Improvements in

accordance with the provisions of Section 12 hereinbelow and the Glenwood Meadows' Transportation Improvements Plan and (ii) Geotechnical mitigation requirements applicable to a given phase of development (including debris flow detention structure extensions) in accordance with the provisions of Section 14.a. hereinbelow, shall be deemed included within the definition of "Financial Items" requiring review and approval of the City's Community Development Director prior to recordation of the final plat of a given approved phase of development. Upon the City's receipt of the Financial Items, no public hearing shall be necessary if all City review departments approve the Financial Items without imposing conditions thereon and without recommending or requesting a public hearing. Nevertheless, the SIA for each phase of the Property's development shall be subject to Council review and approval at a regular Council meeting. Promptly following final approval and execution, the City shall record the SIA for the Parcel(s), which will thereafter proceed to be developed.

- ii. The parties agree that any filing or other numbers which appear on the final plat for the various phases of development of the Property are for reference and identification purposes only and have no bearing on the sequence in which the Property may be developed.
- iii. Owner may only sell lots on the Property located within a Parcel:
  - A. which includes within its final plat and design an identification of the lot(s) to be sold;
  - B. for which an SIA designating said lots has been executed and recorded; and
  - C. for which acceptable financial guarantees have been posted to secure construction of improvements.

In the absence of a specific "subdivision" request, the Financial Items and other obligations required hereunder may be enforced by the City through conditions of Major Development Permitting or other similar and enforceable mechanics.

- e. Compliance With Agreement and Subsequent Obligations. Owner's compliance with all requirements of this Agreement, the Plan, the Municipal Code and other governing documents incorporated herein or as part of the zoning approval process, including future SIA/Development Permit instruments, is a condition of subdivision and/or major development permit approval. Notwithstanding the foregoing or Section 10 hereinbelow, nothing herein shall constitute a guarantee, covenant or agreement that the City shall approve such application(s) in the event of non-compliance.

10. Vested Rights. In order to allow Owner a reasonable opportunity to develop the Property in accordance with this Agreement, the Zoning and Development Plan, the Final Approval and in consideration of the substantial public dedications of land as described herein and upon the attachments hereto, the development rights and uses approved thereby shall, to the extent allowed by law, constitute a "site specific development plan" under C.R.S. §§24-68-101 et seq., as amended. Subject to Owner's satisfactory completion of Parcel phases of development pursuant to this Agreement, the site specific development plan shall be vested in Owner under the following conditions:

- a. The site specific development plan shall be vested for a period of ten (10) years, beginning on the date the final plat of the first phase of development on the Property is recorded (the "Vested Period"). The Property as to which rights have been vested shall be immune from changes in the City's land use regulations for the duration of the Vested Period, subject to the below provisions.
- b. After the Vested Period expires, this Agreement shall be deemed terminated and of no further force or effect as to such phase; provided, however, that such termination shall not affect (a) annexation to and zone district designations of the Property in the City; (b) any common-law vested rights obtained prior to such termination; (c) any right arising from City permits, approvals or other entitlements for the Property which were granted or approved prior to, concurrently with, or subsequently to the approval of this Agreement; (d) any continuing obligations of Owner regarding providing services or facilities to such phase, performing covenants implied within this Agreement, or other Owner responsibilities under this Agreement, which shall survive termination; or (e) any rights of the City relating in any way to Owner's performance or nonperformance hereunder.
- c. Notwithstanding the foregoing, if Owner does not complete the items listed and intended for each phase within the time period allotted for construction of such phase pursuant to an applicable SIA, the Vested Period as to all uncompleted work on the Property in connection with the subject phase(s) shall expire, vested rights as to such uncompleted work shall be extinguished, and this Agreement shall terminate in favor of the provisions of the applicable SIA. "Completion" for the purpose of this paragraph shall mean that all work for such phase shall have been performed, submitted to the City for approval, and finally approved pursuant to applicable City subdivision and platting requirements, and that Owner properly posted financial guarantees acceptable to the City to assure completion of that phase's improvements within the time period allotted by the subject SIA.
- d. Except in instances of force majeure, the requirements of federal or state law, cases of preemption or other superior jurisdictional mandate, the City shall not initiate any zoning or land use action which would alter, impair, prevent, diminish, impose a moratorium on development, or otherwise unreasonably delay any of Owner's rights set forth in this Agreement or Owner's plans for development or zoning, as approved by the City.

- e. Notwithstanding the foregoing, the establishment of vested property rights under this Agreement shall not prevent the City from enacting and enforcing regulations of general applicability (including, but not limited to, building, fire, plumbing, electrical and mechanical codes, including the preliminary plat and final plat subdivision requirements under the Municipal Code and other City ordinances), except where the approved plans for development of the Property or state or federal regulations provide otherwise, as all of such regulations exist on the date of this Agreement or may be enacted or amended after the date of this Agreement.

11. Water Rights Dedication and Ditch Structure Conveyance. At or before the time the recordation of the final plat for the first phase of subdivision and/or development (whereupon the land zoned as HP Hillside Preservation shall be dedicated to the City for public use and enjoyment as open space, active park lands and passive park lands), but in no event later than six (6) months after the mutual execution of this Agreement, Owner shall convey by special warranty deed to the City, free and clear of all liens and encumbrances (but subject to the provisions of Section 6 hereinabove), water rights acceptable to the City, as determined by mutual agreement to be satisfactory to provide a secure, legal water supply for appropriate useful application within the proposed development contemplated by this Agreement and the Plan; provided, however, Owner's obligations in this regard shall be limited to the historic water rights owned by Owner and used on the Property. Prior to dedication, the Owner and City shall agree to the maximum needs of the contemplated uses. The water rights dedicated shall be those historically associated with the subject Property and more specifically known as priorities 105A, 107A, 228 and 594 as decreed in Case Nos. 1056, 1225, 1338 and 4033 respectively. The Owner may retain water rights which exceed the needs described above, provided that the water rights retained are junior in priority to those dedicated and that any change in the point of diversions downstream of the point of diversion utilized to service the annexed Property. In addition, the Owner hereby agrees not to oppose any application by the City for an alternate point of diversion for the dedicated water rights in order to better serve the Property and the City's needs. Owner shall be entitled to sever and maintain ownership of those water rights not necessary for the City to offset the future use on the Property. Owner shall be solely responsible for the costs associated with any legal proceedings, including those related to approval of an augmentation plan or request for change in use, arising from the retention by Owner of any portion of its present water rights. By this conveyance, Owner shall fully satisfy any and all water rights dedication requirements of the City for annexation and development of the Property as set forth in the Municipal Charter and Municipal Code and as approved by the City Council.

As an element of the consideration hereunder, Owner agrees to assign one hundred percent (100%) of its ownership interest in and to the Atkinson Canal Company to the City contemporaneous with the dedication of water rights described by this Section 11. Such assignment shall include, without limitation, all right, title and interest of the Atkinson Canal Company in any agreements, contracts, easements, rights-of-way and other appurtenant benefits.

Owner, as an element of its Master Drainage Plan and its Master Utility Plan, shall at Owner's sole cost, design a raw water irrigation system, acceptable to the City Engineer, serving the Property and adjacent City-owned lands (i.e. Community Center, MOC Site and the Parcel L property). The City shall be the owner of any such raw water irrigation system and shall pay for the

costs associated with construction of the same. Upon the City's development of a raw water irrigation system, all development within the Property shall be required to purchase such taps and pay such other fees as are generally applied to the system's use.

12. Off-Site Traffic Improvements Obligations. As an element of the City's approval of (i) Owner's Petition for Annexation, (ii) Owner's Application for Zoning and (iii) acceptance of this Agreement, the Owner has agreed to make certain improvements to the surrounding transportation system and to cooperate financially with the City on specified future transportation system improvements as described herein:

- (a) As a specific requirement of any application for a Parcel's subdivision and/or development, the Owner shall calculate the estimated number of daily trips attributable to the site specific development's intended uses and provide the City with a complete copy of said calculations for the City's records.
- (b) Owner shall cooperate with the City to obtain a CDOT Access Permit on behalf of, and in the name of the City. The City shall be provided a copy of any Access Permit granted hereunder. Said Access Permit shall describe the nature and impacts of construction and improvements affecting the Interstate 70/Midland Avenue right-of-way areas. Owner shall pay the costs of the Access Permitting process and shall comply with the terms associated therewith.
- (c) Owner shall be responsible for the design and, upon approval of the City Engineer, the construction of improvements at the intersection of Midland Avenue and Eighth Street. Said improvements shall accommodate existing and anticipated traffic as described by the Owner's Transportation Improvements Plan through intersection modification, grade modification and/or signalization. Owner and or its assigns shall be responsible for all costs of administration, design and actual construction of the approved improvements; the City shall be responsible for all necessary costs of right-of-way acquisition for the approved improvements. The improvements contemplated hereby shall be completed prior to or contemporaneous with the issuance of a final and permanent certificate of occupancy by the City's Building Department for any structure within the first Parcel of commercial and/or residential development (exclusive of any proposed subdivision and development on Parcel I). Provided, however, Owner may apply for and obtain subdivision and/or development permit approval for development on the Property in advance of the actual construction of the improvements herein described; provided however that (i) the obligation to complete the improvement is included in the Financial Items of the respective SIA(s) (see Section 9(d) above) and thereby, the performance secured, and (ii) no permanent certificate of occupancy for any structure on Parcels A, B, C, D, E, F, G, H, J or K shall be issued until the completion of said improvements; provided, however, in the event circumstances warrant, the Owner may apply for relief from the constraints of this Section 12(c) by application to the City Council. Any such relief shall be within the sole and exclusive discretion of the

City Council and may be subjected to such other conditions, as determined by the City Council at that time.

- (d) Owner shall be responsible for the design and, upon approval of the Colorado Department of Transportation ("CDOT") and the City Engineer, the construction of two (2) roundabouts or other acceptable and approved improvements at the Interstate 70 and Midland Alternate Route highway interchange at Exit 114. Said improvements shall accommodate a potential full interchange at the North and at the South sides of said Exit 114. Owner and or its assigns shall be responsible for all costs of administration, design and actual construction of the approved improvements; the City shall be responsible for all necessary costs of right-of-way acquisition for the approved improvements. The improvements contemplated hereby shall be completed prior to or contemporaneous with the issuance of a final and permanent certificate of occupancy by the City's Building Department for any structure within the first Parcel of commercial and/or residential development (exclusive of any proposed subdivision and development on Parcel I). Provided, however, Owner may apply for and obtain subdivision and/or development permit approval for development on the Property in advance of the actual construction of the improvements herein described; provided however that (i) the obligation to complete the improvement is included in the Financial Items of the respective SIA(s) (see Section 9(d) above) and thereby, the performance secured, and (ii) no permanent certificate of occupancy for any structure on Parcels A, B, C, D, E, F, G, H, J or K shall be issued until the completion of said improvements; provided, however, in the event circumstances warrant, the Owner may apply for relief from the constraints of this Section 12(d) by application to the City Council. Any such relief shall be within the sole and exclusive discretion of the City Council and may be subjected to such other conditions, as determined by the City Council at that time.

The Owner and the City have agreed to jointly pursue the recovery of any funds which may be available from CDOT or other sources to reimburse the parties for the capital costs associated with the improvements contemplated by this Section 12(d). In the event the Owner and City are able to recapture any such funds within ten (10) years of the anniversary of this Agreement, Owner or its successors and assigns shall be entitled to recover therefrom only the amount of the actual costs of design, engineering and construction for the subject off-site transportation improvement project. All other recaptured funds, regardless of their source, shall be paid to the City and applied to other City transportation improvements.

- (e) Owner shall, at the earlier of either (i) the completion of seventy-five percent (75%) of the total commercial square footage approved hereunder, or (ii) upon the request of the City Engineer following the commencement of actual construction and development on the Property (such request being evidenced by

documentation of escalating traffic counts along the Midland Avenue corridor which the City Engineer has then determined warrants the improvement of the width of the Midland Avenue Alternate Route), pay all costs of administration, design and construction for the four-laning of the section of the Midland Avenue Alternate route from the present Community Center access point at Wulfsohn Road westerly to the present MOC access point at Wulfsohn Road, inclusive. Owner's responsibility for the four-laning of said section of the Midland Avenue Alternate Route is contingent upon the City's assumption of the obligation to simultaneously pay all of the costs for the administration and design of four lanes on two (2) other sections of the Midland Avenue corridor, to wit: (i) the section from the Colorado River to Wulfsohn Road at the present MOC access point and (ii) the section from Wulfsohn Road at the present Community Center access point to the Eighth Street and Midland intersection. Owner shall contribute to City twenty-five percent (25%) of the actual construction costs for these improvements. The City shall not attribute any financial responsibility for right-of-way acquisition for the improvements hereunder to the Owner. In the event the City Engineer has not required the four-laning of these sections of the Midland Avenue corridor prior to the Owner's commencement of any part of the final twenty-five (25%) of the total approved commercial square footage on the Property, the Owner may estimate, subject to the reasonable approval of the City Engineer, the costs of all improvements contemplated hereby and pay to the City as full and final discharge of Owner's obligations under this Section 12(e) its proportionate share of the estimated costs (i.e. 100% of the costs of the four-lane construction of Midland Avenue Alternate Route adjacent and contiguous to the Property and 25% of the costs of the four-lane construction of Midland Avenue Alternate Route at the two (2) non-adjacent, non-contiguous sections as described herein).

- (f) Owner shall be responsible for one hundred percent (100%) of the costs associated with the design and construction of one new access point from the Property to Midland Avenue. The design of any such access point and roadway intersection shall require the prior approval of the City Engineer. Owner shall be responsible for one hundred percent (100%) of the costs associated with the design and construction of a new limited purpose (i.e. an unsignalized right-turn-in/right-turn-out only) access point from the Property to Midland Avenue. The design of any such secondary access point and roadway intersection shall require the prior approval of the City Engineer. Any new access points contemplated by this Section 12 (f) shall, as an element of their design and construction, incorporate a pedestrian grade separation, the design for which shall be subject to the review and approval of the City Engineer. The City may, upon the request of Owner, waive this pedestrian grade-separation obligation if the City has determined that a westward extension of the City-wide or regional trail system is not anticipated.

The City and Owner hereby agree that in the event a city-wide off-site transportation improvement fee program of general applicability within the City's municipal limits shall be hereafter duly

adopted by the City, said program of general applicability shall apply only to the development of Parcel I on the Plan.

Owner's contribution to the construction and land dedication for on-site pedestrian and bicycle trail connections, including the costs incurred in developing grade-separated crossings, shall be credited to Owner, its successors and assigns, against any other applicable fee(s) now in the Municipal Code or hereafter adopted by the City for the express purpose of improving trails and similar parkland facilities. The Owner shall be responsible for providing to the City copies of all applicable cost records for such expenditures.

13. On-Site Pedestrian/Off-Site Pedestrian Commitments, Transportation Demand Management Commitment; and Transit Commitments. The following commitments regarding pedestrian and bicycle trails development are intended to be exclusive of obligations by the Owner or a future developer with respect to sidewalks and other connections which are distinctly required by the Zoning Plan, the City Code or other applicable requirements.

- a. On-Site Hard Trail. The City and Owner have agreed that the City Rivertrail system shall be continued across the Property. Owner has agreed to design and build such a Rivertrail extension as set forth hereby in phases which correspond to the sections of such trail affected by the site specific development of the Parcels of the Property. Upon completion of any phase or section of the Rivertrail, the Owner or its successor-in interest shall dedicate a permanent easement for the Rivertrail's public use, benefit and maintenance using specific, as-built legal descriptions for such transfer of interest. Therefore, within any Parcel of the Property burdened by the existing thirty foot (30') wide underground Public Utility Easement granted by Owner to the City by that certain instrument dated August 8, 2000 (being, specifically, Parcels A, C, D, E, H and I), which Parcel is the subject of application for site specific development, the design and construction of the Rivertrail extension shall be included within such application and planning in a manner substantially in compliance with the City adopted Rivertrail Standards and at a minimum shall be designed in a quality similar to comparable existing Rivertrail improvements in the City. The estimated costs therefor shall be included in the Financial Items accompanying any approval of the Parcel's development. In the event the City desires to proceed with the design and construction of the Rivertrail extension on Parcels of the Property in advance of Owner's application for development on such Parcel(s), then at the time Owner or its successors do develop such Parcel(s), it shall be required, as a Financial Item of approval, to reimburse the City for its actual design and construction costs associated with said Rivertrail extension as determined on a per linear foot basis.
- b. On-Site Soft Trail. The City and Owner have agreed that, in conjunction with Owner's development of any section of the debris flow mitigation structures as described in Section 14 hereinbelow, and whether the actual approved location of said debris flow mitigation structure is within the Parcel L lands or within portions of the Parcels B, J or K lands, that Owner or its successors-in-interest shall design

and construct a "Soft Trail" (i.e. no asphalt or concrete) within, on or near the subject debris flow mitigation structure. The design characteristics of the Soft Trail shall, at a minimum, conform to the design characteristics of other City-owned soft trail systems within the City. In the event the City, at the time of the application for development requiring the construction of a section of the debris flow mitigation structures, determines that such a Soft Trail is, at that time, inconsistent with the City's goals, policies and plans for the public use and benefit of the Parcel L lands, then it may direct the Owner to eliminate the Soft Trail development from said application for development.

- c. Off-Site Rivertrail Contribution. The City and Owner have agreed that Owner shall be responsible for contributing fifty percent (50%) of the actual costs of constructing the section of the City Rivertrail system, or other City-adopted pedestrian connection, from the existing Community Center access point at Wulfsohn Road (commencing at Owner's eastern boundary of Parcel I) to the intersection of Eighth Street and Midland Avenue. In no event shall Owner's obligation hereunder exceed the lesser amount of either (i) fifty percent (50%) of the actual construction costs of such off-site trail project as are presently set forth by that certain Pedestrian Feasibility Study dated March 6, 2002 and conducted by OTAK on behalf of the City (the "Study"), which Study estimates a total cost for the City-adopted Alternate B solution at \$1,055,000.00 or (ii) fifty percent (50%) of the actual construction costs of such off-site trail project as determined upon completion of said project, regardless of the estimates set forth in the Study (each of the two foregoing limitations upon Owner's financial obligations are further subject to any credits for land dedication as set forth hereafter). Owner owns a 100% undivided interest in certain, presently unincorporated land situate on the northeastern boundary of the Midland Avenue Right-of-Way (commonly known and referred to as the "Wulfsohn East" parcel). Owner has agreed to grant the City an above ground permanent easement for the use of a part of the Wulfsohn East parcel for purposes of providing a safe and beneficial connection from the area of the Community Center to existing City pedestrian corridors. The value of the land dedicated to the City on the Wulfsohn East parcel, by easement or otherwise as hereafter agreed by the parties, shall be deducted from Owner's financial contribution obligations pursuant to this Section 13(c). The "value" shall include any diminution of the value of Owner's other land within the Wulfsohn East parcel, if any. In the event the parties are unable to agree as to the value of Owner's land contribution hereunder, each party shall engage a qualified, licensed appraiser to research and analyze such value. The value shall then be permanently established by the average of the two (2) appraisals. The City agrees that it shall be solely and exclusively responsible for the design and construction of the pedestrian improvements contemplated hereby and shall use all reasonable means to construct the same prior to the commencement of development on the Property; provided, however, that the City further agrees that it shall not unreasonably withhold any subsequent Permits or other development approvals based upon the City's inability to timely complete such trail/pedestrian path construction.

- d. West Property Park and Ride Land Reservation. Owner has agreed to reserve from development, for a period not to exceed five (5) years after the mutual execution of this Agreement, a section of land, not to exceed two and one-half (2.5) acres in size at the west end of Parcel A on the Property (hereafter, the West Park and Ride Site"), for the possible acquisition by the City or other appropriate governmental entity through purchase, exchange or other mutually agreeable mechanism of transfer, for the express use of such West Park and Ride Site as a public park-and-ride/transit facility. In the event the City, or other appropriate governmental authority as assignee of the City's rights hereunder, does not notify Owner or its successors and assigns in writing, on or before the established deadline described immediately above, of its intention to exercise the acquisition of the West Park and Ride Site, Owner shall be relieved from any obligation hereunder to further reserve the Site. In determining the price of the West Park and Ride Site, the parties shall either (i) agree to a price, or (ii) each party shall retain the services of a qualified, licensed Colorado real estate appraiser to appraise the value of the land as such land was zoned immediately prior to the annexation of the Property (Garfield County zone district A/R/R/D), with such value escalated for the passage of time during the reservation period at a rate equal to the published Denver/Boulder Consumer Price Index established as of the date of final annexation and adjusted annually on each anniversary thereof; the average of the appraised value by each appraiser shall be deemed the purchase price for the governmental acquisition of the West Park and Ride Site.
- e. East Property Transit Center. This Agreement shall obligate the Owner and/or eventual developer of the land within Parcel I of the Property to negotiate in good faith, at the time of site specific development application, for the dedication to the City of an adequate land area, not to exceed one (1) acre, and location therefor for the City or its agent's development of a transit center facility and attendant parking area. In the event the City and Owner are unable to reach agreement as to the location, size and dedication of such a transit facility and parking area within the proposed development of Parcel I, then, upon the approval of a site specific development proposal for Parcel I, the Owner or its successors and assigns shall make a mandatory contribution to the City in an amount equal to the value of one (1) acre of land within said Parcel I as determined by mutual agreement or as determined by the average of two appraisals; one such appraisal shall be commissioned by the City and one such appraisal shall be commissioned by the Owner, its successors and assigns. In the event the parties do agree on a mutually acceptable size and location for the transit center and parking area, the City shall accept transfer of the site following the issuance of appropriate development approvals and the City shall accept sole and exclusive responsibility for the costs of designing and constructing the facility. The City agrees that any such development of a public transit center and parking area shall comply with all applicable underlying design criteria established by this Agreements and the exhibits hereto in addition to any applicable Municipal Code requirements.

14. Public Improvements/Geotechnical Mitigation Improvements and Maintenance Obligations. All public improvements required by the Plan, including the development of internal public streets and public utility line extensions, shall be included and subject to performance and financial guarantee requirements referenced in the respective SIA(s)/Development Permit(s). Additionally, at the time a final plat is recorded, Owner shall commit to the dedication, conveyance and assignment to the City all public improvements within the subject phase, together with any land, by deed or easement instrument acceptable to the City, necessary to accommodate such public improvements, and shall, upon completion and acceptance by the City of said public improvements, so dedicate, convey and assign the same in perpetuity. Finally, Owner shall dedicate or convey such public improvements by bill of sale or special warranty deed, free and clear of any liens or encumbrances which would prevent the City from using said public improvements or associated land for their intended purposes.

- a. Specific Geotechnical Mitigation Improvements Obligations. All land use and development undertaken on the Property shall comply with the recommendations and requirements of both the Geotechnical Analysis Summary prepared by High Country Engineering, dated September 17, 2001, as amended, and the Drainage Summary prepared by High Country Engineering, dated September 17, 2001, as amended; both of which were reviewed by the office of the Colorado Geological Survey and were incorporated into the City's approval of the Plan. Copies of each report are maintained in the records of the City. More specifically, any application for development of any phase of development on the Property shall, at a minimum, comply with the following conditions and recite the same as a plat note on the recorded plat instrument:

"Foundation/Grading Requirements. Preliminary soils investigations encountered low density and compressible silty sand and gravel debris fan deposits. These soils are hydro-compressive and tend to settle under load when wetted. Subsurface wetting is likely to occur as the result of surface runoff, irrigation and leaky utilities, therefore measures to mitigate settlement shall be required as a part of the site development. Foundation and grading requirements are as follows:

- a. Foundations for the site may include driven or drilled pile, reinforced mat, spread footings placed on either pre-wetted soils or structural backfill.
- b. Site Grading shall be performed prior to building pad and foundation construction. Site grading and building pad construction should be performed as early as possible to allow for settlement.
- c. The ground surface should be sloped at a minimum of 5% for the first ten feet away from foundations in all directions in unpaved areas and 2.5% in paved areas.
- d. The Owner shall be responsible for submitting an engineer certified soils report that includes a section on paving requirements. The soils report should include moisture and compaction requirements, excavation and backfill requirements, evaluation of swell and consolidation potential, slope stability and foundation recommendations for structures. The pavement section of the report should include traffic loadings, sub-grade preparation and pavement recommendations. This report must be submitted

and approved prior to beginning either foundation construction or roadway/parking lot construction.

#### **Surface/Subsurface Drainage Requirements.**

Downspouts and drains should discharge outside the limits of the backfill. Landscape requiring irrigation should be placed a minimum of ten feet from foundation walls.

An under-drain system will be required for all below-grade construction.

#### **Utility Construction**

- a. Wet utilities will be required to utilize restrained joints throughout the project limits.

#### **Debris Flow Mitigation**

- a. It is anticipated that the project area will be developed in phases. Each individual phase will be required to construct debris flow mitigation measures in accordance with the Debris Flow Mitigation Plan prepared for the entire development and as approved by the City Engineer. In the event the City desires to proceed with the design and construction of a portion or all of the structures required by the Debris Flow Mitigation Plan, as may be amended from time to time with the approval of the City, upon the lands identified as Parcel L of the Property in advance of Owner's application for development, then at the time Owner or its successors do develop such any Parcel(s) which would have required, as an element of development the construction of such debris flow mitigation structures, such Owner or its successor shall be required, as a Financial Item of approval, to reimburse the City for its actual construction costs associated with said debris flow mitigation structure(s), together with interest on such costs, from the time expended by the City to the time of such reimbursement, at a rate equal to the local construction price index.
- b. Debris flow mitigation measures for the project include diversion ditches, berms and debris detention basins located along the southwest perimeter of the property.
- c. The Owner's Association or a special district will be responsible for maintenance of the debris flow mitigation measures. Maintenance should include removal of debris following an event and routine mowing.
- d. The Owner's Association or a special district will be responsible for irrigation of the slopes until permanent vegetation has been established.

#### **Rockfall**

- a. Rockfall hazards are limited to those areas identified in the Geologic and Preliminary Geotechnical Investigation Glenwood Meadows Glenwood Springs, Colorado prepared by CTL Thompson dated February 1, 2000. There is not a potential rockfall hazard associated with the development of this Property. The only rockfall hazard identified for the area is to the west of the land zoned for future development near the existing City Municipal Operations Center site."

Additionally, as an element of Owner's obligation to submit a Master Drainage Plan and a Master Debris Flow Mitigation Plan as set forth under Section 2 hereinabove, such plans submitted to the City shall specifically include (i) an analysis of acceptable outfall corridors from the low points in all identified detention basins, (ii) an analysis of the preferred routes for such flows from the basins to be conveyed through the Property to existing or improved drainage facilities along the north boundary of the Property, and (iii) an analysis of the capacity of the aforementioned existing or improved drainage facilities and related conveyance structures which are intended to deliver excess moisture to the Colorado River. All of the foregoing data shall be reviewed and approved by the City Engineer prior to the issuance of any building permit on the Property.

15. Open Space and Park Land Dedication. In full and complete compliance with relevant park land public dedication and open space public dedication requirements referenced in the Municipal Code, Owner will dedicate the area zoned as HP Hillside Preservation, shown on the Plan as Parcel L, to the City at final plat recordation for the first phase of land use on the Property. Neither the Owner nor its successors-in-interest shall be required by the City to develop any portion of the publicly dedicated lands for active recreation purposes, except as may be otherwise hereafter agreed as an element of the development of Parcel K of the Property's development (Owner or its assigns shall "rough grade" the area of Parcel L, adjacent to said Parcel K and the City's Community Center, for no more than two (2) baseball/softball fields, upon the direction of the City if such direction is provided to Owner prior to commencement of Owner's initial grading for the development of Parcel K of the Property). In partial consideration of the dedication of the Parcel L lands, the City has agreed to plan and develop a permanent water source retention structure for the benefit of indigenous wildlife; such structure shall be developed by the City, subject to the necessary appropriation of funding, following the dedication of the Parcel L land by Owner. The City agrees that its acceptance of the dedication of such lands shall be deemed a "governmental use" (as defined by the Glenwood Springs' Municipal Charter) of the same and thereby prohibits the City from conveying any of the publicly dedicated property to a third party without first submitting the matter to an election of the City's voters. Nothing contained herein is intended to limit or prevent the City from developing some or all of the public dedication lands for the use and benefit of the public as the City may deem appropriate and advisable in the future.

The City shall convey to the Owner or its successors-in-interest in providing, at the time of actual dedication of the HP zoned lands, a mutually acceptable, non-specific, easement for the development within the publicly dedicated land of (i) the geotechnical mitigation structures to be constructed and maintained by the Owner, or a special district established by Owner and assigned such responsibility, pursuant to the general description of such structures set forth by the Zoning and

Development Plan application materials provided by High Country Engineering, and maintained in the records of the City, (ii) any reasonable and necessary street and utility easements (i.e. for the connection of Wulfsohn Road between Parcels A and C as set forth by the Plan) and (iii) any reasonable and necessary street or public utility easements connecting Wulfsohn Road to Parcel K of the Property, which streets and/or utility easements shall require the review and approval of the City Council. The actual location of such geotechnical mitigation structures shall require the prior approval of the City, which approval shall not be unreasonably withheld. After completion of the actual construction of such geotechnical mitigation structures and any features attendant thereto (i.e. a Soft Trail), an amended permanent easement, complete with as-built legal descriptions, shall be executed by the parties and recorded in the Garfield County Clerk and Recorder's Office.

All "commonly-owned" parklands and open space within the Parcels A through K, shall be owned and maintained by the Owner and/or the developer thereof, its successors, an association or a special district.

16. Establishment of Special District(s) and Owners' Association/Downtown Development Authority Incorporation Petition.

- (a) Owner agrees that it shall undertake the establishment of a drainage and erosion control special district for the purposes of managing and maintaining in perpetuity all Property drainage and debris flow mitigation functions. The City agrees to join such district to the extent of the City's proportional ownership of land and improvements on the Property which benefit from the geotechnical protections of said structures.
- (b) Owner agrees to form, or have formed, a property owners' association as soon as practicable and agrees to include the City, upon the City's written request, as a third party beneficiary with respect to the association's enforcement of Covenants, Conditions, Restrictions, Declarations or other regulations governing the property owners or common areas within the Property, including but not limited to the ability to impose assessments or penalties for noncompliance therewith. At a minimum, the formed association shall include within in its adopted Covenants, Conditions and Restrictions, the recommendations of the Colorado Division of Wildlife ("CDOW") as set forth by letter dated October 1, 2001 and maintained on file with the City; provided, however, neither the Owner nor any association hereafter formed, shall be responsible for any land dedications or indemnification as referenced in said CDOW letter. In the absence of the prior formation of a special district responsible for the maintenance of debris flow mitigation structures within the Property, either (i) the Owner or (ii) such a property association shall be formed with the specific responsibility for such maintenance obligations.
- (c) Owner agrees that within one (1) year after the effective date of annexation of the Property to the City as described by Section 4 hereof, but in no event later than the filing of the first application for subdivision and/or development, Owner or its successor-in-interest shall petition for inclusion within the boundaries of the Glenwood

Springs Downtown Development Authority (hereafter, the "DDA"). The DDA shall, at its discretion, forward such petition to the City Council for approval or disapproval, in whole or in part, of the request for inclusion. This provision in no way obligates the City to include any or all of the Property in the boundaries of the DDA. Should the City choose not to include all or any part of the Property in the boundaries of the DDA at the time of initial petition by Owner for inclusion, the City shall not be precluded from consideration of the same matter at some point in the future.

17. Provisions Exclusive. The City and Owner acknowledge and agree that this Agreement contains all basic requirements of Owner concerning the provision of water and sewer service to the property, potential joint development of a raw water irrigation system, public open space dedication, and public park land dedication, utilities, infrastructure, water rights dedications and other matters expressly addressed under this Agreement. Additional reasonable specifications and regulations may be imposed by the City upon Owner during the subdivision or development approval processes with regard to these enumerated items as well as other items, as appropriate.

18. Breach by Owner; City's Remedies. In the event of any default or breach by Owner of any term, condition, covenant or obligation under this Agreement, the Owner shall be notified immediately in writing. The City may take such action as it deems necessary to protect the public health, safety, and welfare; to protect lot buyers and builders, and to protect the citizens of the City from any and all damages and/or injury to persons and/or property. The City's remedies include:

- a. The refusal to issue to Owner any building permit or certificate of occupancy; provided, however, that this remedy shall not be available to the City until after the affidavit described in subparagraph b. below has been recorded. This remedy shall not affect sales to bona fide purchasers nor be applied to bona fide purchasers;
- b. The recording with the Garfield County Clerk and Recorder of an affidavit, approved in writing by the City Attorney and signed by the City Manager or his designee, stating that the terms and conditions of this Agreement have been breached by Owner. At the next scheduled Council meeting, the Council shall either approve the filing of said affidavit or direct the City Manager to file an affidavit stating that the breach, or default, has been cured. Upon the recording of such an affidavit, no further lots or parcels may be sold within the Property until the default has been cured. The execution and filing of an affidavit by the City Manager or his designee and approved by the Council stating that the default has been cured shall remove this restriction;
- c. A demand that the security given for the completion of the public improvements be paid or honored;
- d. The refusal to consider further development plans within the Property; and/or
- e. Any other remedy available at law or in equity.

Unless necessary to protect the immediate health, safety, and welfare of the City or City residents, the City shall provide Owner thirty (30) days' written notice of its intent to take any action under this paragraph during which thirty-day period Owner may cure the breach described in said notice and prevent further action by the City. Furthermore, unless an affidavit as described in this paragraph has been recorded with the Garfield County Clerk and Recorder, any person dealing with Owner shall be entitled to assume that no default by Owner has occurred hereunder unless a notice of breach has been served upon Owner as described above, in which event Owner shall be expressly responsible for informing any such third party of the claimed default by the City.

19. Breach By City; Owner's Remedies.

- a. A "breach" or "default" by the City under this Agreement shall be defined as:
- i. any zoning or land use action by the City which would alter, impair, prevent, diminish, impose a moratorium on development, or unreasonably delay the development or use of the Property as set forth in the Zoning and Development Plan, and specifically excluding any non-discriminatory regulatory actions, inaction, or circumstances beyond the reasonable control of the City; or
  - ii. the City's failure to fulfill or perform any material obligation of the City contained in this Agreement.
- b. If any default by the City under this Agreement is not cured as described herein, Owner shall have the right to pursue the defaulting party's remedies allowable by Colorado law, subject to the limitations herein. Although C.R.S. Sections 24-68-101 et seq. allow for certain monetary damages in the event of City breach or default, Owner's sole remedies hereunder shall be to enforce the City's obligations under this Agreement by an action for any available equitable remedy, including, without limitation, specific performance or mandatory or prohibitory injunction. Each remedy provided for in this Agreement is cumulative and is in addition to every other remedy provided for in this Agreement.

20. Miscellaneous.

- a. Expenses. The costs and expenses associated with the recordation of this Agreement shall be paid by Owner.
- b. Waiver of Defects. By executing this Agreement, Owner waives all objections it may have concerning defects, if any, in the formalities whereby it is executed, or concerning the power of the City to impose conditions on Owner as set forth herein, and concerning the procedure, substance, and form of the ordinances or resolutions adopting this Agreement.

c. Final Agreement. This Agreement supersedes and controls all prior written and oral agreements and representations of the parties regarding annexation and zoning of the Property and is the total integrated agreement between the City and Owner as to those limited matters.

d. Modifications. This Agreement shall not be amended, except by subsequent written agreement of the City and Owner.

e. Captions. The captions in this Agreement are inserted only for convenience and in no way define, limit, or prescribe the scope or intent of this Agreement or any part thereof.

f. Binding Effect. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, successors, and assigns. Further, the terms and conditions of this Agreement shall constitute a covenant running with the land.

g. Invalid Provision. If any provisions of this Agreement shall be determined to be void by any court of competent jurisdiction, then such determination shall not affect any other provision hereof, all of which other provisions shall remain in full force and effect. It is the intention of the parties hereto that, if any provision of this Agreement is capable of two constructions, one of which would render the provision void, and the other of which would render the provision valid, then the provision shall have the meaning which renders it valid.

h. Governing Law. The laws of the State of Colorado shall govern the validity, performance, and enforcement of this Agreement. Should either party institute legal suit or action for enforcement of any obligation contained herein, it is agreed that the venue of such suit or action shall be in Garfield County, Colorado.

i. Attorneys' Fees; Survival. Should this Agreement become the subject of litigation between the City and Owner, the prevailing party shall be entitled to attorneys' fees and costs of suit actually incurred, including expert witness fees. All rights concerning remedies and/or attorneys' fees shall survive any termination of this Agreement.

j. Authority. Each person signing this Agreement represents and warrants that he, she or they is/are fully authorized to enter into and execute this Agreement, and to bind the party represented to the terms and conditions hereof.

k. Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed an original, and all of which, when taken together, shall be deemed one and the same instrument.

l. Notice. All notices required under this Agreement shall be in writing and shall be hand-delivered or sent by facsimile transmission or registered or certified mail, return receipt requested, postage prepaid, to the addresses of the parties herein set forth. All notices by hand delivery shall be effective upon receipt. All facsimile transmissions shall be effective upon transmission receipt. All notices by mail shall be considered effective seventy-two (72) hours after deposit in the United States mail with the proper address as set forth below. Either party by notice so given may change the address to which future notices shall be sent.

# **I. Introduction**

## **A. PROJECT BACKGROUND**

Glenwood Meadows is an approximately 345-acre parcel of unincorporated land surrounded on three sides by the municipal limits of Glenwood Springs, Colorado ("City"). The Midland Alternate Route, a 100 foot wide public right-of-way, serves as the northern border to the site and two new City facilities are under construction on the east and west ends; a new community center to the east of Glenwood Meadows and a municipal operations facility to the west of the site. While Red Mountain serves as a backdrop to the site on the south, it is not owned by or a part of the Glenwood Meadows' zoning application and development plan. The subject property, which is owned by Glenwood Meadows, L.L.C. was historically referred to as the "Wulfsohn" property.

Glenwood Meadows is situated west of the core of Downtown Glenwood Springs and directly across the Colorado River from the significant neighborhoods and commercial operations of West Glenwood. Glenwood Meadows and the City's Community Center are highly visible from Interstate 70, the primary entry point to the City from both the east and the west. Despite its juxtaposition with the City, Exit 114 to Interstate 70, the Midland Alternate Route and the two City facilities mentioned, Glenwood Meadows currently resides in the jurisdiction of Garfield County, Colorado. Prior to the completion of the Midland Alternate Route and the City's adoption of its Land Use Plan, annexation of the land was not feasible.

When the oil shale industry collapsed in the early 1980's, the then owner of the site, Union Oil Company, considered various development options. In the mid-1980s, Union Oil Company and the City of Glenwood embarked on negotiations for the joint development of the site as a municipal golf course, residential and commercial venture. The efforts failed, as did two subsequent attempts to pass open space and recreation tax measures aimed at the City's ability to purchase portions of the site.

In 1996, Glenwood Land Company, LLC purchased the property from the Union Oil Company. Approximately two years later Glenwood Meadows, LLC, the current owner of the property, acquired the land. Shortly thereafter, Glenwood Meadows undertook a land exchange with the City of Glenwood Springs, which provided the city with 37.24 acres for use as a Community Center. The city subsequently annexed the Community Center site and has provided a public access point to the property, which is currently under construction. This access point will be shared when the remaining property is developed. In early 2000, the City of Glenwood Springs and Glenwood Meadows undertook another land transaction by which the city acquired an additional 35.57 acres for development of a Municipal Operations Center (MOC). The MOC site was thereafter annexed and the City created a second public access point to Glenwood Meadows, which is also under construction. In addition to the City development of the MOC facility, the site west of Glenwood Meadows is also planned to provide the base operational facility for the newly organized Rural Transportation Authority ("RTA").

Regardless of how Glenwood Meadows is developed (i.e. for residential, commercial, mixed-use purposes, through the jurisdiction of either Garfield County or the City), Glenwood Meadows is entitled to use both City developed access points as well as two other access points along the Midland Route. Further, Glenwood Meadows has legal rights to utilize the City's municipal sewer and potable water systems.

For the past two years the City and Glenwood Meadows have mutually expressed their desire to annex the land to the City and to subject the property to stringent criteria which would result in the highest quality of future development specifically planned to address the present and future needs of the community as a whole. Through extensive discussions with City staff, it was determined that seeking "enhanced" traditional zoning for the property (traditional zoning with additional development standards and more restrictive uses) would be a more effective tool than the P.U.D. process to achieve the highest quality of future development. This decision was based on the fact that through the traditional zoning process; additional development standards and use restrictions could be applied to traditional zone districts in order to achieve a high level of development quality without the unnecessary analytical and administrative confusion of a cumbersome P.U.D. process. This Zoning Plan, together with the associated Annexation and Development Agreement and the additional information provided represents the culmination of these efforts.

## **B. STATEMENT OF PURPOSE AND INTENT**

This Zoning Plan is intended to serve as a supporting document for the accompanying Annexation Agreement in order to establish appropriate zoning for the 12 individual development parcels within the overall site. In addition, the Zoning Plan establishes standards for the property to ensure that future planning and construction quality remains high, regardless of the phasing of development on different parcels. The following goals serve as the basis for this Zoning Plan and development standards. The goals were identified during an unprecedented and invaluable public hearing process, through community meetings dating back to the original adoption of the City's Comprehensive and Land Use Plans, during work sessions with City staff, citizen committees, the Planning Commission, and City Council members as items to be addressed by this Zoning Plan.

### **Land Use**

- *Promote Glenwood Springs as the governmental hub and the local/tourism service center of the Roaring Fork and Colorado River Valleys.*
- *Establish Glenwood Meadows not as a development, but as a new Glenwood Springs neighborhood with housing opportunities, jobs, shopping, hospitality, and recreation.*
- *Enhance the City's Community Center project through placement of adjacent zoning for uses that include active and passive open areas as well as for tourism and hospitality.*

### **Development Quality**

- *Preserve, maintain, and enhance the visual qualities of the west entrance to Glenwood Springs.*
- *Focus neighborhood retail around pedestrian-oriented streets to break up larger commercial uses.*
- *Provide development standards that supplement from the City's standard development regulations, encouraging creative, quality design.*

### **Housing**

- *Provide a mix of housing types and densities within the Glenwood Meadows neighborhood.*

### **Open Space and Natural Amenities**

- *Balance the quantity of development on the site with the natural characteristics of the site.*
- *Maximize dedicated open space and integrate open space corridors throughout the Glenwood Meadows neighborhood, minimizing impacts to existing site vegetation.*

#### Transportation

- *Encourage the allocation of future traffic west of the core Downtown and provide a West Glenwood mass transit option.*
- *Promote directed investment, through any development, aimed at the restoration and enhancement of the City's transportation infrastructure through adoption of an Off-Site Transportation Improvements Fee Program.*

### C. RELATIONSHIP TO GLENWOOD SPRINGS COMPREHENSIVE PLAN

#### Vision

The Glenwood Springs Comprehensive Plan provides the community with a tool for managing its long-term growth and character. Ensuring that the goals and ideals of the Comprehensive Plan were addressed was a critical component of this zoning plan. The following excerpt from the City's Vision Statement outlined in the Comprehensive Plan echoes the overall development vision for Glenwood Meadows.

*"The City of Glenwood Springs desires to maintain its small town character and preserve its cultural and natural resources...to achieve directed and balanced development, social and economic diversity and address its transportation needs."*

#### Maintaining Small Town Character

Today, the City consists of a series of individual neighborhoods. While these neighborhoods vary in their size, appearance, and mix of uses, they all function as part of the greater community; each providing different types of housing, shops, employment, and recreational opportunities. This proposed zoning plan focuses on establishing Glenwood Meadows as a new and independent neighborhood that contributes to the small-town character of Glenwood Springs and community need for housing and commercial services. Keeping this appealing character and scale in mind, the plan is focused around a central retail core designed to invoke an intimate, pedestrian-oriented feeling enhanced by plazas, seating areas, and public art. These smaller retail uses will flank the center's two regional commercial anchors along Market Street and Wulfsohn Road, helping to create a more inviting and active space. Other spaces along Wulfsohn will provide offices and additional neighborhood-type retail to serve the adjacent neighborhoods, which will provide a variety of housing types and prices, ranging from apartments to town homes, duplexes, and single-family homes. The plan has been designed so that none of the residences are located farther than ¼ mile away from the retail core, which will give the neighborhood a friendly, walk able scale similar to that found in many of Glenwood's existing neighborhoods. A small employment campus will also contribute to the "small town" feeling of the neighborhood, providing the opportunity for individuals to live near their jobs, reducing commute time and local traffic. Hospitality uses are located across from the new Community Center where both will be easily accessed by adjoining neighborhoods and downtown. Each of the uses identified in the proposed zoning plan has been specified within the Land Use Plan as an appropriate "Regional Use", as designated for the Glenwood Meadows site.

#### Preserving Natural Resources

Another core community value that has been integrated into the development plan is the careful treatment of the site's natural resources. In fact, approximately 215 acres, or +/- 62 percent of the site will be dedicated as open space and parkland, providing recreational opportunities, such as hiking trails or a public golf venue. The public dedication of this significant parcel of land is specifically designed to provide direct public access to the area through sections of major contiguity with existing publicly owned property at the Community Center and MOC sites. The dedication land

also specifically provides direct connection to the surrounding BLM land adjacent to it in compliance with the direction of the Glenwood Springs Comprehensive Plan.

The site's topography and dramatic Red Mountain backdrop make it highly visible from major roadways, such as I-70, State Highway 6&24 and the Midland Alternate Route as each enters Glenwood Springs from the east and west. Glenwood Meadows is also visible from other areas of Glenwood Springs where a higher elevation provides a birds-eye vantage of the site. A thick Gambel Oak stand, which blankets the upper 2/3's of the site providing scenic value and wildlife habitat, is another of the site's significant natural features. Each of these factors was given strong consideration in the development of the proposed zoning plan. As a result, the residential neighborhoods at the southern edge of the site have been focused below the 6000-foot Urban Development Boundary contour. Not only does this protect the scenic quality of the site, but also leaves much of the Gambel Oak stand intact.

### **Addressing Transportation Needs**

Transportation is another component of the Land Use Plan that was an important consideration during the development of the zoning plan. The plan strives to provide a mix of uses within a walk able proximity of one another to minimize short automobile trips. However, it is acknowledged that some uses, such as the retail and employment components will draw from a more regional customer base, generating additional trips along the Midland Alternate Route. Perhaps more significant, though, is that the location of the site on the western fringe of Glenwood Springs will be serving a market that currently must travel through downtown along the often congested Grand Avenue to reach similar uses on the south side of town, or even further south in neighboring communities, potentially minimizing the need for many of these cross-town trips. The project will provide funding for several necessary road improvements along the Midland Alternate Route that will result in improved future traffic conditions. The specifics of this are addressed in the Annexation Agreement. With these proposed road improvements, an efficient traffic flow would be maintained. In addition, the compact form of the development plan was conceived with the intention of being able to efficiently incorporate future bus service and future regional rail connections into the community. The plan provides the flexibility, not to exceed 2.5 acres, at the west end of Parcel A for the construction of a park and ride/transit facility. The park and ride would be complemented by the site's retail uses and the potential for limited shared parking where appropriate.

## **II. Authority**

These standards shall apply to all property contained within the approved Glenwood Meadows Annexation Plat and the Annexation Agreement. The regulations and requirements shall become the governing standards for review, approval, and modification of all development activities occurring on the Glenwood Meadows site. Provisions of this guide shall prevail and govern the development of Glenwood Meadows superseding existing zoning ordinances. The proposed zoning regulations and design standards are intended to be more restrictive than the underlying Municipal Code standards. The Glenwood Springs zoning ordinance shall apply where the provisions of this guide do not address a specific subject.

### III. Zoning Map

## IV. Zoning Districts

There are 12 distinct parcels within Glenwood Meadows. Each of these parcels falls within one of 5 zoning categories according to the City of Glenwood's Zoning Ordinance: Multi-family Residential District (R-3), Limited Commercial District (C-1), Core Commercial District (C-2), Resort District (C-4), and Hillside Preservation (HP). The actual boundaries of the parcels may be modified during the preliminary and final design of each area, prior to approval by the City. A table of prohibited uses for each zone district is provided in the Appendix of this document.

The following table provides a brief summary of each zoning category as it applies to individual parcels identified on the zoning map on the following page:

| Parcel                                | Zoning | Acreage | Percentage |
|---------------------------------------|--------|---------|------------|
| A (Mixed-Use Campus)                  | C-1    | 20      | 6%         |
| B (Residential Neighborhood)          | R-3    | 11      | 3.25%      |
| C (Commercial)                        | C-1    | 11      | 3.25%      |
| D (Commercial)                        | C-1    | 12      | 3%         |
| E (Mixed-Use)                         | C-2    | 7.5     | 2%         |
| F (Mixed-Use)                         | C-2    | 7       | 2%         |
| G (Mixed-Use)                         | C-2    | 5       | 1.5%       |
| H (Commercial)                        | C-1    | 13      | 4%         |
| I (Hospitality)                       | C-4    | 10      | 3%         |
| J (Residential Neighborhood)          | R-3    | 17      | 5%         |
| K (Residential Neighborhood)          | R-3    | 17      | 5%         |
| L (Open Space)                        | HP     | 214     | 62%        |
| TOTAL:                                |        | 345     |            |
| Residential Total: 475 units          |        |         |            |
| Commercial Total: 490,000 square feet |        |         |            |

\*Acreages are subject to change upon completion of final legal descriptions.

\*Parcels include all road-rights-of way and open space setbacks from Midland Avenue.

## V. General Development Standards

### A. GENERAL INTENT

The intent of these General Development Standards is to establish an indigenous style and high level of development quality for Glenwood Meadows that is derived from and builds upon established neighborhoods in Glenwood Springs. These standards set the framework for a new, mixed-use neighborhood that strives to incorporate the most desirable features of Glenwood's most appreciated areas, such as the downtown core and its attractive, pedestrian-friendly residential neighborhoods. In order to identify these desirable features, existing neighborhoods and developments throughout Glenwood Springs and the Western Slope were evaluated and "dissected" for successful site and building design elements. The result of this evaluation are these standards for character defining features such as appropriate building mass, scale, and materials based on lessons learned, both positive and negative. The standards also establish a cohesive pedestrian and vehicular circulation network within and between neighborhoods, a unified landscape theme for streetscapes and common open space areas, and general standards for parking, and signage. These standards have been developed to provide an additional level of quality to Glenwood Meadows, not required within the City Code, and will be applied in addition to those existing standards.

### B. APPLICABILITY

These General Development Standards shall apply to all development within Glenwood Meadows, including C-1 (Commercial), C-2 (Mixed Use), C-4 (Hospitality), and R-3 (Mixed-Use Campus and Residential Neighborhoods). These standards shall be applied in addition to standards outlined in the City of Glenwood Springs Municipal Code.

### C. SITE LAYOUT AND DEVELOPMENT PATTERN

#### 1. Intent

The intent of these standards is to ensure that all non-residential and residential development on the site works creatively within the site's natural constraints, such as slope, geologic hazards, and significant vegetation.

616083 12/06/2002 01:20P B1414 P568 M ALSDORF  
43 of 83 R 416.00 D 0.00 GARFIELD COUNTY CO

## 2. General

- a) The siting of all buildings shall respond to existing site features to minimize the need for retaining walls, excavation, and other unnecessary site disturbances. Non-residential zones are purposefully located near primary roads on land with lesser degrees of slope.

## D. BUILDING DESIGN

### 1. Intent

These standards are intended to encourage creative, quality commercial and residential building design that utilizes a variety of design techniques to break up larger building masses and emphasizes a pedestrian orientation at the street level.

### 2. Non-Residential

- a) No single-user building footprint shall exceed a maximum of 130,000 square feet of enclosed floor area, nor shall the total useable area of any one user exceed 130,000 square feet.
- b) Buildings shall have recessed, highly visible customer entrances that feature no less than 2 of the following:
  - (1) Canopies or porticos;
  - (2) Overhangs, recesses/projections;
  - (3) Arcades;
  - (4) Distinctive roof forms;
  - (5) Arches;
  - (6) Outdoor patios;
  - (7) Display windows;
  - (8) Planters or wing walls that incorporate landscaped areas and/or places for sitting.
- c) For buildings less than 60,000 square feet, two or more of the following design elements shall be incorporated for each 30 horizontal feet of a building façade or wall. For buildings equal to and greater than 60,000 square feet, two or more of the following elements shall be incorporated for each 50 horizontal feet of a building façade or wall:
  - (1) Changes in color, texture, or materials;
  - (2) Projections, recesses, and reveals, expressing structural bays, entrances, or other aspects of the architecture with a minimum change of plane of 4-6 inches;
  - (3) Arcades or pergolas providing pedestrian interest;
  - (4) Trellises with vines, or
  - (5) An equivalent element that subdivides the wall into human scale proportions.
- d) Building facades or walls that face public

streets, adjacent developments, or connecting pedestrian frontage shall be subdivided and proportioned along 60% of their horizontal length using features such as:

- (1) Windows;
  - (2) Entrances;
  - (3) Arcades;
  - (4) Awnings; or
  - (5) Other such features.
- e) Parapet walls shall be incorporated when a flat roofline is required. The design or height of the parapet shall include a minimum of one change in setback or height along each 60 lineal feet of façade.
- f) Sloping roofs shall have a minimum of one of following elements incorporated into their design for each 60 lineal feet of roof:
- (1) Projecting gables;
  - (2) Hips;
  - (3) Horizontal/vertical breaks; or
  - (4) Other similar techniques.
- g) Sloping roofs shall be integrated into the building architecture and shall be consistent with the characterized architectural style.
- h) Sloping roofs shall be used at entries and other prominent features to add prominence. Other features intended to accent entries may be considered.
- i) Intense, bright, or fluorescent colors shall not be used on any roof area visible from a public or private right-of-way or open space.

### 3. Residential

- a) A building's special architectural features and treatments shall not be restricted to a single façade. All sides of a multi-family building open to view by the public, whether viewed from public or private property, shall display a similar level of quality and architectural interest.
- b) All multi-family buildings shall be designed to provide complex massing configurations with a variety of different wall planes and roof planes. Plain, monolithic structures with long, monotonous, unbroken wall and roof plane surfaces are prohibited. At least every 50 linear feet, wall planes shall contain offsets or setbacks with a differential in horizontal plane of at least 5 feet.
- c) The maximum length of a multi-family building shall be 125 feet.
- d) All elevations on multi-family buildings shall contain windows.

An eave or overhang of at least 12-inches shall be provided on the perimeter of all residential buildings, except gable roof ends, where an 8-inch overhang shall be required.  
For additional specificity, see Section X.

616083 12/06/2002 01:20P B1414 P570 M ALSDORF  
45 of 83 R 416.00 D 0.00 GARFIELD COUNTY CO

## E. BUILDING MATERIALS

### 1. Intent

The intent of these standards is to establish a palette of high-quality building materials to be used to add texture, color, and visual interest to the overall development.

### 2. Non-Residential

- a) One or more of the following building materials shall be incorporated into a structure's design:

- (1) Stucco;
- (2) EIFS (Exterior Insulation and Finish Systems);
- (3) Brick;
- (4) Stone (cultured and natural);
- (5) Tinted, textured and integral color masonry block.

- b) Exterior building materials shall not include the following:

- (1) Smooth-faced gray concrete block, painted concrete block, tilt-up concrete panels;
- (2) Field-painted or pre-finished standard corrugated metal siding; or
- (3) Standard single or double tee concrete systems.

- c) Ribbed metal siding is prohibited as a primary exterior surface material. It may be used as trim material covering no more than 10% of the façade.

- d) Exterior building material shall be continued down to within 9 inches of finished grade on any elevation.

- e) High-intensity primary, metallic, or fluorescent colors are prohibited on any roof area visible from any public or private property.

- f) All sloping roof areas with a pitch of 3:12 or greater, and visible from any public or private right-of-way, shall be surfaced with attractive and durable materials such as:

- (1) Concrete, clay, or slate tiles; or
- (2) Seamed architectural metals such as tin or copper; or
- (3) Asphalt shingles.

616083 12/06/2002 01:20P B1414 P571 M ALSDORF  
46 of 83 R 416.00 D 0.00 GARFIELD COUNTY CO

### 3. Residential

- a) One or more of the following building materials shall be incorporated into a structure's design:

- (1) Split shakes;
- (2) Rough-sawn wood; or
- (3) Board and batten wood.

- b) Exterior building materials shall not include the following:

- (1) Concrete block (including split face and ground face block), or

- c) High-intensity primary, metallic, or fluorescent colors are prohibited on any roof area visible from any public or private property.

- d) All sloped roofs visible from the ground or from a surrounding property shall be clad with one of the following:

- (1) High profile composition shingles; or
- (2) Seamed architectural metals.

## F. VEHICULAR AND PEDESTRIAN CIRCULATION AND ACCESS

### 1. Intent

The intent of these standards is to create a hierarchy of streets within Glenwood Meadows that efficiently facilitate traffic flow, yet are designed to discourage speeds and volumes that impede pedestrian activity.

### 2. Vehicle Access and Circulation

- a) Traffic calming devices, such as bulb-outs or curb extensions, traffic calming circles, and narrower street widths shall be used in residential neighborhoods to discourage through traffic and excessive speeds.
- b) To the maximum extent feasible, common or shared service and delivery access shall be provided between adjacent parcels and/or buildings.
- c) Internal vehicle circulation patterns shall provide a clear and direct path to the principal entrance of the primary building, to outlying pad sites where applicable, and to each parking area.
- d) Internal vehicle circulation patterns shall provide the most direct vehicular route(s) between the development site's main entrance and the primary building's main customer entrance.
- e) Main drive aisles shall be continuous and connect to the main entrance to the development site.

- f) Internal intersections shall have adequate sight lines, design geometrics, and/or traffic controls to minimize accident potential.

### 3. Pedestrian Access and Circulation

- a) Continuous sidewalks or trails shall provide connections to and between:
  - (1) The primary entrance or entrances to each building, including pad site buildings;
  - (2) All parking lots or parking structures that serve such buildings;
  - (3) Any sidewalks or walkways on adjacent properties that extend to the boundaries shared with the development;
  - (4) Any public sidewalk system along the perimeter streets adjacent to the development;
  - (5) Adjoining land uses;
  - (6) Any greenway on or adjacent to the property; and
  - (7) Other community amenities or gathering spaces.
- b) Covered shelters shall be provided at transit shuttle sites in locations as determined by the landowner and the City.

## G. PARKING

### 1. Intent

The intent of these standards is to minimize the visual impacts of large blocks of parking, both from within the development and from other areas of Glenwood Springs that, because of their higher elevation, view Glenwood Meadows from above, by breaking it into a series of smaller "rooms". These rooms may be defined by landscaped medians, pedestrian walkways, or tree plantings.

### 2. General

- a) Parking quantities shall be no less than current city requirements, unless specifically noted otherwise.
- b) Structured parking is strongly encouraged. Incentives shall be provided to the maximum extent feasible.
- c) To the maximum extent feasible, parking shall be distributed between the front, sides, and rear of a building to further break up large parking areas.
- d) In addition to the above standard, the visual appearance of parking blocks shall be further mitigated through the establishment of a shady canopy created by orchard plantings or regularly spaced tree diamonds within each parking block.
- e) The use of terracing to further break up parking areas is strongly encouraged where grade changes allow. Where terracing is utilized, the standards for retaining walls and

terracing outlined in Section V.H.6, shall be applied.

- f) The above standards shall be applied in addition to the standards outlined in Section V.H. Landscaping and Screening.

## H. LANDSCAPING AND SCREENING

### 1. Intent

The intent of these standards is to provide a high quality appearance for building sites, rights-of-way, parks, and open spaces within Glenwood Meadows. These standards exceed City of Glenwood requirements in some cases in order to enhance the appearance and pedestrian-oriented feeling of all development in Glenwood Meadows. For instance, additional landscape coverage is required for parking areas in order to ensure that the visual impacts of parking on this highly visible site are adequately mitigated by generally improving the appearance of these areas from both within the site and from surrounding neighborhoods with a birds-eye view of Glenwood Meadows. In addition, the spacing of required street tree plantings are significantly smaller than those required in the City Code. This again, is intended to further enhance the appearance of the overall project and to create an inviting environment for pedestrians.

### 2. General

- a) All landscape areas shall comply with City of Glenwood Springs Municipal Code in addition to these regulations.
- b) Landscape architectural design elements shall relate to the physical site and built structures. A combination of evergreen plantings and other landscape elements, as defined in Table 1-Landscape Requirements, shall be used to screen and buffer service areas, mechanical features and break up large lengths of building walls.
- c) Unless prohibited by a particular site's geologic mitigation requirements, building foundations shall be planted with ornamental plant material, such as ornamental trees, flowering shrubs and perennials, and ground covers and shall include a variety of plant materials to provide year round interest.
- d) Development entryways shall be planted with ornamental plant material, such as ornamental trees, flowering shrubs and perennials, and ground covers.
- e) Planting shall be massed and scaled as appropriate for the entryway size and space.
- f) Landscaping shall break down in scale and increase in detail, color, and variety to mark entryways into developments.
- g) All turf areas within individual sites shall be established by sodding. Un-manicured natural areas may be seeded when adjacent to open space as a transition to turf areas.
- h) Due to the site's soil conditions and the arid nature of the Glenwood climate, xeric or low-water plant materials shall be required.
- i) The use of the following xeriscape principles shall be required:

- (1) Grouping plants with similar water requirements together;
  - (2) Utilizing mulch and soil amendment to reduce irrigation requirements;
  - (3) Utilizing drip irrigation where possible to minimize run-off from sprinklers; and
  - (4) Restricting the amount of water consumptive sod.
- i) Irrigation systems shall be professionally designed to limit water consumption. The use of moisture sensors to reduce water consumption shall be encouraged.
  - k) Each owner or owner's association shall be responsible for the maintenance and repair of all site landscaping, including common open space areas.
  - l) Landscaping and maintenance shall comply with the Glenwood Meadows Geotechnical Mitigation Requirement.

### 3. Streetscape Improvements

- a) Landscaping, decorative paving, and/or other site amenities shall be required to promote and enhance a comfortable pedestrian scale and orientation of the property.
  - b) The property between curb and the adjacent property line shall be landscaped according to Table 1-Landscape Requirements or paved with decorative paving in heavily used pedestrian areas, such as Market Street and Wulfsohn Road, or be treated with some combination of the two alternatives. Approval of all paving materials shall be subject to review by the Architectural Review Committee.
- 
- c) Streetscape shall be developed in a consistent manner and be reviewed as part of the overall development permit, if areas within the pod are developed separately, the design shall be consistent with that previously approved.
  - d) Trees selected from the plant list in this document shall be required within the back of curb landscaping strip. Such trees shall be planted every 40 feet maximum on center or depending on species at some other distance to ensure their proper spacing so as to develop a continuous canopy when mature.
  - e) Streetscape plantings shall be provided according to Table 1-Landscape Requirements. Variations in the tree species used from street to street are encouraged to avoid creating monocultures of trees. Landscape in the right-of-way and on individual sites is subject to review by the City of Glenwood Springs and any Design Review Committee of an owner's association.

### 4. Site Furnishings

- a) Site furnishings, including, but not limited to: benches, seating, trash receptacles, bike racks, lighting fixtures and tree grates shall be incorporated with the theme of the building's architecture. All materials shall be considered and approved by any Design Review Committee of an owner's association and be in conformance with the City of Glenwood Springs Standards and these regulations.

## 5. Parking Lot Landscaping

- a) For lots with less than 20 spaces, a minimum of 10 percent of the total uncovered parking area, including access ways, shall be devoted exclusively to landscaping. For lots with twenty or greater spaces, a minimum of 20 percent of the total uncovered parking area, including access ways, shall be devoted exclusively to landscaping.
- b) Required parking area interior landscaping shall be distributed in such a configuration so as to divide groups of parking spaces. No grouping of parking spaces shall exceed 8 in a row.
- c) Parking lot edges shall be screened from public streets and sidewalks, public open space, and adjacent properties.
- d) Landscaped islands shall be planted with ground cover or sod and a minimum of 2 deciduous trees (minimum caliper of 3 inches) per 200 square feet of landscaped island area.
- e) Where a landscaped setback of at least 25 feet is not present, the perimeter of all parking lots shall be screened from adjacent streets, public sidewalks, and adjacent uses, with the exception of the area reserved as a site triangle at intersections, by either of the following methods:
  - (1) A berm 3 feet high with a maximum slope of 2:1 in combination with coniferous and deciduous trees and shrubs, as specified in table V.H.9.a, or
  - (2) A low continuous landscaped hedge at least 3 feet high consisting of a double row of shrubs planted 3 feet on center in a triangular pattern; or
  - (3) A low decorative masonry wall at least 3 feet high in combination with landscaping; or
  - (4) A combination of any of these methods.
- f) Non-living ground cover, such as wood, bark, and rock mulches, decorative stone, brick or concrete paving, shall not exceed 20 percent of the required landscaped area.

## 6. Retaining Walls

- a) Use of designed retaining walls shall be encouraged to reduce the slope and to provide planting pockets or terraces for revegetation and landscaping.
- b) Retaining walls may be permitted to support slopes but shall not exceed 10 feet in height in commercial areas or 6 feet in height in residential areas from the finished grade without stepping back a minimum of 3 feet between walls to create a terraced effect.
- c) No more than three tiers of retaining walls, as described above, shall be permitted to create terracing on a slope. Terraces created between retaining walls shall be permanently landscaped or revegetated and shall not exceed a 2:1 slope.
- d) Retaining walls shall be constructed of or faced with stone or earth-colored materials, or a material compatible with the primary building materials. Railroad ties, timber, and gabion-type retaining walls are prohibited. Retaining walls shall not exceed 50 feet in length without providing an offset at least 12 inches.
- e) All exposed retaining walls shall be textured or colored.

## 7. Detention/Retention Ponds/Debris Channels

- Detention/retention ponds and debris channels shall be visually integrated into the surrounding landscape.
- Embankment slopes shall not exceed a 2:1 ratio.

## 8. Plant Materials

- To meet the above standards, Plant Materials shall be chosen from the Plant List provided in the Appendix of this document. Xeric or low-water plant materials shall be utilized to the maximum extent feasible.

## 9. Landscape Requirements

- For the purposes of meeting the requirements in the table below, appropriate screening shall mean plant material, a low wall, or combination to provide an opaque barrier between the street and the adjoining use to be screened.

| Use                            | Residential Neighborhood                                                                                                         | Mixed-Use                                                                                                                        | Commercial                                                                                                                       | Hospitality                                                                                                                      | Mixed-Use Campus                                                                                                                 |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Required Open Space            | 40%                                                                                                                              | 15%                                                                                                                              | 15%                                                                                                                              | 30%                                                                                                                              | 30%                                                                                                                              |

Evenly spaced                                                                                           | 1 deciduous tree/35 l.f.                                                                                                         | 1 deciduous tree/35 l.f.                                                                                                         | 1 deciduous tree/35 l.f.                                                                                                         |

Table 1—Landscape Requirements

# I. SERVICE AREA AND MECHANICAL/UTILITY EQUIPMENT SCREENING

## 1. Intent

The intent of these standards is to minimize the visual and noise impacts created by service areas and mechanical equipment on surrounding uses and neighborhoods from public rights-of-way, surrounding high elevation neighborhoods, and adjacent uses within Glenwood Meadows.

## 2. Service Areas

- No areas for outdoor storage, trash collection or compaction, loading, or other such uses shall be located within 20 feet of any public street, public sidewalk, or internal pedestrian

walkway.

- b) Loading docks, truck parking, outdoor storage, trash collection, trash compaction, and other service functions shall be incorporated into the overall design of the building and landscaping so that the visual and acoustic impacts of these functions are fully contained and out of view from adjacent properties and public streets.
- c) Screening materials shall be the same as, or of equal quality to, the materials used for the primary building and landscaping.

### **3. Mechanical/Utility Equipment**

- a) Mechanical/utility screening shall be an integral part of the building structure and architecture and not give the appearance of being "tacked on" to the exterior surfaces.
- b) All mechanical, electrical, and communications equipment, including but not limited to air-conditioning, heating and soft water tanks, television antennas, satellite dishes, security apparatus, transformers, electric and gas meters, shall be integrated into the building design, screened from public view, or when appropriate, enclosed in a suitable structure.
- c) Roof-mounted equipment shall be contained within a completely enclosed structure. Such structure shall be an integral part of the building's architectural design and shall use materials compatible with those used on the façade of the building. However, if it can be demonstrated that the roof mounted equipment shall be screened or shall be placed such that the equipment can not be viewed or silhouetted in profile from public vantage points and neighboring properties, this may be considered as an alternative by the City.
- d) Roof mounted equipment shall be clustered to the maximum extent feasible.
- e) Roof mounted equipment shall utilize neutral colors and/ or materials that are compatible with adjacent natural or constructed colors.
- f) A decorative wall constructed of materials compatible with the overall architectural design of the development and softened with landscaping shall screen ground-mounted equipment.

## **J. OPEN SPACE AND PARKS**

### **1. Intent**

The intent of these standards is to provide an interconnected network of open spaces and parks within non-residential and residential areas of Glenwood Meadows as well as to provide a high level of visual interest and a variety of recreational and leisure opportunities within a short walk of each residence in Glenwood Meadows.

### **2. General**

- a) Open spaces and parks within Glenwood Meadows shall include traditional, urban gathering spaces such as a village green, plaza, or town square in addition to a network of pathways and informal trails that help integrate the built environment of the neighborhood with adjacent open space and the natural environment. Appropriate locations for the above amenities shall be determined in part by the type of use they are integrated with.
- b) Existing trees and vegetation shall be preserved whenever possible to act as buffers between adjoining developments and as site amenities within the neighborhood.

### 3. Non-Residential

#### a) Outdoor Spaces

- (1) Pedestrian-oriented outdoor spaces shall be placed near activity generating uses, such as street corners, shops, stores, offices, day care, and dwellings.
- (2) To the maximum extent feasible, outdoor spaces shall be linked and visible from streets and sidewalks.
- (3) Sculpture, fountains, kiosks, or shelters shall be prominently placed in outdoor spaces.
- (4) In developments with multiple buildings, outdoor spaces and landscaped areas shall be integrated into an overall open space system in conjunction with streets and connections and not merely assembled from residual land remaining after buildings and parking lots have been sited.

#### b) Community Amenities

- (1) A minimum of 1,000 s.f. of community amenities, open areas, and public gathering places per 50,000 s.f. of Commercial building area or a percentage thereof. This shall be considered a component of the landscape requirements as referenced in Section H.9. Community amenities may consist of any of the following:
  - (a) Patio or plaza with seating area;
  - (b) Mini-parks, squares, or village greens;
  - (c) Water feature,
  - (d) Clock tower;
  - (e) Public art;
  - (f) Any other, similar deliberately shaped area and/or focal feature that, in the City's judgment, adequately enhances such community and serves as a gathering place.
- (2) All community amenities within a commercial development shall be an integral part of the overall design and within easy walking distance of major buildings, major tenants, and any transit stops.

### 4. Residential

#### a) Common Open Space

- (1) Common open space shall be organized to create integrated systems of open space that connect with the following types of lands located within or adjacent to the development:
  - (a) Dedicated public park or greenway lands;
  - (b) Other dedicated open spaces;
  - (c) Common open space located within or adjacent to the development;
  - (d) Portions of the trail and open space system;
  - (e) Neighborhood retail and commercial centers; and
  - (f) Adjacent employment centers.

Common open space with pedestrian access shall be reasonably accessible to all of the residents of the Glenwood Meadows:

- (2) Where provided, access to common open space shall be a minimum of six feet wide and shall be located where such access is visible to dwelling units and shall not be isolated by walls, screening, landscaping, or any other kind of barrier that would prevent resident surveillance of the open space.
- (3) If an applicant constructs recreational facilities in the common open space as a community amenity, such recreational facilities shall be constructed in accordance with applicable city standards regarding, but not limited to, size, siting, use, materials, and similar matters.
- (4) Where common open space is bordered by private rear or side yards, opaque fences and walls shall not be erected in such yards bordering the open space. Open style fences, with a maximum 50% opacity (e.g., post and rail), shall be allowed on the perimeter of open space.

b) Parks

- (1) One neighborhood park shall be provided within each residentially zoned parcel or "neighborhood". Each park shall be at least 1 acre in size.
- (2) Each neighborhood park shall be located where the network of local streets provides access and where direct pedestrian and bicycle access are provided from adjacent uses.
- (3) Neighborhood parks shall be located in a visible, secure setting that is easily observed from streets. Rear facades of multi-family dwellings that do not contain building entrances shall not abut more than two sides of the park's perimeter.
- (4) Each neighborhood park shall contain one or more of the following features:
  - (a) Multi-use areas;
  - (b) Community gardens;
  - (c) Walking paths;
  - (d) Plazas;
  - (e) Pavilions;
  - (f) Picnic tables;
  - (g) Benches; or
  - (h) Other similar features for various age groups to enjoy.

## K. SIGNAGE

### 1. Intent

The intent of these standards is to provide consistent, high quality signage for Glenwood Meadows. All signage must be reviewed and approved by the Architectural Review Committee prior to permit application and must conform to all City of Glenwood Springs standards.

### 2. General

- a) Each building group, user, or tenant shall be allowed at least one sign on the primary storefront elevation, providing such signage meets these standards and does not exceed the ordinance and requirements of the City of Glenwood Springs.
- b) Signage placed at locations other than site locations and/or storefront elevation (such as rear and side wall locations) shall be considered provided that the total square footage allowance of all signage does not exceed the total aggregate area allowed by requirements of the City of Glenwood Springs Code.
- c) All attachment devices, wiring, clips, transformers, lamps, tubes, and other mechanisms for signs shall be concealed.
- d) Permanent signage may be illuminated providing it is designed so the source is not visible.

Individual internally lit channel letter signs or accent lighting, which is incorporated to enhance the signage, is acceptable. All signage lighting shall conform to lighting standards provided by the City of Glenwood Springs.

- e) Each tenant shall provide signage at its expense and shall apply for and obtain their individual signage permits and approvals from the City of Glenwood Springs.

### 3. Freestanding Signs

- a) No individual sign shall exceed 200 square feet in area nor shall the total sign area of any tenant exceed 600 square feet.
- b) The placement of all signs shall be based on visibility and legibility. All freestanding identification signs shall be integrated into the surrounding landscape with good visibility to approaching vehicular traffic.
- c) All freestanding signs shall be set back a minimum of 10 feet from the edge of curb and/or property line and six feet from all sidewalks.
- d) Freestanding signs shall not be placed within the site triangle of an intersection as defined in the City of Glenwood Springs Code.
- e) The information contained on freestanding identification signs shall be limited to company and corporate logos, and may include building names and addresses.

### 4. Regulatory Signs

- a) The basic design and mounting heights of regulatory signs shall follow Federal Highway Administration standards.

### 5. Building Mounted Signage

- a) Building mounted signage shall be allowed only for commercial developments for the specific purpose to provide identification to the tenant.
- b) Signage style shall be as approved by the Architectural Review Committee.

### 6. Colors and Materials

- a) The Architectural Review Committee shall consider all colors for approval.

### 7. Informational/Directional

- a) Informational/directional signs shall be designed to conform to the proportions shown in these guidelines and shall not have a sign face which exceeds 20 square feet.
- b) The number of informational/directional signs may vary by site, but shall be sufficient to accommodate both vehicular and pedestrian traffic.
- c) Informational/directional signs for motorists shall be located between 100 and 200 feet from intersections.
- d) Signs for pedestrians shall be placed at decision points in parking lots, in plazas, and where highly traveled walkways intersect.

## **L LIGHTING**

### **1. Intent**

The intent of these standards is to ensure that building, site, street, and signage lighting is sensitive to adjoining uses and is compatible with the overall development character in terms of scale and design.

### **2. General**

- a) All development shall be in compliance with the City of Glenwood Spring's Lighting Standards or comparable document as provided by the City.

## VI. Development Standards: Parcel "A", Mixed-Use Campus (C-1)

### A. GENERAL INTENT

The intent of these standards, when combined with the General Development Standards, is to provide a framework for the development of a quality office and business park for Glenwood Springs. The Campus is envisioned to accommodate a variety of office, research and development activities in addition to complementary secondary uses such as restaurants, convenience shopping, childcare and housing. Additionally, the Campus is intended to function as an integral part of the overall Glenwood Meadows development, providing a range of employment opportunities for nearby residents.

### B. APPLICABILITY

These standards shall apply to all development within Parcel "A", Mixed-Use Campus as defined on the accompanying Zoning Map. These standards shall be applied in addition to standards outlined in Section V., General Development Standards and in the City of Glenwood Springs Municipal Code.

### C. SITE LAYOUT AND DEVELOPMENT PATTERN

#### 1. Intent

The intent of these standards is to encourage the creation of a park-like campus environment within the mixed-use campus zone and to ensure that non-residential uses within the mixed-use campus environment provide appropriate height and scale transitions to adjacent or adjoining residential uses.

#### 2. General

- a) All uses shall be carried out within completely enclosed buildings or structures, except for off-street parking and loading areas.

**3. Landscaping**

- a) All open space areas shall be landscaped according to Table 1-Landscape Requirements.

**D. BUILDING DESIGN**

**1. Intent**

The intent of these standards is to create a cohesive, office park environment through the use of common materials, architectural features, and colors.

**2. General**

- a) See Section V. General Development Standards.

**3. Orientation**

- a) Buildings shall be oriented towards the adjacent street or towards the center of a campus or park-like development block with an internal framework of outdoor spaces or connecting walkway.

**4. Transition**

- a) Buildings abutting a residential area shall provide a gradual transition in height and scale to minimize conflicts between uses.

**E. MIX OF USES**

**1. Intent**

The intent of these standards is to provide general standards for appropriate percentages and locations of supporting uses within the mixed-use campus environment. Secondary uses are envisioned to include restaurants, convenience shopping, childcare, housing, or similar uses to complement primary office and research and development activities.

**2. General**

- a) All supporting uses shall be visually and functionally integrated into an overall plan that emphasizes the primary uses of office and employment uses.
- b) Retail uses shall not occupy more than 25 percent of the total gross area of the zone district.

## VII. Development Standards: Parcels "C", "D", and "H"-Commercial (C-2)

### A. GENERAL INTENT

The intent of these standards is to achieve a high quality, pedestrian-friendly commercial core within Glenwood Meadows. This core will be anchored by large format retail anchors such as a grocery store and/or discount store and will be supplemented with a variety of smaller retail businesses. The purpose of this zone district is to serve both the needs of regional consumers for goods and services and the day-to-day needs of the surrounding residential neighborhoods in a functional and inviting environment that strays from the typical auto-oriented designs found in many commercial centers. The district is intended to function as an integrated center of activity within the overall Glenwood Meadows development through the establishment of clear pedestrian and vehicular circulation patterns and through transitions in the scale and character of development where they abut adjacent uses.

### B. APPLICABILITY

These standards shall apply to all development within Parcels "C", "D", and "H", Commercial as defined on the accompanying Zoning Map. *These standards shall be applied in addition to standards outlined in Section V., General Development Standards and in the City of Glenwood Springs Municipal Code.*

### C. SITE LAYOUT AND DEVELOPMENT PATTERN

#### 1. Intent

The intent of these standards is to ensure that primary and secondary retail uses utilize careful building placement and orientation to create and enhance an active, attractive, pedestrian environment within the commercial core of Glenwood Meadows. Primary Commercial Buildings will serve as "anchors" for the commercial and mixed-use zones. These larger uses will be flanked by a variety of supporting, pedestrian-oriented retail storefronts and secondary commercial uses located on pad sites. The siting and design of smaller retail stores, or "pads," can create a more inviting appearance along Midland Ave and with in the neighborhood by visibly reducing the project's scale and by expanding the range of activities and businesses found within the neighborhood. The location, orientation of the entry, and architecture of pad site buildings also provide opportunities to frame the entry into the neighborhood and contribute to the development's visual interest by placing storefront spaces closer to the street and creating a street scene. Accordingly, pad site structures shall be compatible with the main buildings on a commercial site. The layout of pad site buildings shall relate coherently to the public streets and surroundings (outward) as well as to the main center (inward), and specific siting decisions shall further the general intent of creating a "sense of place," focal points,

community amenities, and arrival into the commercial center.

## 2. General

- a) See Section V. General Development Standards.
- b) Pad Sites The primary façade of a building located on a pad site, typically the façade containing the primary customer entrance, may be oriented in a variety of ways, including:
  - (1) Toward the primary access street;
  - (2) Toward an internal "main street";
  - (3) Framing a primary entrance to the development or center;
  - (4) Toward the side (especially when that side faces another pad site building); or
  - (5) Toward the interior of the center.
- c) Regardless of primary orientation, all sides of a pad site building that directly face and have access to a public street shall contain a customer entrance.
- d) Pad sites shall be clustered together to define street edges and entry points or to enclose and create community amenities and visual interest between buildings.
- e) Wherever practicable, spaces between adjacent pad site buildings shall be improved to provide small pockets (preferably heavily landscaped) of customer parking, pedestrian connections, small-scale project amenities, or focal points. Examples include, without limitation:
  - (1) A landscaped pedestrian way linking customer entrances between two or more pad site buildings;
  - (2) A public seating or outdoor eating area;
  - (3) An area landscaped with living materials emphasizing 4-season colors, textures, and varieties; or
  - (4) Sculptures or fountains.

## D. BUILDING DESIGN

### 1. Intent

The intent of these standards is to ensure that the design of buildings located in parcels "C", "D", and "H", present a cohesive appearance through the use of common materials, architectural features, and colors.

### 2. General

- a) See Section V. General Development Standards.
- b) Pad site buildings and other accessory uses shall incorporate a similar façade and building design as those on the primary commercial building(s) in the zone district, including:

- (1) Exterior building materials;
  - (2) Roofline or roof materials;
  - (3) Façade colors;
  - (4) Pedestrian entry locations and entryway architecture/design;
  - (5) Amounts of glazing on facades visible from public streets; and
  - (6) Other distinctive architectural features.
- c) Pad site buildings and other accessory uses shall select their exterior building materials from the material palette used on the primary commercial building(s).

### 3. Large Format Commercial

- a) Large format commercial buildings of 60,000 square feet or greater shall have a minimum of one side of the building "wrapped" with independent retail storefronts. Uses adjoining Market Street shall "wrap" the edge closest to the street to help establish a pedestrian-oriented environment and create a transition to the mixed-use zone along Market Street, as discussed in Section VIII.

## VIII. Development Standards: Parcel "E", "F", "G"-Mixed-Use (C-2)

### A. GENERAL INTENT

The intent of these standards is to create the framework for a pedestrian-oriented neighborhood retail street that will serve as the focal point for Glenwood Meadows. Oriented along a key connection between Midland Avenue and Wulfsohn Road, Market Street will be defined by a variety of smaller-scale retail shops and restaurants and will be designed with the pedestrian in mind. Storefronts will frame the broad sidewalk, while outdoor seating, landscaping, fountains, and other amenities will combine to create an inviting destination for nearby residents and retail customers alike. Diagonal parking will line either edge of the street, further enhancing the comfortable, pedestrian-oriented feeling by creating a buffer between outdoor activity and through traffic.

Market Street

Along the north side of Wulfsohn Road, bi-level structures will be used to help accommodate a transition in grade between larger commercial uses below and uses at grade with Wulfsohn Road. A variety of retail, offices and flex spaces, and upper-story residential will complement uses along Market Street and on the south side of Wulfsohn Road. Upper stories also help screen views from residential neighborhoods stepping up the hillside over large format uses below. Lower level uses will be oriented towards adjacent commercial and retail while primary uses located on the upper level along Wulfsohn Road will be oriented towards the street and the adjoining neighborhood. Buildings will be pulled up to the sidewalk to create a defined edge along the broad sidewalk. Off-street parking will be focused behind buildings to the extent feasible to enhance the pedestrian nature of the street and diagonal or parallel parking will be provided along Wulfsohn Road. Wulfsohn Road shall be designed to accommodate on-street bicycle circulation.

Wulfsohn Road

On the south side of Wulfsohn Road, the zone takes on a more neighborhood-oriented character; with small-scale first floor retail uses lining the street and the opportunity for upper-story residences. The addition of residential uses within the zone would provide a transition between commercial uses to the north and residential neighborhoods to the south and provide attainable options within an already varied mix of housing products. This also provides opportunities for live/work units if desired and creates more of an active street environment. The pedestrian nature of the street along Wulfsohn Road provides opportunities for pedestrian-oriented uses such as sidewalk cafes.

## B. APPLICABILITY

These standards shall apply to all development within Parcels "E", "F", and "G", Mixed-Use as defined on the accompanying Zoning Map. These standards shall be applied in addition to standards outlined in Section V., General Development Standards and in the City of Glenwood Springs Municipal Code.

## C. SITE LAYOUT AND DEVELOPMENT PATTERN

### 1. Intent

The intent of these standards is to ensure that building placement, setbacks, and orientation support the creation of a pedestrian scaled neighborhood retail street to serve as the retail core of the larger commercial development and Glenwood Meadows as a whole.

### 2. General

- a) Compatible uses (i.e., office building and a movie theatre) shall explore opportunities for shared-use parking to minimize overall space requirements for parking.

### 3. Mix of Uses

- a) Each pod of development within the zone shall contain at least 2 of the following uses:
  - (1) Residential;
  - (2) Retail; or
  - (3) Office.
- b) A minimum of 20 residential units shall be provided within the E, F and G mixed use parcels.

### 4. Location of Parking along Market Street and Wulfsohn Road

- a) Parking shall be angled or parallel on-street parking.
- b) Off-street parking shall not be permitted between buildings and either Market or Wulfsohn.

### 5. Building Setback from Market Street and Wulfsohn Road

- a) There shall be no minimum front, rear, and side yard setbacks required to promote a more urban, pedestrian-oriented environment along the street, provided local building code requirements are met.
- b) Should retail be constructed in phases, the front setback of later structures shall be built to equal the average setback of those structures already in place.
- c) Buildings at the corners of Market Street and Wulfsohn Road shall be anchored, or brought up to meet the sidewalk edge and shall utilize a similar scale and massing as other buildings along the street edge.

### 6. Building Orientation

- a) All buildings and building entries shall be oriented towards the primary street.
- b) New buildings shall be aligned with existing buildings located across the intersecting streets to "complete" the space around the corner and create visual continuity.

### 7. Sidewalk Width

- a) Sidewalk widths shall be a minimum of 10 feet along Market Street and Wulfsohn Road in order to provide ample space for outdoor seating and smooth pedestrian movement.

## D. BUILDING DESIGN

### 1. Intent

The intent of these standards is to create a pedestrian-oriented feeling for the facades of retail establishments along Market Street and along Wulfsohn Road.

### 2. General

- a) See Section V. General Development Standards.

### 3. Building Height

- a) Buildings shall be a minimum of 2 stories in height along the street edge. However, in order to create an active street environment along Market Street, especially at the intersection of Market St. and Midland Ave., portions of building or key buildings may be less than 2 stories if it can be demonstrated that the establishments add to the vitality of the street environment.
- b) Along the north edge of Wulfsohn Road, buildings may need to be 3 stories in height to accommodate changes in grade and meet the above requirement.

### 4. Façade Articulation

- a) One or more of the following design elements shall be incorporated for each 25 horizontal feet of a building façade or wall:
  - (1) Changes in color, texture, or materials;
  - (2) Projections, recesses, and reveals, expressing structural bays, entrances, or other aspects of the architecture with a minimum change of plane of 4-6 inches;
  - (3) Arcades or pergolas providing pedestrian interest.
- b) Retail storefronts shall consist of predominantly transparent display windows on the first floor sidewalk edge.
- c) Darkly tinted glass or other opaque materials shall not be used in display windows.
- d) Traditionally, windows in multi-story commercial buildings have a width to height ratio of one to two. Second story or upper story windows should generally be smaller than the storefront windows at ground level and shall be evenly spaced across all facades adjacent to the street.

## IX. Development Standards: Parcel "I", Hospitality (C-4)

### A. GENERAL INTENT

The general intent of these standards is to create a full service hospitality site within Glenwood Meadows that accommodates a hotel with conference space or meeting rooms, a multi-screen movie theatre or other entertainment venue, such as a performing arts facility or outdoor amphitheater, visitor center, and/or a limited assortment of supporting retail uses such as restaurants or small stores, outdoor recreational opportunities, and the potential integration of a future park and ride and transit stop. The hospitality site is intended to function as more of a "campus" type environment, with more flexibility regarding the placement and relationship of uses as compared to the site's adjacent commercial areas based on the "campus" concept, meeting rooms or a separate dedicated facility on the site could serve as an extended learning facility or a business education and training facility. In addition to the adjacent commercial uses, all uses found on this site are also intended to complement the adjacent Community Center.

### B. APPLICABILITY

These standards shall apply to all development within Parcel "I", Hospitality as defined on the accompanying Zoning Map. These standards shall be applied in addition to standards outlined in Section V., General Development Standards and in the City of Glenwood Springs Municipal Code.

### C. SITE LAYOUT AND DEVELOPMENT PATTERN

#### 1. Intent

The intent of these standards are to ensure that the design of hospitality uses are compatible in terms of scale and mass with adjacent residential and commercial development and with the

Community Center.

**2. General**

- a) Compatible uses (i.e., office building and a movie theatre) shall explore opportunities for shared-use parking to minimize overall space requirements for parking.

**3. Setbacks**

- a) Minimum front yard setbacks shall be as follows:
  - (1) From Midland Avenue and Wulfsohn Road: 25 ft.
  - (2) From uses in adjacent commercial parcel: 20 ft.
- b) There shall be no minimum side or rear yard setback to promote a more urban, pedestrian-oriented environment within the Hospitality zone district.
- c) At the time of the development permit application, a build to line shall be established to create a strong relationship to Wulfsohn Road, the Community Center, and adjacent mixed-use structures. The location of this line may vary depending on the site layout concept.

**4. Landscaping**

- a) All open space areas shall be landscaped according to Table 1-Landscape Requirements.

**5. Mix of Uses**

- a) Retail uses shall be limited to 25% of the total square footage permitted within the zone district. For the purposes of this standard, a theater shall not be defined as a retail use.

**6. Relationship to Community Center**

- a) All uses with frontage along Wulfsohn Road shall provide an entrance along that frontage.

**7. Parking**

- a) Large areas of parking shall be distributed between at least two sides of the primary structure, with not more than 35% of the parking for the entire Hospitality parcel remaining between the principal building and Wulfsohn Road.

**D. BUILDING DESIGN**

**1. Intent**

The intent of these standards are to ensure that the design of full service hospitality uses are compatible in terms of scale and mass with adjacent residential and commercial development and with the Community Center.

**2. General**

- a) See Section V. General Development Standards.
- b) When public or semi-public spaces such as the hotel/motel lobby, restaurants, meeting rooms, and banquet-facilities are sited at ground level adjacent to a connecting pedestrian walkway, these spaces shall be accented with the use of glass and transparent materials between the height of 3 feet and 8 feet above the walkway or street grade.

**3. Building Height**

- a) The maximum height of buildings shall not exceed 45 feet.
- b) A variety of heights within the zone are encouraged. In addition, the use of height to create a focal point or prominent structure within the zone is also encouraged.

## **X. Development Standards: Parcels "B", "F", and "G", Residential Neighborhoods (R-3)**

### **A. GENERAL INTENT**

The intent of these standards is to establish general criteria for the development of a series of compact residential neighborhoods that provide a range of housing types within a short walk of community amenities, such as parks and open space, retail and commercial services, and employment.

### **B. APPLICABILITY**

These standards shall apply to all development within Parcels "B", "F", and "G", Residential Neighborhoods as defined on the accompanying Zoning Map. *These standards shall be applied in addition to standards outlined in Section V., General Development Standards and in the City of Glenwood Springs Municipal Code.*

### **C. SITE LAYOUT AND DEVELOPMENT PATTERN**

#### **1. Intent**

The intent of these standards is to ensure that residential neighborhoods within Glenwood Meadows provide a variety of housing types in a cohesive, pedestrian-oriented environment and provide appropriate transitions to adjacent non-residential uses and open space, and work with the more pronounced topographical features of the site.

#### **2. Mix of Housing Types**

- a) A range of housing types is strongly encouraged to promote a diverse community of mixed ages, family-types and incomes. Out of the 475 approved residential units, a maximum of 300 apartments shall be provided.

#### **3. Block Layout**

- a) Residential neighborhoods shall be designed in a pattern of blocks and interconnecting streets and/ or alleys, defined by buildings, streetscape, sidewalks, and trails.
- b) The maximum block length for a block shall be 500 feet. Where mid-block pedestrian walkways are provided, blocks may be up to 800 feet.

#### **4. Lot Sizes**

- a) Lot sizes shall be a minimum of 3000 square feet where permitted by Glenwood Springs Municipal Code.

#### **5. Setbacks**

- a) Homes shall be setback a minimum of 20 feet from the front property line.

## 6. Site Grading

- a) The use of extensive grading or unusual site improvements to force a preconceived design onto a particular piece of property is strongly discouraged. Modifying the design of a multifamily development to fit the site generally results in a reduced potential for environmental problems and an improved level of visual interest and variety.
- b) To the maximum extent feasible, the layout of residential developments shall follow and respect the natural topography of the site.
- c) Berms, channels, swales, and similar man-made changes to the landscape shall be designed and graded to be an integral part of the natural landscape and to provide a smooth transition in changes of slope.

## 7. Site Layout

- a) Each of the three residential parcels within the Glenwood Meadows shall be considered an individual "neighborhood". A mix of housing types is encouraged within each neighborhood.
- b) Multifamily buildings shall be separated by common open space, public open space (e.g., a greenway), natural features located on the site (e.g., a stream corridor), or community amenities such as swimming pools or other recreational facilities.

- c) To the maximum extent practicable, multi-family buildings shall be oriented or arranged in a manner to enclose common open spaces required above (Common Open Space). Such common open spaces should include gardens, courtyards, recreation, or play areas and shall contain at least 3 of the following features:

- (1) Seasonal planting areas;
- (2) Large, flowering trees;
- (3) Seating;
- (4) Pedestrian-scaled lighting;
- (5) Gazebos or other decorative shelters;
- (6) Play structures for children; or
- (7) Natural features or areas.

## 8. Development Transition

- a) When any portion of a building or structure within a multifamily development is located adjacent to property used or zoned for lower-density residential, the following standards shall apply to ensure the privacy of nearby residents:
  - (1) The developer shall site multifamily structures with either fewer units or structures with two-story "end" units adjacent to property zoned or used for single-family residential.
- b) Accessory structures, including garages and recreational facilities, shall be set back at least

5 feet from the adjacent residential property line or zoning district boundary, and the developer shall provide a buffer between the structure and adjacent property. The buffer may be a fence, wall, heavy landscaping, or combination thereof. Fences and walls used for buffer purposes shall be a maximum of 6 feet in height, with finished side facing out.

- c) Residential neighborhoods adjacent to open space shall incorporate one or more of the following techniques to create a visual transition between development and surrounding open space:
  - (1) Staggering building setbacks to create a softer development edge.
  - (2) Establishing a landscape buffer along the rear or visible edge(s) of the property to create a soft visual edge to the development.
  - (3) Locating structures near or behind existing stands of significant trees or vegetation so that the cluster of vegetation provides a buffer between the development and the adjoining open space. When siting structures in such a manner, care should be taken to not disturb existing vegetation either during or following construction.
  - (4) Utilizing a variety of native plant species and planting forms similar to those found on the adjoining open space, to create the appearance of a natural transition in the landscape.

## 9. Community Amenities

- a) All residential projects with more than 10 dwelling units shall reserve and develop internal open space/outdoor leisure space, at a minimum ratio of 200 s.f. per unit. These open spaces/outdoor leisure areas shall be improved with a variety of community amenities, including, but not limited to the following:
  - (1) Community Garden;
  - (2) Grove of trees;
  - (3) Village green;
  - (4) Pocket park;
  - (5) Swimming pool;
  - (6) Resident clubhouse;
  - (7) Tot lots;
  - (8) Basketball, volleyball, or other sport court; or
  - (9) Picnic areas.
- b) To the maximum extent feasible, internal open spaces/outdoor leisure spaces as required above shall be consolidated to create larger common spaces for residents.

## 10. Fencing

- a) Perimeter fencing shall be of an open style, such as 2, 3, or 4 rail, split rail, wood post, or other similar style characteristic of the area's rural heritage.
- b) Consistent styles of fencing shall be used throughout the neighborhood in order to achieve a cohesive appearance.

## 11. Storage of Personal Property

- a) Dedicated storage for Recreational Vehicles (RV's), snowmobiles, trailers, and other personal property, not including personal automobiles, shall be provided off-street. Such property shall not be stored within the public right-of-way.
- b) Storage areas, as outlined above, shall be screened to minimize visibility from adjacent streets and property lines as follows:

- (1) One continuous row of evergreen trees (minimum of 6 feet tall) shall be planted with a minimum spacing of 10 feet on center; or
- (2) One continuous row of evergreen shrubs (minimum of 5 gallon in size) planted at a minimum spacing of 3 feet on center, and deciduous trees planted at an average of one tree every 15 linear feet.

## **D. PARKING**

### **1. Intent**

The intent of these standards is to ensure that garages and parking areas within Glenwood Meadow's residential neighborhoods are appropriately scaled and sited to minimize their visual impact upon the street.

### **2. Location and Layout**

- a) To the maximum extent feasible within slope constraints, garage entries, carports, parking areas, and parking structures shall be internalized in building groupings or oriented away from street frontage.
- b) Parking areas and freestanding parking structures (detached garages or carports) shall not occupy more than 50% of each perimeter street frontage.
- c) To the maximum extent practicable, freestanding parking structures (detached garages or carports) that are visible from perimeter public streets shall be sited perpendicular to the perimeter street in order to reduce visual impacts on the streetscape.
- d) Carports shall be limited to 72 feet in length, with a maximum of 8 parking spaces per carport structure.
- e) If a carport backs to the street, a landscape buffer shall be provided according to the requirements contained in Table 1-Landscape Requirements., within Section V.
- f) A detached garage structure shall contain parking for no more than 8 cars.
- g) No more than 2 detached garage structures or 2 carport structures shall be located adjacent to each other end to end.
- h) The minimum separation between adjacent detached parking structures (detached garages or carports) shall be 10 feet, and such separation area shall be landscaped with at least 1 deciduous tree and ground cover or sod. A pedestrian access way may be included within the separation area.

72 of 83 R 416.00 D 0.00 GARFIELD COUNTY CO

## E. BUILDING DESIGN

### 1. Intent

These standards are intended to encourage a variety of residential building character within Glenwood Meadow's neighborhoods by encouraging the use of identifiable design features and detailing to emphasize the façade at the street and create visual interest.

### 2. General

- a) See Section V. General Development Standards.

### 3. Architectural Detail

- a) The incorporation of porches, balconies, and patios shall be strongly encouraged for all residential types.
- b) Building entries shall be called out as a prominent streetscape feature for all residential types by extending the front of the main façade and emphasizing with materials and detailing.
- c) Garages shall not be the prominent streetscape element. They shall be recessed and/or oriented towards the side or rear of the lot.

- d) The facades of single-family attached town homes shall be articulated to differentiate individual units.
- e) All sides of a multi-family building shall display a similar level of quality and architectural interest. The majority of a building's architectural features and treatments shall not be restricted to a single façade.
- f) Fronts of buildings shall be articulated through the use of bays, insets, balconies, porches, or stoops related to entrances and windows.
- g) No more than 5 town home dwelling units shall be attached in any single row.

## **XI. Parcel L: Open Space and Parks (HP)**

### **A. GENERAL INTENT**

The intent of these standards is to provide guidance for the range of appropriate uses that could occur within this portion of the Glenwood Meadow's site. The site is characterized by its dramatic views of Red Mountain, which frames the site on the south side, by its varied and sometimes dramatic topography, and by its lush stand of Gambel oaks. The site encompasses over 62% of the total area of Glenwood Meadows presents an opportunity to establish public open space for the neighborhood and for the larger Glenwood Spring's community that accommodates year-round active and passive recreational uses.

Many of the sites potential uses will vary from season to season, providing a range of activities for the community. For example, the north aspect of Red Mountain's slopes retain snow cover, creating a haven in its shadows for winter sports such as snow shoeing or cross-country skiing, while lower slopes with more solar exposure provide more opportunities for year-round activities such as hiking, biking, and possibly a golf course.

### **B. APPLICABILITY**

These standards shall apply to all development within Parcels "L", Open Space and Parks as defined on the accompanying Zoning Map. These standards shall be applied in addition to standards outlined in Section V., General Development Standards and in the City of Glenwood Springs Municipal Code.

### **C. ACTIVE RECREATION**

#### **1. Intent**

The intent of these standards is to suggest a range of appropriate active recreational uses for particular areas of the site, based on its varying landscape characteristics, such as slope,

vegetative cover, and proximity to the residential neighborhoods of Glenwood Meadows. As a general rule, more land intensive, active uses, such as a golf course or a community park shall be located adjacent to or be partially integrated with nearby residential neighborhoods. By locating active uses near developed areas, where slopes are typically between 10 and 20 percent, pedestrian access to the sites would be more easily facilitated and a wider range of uses could be accommodated. Steeper slopes located towards the base of Red Mountain can be utilized to accommodate multi-use trails with little disturbance to existing landforms or views of the site. All development on the site, regardless of its intensity or location, shall work with existing site features to minimize overall disturbance and visual impacts.

## 2. General

- a) Appropriate uses shall include, but not be limited to the following:
  - (1) Hiking trails;
  - (2) Golf courses;
  - (3) Mountain bike trails;
  - (4) Cross-country skiing trails;
  - (5) Equestrian trails;
  - (6) Snow shoeing trails; or
  - (7) Neighborhood parks.
- b) Any of the above uses, as well as any additional non-prohibited uses as identified in the Appendix-Prohibited Uses for Parcel L, shall be required to undergo a special use review prior to approval. Soft surfaced trails and debris flow mitigation structures shall be allowed uses, the design and location of which shall be approved by City staff.
- c) The use of motorized recreational vehicles such as snowmobiles, motorcycles, or similar vehicles shall not be permitted.
- d) All uses shall use all practical means of preserving natural grade, drainage patterns, soil cover, and vegetation.
- e) All uses shall be designed to minimize visual disturbances and scarring to the site, as viewed from within the site, from surrounding developments, and from Interstate-70.
- f) All uses shall preserve and integrate outstanding natural physical features such as hill and ridge crests, natural rock outcroppings, major tree belts, watercourses, and other physical features.
- g) Public access points shall be provided from residential neighborhoods to adjoining open space. To the maximum extent feasible, access points shall be provided a minimum of every 500 feet.

## **XII. Appendix**

### **A. PLANT LIST**

#### **1. Large Deciduous Trees**

- a) Narrow leaf Cottonwood-*Populus angustifolia*
- b) Cottonwood 'Siouxland'-*Populus deltoides* 'Siouxland'
- c) Lanceleaf Cottonwood-*Populus x acuminata*
- d) Norway Maple-*Acer plantanoides*
- e) Red Maple-*Acer rubrum*
- f) Northern Catalpa-*Catalpa speciosa*
- g) Common Hackberry-*Celtis occidentalis* (spring planting)
- h) American Ash-*Fraxinus americana* 'Autumn Purple'
- i) Green Ash-*Fraxinus pennsylvanica*
- j) Thornless Honeylocust 'Shademaster'-*Gleditsia triacanthos inermis*
- k) Bur Oak- *Quercus macrocarpa*
- l) English Oak-*Quercus robur*
- m) American Linden-*Tilia americana*
- n) Littleleaf Linden-*Tilia cordata* 'Greenspire'
- o) Redmond Linden-*Tilia x euchlora* 'Redmond'
- p) American Elm-*Ulmus Americana*

#### **2. Ornamental Trees**

- a) Amur Maple-*Acer ginnala*
- b) Thinleaf Alder-*Alnus tenuifolia*
- c) Shadblow Serviceberry-*Amelanchier canadensis*
- d) Rocky Mountain or water birch-*Betula occidentalis*
- e) Cockspur Hawthorn-*Crataegus crus-galli*
- f) Washington Hawthorn-*Crataegus phaenophyrum*
- g) Quaking Aspen-*populus tremuloides*
- h) Newport Plum-*Prunus cerasifera* 'Newport'
- i) Canadian Red Cherry-*Prunus virginiana* 'Shubert'
- j) Callery Pear-*Pyrus calleryana*
- k) Gambel Oak-*Quercus gambelii*

#### **3. Evergreen Trees**

- a) Subalpine or Rocky Mountain Fir-*Abies lasiocarpa*

616083 12/06/2002 01:20P B1414 P802 M ALSDORF  
77 of 83 R 416.00 D 0.00 GARFIELD COUNTY CO

- b) Douglas Fir-Pseudotsuga menziesii glauca
- c) Rocky Mountain Juniper-Juniperus scopulorum
- d) Bristlecone Pine-Pinus aristata
- e) Lodgepole Pine-Pinus contorta latifolia
- f) Pinyon Pine-pinus edulis
- g) Limber Pine-Pinus flexilis
- h) Southwestern White Pine-Pinus flexilis reflexa
- i) Austrian Pine-Pinus nigra
- j) Ponderosa Pine-Pinus ponderosa
- k) Scotch Pine-Pinus sylvestris
- l) Engelmann Spruce-Picea engelmannii
- m) Black Hills Spruce-Picea glauca densa
- n) Colorado Spruce-Picea pungens
- o) Colorado Blue Spruce-Picea pungens glauca

#### 4. Semi-Evergreen and Broadleaf Evergreen Shrubs

- a) Kinnikinnick-Arctostaphylos uva-ursi
- b) Euonymus-Euonymus fortunei
- c) Manhattan Euonymus-Euonymus kiautschovicus 'Manhattan'
- d) Oregon Grape Holly-Mahonia aquifolium
- e) Compact Oregon Grape Holly-Mahonia aquifolium 'Compacta'
- f) Creeping Oregon Grape Holly-Mahonia repens
- g) Soapweed Yucca-Yucca glauca

#### 5. Evergreen Shrubs

- a) Armstrong Juniper-Juniper chinensis 'Armstrong'
- b) Blue Rug Juniper-Juniperous horizontalis 'Wiltonii'
- c) Sea Green Juniper-Juniperous media 'Sea Green'
- d) Green Mound Juniper-Juniperous procumbens 'Green Mound'
- e) Tammy Juniper-Juniperus sabina 'Tamariscifolia'
- f) Table Top Juniper-Juniperus scopulorum 'Table Top'
- g) Blue Star Juniper-Juniperus squamata 'Blue Star'
- h) Wichita Blue Juniper-Juniperus scopulorum 'Wichita Blue'
- i) Hillspire Juniper-Juniperus virginiana 'Cupress'
- j) Mugo Pine-Pinus mugo

#### 6. Deciduous Shrubs

- a) Serviceberry-Amelanchier spp.
- b) Barberry-Berberis thunbergii atropurpurea

615083 12/06/2002 01:20P B1414 P803 M ALSDF  
78 of 83 R 416.00 D 0.00 GARFIELD COUNTY CO

- c) Butterfly Bush-Buddleia davidii
- d) Siberian Peashrub-Caragana arborescens
- e) Flowering Quince-Chaenomeles speciosa
- f) Blue Mist Spirea-Caryopteris spp.
- g) Dogwood-Cornus sericea
- h) Smoketree-Cotinus coggygria
- i) Peking Cotoneaster-Cotoneaster acutifolia
- j) Cranberry Cotoneaster-Cotoneaster apiculatus
- k) Burning Bush-Euonymus alatus
- l) Forsythia-Ligustrum vulgare
- m) Honeysuckle- Lonicera spp.
- n) Russian Sage-Perovskia atriplicifolia
- o) Common Ninebark-Physocarpus opulifolius
- p) Potentilla (Shrubby Cinquefoil)-Potentilla fruticosa
- q) Plum-Prunus spp.

## 7. Perennials

- a) Yarrow-Achilles filipendula
- b) Columbine-Aquilegia (hybrids)
- c) Hollyhock-Althaea rosea
- d) Pearly Everlasting-Anaphalis spp.
- e) Clustered Bellflower-Campanula glomerata
- f) Canterbury Bells-Campanula medium
- g) Cup-n-Saucer-Campanula medium calycantherma
- h) Shasta Daisy-Chrysanthemum maximum
- i) Delphinium-Delphinium elatum
- j) Cottage Pink-Dianthus pulmaris
- k) Bleeding Heart-Dicentra spectabilis
- l) Foxglove-Digitalis purpurea
- m) Blanket Flower-Gaillardia aristata
- n) Bearded Iris-Iris germanica
- o) Perennial Sweet Pea-Lathyrus latifolius
- p) Blue Flax-Linum perenne
- q) Lupine-Lupinus polyphyllus
- r) Daffodil-Narcissus spp.
- s) Perennial Phlox-Phlox paniculata
- t) Buttercup-Ranunculus asiaticus
- u) Johnny Jump-up-Viola kitaibeliana

## B. USE TABLE

In the event a use is permitted in the Glenwood Meadows standards but is not permitted in the underlying zone districts, the stricter obligations of the Code shall prevail.

Prohibited Use

Special Use

| Use                                                                                            | A-Mixed-Use<br>Campus (C-1) | C, D, and M-<br>Commercial<br>(C-1) | E, F, and G-<br>Mixed-Use<br>(C-2) | I-Hospitality<br>(C-4) | S, J, and K-<br>Residential<br>Neighborhood<br>(R-3) | L-Parks and<br>Open Space (HP) |
|------------------------------------------------------------------------------------------------|-----------------------------|-------------------------------------|------------------------------------|------------------------|------------------------------------------------------|--------------------------------|
| Accessory Uses                                                                                 |                             |                                     |                                    |                        |                                                      |                                |
| Apartments                                                                                     |                             |                                     |                                    |                        |                                                      |                                |
| Auto Rental                                                                                    |                             |                                     |                                    |                        |                                                      |                                |
| Auto Repair                                                                                    |                             |                                     |                                    |                        |                                                      |                                |
| Auto Parking                                                                                   |                             |                                     |                                    |                        |                                                      |                                |

## XIII. Definitions

**Accessory Use**—A use incidental and subordinate to the principal use of the lot.

**Apartment**- A type of multi-family dwelling unit, typically renter-rather than owner-occupied. See definition for multi-family dwellings below.

**Auto Parking**—Shall mean an off-street parking area or vehicular use area, an off-street parking area within a building or parking structure, or on street parallel or diagonal parking.

**Day Care**—A child care facility or day nursery, which is maintained for the whole or part of a day for the care of 7 or more children unrelated to the owner on a full time basis and/or requiring a day care nursery or a center license in accordance with the regulations of the State of Colorado Department of Social Services, whether such facility is operated with or without compensation for such care and with or without stated educational purposes.

**Indoor Recreation**—A commercial recreational land use conducted entirely within a building, including: an arcade, arena, art gallery and studio, art center, assembly hall, athletic and health clubs, auditorium, bowling alley, club or lounge, community center, conference center, exhibit hall, gymnasium, library, movie theater, museum, performance theater, pool or billiard hall, skating rink, swimming pool, or tennis court.

**Multi-family dwellings**—A building containing 3 or more dwelling units, not including hotels, motels, and similar group accommodations.

**Non-banking Drive Thru**—An establishment which by design, physical facilities, services, or packaging procedures encourages or permits customers to receive services, obtain goods, or be entertained while remaining in their motor vehicles.

**Open Space**—That portion of a building lot which is open to the sky, except as provided in the definition of lot coverage.

**Outdoor Recreation**—A commercial recreational land use conducted outside of a building, characterized by a minimal impact on traffic, the natural environment, or the surrounding neighborhood, including: an arboretum, botanical garden, bridle or hiking trails, country club, golf course, or historic site.

**Pedestrian-oriented Development**—Development that is designed with a primary emphasis on the street sidewalk and/or connecting walkway access to the site and building rather than on auto access and parking lots. This type of development typically warrants buildings being placed relatively close to the street with the main entrance oriented towards the street sidewalk or a walkway. Parking areas are provided but are not emphasized in the design of the site.

**Transit-oriented Development**—A development pattern characterized by mixed-use development at transit corridors, a high level of activities and extensive facilities for transit users, pedestrians, and bicyclists to provide easy movement between living and working environments.

**FIRST AMENDMENT TO**  
**ANNEXATION AND DEVELOPMENT AGREEMENT**  
**GLENWOOD MEADOWS, LLC ANNEXATION**

**THIS FIRST AMENDMENT TO ANNEXATION AND DEVELOPMENT AGREEMENT** ("Agreement") is made and entered into this 5th day of May, 2004, by and between the CITY OF GLENWOOD SPRINGS, COLORADO, a Colorado municipal corporation (hereinafter "City"), and GLENWOOD MEADOWS, LLC, a Colorado limited liability company, its successors, assigns, and its legal or other representatives (hereinafter collectively "Owner").

**WITNESSETH:**

WHEREAS, Owner owns approximately three hundred forty-five (345) acres of real property currently located in unincorporated Garfield County, Colorado, and more particularly described on Exhibit A, attached hereto and incorporated herein by this reference (hereinafter "Property"), which Property shall be known as "Glenwood Meadows"; and

WHEREAS, on July 18, 2002, the City Council of the City of Glenwood Springs ("Council") did adopt Ordinance No. 17, Series of 2002, and Ordinance No. 18, Series of 2002, which respectively approved the Owner's petition and request for annexation of the Property and approved the Owner's application for municipal zoning of the Property; and

WHEREAS, the City and Owner entered into this an Annexation and Development Agreement to set forth their agreements in writing concerning the terms and conditions of annexation of the Property to the City, the zoning of the Property under the City's Municipal Code and the adopted Zoning and Development Plan, as well as the other conditions of the development of the Property; and

WHEREAS, certain conditions have changed necessitating the amendment of the Annexation and Development Agreement recorded December 6, 2002 at Reception No. #616083.

**NOW THEREFORE**, the Annexation and Development Agreement entered into by and between the parties is amended as follows (deletions are shown by ~~strike-through~~ additions are underlined):

**Section 12 Off-Site Traffic Improvements Obligations.**

\*  
\*  
\*

- f. The third sentence shall be amended to read as follows "Owner shall be responsible for one hundred percent (100%) of the cost of construction of a new limited purpose (~~i.e. an unsignalized right turn in/right turn out only~~) access point from the Property to Midland Avenue."

Section 13. On-Site Pedestrian/Off-Site Pedestrian Commitments, Transportation Demand Management Commitment; and Transit Commitments.

\*

\*

\*

- d. An additional sentence shall be added to the end of this subsection to read as follows "The subdivision, conveyance and development of a park and ride of any acreage as contemplated herein shall not obligate the Owner to perform any obligation set forth in this Agreement which would otherwise be required as the result of subdivision, conveyance or development of any of the Property."

Section 20. Miscellaneous. Section 20, Subsection 1. Notice, is amended as follows:

1. Notice.

:

Notice to City: City of Glenwood Springs  
~~Mike Copp~~, City Manager  
~~806 Cooper Avenue~~ 101 West 8<sup>th</sup> Street  
City of Glenwood Springs, CO 81601

With copy to: ~~Teresa Williams~~  
City Attorney  
~~806 Cooper Avenue~~ 101 West 8<sup>th</sup> Street  
Glenwood Springs, CO 81601

Notice to Owner: Glenwood Meadows, L.L.C.  
Attn: Robert Macgregor  
~~525 East Cooper~~  
1315 Sage Court  
Aspen, CO 81611

With copy to: Thomas J. Hartert, Esq.  
~~802 Grand Avenue, Suite~~  
818 Colorado Avenue  
P.O. Drawer 790  
Glenwood Springs, CO 81602

Except as expressly amended hereby, all other terms, conditions and provisions of the Annexation and Development Agreement – Glenwood Meadows, LLC Annexation dated September 18, 2002 shall remain in full force and effect.

**WHEREFORE**, the parties hereto have executed duplicate originals of this Agreement on the day and year first written above.

## COMMERCIAL CLOSING INSTRUCTIONS

TO: Land Title Guarantee Company

RE: 2301 WULFSOHN ROAD, GLENWOOD SPRINGS, CO 81601

1. The Seller(s) and Buyer(s) listed below employ Land Title Guarantee Company (hereinafter referred to as Closing Agent) to act as closing and settlement agent in connection with the real property identified in title commitment No. **63014212**.
2. Closing Agent is authorized to prepare, obtain, deliver and record all documents (including if applicable the Warranty Deed), excluding preparation of legal documents, necessary to carry out the terms and conditions of the Contract by and between the undersigned with amendments and counter proposals attached. Closing Agent is authorized to act as Loan Closing Agent and, if required, as custodian for any lender selected under the terms of the contract.
3. Closing Agent is authorized to receive funds; and to disburse funds under the following conditions:
  - a. All funds received are either available for immediate withdrawal as a matter of right from the financial institution in which funds have been deposited; or are available for immediate withdrawal as a consequence of an agreement of a financial institution in which the funds are to be deposited or a financial institution upon which the funds are to be drawn.
4. Seller(s) and Buyer(s) will furnish any additional information and documents required by Closing Agent which will be necessary to complete this transaction, and to comply with the provision of the Contract.
5. Closing Agent will prepare and deliver an accurate and detailed Closing Statement to Seller(s) and Buyer(s) at time of closing.
6. Nothing contained herein shall be construed to alter or supersede the Contract.
7. Should a default occur by either Seller(s) or Buyer(s), Closing Agent is authorized to return all documents, monies, and things of value to the depositing party and Closing Agent will be relieved from any further duty, responsibility or liability in connection with these instructions.
8. In the event of any conflicting demands made on the Closing Agent concerning these instructions, in the sole judgment of the Closing Agent, and at the election of the Closing Agent, Closing Agent may hold any monies, documents, and things of value until Closing Agent received mutual written instructions from Seller(s) and Buyer(s) or until a civil action shall have been finally concluded in a court of competent jurisdiction, determining the rights of all parties. In the alternative, Closing Agent may, at its discretion, at any time, commence a civil action to interplead any conflicting demands to a court of competent jurisdiction. Deposit with the court by the Closing Agent of all monies, documents, and other things of value concerning this transaction, shall relieve Closing Agent of all further liability and responsibility.
9. These closing instructions may be amended or terminated by written instructions from the Seller(s) and Buyer(s) to the Closing Agent.

### ADDITIONAL PROVISIONS. (The following provisions have not been approved by the Colorado Real Estate Commission)

Seller and Borrower agree that the documents necessary for closing that require a notarization or acknowledgment may be notarized by a notary located outside of the State of Colorado through a process called "Remote Online Notarization ("RON"). The RON process utilizes an electronic online platform in which a notary will use real time audio/visual equipment to witness a party's electronic signature, and notarize it electronically from a remote location. If the parties elect to utilize RON to notarize closing documents, the role of the notary in the closing process will be limited to notarizing specific closing documents. If RON is utilized in this closing, the parties hereby authorize Closing Company to upload closing documents to the RON platform that is selected by the Closing Company, which documents could include personal private information; these documents could include but are not limited to deeds, deeds of trust, and affidavits. Once the closing documents are uploaded onto the RON platform, Closing Company is not responsible for the security or privacy of those uploaded documents.

APPROVED AND ACCEPTED: July 08, 2020

**FOREIGN INVESTMENT IN REAL PROPERTY TAX ACT OF 1980  
(26 U.S.C. 1445) ("FIRPTA")**

**CERTIFICATION BY TRANSFEROR (ENTITY)  
(Pursuant to Regulation C.F.R.1.1445-2(b)(2)(i))**

To: **ROARING FORK TRANSPORTATION AUTHORITY, A COLORADO REGIONAL TRANSPORTATION AUTHORITY**, (hereinafter referred to as the "Transferee",)

Section 1445 of the Internal Revenue Code provides that a transferee of a U. S. real property interest must withhold tax if the transferor is a foreign person. For U.S. tax purposes (including section 1445), the owner of a disregarded entity (which is legal title to a U.S. real property interest under local law) will be the transferor of the property and not the disregarded entity.

To inform the transferee that withholding of tax is not required upon the disposition of a U. S. real property interest, by **CITY OF GLENWOOD SPRINGS, A COLORADO HOME-RULE MUNICIPALITY**, hereinafter referred to as the transferor, the undersigned hereby certifies the following on behalf of the transferor:

1. The transferor is not a foreign corporation, foreign partnership, foreign trust, or foreign estate (as those items are defined in the Internal Revenue Code and Income Tax Regulation);
2. The transferor is not a disregarded entity as defined in section 1.1445-2(b)(iii);
3. The transferor's U.S. employer identification number is [REDACTED]; and
4. The transferor's office address is:  
[REDACTED]
5. The transferor understands that this certification will be disclosed to the Internal Revenue Service by the transferee and that any false statement contained therein could be punished by fine, imprisonment, or both.
6. Under penalties of perjury I declare that I have examined this certification and to the best of my knowledge and belief it is true, correct and complete, and I further declare that I have authority to sign this document on behalf of the transferor (i.e. a responsible officer if a corporation, by a general partner if a partnership, and by a trustee or equivalent fiduciary of the case of a trust or estate).

All information required to be obtained in connection with document has been obtained from information supplied by the transferor to Land Title Guarantee Company. For privacy and security reasons, Land Title will retain this information. In the event you are contacted by the Internal Revenue Service concerning FIRPTA, please contact the Company immediately for a copy of this Affidavit which discloses the transferor's Tax Identification Number.

Date: 07/08/2020

**CITY OF GLENWOOD SPRINGS, A COLORADO HOME-  
RULE MUNICIPALITY**

By: \_\_\_\_\_  
**Jonathan Godes, Mayor Signed 07/07/20 at 02:26PM**

**Note:**

1. If you have any questions or concerns arising from your obligation as transferor in regard to this tax, it is suggested that you immediately contact your local Internal Revenue Service office, attorney or accountant if you do not fully understand these regulations. More information, including the regulations promulgated under FIRPTA, is available at the website for the Internal Revenue Service, <https://www.irs.gov/>
2. The transferee is required to retain this certification until the end of the fifth taxable year following the taxable year in which the transfer takes place. The transferee must make this certification available to the Internal Revenue Service when requested in accordance with the requirements of 26 U.S.C 6001 and regulations thereunder.

### Agreement for Taxes

It is hereby understood and agreed between the Buyer(s) and Seller(s) of the property known as: **2301 WULFSOHN ROAD, GLENWOOD SPRINGS, CO 81601**

☐ Other:

This adjustment shall be:

☒ A final settlement.

☐ Re-adjusted between the Buyer(s) and Seller(s) as soon as the taxes have been billed by the County Treasurer. If a re-adjustment is necessary, Land Title Guarantee Company will not make or be responsible for this re-adjustment.

It is further understood and agreed between the Buyer(s) and Seller(s) that:

☐ No governmental body taxing authority has certified an assessment lien to the County Treasurer for special improvements installed prior to the date of the Buyer's execution of the Agreement for Purchase.

☐ Special Taxing District Assessments being paid in annual installments are to be assumed by the Buyer(s), with current annual assessments in the amount of **\$0.00**, with the total payoff amount of this assessment being **\$0.00**. This assessment will be fully paid on \_\_\_\_\_.

Note: Land Title Guarantee Company and/or its underwriter assumes no responsibility or any liability for the adjustment of special taxes on assessments unless they are shown on the County Treasurer's Certificate of Taxes Due. Any adjustment shall be made between the Buyer's and Seller(s), if necessary, and Land Title Guarantee Company, or its underwriter will not make or be responsible for the re-adjustment or liability in connection therewith.

## Utility Agreement

### Water and Sewer Escrow

At the closing of **2301 WULFSOHN ROAD, GLENWOOD SPRINGS, CO 81601** (Property Address) on **July 8th, 2020** (Date), by Land Title Guarantee Company, both the Buyer(s) and Seller(s) fully understand that Land Title Guarantee Company DOES NOT notify the telephone company, the electric and/or gas company(s), the cable company or the Seller's present insurance company to cancel or transfer to the new owners, any of the above.

**IT IS THE SELLER(S) RESPONSIBILITY** to call the gas and/or electric company for a final reading and to give them your forwarding address for the final bill. It is also the Seller(s) responsibility to notify your telephone company, cable company, trash company and your present insurance agent.

**IT IS THE BUYER(S) RESPONSIBILITY** to call the gas and/or electric company, giving them the personal information they may require for their records, the telephone company, the trash company and the cable company to put service into your name(s) with the correct mailing address, if different than the property just purchased.

The final reading of the metered water/sewer account or the proration of the standard bill is to be handled on **July 08, 2020**.

LAND TITLE GUARANTEE COMPANY is escrowing \_\_\_\_\_ from the Seller(s) and/or \$ \_\_\_\_\_ from the Buyer(s).

The Parties hereto further agree to the following:

The undersigned Buyer(s) and Seller(s) of the property referenced above understand that Land Title Guarantee Company is escrowing for the final water and sewer charges. Upon receipt of the final bill for water and sewer, Land Title Guarantee Company will pay and refund any monies in excess of the final bill to the applicable party. Land Title Guarantee Company is hereby instructed to order the meter reading to be done on the day of closing unless specifically instructed to do otherwise by the undersigned parties. In the event the water and sewer charges exceed the escrowed amount, any additional charges are the responsibility of the Seller(s) and/or Buyer(s). Land Title Guarantee Company or its underwriter shall not make or be responsible for the additional charges. The Buyer(s) and Seller(s) further understand that the water/sewer billing was based on a verbal quote and/or written status letter from the sewer company. Land Title Guarantee Company or its underwriter assumes no responsibility or any liability in the event the figures were misquoted by the clerk at the water/sewer company or any mistakes made on the written status letter. Any adjustment shall be made between the Buyer(s) and Seller(s), if necessary, and Land Title Guarantee Company or its underwriter, will not make or be responsible for this re-adjustment or any liability in connection therewith.

FURTHER, Seller acknowledges that there [ ☐ ] is [ ☒ ] is not currently a formal or informal homeowners/landowners association and/or sub-association which may require periodic assessments and other fees as a result of this transaction. If there is an association and/or sub-association heretofore not known to the settlement agent and/or seller's agent, Land Title Guarantee Company shall escrow funds from seller pending receipt of a written status letter from the association. Land Title Guarantee Company is hereby instructed to pay the amount stated on said status letter.

In the event the homeowners'/landowners' association dues, assessments or fees exceed the escrowed amount, the additional charges are the responsibility of the Seller(s). Land Title Guarantee Company or its underwriter shall not make or be responsible for the additional charges.

If there is a formal or informal homeowners'/landowners' association involved and if that association has requested copies of the Buyer and Seller Settlement Statements as a requirement to transfer their records to the new owners, the undersigned hereby authorize Land Title Guarantee Company to deliver a copy of said statements to that association. Land Title Guarantee Company is hereby released of any liability in connection with same.

## **DISCLOSURES**

The undersigned hereby acknowledge that they understand and agree to the following provisions:

### **Laws Relating to Unclaimed Funds**

All parties are hereby advised that checks issued by Land Title Guarantee Company ("Land Title") and not cashed by the payee are subject to laws of escheat and/or unclaimed property. Should Land Title transfer such funds to a state office, pursuant to such laws, Land Title shall be released from all further responsibility under this agreement and shall not be liable to any Party.

### **FDIC Limit Notice**

The insurance coverage provided by the Federal Deposit Insurance Corporation protects a depositor up to cumulative maximum deposit of \$250,000.00 for each insured financial institution. Ownership is determined by the deposit records of the financial institution and/or the records of the named custodian of any escrow accounts. Land Title and its underwriter assume no responsibility for nor will the undersigned hold same liable for any loss which arises from the fact that the amount of the above deposit may cause the aggregate amount of any individual depositor's accounts to exceed \$250,000.00.

### **Funds Held by Land Title**

Land Title shall deposit all funds received pursuant to any closing and settlement services separate and apart from the assets of the company, in an account designated as an escrow account or custodial account and so recognized by the depository institution in the name of Land Title as Escrow Agent (Escrow Account). Similar deposits from other customers conducting other real estate transactions are included in this Escrow Account. The majority of these funds are received at closing and on completion of the transaction, are disbursed for the benefit of the seller, buyer or in the case of a refinance, for the benefit of the owner.

Land Title will pay any and all costs associated with the use of the Escrow Account, but in order to help keep settlement costs and fees down, Land Title may arrange for the bank to provide it with a number of services at a reduced rate, or at no charge, or may earn interest on the Escrow Account balance. Interest earned, if any, shall be paid to Land Title. In no event will any such arrangement restrict or limit in any way the disbursement of the funds you deposit in accordance with the instructions given by you and the Statement of Settlement relating to your transaction.

The party for whose benefit the funds are disbursed (most often the seller or owner, in the case of a refinance) may elect to have a portion of the interest earned on the fiduciary funds in the Escrow Account paid to that party. If the seller or owner makes this election, please (i) inform Land Title immediately, (ii) check the box provided below on this form and (iii) complete an IRS Form W-9 (which will be provided by Land Title). It is important to know that the fiduciary funds cannot be placed in a separate interest bearing account for that party's benefit until Land Title is in receipt of all required forms. A non-refundable administrative fee of \$50.00 will be collected by Land Title as compensation for processing the documentation, set up and transfer of funds to the separate account, maintaining of audit and reconciliation records and coordinating the tax documentation.

Authorized and accepted this day of July 8th, 2020.

## Purchaser's Final Affidavit and Agreement

File No: 63014212

RE: Real property and improvements located at: **2301 WULFSOHN ROAD, GLENWOOD SPRINGS, CO 81601**, in the County of **Garfield** State of Colorado, and more particularly described in the Commitment issued under the above Commitment No. **63014212** (the "Property").

**See attached "Exhibit A"**

The Purchaser (the "Purchaser") of the Property, hereby makes the following representations to Land Title Guarantee Company, and any title insurance company for which the Company is agent (collectively the "Company"), with full knowledge and intent that the Company shall rely thereon:

1. The Purchaser has not contracted with, or hired, any person or contractor to furnish services, labor or materials, including any person to furnish architectural or surveying work, for the construction, remodeling, renovations, repair or other maintenance, of improvements on the Property, within the last 120 days.
2. If any person or contractor, within the last 120 days, has furnished services, labor or materials, including any person who has furnished architectural or surveying work, for the construction, remodeling, renovations, repair or other maintenance of improvements on the Property, at the request or on behalf, of the Purchaser, such person or contractor has been paid in full. A complete description of such work or service with all payment information is attached.
3. The Purchaser has not entered into any contract or other agreement creating any right, interest or lien on the Property, or whereby the Property or any portion thereof has been leased. (If all or a portion of the Property is in possession of tenants, or under lease, attach a detailed rent roll with copies of the lease agreement(s)).
4. The Purchaser has taken, or will take, possession of the premises on **07/08/2020**.
5. The full purchase price has been paid by the Purchaser to Seller.

In light of the foregoing facts and representations, the Purchaser, in consideration of the issuance by the Company of a policy of Title Insurance covering Property, in the form set out in the Commitment, hereby promises, covenants and agrees to hold harmless, protect and indemnify the Company, from and against those liabilities, losses, damages, expenses and charges, including but not limited to reasonable attorneys' fees (including attorney's fees in the enforcement of this agreement) and expenses of litigation which the Company may incur, arising out of any inaccuracies in the above representations.

6. 58.42' FEET ALONG THE ARC OF A CURVE TO THE RIGHT, HAVING A RADIUS OF 137.47 FEET, A CENTRAL ANGLE OF 24°20'50", THE CHORD OF WHICH BEARS S51°16'38"W A DISTANCE OF 57.98 FEET;
7. S63°26'47"W A DISTANCE OF 283.44 FEET TO THE POINT OF BEGINNING.

LEGAL DESCRIPTION CREATED BY:  
JOSHUA L. WILSON  
COLORADO PLS NO. 38417  
FOR, AND ON BEHALF OF SGM INC.

**Owner's Final Affidavit and Agreement  
(Sale and Refinance)**

Commitment No: **63014212**

Escrow No. **63014212**

RE: Real property and improvements located at: **2301 WULFSOHN ROAD, GLENWOOD SPRINGS, CO 81601**, in the County of **Garfield**, State of Colorado, more particularly described in the Commitment (the "Property")

**See attached "Exhibit B"**

The Owner, as Seller/Owner/Borrower (the "Owner") of the Property, hereby makes the representations set out in the attached Exhibit A to Land Title Guarantee Company, and any title insurance company for which the Company is agent for such title insurance company (collectively the "Company"), with full knowledge and intent that the Company shall rely thereon.

In light of the facts and representations made, the owner, in consideration of the issuance by the Company of a policy of Title Insurance covering the Property in the manner set out in the Commitment, hereby promises, covenants and agrees to hold harmless, protect and indemnify the Company, from and against those liabilities, losses, damages, expenses and charges, including but not limited to reasonable attorneys' fees (including attorney's fees in the enforcement of this agreement) and expenses of litigation which the Company may incur, arising out of any inaccuracies in the above representations.

## Exhibit A to Owner's Affidavit and Agreement

### (A) General Representations of Owner as to liens, encumbrances, assessments, leases and tenancies

1. There has been no work of any kind, including architectural services, contracted for or otherwise ordered by the Owner, within the last 120 days, paid or unpaid, which could establish a priority for any future mechanics' lien claimant.
2. If any work has been done, those certain persons, firms and corporations, including the General Contractors, and all subcontractors hired by or under contract with the Owner who have furnished services, labor or materials, according to plans and specifications or otherwise, used in connection with the construction of improvements on the Property, have been paid in full. The Owner is required to attach a description of the work done with the corresponding payment information.
3. All improvements constructed on the Property were completed on or before **July 8th, 2020**.
4. No claims have been made against the Owner, nor is any suit now pending against the Owner, on behalf of any contractor, subcontractor; laborer or material man, nor any other suit of any kind, and that no chattel mortgage, conditional bills of sale, security agreements or financing statements have been made by the Owner.
5. Except as shown in the Commitment, there are no liens or encumbrances of any kind, recorded or unrecorded, affecting the Property.
6. All fees, assessments and charges of the homeowners association having jurisdiction over the Property, if applicable, are current at this time.
7. There are no existing leases, tenancies or possessory rights affecting the Property. (if all or a portion of the Property is in possession of tenants, or under lease, attach a detailed rent roll with copies of the lease agreement(s) or other documents evidencing the leases, tenancies or possessory rights).
8. If there are existing leases, tenancies or possessory rights, as listed in A7 above, none of the leases, tenancies or possessory rights contain an option to purchase, or a right of first refusal or similar type rights (if there are such rights, itemize each specific right and the document creating such rights at the end of this Exhibit A).
9. To the best of Owner's knowledge and belief, the Owner confirms that there have been no violations of any covenants, conditions or restrictions contained in any document shown in the Commitment, including but not limited to covenants, conditions or restrictions which may give rise to (i) a private charge or assessment; (ii) an option to purchase; (iii) a right of first refusal; (iv) a right of prior approval of a future purchaser or occupant, or (iv) any obligations of any type to perform maintenance, repair, or remediation on the Land.

### (B) Representations as to payoff of existing loans

1. To complete the transaction, certain loans, which have been made to the Owner and secured by promissory notes and deeds of trust against the Property (collectively the "Loans"), must be paid off and the Property released from the Loans.
2. The Company has obtained payoff amounts from the holders of the Loans (the "Payoff Amounts") and has relied on such Payoff Amounts to prepare the Owner's Statement of Settlement (the "Statement of Settlement").
3. The Owner represents to the Company that in the event the Payoff Amounts relied on by the Company were inaccurate or incorrect the Owner shall immediately undertake to repay the Company any and all overages the Owner received as result of such inaccuracy or error. The Owner hereby promises, covenants and agrees to hold harmless protect and indemnify the Company from and against those liabilities losses damages expenses and charges including but not limited to reasonable attorneys' fees incurred in the enforcement of this agreement and the expenses of litigation that the Company may incur arising out of any errors or inaccuracies in the Statement of Settlement.
4. The holders of the Loans have advised the Company that the Payoff Amounts are subject to final audit and that the payoff Amounts may change, with the result that additional funds may be demanded to ensure a final payoff and to secure the release of the Property from the Loans (the "Additional Funds").
5. Should any one or more of the holders of the Loans demand Additional Funds, the Owner, on request by the Company, undertakes to make immediate payment to the company of the Additional Funds.
6. In addition, if any one or more of the Loans provides for an open line of credit or a revolving line of credit, the Owner affirms that:
  - (a) The Owner has not drawn additional funds from the line of credit since the date of the payoff statement from the lender to the Company.
  - (b) If the Owner has made additional draws of the line of credit, the draws were made on \_\_\_\_\_ in the amount of \$\_\_\_\_\_.
  - (c) The Owner undertakes not to make any further draws on the open line of credit or a revolving line of credit after the date of this Payoff Indemnity and Agreement.
  - (d) The Owner has requested that the holders of the Loans close the open line of credit or revolving line of credit accounts.
7. The Owner has not taken out any loans against the Property other than those shown in the Commitment.

### GENERAL WARRANTY DEED

**THIS DEED** is dated July 8, 2020 and is made between CITY OF GLENWOOD SPRINGS, a Colorado Home-Rule Municipality, the "Grantor," and ROARING FORK TRANSPORTATION AUTHORITY, a Colorado Regional Transportation Authority a regional transportation authority and a political subdivision of the State of Colorado the "Grantee," whose legal address is 2307 Wulfsohn Road, Glenwood Springs, CO, 81601 County of Garfield and State of Colorado.

**WITNESS**, that the Grantor, for and in consideration of the sum of One Million Two Hundred Sixty Thousand and 00/100 DOLLARS, (\$1,260,000.00), the receipt and sufficiency of which is hereby acknowledged, hereby grants, bargains, sells, conveys and confirms unto the Grantee and the Grantee's heirs and assigns forever, all the real property, together with any improvements thereon, located in the County of Garfield and State of Colorado, described on **Exhibit A** attached hereto and incorporated herein by this reference.

also known by street address as: 2301 WULFSOHN ROAD, GLENWOOD SPRINGS, CO 81601  
and assessor's schedule or parcel number:

**TOGETHER** with all and singular the hereditaments and appurtenances thereunto belonging, or in anywise appertaining, the reversions, remainders, rents, issues and profits thereof, and all the estate, right, title, interest, claim and demand whatsoever of the Grantor, either in law or equity, of, in and to the above bargained premises, with the hereditaments and appurtenances;

**TO HAVE AND TO HOLD** the said premises above bargained and described, with the appurtenances, unto the Grantee and the Grantee's heirs and assigns forever.

The Grantor, for itself and its successors and assigns, does covenant, grant, bargain, and agree to and with the Grantee, and the Grantee's heirs and assigns: that at the time of the ensealing and delivery of these presents, the Grantor is well seized of the premises above described; has good, sure, perfect, absolute and indefeasible estate of inheritance, in law and in fee simple; and has good right, full power and lawful authority to grant, bargain, sell and convey the same in manner and form as aforesaid; and that the same are free and clear from all former and other grants, bargains, sales, liens, taxes, assessments, encumbrances and restrictions of whatever kind or nature soever, except and subject to the following matters:

1. Permitted Exceptions as set forth on **Exhibit B** attached hereto and incorporated herein by this reference.
2. The easement reserved herein.

The Grantor hereby reserves a permanent, non-exclusive easement over, under, on, upon, through and across the property described as "Parcel B" in **Exhibit A** for purposes of ingress and egress to City of Glenwood Springs Waste Water Treatment Plant; above ground debris flow mitigation and surface water drainage systems; and the installation, repair, replacement and maintenance of underground utilities located in the easement as of the date of this reservation and utilities serving City-owned facilities. Grantor shall provide not less than thirty (30) days' notice to Grantee of any proposed construction activity within the

easement unless the construction activity is in response to an emergency and 30 days' notice is not possible. In that case, notice will be provided to the Grantee as soon as practicable. Grantor's use of the easement shall in no way hinder or prevent Grantee's proper and reasonable use and enjoyment of Parcel B, including Grantee's unencumbered rights to ingress and egress. Grantor hereby covenants to maintain the property affected by Grantor's exercise of the easement rights reserved herein, including the costs of mitigation, remediation, revegetation, and landscaping. In the exercise of easement rights hereby reserved, Grantor may, at its own expense and with reasonable prior notice to Grantee, relocate existing fences and other removable above-ground fixtures which interfere with the efficient use of the easement.

And the Grantor shall and will WARRANT THE TITLE AND DEFEND the above described premises, *but not any adjoining vacated street or alley, or other right-of-way that adjoins the real property*, if any, in the quiet and peaceable possession of the Grantee and the heirs and assigns of the Grantee, against all and every person or persons claiming the whole or any part thereof.

**IN WITNESS WHEREOF**, the Grantor has caused its corporate name to be hereunto subscribed by its president, vice-president, or other head officer, and its corporate seal to be affixed, attested by its secretary or other appropriate officer, on the date set forth above.

Signed this 8<sup>th</sup> day of July 2020.

**MUNICIPAL OPERATIONS FACILITY  
SITE ACQUISITION AGREEMENT**

**THIS AGREEMENT** is made and entered into as of December 17, 1999, by and between GLENWOOD MEADOWS, LLC, a Colorado limited liability company (hereinafter "GM"), and the CITY OF GLENWOOD SPRINGS, a Colorado home-rule municipality (hereinafter "City");

WHEREAS, GM is the owner of certain property located in Garfield County, Colorado, commonly known as the Wulfsohn Ranch (hereinafter "Wulfsohn Ranch" or "Wulfsohn property"); and

WHEREAS, GM is the owner of various water rights decreed to the Atkinson Canal, the headgate for which is generally located as described in the decree entered September 7, 1976, in Case No. W-2910 (Water Division No. 5), which water rights, Atkinson Canal and existing lateral ditches are used to provide irrigation water to irrigated portions of the Wulfsohn Ranch ("Irrigated Acres"); and

WHEREAS, Prior hereto, GM conveyed certain lands generally located on the eastern portion of the Wulfsohn Ranch to the City for the City's development of a Community Center site (hereafter, the "Community Center Site") situate on both Irrigated Acres and certain non-Irrigated Acres; and

WHEREAS, the City now desires and intends to acquire approximately (but no less than) twenty-five (25) acres of non-Irrigated Lands located in the western portion of the Wulfsohn Ranch from GM for the purpose of developing a site which will satisfy the City's need to re-locate its existing municipal operations center (hereafter, the "MOC Site") in a configuration and generally as described by Exhibit A attached hereto and by this reference incorporated herein; and

WHEREAS, the City and GM have agreed that GM shall accept, as consideration for conveyance of the MOC Site to the City, a credit against future water and sewer system improvement fees (hereafter, the "Fee Credits"); and

WHEREAS, the City and GM have (i) agreed upon the values to be attributed to the land comprising the MOC Site and the Fee Credits, and (ii) engaged in negotiations concerning the City's intended acquisition, location and future uses of the MOC Site land on the Wulfsohn; and

WHEREAS, GM has agreed, as additional consideration for the Fee Credits and other benefits provided to GM hereunder, to convey to the City, by boundary adjustment or other legal process acceptable to both parties hereto, approximately one (1) acre of land contiguous to and directly west of the western boundary of the Community Center property for the purpose of the City's construction of an access road to and from the Midland Avenue Alternate Route and said Community Center; the precise dimensions of which conveyance shall be established by survey acceptable to both parties within thirty (30) days of the date hereof; and

WHEREAS, on December 2, 1999 the City Council of the City of Glenwood Springs, Colorado did determine that the City shall enter into this Agreement for the purposes of acquiring the MOC Site; and

WHEREAS, the City and GM agree to cooperate with and join in the subdivision, surveying, utility extension and other efforts with respect to said property comprising the MOC Site; and

WHEREAS, the parties desire to set forth herein their agreement concerning the conveyance (i) from GM to the City of that portion of the Wulfsohn Ranch required for the MOC Site, (ii) from the City to GM of the Fee Credits, and (iii) related matters.

**NOW, THEREFORE**, for and in consideration of the above recitals, the mutual covenants and agreements contained herein, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, GM and the City agree as follows:

1. Conveyance of MOC Site Property. Upon closing of these premises at a mutually agreeable date and time between the date hereof and March 1, 2000 (subject to the provisions of Article 5 hereinbelow), at the offices of Land Title Guarantee Company located at 817 Colorado Avenue, Glenwood Springs, Colorado, the following shall occur:

A. GM shall convey by Special Warranty Deed to the City with a surveyed legal description reflecting that portion of the Wulfsohn Ranch described upon Exhibit A as annexed hereto. Said conveyance does not include any water or water rights which are presently owned by GM. Said conveyance shall be subject to all matters of public record affecting the subject property as well as the following additional matters:

(i) GM shall reserve from the conveyance to the City a debris flow drainage easement, for the benefit of GM and the City, for the sole and exclusive purpose of directing and mitigating debris flows from other portions of the Wulfsohn Ranch; the precise location and dimensions of which debris flow drainage easement to be determined at a later date and subject to the approval of the City, which approval shall not be unreasonably withheld.

2. Transfer of Fee Credits. The City shall convey by Bill of Sale or other appropriate instrument, acceptable to GM, the Fee Credits. The parties hereby agree that such Fee Credits do not include the costs of water and sewer line extension to GM's property or in any manner affect GM's obligations to pay a prorated share of the line extension costs incurred by the City under applicable cost recovery programs. The Fee Credit transfer shall consist of One hundred thirty-five (135) City water system improvement fee credits and One hundred thirty-five City sewer system improvement fee credits (the total value of the 135 water and sewer system improvement fee credits is deemed to represent \$723,651.00 based upon the City's anticipated Year 2000 charges - See attached Schedule of Fees set forth on Exhibit B hereto). The conveyance of the Fee Credits shall inherently permit GM to access the City's sewer and water systems, regardless of the status of annexation of the remainder of the Wulfsohn property. In no event shall GM be permitted to exercise any of the rights represented by the Fee Credits to serve development of property with an elevation in excess of 6,000 feet. GM may, upon reasonable prior written notice to City, exercise its right to access the City's sewer and water system for purposes of utilizing the Fee Credits at any time following the closing of the conveyance of the MOC Site to the City; provided, however, that in the event the City has not, prior to receipt of GM's written notice of intent to exercise, extended the existing water and sewer service lines to serve the needs of the MOC

Site, the City shall not be obligated to extend the existing water and sewer service lines upon receipt of such written notice from GM. Any extension of the City's water and sewer service lines required by GM to exercise the Fee Credits described hereunder shall be at the sole cost and expense of GM, whereupon GM shall be entitled to proportionate cost recovery and recapture rights from the City or future third party developers who may access the extended service lines.

3. Utility Easement. Upon the closing of the transactions set forth herein, GM shall deliver to the City a fully executed non-exclusive easement across GM's property for the purposes of permitting the City to extend its water, sewer, electric, gas, telephone and any other applicable utility lines from the existing terminus of said lines at or near the Community Center Property to the City's MOC Site. Said easement shall be adjacent to the City's Midland Avenue Alternate Route right-of-way. The easement shall be thirty (30) feet in width. GM and the City agree that the City shall not utilize the easement for permanent above-ground utilities, except that the City may, with the approval of GM, which approval shall not be unreasonably withheld, locate such above ground structures which are a necessary adjunct to the utility services within the easement (such as transformer stations and lift or pump stations). GM shall reserve from the easement right to use such easement for legal and physical access of vehicles, pedestrians and utilities to and from its Wulfsohn property and the Midland Avenue Alternate Route. GM shall also have the right to create multiple surface uses within said utility easement, including detention structures, signage and landscaping in a manner which does not unreasonably interfere with the City's utility uses. In consideration for the granting of the utility easement by GM, the City hereby agrees that if and when service lines are developed, such lines shall be sufficient to satisfy future development needs of the Wulfsohn property under current Master Land Use Plan designated uses.

4. Costs. Each party shall pay an equal amount of (i) the costs of obtaining a survey of the MOC Site and (ii) any closing costs associated with the transactions contemplated hereby.

Each party hereto shall pay all costs of recording such instruments received by that party, including any deeds or grants of easement, and each party hereto shall pay an equal amount of the costs of recording other closing documents required by this Agreement, including any covenants, and shall undertake all other reasonable steps necessary to effectuate the intent of this Agreement, specifically including, but without limitation whatsoever, (i) the recordation of any plats required as a result of the subdivision of the MOC Site from the remainder of the Wulfsohn ranch as may be required by subdivision regulations of Garfield County, Colorado, and (ii) the filing of appropriate maps and other documents with the Garfield County Assessor's office.

With respect to the lands conveyed by GM to the City, GM shall pay the premium for and deliver to the City, within ten (10) days of the execution hereof, a commitment for title insurance and copies of any instruments listed as exceptions to title insurance coverage. Within a reasonable time after closing, GM shall pay the costs of and deliver to the City an ALTA Form of title insurance policy based upon the aforementioned previously issued title insurance commitment. The amount of title insurance shall be in an amount equal to the valuation of the Fee Credits set forth by Article 2, hereinabove.

Real property taxes shall be prorated to the day of closing based upon the most recent

mill levy and most recent assessment and shall be determined by the ratio the MOC Site property bears to the Wulfsohn Ranch as a whole (not including the property comprising the Community Center site).

5. Land Use Contingency. This Agreement is expressly contingent upon the legal subdivision of the MOC Site from the remainder of the Wulfsohn Ranch owned by GM. The City hereby agrees to undertake the application and prosecution of such process as shall be necessary to effectuate the legal subdivision of the MOC Site through Garfield County, Colorado. GM agrees that it shall fully cooperate with the City in the necessary execution of applications and related matters with regard to such subdivision. In the event the City is unable to secure a subdivision of the MOC Site from the remainder of the Wulfsohn property on or before March 1, 2000, the parties shall either (i) extend the closing date for these transaction for a reasonable time not to exceed three months in order that the City may continue its prosecution of the subject application, and/or (ii) enter negotiations regarding the size and configuration of the MOC Site in an effort to permit the legal conveyance of the same to the City.

6. Non-Interference with Agricultural Operations. The City agrees, for itself and its agents, employees, contractors, subcontractors and material suppliers, to (A) keep construction activity for the MOC Site project within the MOC Site and utility easement; and (B) ensure that GM, its tenants and lessees will have access to the Wulfsohn Ranch during work on the MOC Site.

7. Fencing. To the extent possible, the parties hereto agree to maintain such existing fencing between the MOC Site, the utility easement and the remainder of the Wulfsohn Ranch. Prior to commencement of any work on the MOC Site, the City shall take all steps reasonably necessary to secure the MOC Site property from either (i) the agricultural activities of the adjacent remainder of the Wulfsohn Ranch and/or (ii) GM's development activities on the remainder of the Wulfsohn Ranch. After completion of the MOC Site, the City at its expense shall maintain, repair and replace all fencing along the boundary between the Community Center Property and the Wulfsohn Ranch, unless damage is caused by ranching operations of GM, its tenants or lessees on the Wulfsohn Ranch.

8. Midland Extension Access Points.

A. Existing GM Access Rights. The City has provided to GM (through that certain Midland Avenue Right of Way Extension Acquisition Agreement dated September 20, 1994) three access points for use by GM in connection with its farming and ranching and future development operations on the Wulfsohn Ranch. The City has also granted GM the right to use the Community Center access point in the event of future development of GM's property. The City agrees that none of GM's present access point rights are to be considered as used for the City's access to the MOC Site. For these purposes, the City shall install one (1) new access point within the boundary of the MOC Site.

B. Development Access Points. The City agrees to continue to provide to GM three future access points (and the right to use the

Community Center access point) from the Midland Extension Right-of-Way onto the Wulfsohn Ranch property at such time as GM desires to develop the Wulfsohn Ranch property. One access point shall be for the north outparcel created on the west end of the Wulfsohn Ranch as a result of the Midland Extension Project. Two access points shall be for the developable portions of the Wulfsohn Ranch property located south of the Midland Extension Right-of-Way Parcel and East of the MOC Site. The actual location and design of such access points shall be subject to engineering considerations and approval of the City, which approval shall not be unreasonably withheld. Such accesses shall be constructed to agreed upon specifications at GM's sole expense; provided, however, the City shall not, as a condition of granting such accesses, require GM to pay the City any consideration whatsoever. This Agreement is not intended to alter or otherwise affect the existing agreements between the parties hereto with respect to these matters.

C. MOC Site Access Point and Road. The City agrees that GM shall have the right to utilize the road to be developed as part of the MOC Site development project and that GM may incorporate such road in its development plans for the remainder of the Wulfsohn Ranch; provided, however, that in the event of such use by GM, GM shall be obligated to reimburse the City for the initial road costs based upon the then estimated proportionate use of such road by GM or its assigns.

9. Indemnity. To the extent permitted by law, and limited in duration to applicable statutes of limitation, the parties shall indemnify and hold each other free and harmless from and against any and all liabilities, suits, claims, actions, proceedings, judgments, decrees, settlements, demands, and causes of action of all kinds, including but not limited to claims of damages to or losses of property of the City, GM or others for injury, illness, or death, attorneys' fees and costs which arise from or in any manner relate to:

- A. GM's prior ownership of the MOC Site or the City's present ownership of the MOC Site;
- B. Work performed, facilities installed, or materials provided by either party, their contractors, subcontractors, materialmen, or others in connection with past or future work on or development of the MOC Site, the Wulfsohn property and the respective appurtenant facilities of each.
- C. Damages of any type claimed by any landowner, tenant, or other person located downstream or downgradient of the MOC Site or the remainder of the Wulfsohn property which arise from or relate to work on or development of the same

10. Amendment. Any modification or amendment hereto shall be evidenced by a

writing signed by the parties.

11. Binding Effect; Survival. This Agreement shall be binding upon and inure to the benefit of the parties, their successors, grantees, and assigns. Each term and condition of this Agreement shall survive the closing on the MOC Site property.

12. Authority. Each person executing this Agreement represents and warrants that he has been duly authorized by the party that he purports to represent to execute this Agreement, and has authority to bind said party to the terms and conditions of this Agreement.

13. Governing Law. This Agreement shall be construed under the laws of the State of Colorado.

14. No Waiver. No provision of this Agreement may be waived except by an agreement in writing signed by the waiving party. A waiver of any term or provision shall not be construed as a waiver of any other term or provision.

15. Headings. The paragraph headings in this Agreement shall not be used in the construction or interpretation hereof, as they have no substantive effect and are for convenience only.

16. Severability. If any part or section of this Agreement shall be found void or invalid by court of competent jurisdiction, such finding shall not affect any remaining part or section, and said remaining parts or sections shall continue in full force and effect. The parties shall renegotiate in good faith any matter addressed by a part or section that is found void or invalid.

17. Notice. All notices required under this Agreement shall be in writing and shall be hand delivered, sent by facsimile or sent by registered or certified mail, return receipt requested, postage prepaid, to the addresses of the parties herein set forth. All notices so given shall be considered effective seventy-two (72) hours after deposit postage paid in the United States Mail with the proper address as set forth below. Either party by notice so given may change the address to which future notices shall be sent.

18. Signatures: Counterparts. GM and the City agree that signatures obtained by facsimile transmission shall be sufficient and binding for purposes of this Agreement, and that original signatures shall be forwarded to each party. This Agreement may be executed in multiple original counterparts, each of which shall constitute an original but all of which shall constitute one and the same document.

**IN WITNESS WHEREOF**, the parties have executed this Agreement in duplicate originals on the day and year first written above.

Confidential Document

This form provides essential market information to the county assessor to ensure accurate, fair and uniform assessments for all property. This document is not recorded, is kept confidential, and is not available for public inspection.

**This declaration must be completed and signed by either the grantor (seller) or grantee (buyer).** Questions 1, 2, 3, and 4 may be completed (prefilled) by a third party, such as a title company or closing agent, familiar with details of the transaction. The signatory should confirm accuracy before signing.

This form is required when conveyance documents are presented for recording. If this form is not completed and submitted, the county assessor may send notice. If the completed and signed form is not returned to the assessor within 30 days of notice, the assessor may impose a penalty of \$25.00 or 0.025% (0.00025) of the sale price, whichever is greater.

Additional information as to the purpose, requirements, and level of confidentiality regarding this form are outlined in Colorado Revised Statutes, sections 39-14-102, 39-5-121.5, and 39-13-102.

1. Address and/or legal description of the real property sold: Please do not use P.O. Box numbers  
**2301 WULFSOHN ROAD, GLENWOOD SPRINGS, CO 81601**

2. Type of Property purchased: ☐ Single Family Residential ☐ Townhome ☐ Condominium ☐ Multi-Unit Res ☒ Commercial  
☐ Industrial ☐ Agricultural ☐ Mixed Use ☐ Vacant Land ☐ Other \_\_\_\_\_

3. Date of Closing: **July 08, 2020**

Date of Contract if different than date of closing: **February 01, 2020**

4. Total sale price: Including all real and personal property. **\$1,260,000.00**  
Contracted price (if different from final sale price) **\$1,260,000.00**

5. List any personal property included in the transaction that materially impacts the total sale price. Personal property may include, but is not limited to: machinery or equipment, vehicles, exceptional appliances, electronic devices, furniture, or anything that would not typically transfer with the real property (attach additional pages if necessary).

| Description              | Approximate Value |
|--------------------------|-------------------|
| <u>None</u>              | \$ _____          |
| _____                    | \$ _____          |
| _____                    | \$ _____          |
| _____                    | \$ _____          |
| Personal Property Total: | \$ _____          |

If no personal property is listed, the entire purchase price will be assumed to be for the real property.

6. Did the total sales price include a trade or exchange of additional real or personal property? ☐ Yes ☒ No

If yes, give the approximate value of the goods or services as of the date of closing. \$ \_\_\_\_\_

If yes, does this transaction involve a trade under IRS Code Section 1031? ☐ Yes ☒ No

7. Was 100% interest in the real property purchased? Mark "no" if only a partial interest is being purchased.

☒ Yes ☐ No If no, interest purchased: \_\_\_\_\_ %

8. Is this a transaction between related parties or acquaintances? This includes persons connected by blood or marriage, or business affiliates, or those acquainted prior to the transaction. ☐ Yes ☒ No

9. Please mark type of sale: ☐ Builder (new construction) ☐ Public (MLS or Broker Representation)

☒ Private (For Sale By Owner) ☐ Other (describe) \_\_\_\_\_

10. Check any of the following that apply to the condition of the improvements at the time of purchase:

☐ New ☐ Excellent ☐ Good ☐ Average ☐ Fair ☐ Poor ☒ Salvage

If the property is financed, please complete the following:

11. Type of financing: (Check all that apply)

- ☒ None (all cash or cash equivalent)  
☐ New/Mortgage Lender (government-backed or conventional bank loan)  
☐ New/Private Third Party (nonconventional lender, e.g., relative, friend, or acquaintance)  
☐ Seller (buyer obtained a mortgage directly from the seller)  
☐ Assumed (buyer assumed an existing mortgage)  
☐ Combination or Other: Please explain \_\_\_\_\_

12. Total amount financed: \_\_\_\_\_

13. Terms:

- Variable Starting interest rate % \_\_\_\_\_  
☐ Fixed Interest rate % \_\_\_\_\_  
Length of time years \_\_\_\_\_  
Balloon Payment ☐ Yes ☐ No If yes, amount \$0.00 Due Date \_\_\_\_\_

14. Mark any that apply:

- ☐ Seller assisted down payment  
☐ Seller concessions  
☐ Special terms of financing

If marked, please specify: \_\_\_\_\_

15. Was an independent appraisal obtained in conjunction with this transaction? ☐ Yes ☒ No

For properties other than residential (Residential is defined as: single family detached, townhomes, apartments, and condominiums) please complete questions 16-18 if applicable. Otherwise, skip to #19 to complete.

16. Did the purchase price include a franchise or license fee? ☐ Yes ☐ No

If yes, franchise or license fee value? \_\_\_\_\_

17. Did the purchase price involve an installment land contract? ☐ Yes ☐ No

If yes, date of contract: \_\_\_\_\_

18. If this was a vacant land sale, was an on-site inspection of the property conducted by the buyer prior to the closing? ☐ Yes ☐ No

Remarks: Please include any additional information concerning the sale you may feel is important.

19. Signed on this day of

July 08, 2020

Have at least one of the parties to the transaction sign the document, and include an address and a daytime phone number.

Agreement hereby acknowledged by:

Land Title Guarantee Company - Escrow Holder

*Jessica Reed*

**Jessica Reed**

**Land Title Guarantee Company**  
**General Provisions to the Escrow Agreement**

**1. Notices.**

Any notices required or permitted to be given under the Escrow Agreement shall have been deemed to have been served:

- i. one business day after the notice is hand delivered with proof of receipt by the addressee, or
- ii. one business day after transmission by facsimile evidencing confirmation of receipt by the receiving facsimile machine, or
- iii. one business day after transmission by email evidencing confirmation of receipt by the receiving email address, or
- iv. if reputable overnight courier (such as United Parcel Service or Federal Express) is used, on the immediately following business day after notice is sent for overnight delivery, or
- v. if the United States Mail is used, on the third business day after the notice is deposited in the United States Mail, postage prepaid;

Provided in each case such notice is addressed to the parties at the addresses given on the first page of this Escrow Agreement.

**2. Reliance on Notice.**

Escrow Holder may act in reliance upon any writing or instrument or signature which Escrow Holder, in good faith, believes to be genuine, and may assume the validity and accuracy of any statement or assertion contained in such a writing or instrument, and may assume that any person purporting to give any writing, notice, advice or instruction in connection with the provisions hereof has been duly authorized so to do.

**3. Laws Relating to Unclaimed Funds.**

Seller and Buyer are hereby advised that unclaimed funds may be payable to the State at some future date pursuant to unclaimed property laws, and should Escrow Holder pay any such funds held in the Escrow Deposit, Escrow Holder shall be released from all further responsibility under the Escrow Agreement and shall not be liable to any Party so long as such payment was made pursuant to applicable law.

**4. Escrow Deposit and Interest Earned on Escrow Deposit.**

- a. Upon receipt of written direction of the parties along with a completed W-9 any money comprising the Escrow Deposit will be invested in an interest bearing account.
- b. Deposits of \$100,000.00 or more may be directed by the parties hereto to other types of investments, or the Escrow Holder may invest the Escrow Deposit in Repurchase Agreements for U.S. Treasury obligations or other Federal agency issued securities.
- c. Escrow Holder shall not be responsible for maximizing the yield on the Escrow Deposit. Under no circumstances shall Escrow Holder be liable for loss of funds due to bank or other Institution failure, including employees or agents thereof, suspension or cessation of business, or any action or inaction on the part of the bank or other institution, or any delivery service transporting funds to and from the institution.
- d. All parties hereto shall execute and deliver to Escrow Holder all forms required by federal, state or other governmental agencies relative to taxation matters and Escrow Holder will file appropriate 1099 or other required forms.

**5. Fees and Expenses of Escrow Holder.**

- a. The Escrow Holder shall be entitled to reimbursement in full, or may demand payment in advance, for all costs, expenses, charges, fees or other payments made or to be made by Escrow Holder in the performance of Escrow Holder's duties and obligations under the Escrow Agreement.
- b. The parties to the Escrow Agreement are jointly and severally liable for the payment to Escrow Holder of all fees and expenses. Escrow Holder is hereby authorized and directed to reimburse to itself in payment of fees or expenses from any funds in the Escrow Deposit, whether from principal or interest or both, at any time, and from time to time, as the same may be due and owing.
- c. Escrow Holder is hereby authorized to withhold any fees or expenses from any disbursement or distribution of Escrow Deposit to any Party hereto or to the Clerk of the Court upon interpleader.
- d. In the event that the Escrow Deposit shall consist of documents only and not funds, Escrow Holder may refuse to distribute any such documents or to otherwise act under this Agreement until all accrued but unpaid fees and expenses have been paid in full.

**6. Non-liability of Escrow Holder.**

- a. Escrow Holder shall not be liable for any mistakes of fact, or errors of judgment or for any acts or omissions of any kind unless caused by the willful misconduct or gross negligence of Escrow Holder.
- b. Escrow Holder shall not be liable for any taxes, assessments or other governmental charges which may be levied or assessed upon the Escrow Deposit or any part thereof, or upon the income therefrom.
- c. Escrow Holder may rely upon the advice of counsel and upon statements of accountants, brokers or other persons reasonably believed by it in good faith to be expert in the matters upon which they are consulted, and for any reasonable action taken or suffered in good faith based upon such advice or statements.

**7. Indemnity of Escrow Holder.**

The Seller and Buyer jointly and severally, agree to:

- i. indemnify Escrow Holder for, and hold it harmless against any and all liability incurred by the Escrow Holder by reason of this Escrow Agreement, or in connection with Escrow Agent's performance of its duties hereunder, except for Escrow Holder's own willful misconduct or gross negligence, and
- ii. reimburse Escrow Holder for all its expenses, including, but not necessarily limited to, attorneys' fees and court costs incurred pursuant to this Escrow Agreement.

**8. Request for Written Instructions.**

- a. Escrow Holder may at any time, and from time to time, request the Seller and Buyer to provide written instructions concerning the propriety of a proposed payment of the Escrow Deposit, distribution of documents, or other action or refusal to act by Escrow Holder.
- b. Should the Seller and Buyer fail to provide such written instructions within a reasonable time, Escrow Holder may take such action, or refuse to act, as it may deem appropriate and shall not be liable to anyone for such action or refusal to act.
- c. Notwithstanding the foregoing, should the terms of the Escrow Agreement be complied with, in the judgment of Escrow Holder, then the Escrow Holder may disburse any funds, distribute documents, or take such action without specific further written instructions from any Party.

**9. Disputes and Interpleader.**

- a. In the event of any dispute between the Parties as to either law or fact, or in the event any of the parties hereto fail, for any reason, to fully receipt and acquit the Escrow Holder in writing, Escrow Holder may refuse, in its discretion, to carry out said escrow instructions or to deliver any funds, documents, or property in its hand to anyone and in so doing shall not become liable to demand.
- b. Escrow Holder shall be entitled to continue, without liability, to refrain and refuse to act:
  - i. until all the rights of the adverse claimants have been finally adjudicated by a court having jurisdiction over the Parties and the items affected hereby, after which time the Escrow Holder shall be entitled to act in conformity with such adjudication; or
  - ii. until all differences shall have been adjusted by agreement and Escrow Holder shall have been notified thereof and shall have been directed in writing signed jointly or in counterpart by the parties and all persons making adverse claims or demand, at which time Escrow Holder shall be protected in acting in compliance therewith.
- c. Escrow Holder also has the right to interplead into a court of competent jurisdiction at the expense of the Parties.

**10. Resignation of Escrow Holder.**

- a. Escrow Holder may resign under this Agreement by giving written notice to all of the parties hereto, effective 30 days after the date of said notice.
- b. Upon the appointment by the parties of a new escrow holder or custodian, or upon written instructions to Escrow Holder for other disposition of the Escrow Deposit, Escrow Holder shall, after retention of its accrued escrow fees and expenses, if any, shall deliver the Escrow Deposit within a reasonable period of time as so directed, and shall be relieved of any and all liability hereunder arising thereafter.

**11. Applicable Law.**

This Agreement shall be governed by the laws of the State of Colorado.

**12. Counterparts/Third Party Beneficiaries.**

This Escrow Agreement may be executed in any number of counterparts, each of which when so executed shall constitute the entire agreement between the Seller and Buyer. The Seller and Buyer acknowledge and agree that there are not intended or unintended third party beneficiaries who may rely upon or benefit from the provisions of this agreement.

**13. Electronic Signatures and Notices.**

The execution of this Escrow Agreement, and any other notice required or permitted under this Escrow Agreement, may be given and transmitted by electronic means (including email, facsimile, or similar transmission) and shall be deemed effective for all purposes. Documents with original signatures are not required. If original signatures are required by any party, this request must be made prior to execution of this Escrow Agreement or any other notice, to ensure compliance with the request.

Agreement hereby acknowledged by:  
Land Title Guarantee Company - Escrow Holder

*Jessica Reed*

**Jessica Reed**

**Land Title Guarantee Company**  
**General Provisions to the Escrow Agreement**

**1. Notices.**

Any notices required or permitted to be given under the Escrow Agreement shall have been deemed to have been served:

- i. one business day after the notice is hand delivered with proof of receipt by the addressee, or
- ii. one business day after transmission by facsimile evidencing confirmation of receipt by the receiving facsimile machine, or
- iii. one business day after transmission by email evidencing confirmation of receipt by the receiving email address, or
- iv. if reputable overnight courier (such as United Parcel Service or Federal Express) is used, on the immediately following business day after notice is sent for overnight delivery, or
- v. if the United States Mail is used, on the third business day after the notice is deposited in the United States Mail, postage prepaid;

Provided in each case such notice is addressed to the parties at the addresses given on the first page of this Escrow Agreement.

**2. Reliance on Notice.**

Escrow Holder may act in reliance upon any writing or instrument or signature which Escrow Holder, in good faith, believes to be genuine, and may assume the validity and accuracy of any statement or assertion contained in such a writing or instrument, and may assume that any person purporting to give any writing, notice, advice or instruction in connection with the provisions hereof has been duly authorized so to do.

**3. Laws Relating to Unclaimed Funds.**

Seller and Buyer are hereby advised that unclaimed funds may be payable to the State at some future date pursuant to unclaimed property laws, and should Escrow Holder pay any such funds held in the Escrow Deposit, Escrow Holder shall be released from all further responsibility under the Escrow Agreement and shall not be liable to any Party so long as such payment was made pursuant to applicable law.

**4. Escrow Deposit and Interest Earned on Escrow Deposit.**

- a. Upon receipt of written direction of the parties along with a completed W-9 any money comprising the Escrow Deposit will be invested in an interest bearing account.
- b. Deposits of \$100,000.00 or more may be directed by the parties hereto to other types of investments, or the Escrow Holder may invest the Escrow Deposit in Repurchase Agreements for U.S. Treasury obligations or other Federal agency issued securities.
- c. Escrow Holder shall not be responsible for maximizing the yield on the Escrow Deposit. Under no circumstances shall Escrow Holder be liable for loss of funds due to bank or other Institution failure, including employees or agents thereof, suspension or cessation of business, or any action or inaction on the part of the bank or other institution, or any delivery service transporting funds to and from the institution.
- d. All parties hereto shall execute and deliver to Escrow Holder all forms required by federal, state or other governmental agencies relative to taxation matters and Escrow Holder will file appropriate 1099 or other required forms.

**5. Fees and Expenses of Escrow Holder.**

- a. The Escrow Holder shall be entitled to reimbursement in full, or may demand payment in advance, for all costs, expenses, charges, fees or other payments made or to be made by Escrow Holder in the performance of Escrow Holder's duties and obligations under the Escrow Agreement.
- b. The parties to the Escrow Agreement are jointly and severally liable for the payment to Escrow Holder of all fees and expenses. Escrow Holder is hereby authorized and directed to reimburse to itself in payment of fees or expenses from any funds in the Escrow Deposit, whether from principal or interest or both, at any time, and from time to time, as the same may be due and owing.
- c. Escrow Holder is hereby authorized to withhold any fees or expenses from any disbursement or distribution of Escrow Deposit to any Party hereto or to the Clerk of the Court upon interpleader.
- d. In the event that the Escrow Deposit shall consist of documents only and not funds, Escrow Holder may refuse to distribute any such documents or to otherwise act under this Agreement until all accrued but unpaid fees and expenses have been paid in full.

**6. Non-liability of Escrow Holder.**

- a. Escrow Holder shall not be liable for any mistakes of fact, or errors of judgment or for any acts or omissions of any kind unless caused by the willful misconduct or gross negligence of Escrow Holder.
- b. Escrow Holder shall not be liable for any taxes, assessments or other governmental charges which may be levied or assessed upon the Escrow Deposit or any part thereof, or upon the income therefrom.
- c. Escrow Holder may rely upon the advice of counsel and upon statements of accountants, brokers or other persons reasonably believed by it in good faith to be expert in the matters upon which they are consulted, and for any reasonable action taken or suffered in good faith based upon such advice or statements.

**7. Indemnity of Escrow Holder.**

The Seller and Buyer jointly and severally, agree to:

- i. indemnify Escrow Holder for, and hold it harmless against any and all liability incurred by the Escrow Holder by reason of this Escrow Agreement, or in connection with Escrow Agent's performance of its duties hereunder, except for Escrow Holder's own willful misconduct or gross negligence, and
- ii. reimburse Escrow Holder for all its expenses, including, but not necessarily limited to, attorneys' fees and court costs incurred pursuant to this Escrow Agreement.

**8. Request for Written Instructions.**

- a. Escrow Holder may at any time, and from time to time, request the Seller and Buyer to provide written instructions concerning the propriety of a proposed payment of the Escrow Deposit, distribution of documents, or other action or refusal to act by Escrow Holder.
- b. Should the Seller and Buyer fail to provide such written instructions within a reasonable time, Escrow Holder may take such action, or refuse to act, as it may deem appropriate and shall not be liable to anyone for such action or refusal to act.
- c. Notwithstanding the foregoing, should the terms of the Escrow Agreement be complied with, in the judgment of Escrow Holder, then the Escrow Holder may disburse any funds, distribute documents, or take such action without specific further written instructions from any Party.

**9. Disputes and Interpleader.**

- a. In the event of any dispute between the Parties as to either law or fact, or in the event any of the parties hereto fail, for any reason, to fully receipt and acquit the Escrow Holder in writing, Escrow Holder may refuse, in its discretion, to carry out said escrow instructions or to deliver any funds, documents, or property in its hand to anyone and in so doing shall not become liable to demand.
- b. Escrow Holder shall be entitled to continue, without liability, to refrain and refuse to act:
  - i. until all the rights of the adverse claimants have been finally adjudicated by a court having jurisdiction over the Parties and the items affected hereby, after which time the Escrow Holder shall be entitled to act in conformity with such adjudication; or
  - ii. until all differences shall have been adjusted by agreement and Escrow Holder shall have been notified thereof and shall have been directed in writing signed jointly or in counterpart by the parties and all persons making adverse claims or demand, at which time Escrow Holder shall be protected in acting in compliance therewith.
- c. Escrow Holder also has the right to interplead into a court of competent jurisdiction at the expense of the Parties.

**10. Resignation of Escrow Holder.**

- a. Escrow Holder may resign under this Agreement by giving written notice to all of the parties hereto, effective 30 days after the date of said notice.
- b. Upon the appointment by the parties of a new escrow holder or custodian, or upon written instructions to Escrow Holder for other disposition of the Escrow Deposit, Escrow Holder shall, after retention of its accrued escrow fees and expenses, if any, shall deliver the Escrow Deposit within a reasonable period of time as so directed, and shall be relieved of any and all liability hereunder arising thereafter.

**11. Applicable Law.**

This Agreement shall be governed by the laws of the State of Colorado.

**12. Counterparts/Third Party Beneficiaries.**

This Escrow Agreement may be executed in any number of counterparts, each of which when so executed shall constitute the entire agreement between the Seller and Buyer. The Seller and Buyer acknowledge and agree that there are not intended or unintended third party beneficiaries who may rely upon or benefit from the provisions of this agreement.

**13. Electronic Signatures and Notices.**

The execution of this Escrow Agreement, and any other notice required or permitted under this Escrow Agreement, may be given and transmitted by electronic means (including email, facsimile, or similar transmission) and shall be deemed effective for all purposes. Documents with original signatures are not required. If original signatures are required by any party, this request must be made prior to execution of this Escrow Agreement or any other notice, to ensure compliance with the request.

**Schedule B to the Escrow Agreement  
Special Instructions Number 1  
(Repairs)**

1. The Escrow Deposit shall be held by Escrow Holder for the completion of the following repairs or incomplete work (the "Work") (List in detail the Work required): **SEE ATTACHED INSTRUCTIONS**

2. The Work is to be initiated by:

☐ Seller ☒ Buyer

3. The Work is to be carried out on the property located at: **2301 WULFSOHN ROAD, GLENWOOD SPRINGS, CO 81601**

Described As:

**See attached "Exhibit A"**

4. Upon receipt of Notice from all parties stating that the Work has been completed, Escrow Holder shall release and disburse the Escrow Deposit to:

☒ Seller ☐ Buyer **After payment of all invoices for the work to be completed.**

5. In the event that Escrow Holder has not received Notice that the Work has been completed within one year from the date of this agreement **July 8th, 2020** then Escrow Holder is authorized, without notice to the parties, immediately thereafter to release and disburse the Escrow Deposit to **CITY OF GLENWOOD SPRINGS, A COLORADO HOME-RULE MUNICIPALITY**

(Seller) JS Initial \_\_\_\_ Initial \_\_\_\_

(Buyer) DB Initial \_\_\_\_ Initial \_\_\_\_

6. Escrow Holder shall have no independent duty to determine if the Work has been completed and may conclusively rely upon such Notice and may disregard any warnings or notice given it to the contrary.

7. Any and all warranty issues concerning the Work will be dealt with directly between the Purchaser, the Seller and their contractor/supplier.

8. In the event that the Work may give rise to a mechanic's or materialman's lien, which may affect the coverage provided to the parties insured under a policy of title insurance issued by Escrow Holder, as agent for its underwriter, Escrow Holder shall be entitled, in its sole discretion, to use the Escrow Deposit, or portion thereof, to pay, or to reimburse itself for the payment of, any sums of money to such mechanic's or materialman lien claimants for the protection of itself, and its insureds, under the policy of title insurance.

9. On release and disbursement of the Escrow Deposit, the Escrow Holder shall be relieved of any and all further liability in connection with the Escrow Deposit and the Escrow Agreement

COLORADO PLS NO. 38417  
FOR, AND ON BEHALF OF SGM INC.

## ESCROW INSTRUCTIONS

In connection with the purchase and sale of the Glenwood Springs Maintenance and Operations Center ("GMOC"), the sum of Fifty Thousand (\$50,000.00) Dollars out of the proceeds due to the City of Glenwood Springs as Seller (the "City") shall be deposited with Land Title Company, as Escrow Agent, pursuant to the Escrow Agreement, to secure City's payment and reimbursement of one half (1/2) of environmental hazard remediation costs for the GMOC, up to One Hundred Thousand (\$100,000.00) Dollars, incurred by the Roaring Fork Transportation Authority ("RFTA") as Buyer, (i.e. City has agreed to pay for ½ of total remediation costs or \$50,000, whichever is less). Escrow Agent shall deposit the funds in an escrow account with FirstBank (the Escrow Account), in accordance with the following instructions.

1. The Escrow Agent shall promptly pay to vendors (or reimburse to RFTA) amounts submitted by RFTA's written request to Escrow Agent with supporting documentation. A copy of such request and documentation shall be simultaneously submitted to the City via e-mail or fax addressed to the City Manager, City Chief Operating Officer and the City Attorney. Escrow Agent shall make such payment as requested unless the City objects to such request within seven (7) business days of the receipt of such request. The City may provide notice of its objection via e-mail to the Escrow Agent and RFTA. If the City timely objects to any payment request, the amount shall not be paid to RFTA by the Escrow Agent until such time as the matter is resolved either by mutual agreement or litigation in the state courts of Garfield County or such other dispute resolution procedures as the parties may agree upon in writing.
2. Any amounts not paid out of the Escrow Account and all accrued interest remaining in the Escrow Account, if any, shall be returned to the City within thirty (30) days after City and Escrow Agent each receive a written notice from RFTA that all obligations for remediation have been completed to the satisfaction of RFTA, which remediation is anticipated by RFTA to be complete no later than October 1, 2020. Notice to the City shall be sent to the City Manager, Chief Operating Officer and the City Attorney. Notice to RFTA shall be sent to the CEO and legal counsel.
3. If RFTA objects to the reimbursement of the remaining amounts in the Escrow Account to the City after seven (7) business days of notice of intent to pay provided by Escrow Agent to RFTA and City, such amount shall not be paid by the Escrow Agent until such time as the matter is resolved either by mutual agreement or litigation in the state courts of Garfield County or such other dispute resolution procedures as the parties may agree upon in writing.
4. The prevailing party in any litigation or dispute resolution procedure shall be entitled to an award of its reasonable attorneys' fees, costs and expenses incurred in connection therewith.

## 1.0 Introduction

This traffic impact study is prepared using the guidelines of a Colorado Department of Transportation (CDOT) Level Three Traffic Impact Study (TIS) and will satisfy City of Glenwood Springs Engineering Standards Chapter 5.11 Traffic Impact Analysis Standards. This TIS provides an estimate for design hour traffic generation for the RFTA Glenwood Maintenance Facility (GMF) and adjacent Park and Ride lot proposed expansion which is planned to occur in several phases over several years.

The City has provided the Glenwood Meadows Master Traffic Study (GMMTS) prepared by Kimley-Horn (K-H) and dated January 2023. The GMMTS provides a comprehensive overview of the entire Meadows area, from the I-70 #114 interchange on the northwest to Midland Ave. and 8<sup>th</sup> Street and downtown to Grand Ave. and reviews 2022, 2030, and 2040 scenarios that include the overall Glenwood Meadows projected development and consideration of increased background traffic. The GMMTS included the development of the RFTA GMF and Park and Ride (Zone 5) in those scenarios based on RFTA programming obtained from the RFTA Regional Transit Center (RTC) Traffic Analysis prepared by Shrewsberry for RFTA dated March 2018. This TIS provides updated projections for the RFTA ultimate buildout scenario and substitutes the “Zone 5” 2018 RFTA traffic projections in the GMMT for the RFTA ultimate buildout traffic projections developed in this study.

The purpose of this study is to simulate the 2023 Baseline operational conditions from the GMMTS and provide the trip generation, distribution, and traffic assignment for the RFTA ultimate buildout programming. It will provide an analysis of the study intersections for safety and operational impacts.

The roadway network and study area is depicted in Figure 1. The existing RFTA parcel(s) straddle Wulfsohn Road on the west end near Midland Ave. The existing GMF is on the south side and Park and Ride (P&R) lot on the north side of Wulfsohn.

FIGURE 1 - STUDY AREA

The study intersections are as follows.

- Midland Ave. and West Wulfsohn Rd. (#4)
- Wulfsohn Rd. and RFTA GMF / P&R (#20)
- 8th and Colorado (#13)
- 9th and Colorado (#15)
- 9th and Grand (#16)

The study intersections are shown in Figure 2.

FIGURE 2 - STUDY INTERSECTIONS

## 1.1 Project Description

The RFTA GMF is located on the west end of Wulfsohn Road in Glenwood Springs, Colorado. The ultimate development of the site and phasing will be analyzed in this TIS. A

summary of the future development phases are outlined below and buildout is depicted in Figure 3.

- **Phase 3/4/5/7** - An increase from current operation to a 60-bus option is outlined in this study. 13,100sf of new operations center.
- **Phase 6** - 19,237 sf Administration building.
- **Phase 8** - 9,600 sf Warehouse storage.
- **Phase 9** - 74 employee housing units and additional 45-space Park and Ride expansion (total 130-space).

FIGURE 3 - OVERALL SITE PLAN (ULTIMATE BUILDOUT)

## 2.0 Methodology and Assumptions

This traffic impact study has been prepared in accordance with section 2.3(5) of the State Highway Access Code (SHAC) and the methodology and assumptions are provided in this section. The assumptions will provide a conservative analysis for the purposes of assessing operational and safety traffic impacts resulting from the proposed phased development.

This analysis uses HCM 6th Edition methodology and was performed using the Synchro 11 analysis package to estimate the capacity of the intersections. The MOE's that are compared for this study include LOS, delay and 95th percentile queue length. The MOE's will be reported for each analysis scenario to determine if the current intersections operate adequately. The 95<sup>th</sup> percentile queue length reported is based upon the average of ten 60-minute Simtraffic modeling runs.

**Previous Study Background** - We used the GMMTS for future Glenwood Meadows (GM) developed traffic (less RFTA Zone 5 traffic), distribution and assignment of future traffic, and growth factor beyond the GM developed traffic as presented in the GMMTS. The city has shared the GMMTS Synchro model to provide consistency with the previous modeling. Only the study intersection traffic volumes have been updated in the model. GM developed traffic volumes have been adjusted by subtracting the RFTA (Zone 5) volumes generated by the

GMMTS. Updated RFTA ultimate buildout traffic volumes are generated in this study based on the development outlined in section 1.1 above.

**Baseline Traffic** - The City provided the 2023 GMMTS containing 2022 adjusted traffic volumes. New traffic counts performed by SGM on 4/25-26/2023 were completed for the following intersections:

- Midland and West Wulfsohn (7-9a; 4-6:30p)
- Wulfsohn and RFTA GMF / P&R (7-9a; 4-6:30p)
- 8th and Colorado (11a-1:30p; 4-6:30p)
- 9th and Colorado (11a-1:30p; 4-6:30p)
- 9th and Grand (11a-1:30p; 4-6:30p)

Baseline traffic counts were not adjusted using a seasonal factor based on CDOT count station on SH 82 in South Glenwood.

The GMMTS 2022 adjusted volumes, collected on a Thursday, were consistently greater than the Tuesday/Wednesday volumes collected by SGM. To normalize the 2023 SGM traffic volumes, a factor was established for each intersection to match the total intersection volume at each intersection counted by SGM as compared to the GMMTS 2022 adjusted volumes. The 2023 peak hour traffic volumes at the Wulfsohn / RFTA intersection were factored using the Midland / West Wulfsohn intersection.

### Analysis Years

Operational analysis of Baseline traffic (2023), 20-year Background traffic (2043) and 20-year Total traffic (2043) will be completed. Total traffic (2043) is split into two scenarios - one including the RFTA ultimate buildout traffic and another also including the GM developed traffic. Each scenario is explained in detail below.

- Baseline Traffic (2023) - Volumes based on adjusted traffic counts performed by SGM, as outlined above.
- Background Traffic (2043) - The volumes for this scenario were calculated by applying an annual growth rate of 0.5% to the Baseline volumes outside the immediate Glenwood Meadows travelshed - i.e., through traffic on Midland Ave. and any downtown intersections.
- Total RFTA traffic (2043) - RFTA ultimate buildout traffic volumes generated by SGM were added to the 2043 Background traffic scenario above. Comparing the results of this scenario to the 2043 Background scenario will determine the extent of traffic impacts due to RFTA development.
- Total GM + RFTA traffic (2043) - The adjusted GM developed traffic volumes are added to the Total RFTA traffic (2043) scenario above. The Total GM + RFTA traffic scenario provides a comparison of the extent of traffic impacts due to GM development.

The GMMTS provides a comprehensive overview of the entire Meadows area, and provides analysis for the 2022, 2030, and 2040 scenarios that include projected development and consideration of increased background traffic.

### Trip Generation Rates

The proposed trip generation for the development is described by phase and land use type below. Land use rates were developed from the ITE Trip Generation Manual, 11th Edition, unless noted otherwise.

- **Phase 3/4/5/7** - An increase from current operation to a 60-bus option is outlined in this study. This includes an increased bus schedule and associated staffing. Trip generation and volumes from RFTA developed 60-bus program (provided in Appendix F). 13,100sf of new operations center (office) Use General Office Building (Code 710) land use from ITE.
- **Phase 6** - 19,237 sf Administration building. Use General Office Building (Code 710) land use from ITE.
- **Phase 8** - 9,600 sf Warehouse storage. No additional staffing, no additional trips.
- **Phase 9** - 74 employee housing units and additional 45-space Park and Ride expansion (total 130-space). Use Park and Ride (Code 090) and Multi-Family Housing, Mid-rise (Code 221) land uses from ITE.

TABLE 1 - TRIP GENERATION RATES

| Land Use                          | Number of Units | Design Hour Rates |                                                     |         |             |            |         |             |            |
|-----------------------------------|-----------------|-------------------|-----------------------------------------------------|---------|-------------|------------|---------|-------------|------------|
|                                   |                 | ITE Code          | Weekday Rate                                        | AM Rate | AM Entering | AM Exiting | PM Rate | PM Entering | PM Exiting |

TABLE 2 - TRIP DISTRIBUTION

|                               | ITE Code | Basis of Rate | Time Period Used Above    | Weekday Design Hour Distribution |        |       |        |
|-------------------------------|----------|---------------|---------------------------|----------------------------------|--------|-------|--------|
|                               |          |               |                           | AM IN                            | AM OUT | PM IN | PM OUT |
| Ph9-Park and Ride             | 90       | Fitted Curve  | Peak Hour adjacent Street | 80%                              | 20%    | 25%   | 75%    |
| Ph8-Warehousing               | 150      | Ave Rate      | Peak Hour adjacent Street | 77%                              | 23%    | 28%   | 72%    |
| Ph9-Multi-Family (Mid-rise)   | 221      | Fitted Curve  | Peak Hour adjacent Street | 26%                              | 74%    | 61%   | 39%    |
| General Office Building (ksf) | 710      | Fitted Curve  | Peak Hour adjacent Street | 88%                              | 12%    | 17%   | 83%    |

### Design Hour Volume

The design hour volumes calculated in this study are based upon the peak hour of the adjacent street traffic for the proposed development land use types. The design hour volume used in this study is estimated to be the 30<sup>th</sup> highest hourly volume of the design year.

### Trip Reductions

Multi-modal trips could consist of walking, biking, car-pooling and transit options. The proximity of the RFTA GMF to the Park and Ride lot and as the hub of the Colorado River and Roaring Fork valleys transit network that makes the location convenient for all transportation modes.

Glenwood Springs is an area known for hiking and biking, along with that comes increased percentages of valley residents who use those modes of transportation for commuting and other trips that typically would have been taken with vehicles. The typical US average walking and biking distance for a commute or other trip is 0.25 miles and 3 miles, respectively. With more prevalent use of alternative transportation in the region, it would be reasonable to assume those distances are increased in the area. The Glenwood Meadows mixed use area is within walking and biking distance from the site.

Given the multi-modal opportunities, a 10% reduction in trips associated with potential future employees (Operations and Administration buildings) and potential future residents (multi-Family housing) is conservatively applied and summarized below.

- Phase 3/4/5/7 - 10% transit reduction applied to office
- Phase 6 - 10% transit reduction applied to office
- Phase 8 - No additional trips.
- Phase 9 - 10% transit reduction applied to housing

### Project Traffic Distribution

RFTA trip distribution is based on 2023 traffic distribution at project intersection for each leg with consideration given to GMMTS assumptions (90% oriented westerly / 10% oriented easterly). The Bus distribution is based on future RFTA programming.

## 2.1 Intersection Capacity Analysis

AM and PM level of service estimates were prepared in accordance with the Highway Capacity Manual 6<sup>th</sup> Edition (Transportation Research Board, 2016). For signalized intersections, the HCM measures level of service in terms of seconds of delay per vehicle. This is also a measure of driver discomfort, fuel consumption, and lost travel time. The table below relates the LOS to seconds of delay per vehicle at a signalized intersection.

TABLE 3 - LEVEL OF SERVICE (LOS) CRITERIA SIGNALIZED INTERSECTIONS

| Level of Service | Delay (seconds) |
|------------------|-----------------|
| A                | < 10.0          |
| B                | 10.1 to 20      |
| C                | 20.1 to 35      |
| D                | 35.1 to 55      |
| E                | 55.1 to 80      |
| F                | > 80.0          |

Source: *Highway Capacity Manual*, 2016

For unsignalized intersections, the Highway Capacity Manual defines level of service and delay in terms of seconds of stopped delay per vehicle, which is based on the number of acceptable gaps in the conflicting traffic stream. In general, the traffic movements analyzed are those controlled by stop signs or yield signs, and the left turn movements from the uncontrolled major street. The following table represents the level of service criteria for unsignalized intersections:

TABLE 4 - LEVEL OF SERVICE (LOS) CRITERIA UNSIGNALIZED INTERSECTIONS

| Level of Service | Delay (seconds) |
|------------------|-----------------|
| A                | < 10.0          |
| B                | 10.1 to 15      |
| C                | 15.1 to 25      |
| D                | 25.1 to 35      |
| E                | 35.1 to 50      |
| F                | > 50.0          |

Source: *Highway Capacity Manual*, 2016

The “overall” intersection level of service at a signalized or an unsignalized intersection corresponds with the average delay experienced on the minor street approaches and the uncontrolled major street movements. The unconflicted major street through movements are considered to have no delay. Because most of the intersection movements are major street

movements with no delay, the overall intersection results in a LOS with less delay than the minor street approaches and conflicting major street movements (left turns) experience.

In general, CDOT and the City consider the overall intersection operation of LOS “D” or better acceptable during the peak hours. The goal is to also provide a similar LOS for each controlled intersection movement and/or approach.

This study will assess the operational measures of effectiveness (MOE’s) including Level of Service (LOS), Delay, and 95<sup>th</sup> percentile queue. The MOE analysis by movement provides an overview of all intersection approach and conflicting movements and provides a more realistic picture of operations by controlled movement or approach as experienced and perceived by users. The MOE’s also provide a valuable reference point for comparison of LOS, Delay and Queue between scenarios.

### 3.0 Baseline Traffic Conditions (2023)

#### 3.1 Existing Roadways and Intersections

Roadway and intersection descriptions are provided in the GMMTS are accurate at the time of this study and are provided in the Appendix. The GMMTS Synchro model is the basis for this study and serves to replicate the 2022 results from the GMMTS to provide a comparative baseline to understand potential impacts with the addition of the Background, RFTA, and GM traffic volumes.

#### 3.2 Baseline Intersection Capacity Analysis

Using the Baseline traffic volumes provided in Appendix A the capacity analysis was modeled in Synchro to estimate level of service and delay for each intersection.

Table 5 shows the overall results of the capacity analysis for the intersections in the study area. The study intersections operate at an acceptable overall LOS C or better under baseline conditions.

The MOE’s; LOS, delay (seconds) and 95th percentile queue lengths (feet) by approach movement are also presented in Table 5 and provide a reference point of 2023 Baseline traffic conditions to understand the effect of growth unrelated to the proposed development provided in the 2043 Background traffic volumes. All but Grand Ave side street approach movements operate at an acceptable LOS D or better under baseline conditions. 9<sup>th</sup> Street approach movements operate at LOS E or worse during the AM and PM peak hour.

Queuing is reported for each approach movement at the study intersections to provide another indication of intersection performance. A queue length of 20 ft represents a single vehicle. Highlighted queue lengths indicate that the queue length exceeds the link or storage bay distance and is depicted in the following MOE tables as shown below.

\*95th percentile queue exceeds link distance

\*95th percentile queue exceeds storage bay distance

\*\*Modeled link distance differs from actual link distance

The Baseline scenario shows results with 95<sup>th</sup> percentile queue lengths well below or near existing storage bay or link lengths.

TABLE 5 - BASELINE - OVERALL LOS AND MOE BY MOVEMENT SUMMARY

| Intersection                          | Approach Movement |    | Link/Storage Bay Distance (L_T_R) | 2023 Baseline |               |     |       |                  |
|---------------------------------------|-------------------|----|-----------------------------------|---------------|---------------|-----|-------|------------------|
|                                       |                   |    |                                   | Overall LOS   | Overall Delay | LOS | Delay | 95th % Q (L_T_R) |

1 – Delay expressed as average delay per vehicle in seconds/vehicle

## 4.0 Background Traffic (2043)

The Baseline 2023 traffic volumes were used as a basis to develop the 20-year) Background (2043) traffic volumes. The Midland Ave through movements and the intersections in the downtown area were adjusted using a 20-year growth factor of 1.105. No growth factor was applied to the project intersection on Wulfsohn Rd.

### 4.1 Background Intersection Capacity Analysis

Using the 2043 Background traffic volumes, the capacity analysis was modeled in Synchro to determine level of service and delay for the access. The 2043 Background traffic volumes are provided in Appendix A.

Table 6 shows the overall results of the capacity analysis for the study intersections. The study intersections operate at an overall LOS C or better.

MOE analysis is also presented in Table 6 and provides an overview of intersection approach movements for 2043 Background traffic conditions for comparison to 2023 Baseline traffic conditions to understand the effect of background traffic volumes. Similar to the 2023 Baseline scenario, the Grand Ave side street approach movements operate at LOS E or worse during the AM and PM peak hour. The NB Wulfsohn Rd approach to Midland also degrades to LOS E during the PM design hour due to the increased background Midland through traffic.

Overall, the approach movement queue lengths increase slightly from Baseline to Background volumes, near the rate of the 20-year growth factor applied to the model. The NB PM design hour SH 82 through movement queue length exceeds the existing storage between the 9<sup>th</sup> and 10<sup>th</sup> Street intersections. 9<sup>th</sup> Street side street storage bay lengths are also slightly exceeded by the modeled queues.

TABLE 6 - BACKGROUND - OVERALL LOS AND MOE BY MOVEMENT SUMMARY

| Intersection                          | Approach Movement |    | Link/Storage Bay Distance (L_T_R) | 2023 Baseline |               |     |       |                  | 2043 Background |               |     |       |                  |
|---------------------------------------|-------------------|----|-----------------------------------|---------------|---------------|-----|-------|------------------|-----------------|---------------|-----|-------|------------------|

1 – Delay expressed as average delay per vehicle in seconds/vehicle

## 5.0 Total RFTA Traffic (2043) - Background plus RFTA Ultimate

### 5.1 Project Intersection

The RFTA GMF, P&R, and the project intersection (#20) are shown in Figure 4 below.

FIGURE 4 - RFTA GMF / PARK AND RIDE INTERSECTION WITH WULFSOHN ROAD

### 5.2 Project Access Trip Generation and Assignment

Using the trip generation rate and distribution assumptions provided in 2.0 Methodology the resulting trip generation by land use is provided in Table 7, trip generation by phase is provided in Table 8. Table 7 also applies the 10% trip reduction factor and present the reduced traffic volumes.

TABLE 7 -- ACCESS DESIGN HOURLY VOLUME BY LAND USE

| Land Use                                 | Number of Units | Weekday Traffic | Weekday Design Hour Traffic |           |            |            |
|------------------------------------------|-----------------|-----------------|-----------------------------|-----------|------------|------------|

The trip distribution and assignment at the RFTA / P&R and Wulfsohn Road intersection is provided in Appendix F.

### 5.3 Total RFTA Traffic Intersection Capacity Analysis

The Total RFTA traffic volumes are shown in Appendix A. Table 9 shows the overall LOS results of the capacity analysis for the study intersections for the 2043 Total RFTA Ultimate traffic scenario. The study intersections operate at an overall LOS C or better.

MOE analysis is also presented in Table 9 and provides an overview of intersection approach movements to understand the effect of RFTA Ultimate traffic volumes in addition to the 2043 Background traffic. All intersection approach movements operate at LOS C or better except for those highlighted in the table, further summary is provided below.

#### Wulfsohn Rd. and RFTA / P&R (#20)

The project intersection operates at overall LOS A and all approach movements operate at LOS B or better in both scenarios. Expected 95<sup>th</sup> percentile queue lengths are within existing storage lengths.

#### Midland Ave. and Wulfsohn Rd. (#4)

The NB approach operates at LOS D (E) in the 2043 Background scenario, the RFTA ultimate buildout traffic degrades the operation to LOS (E) F. The 95<sup>th</sup> percentile queue analysis shows a length of 66 (82) ft in the 2043 Background scenario and increases to 134 (239) ft queue length with the RFTA ultimate buildout traffic.

TABLE 9 - TOTAL RFTA - OVERALL LOS AND MOE BY MOVEMENT SUMMARY

| Intersection                          | Approach Movement |    | Link/Storage Bay Distance (L_T_R) | 2043 Background |               |     |       |                  | 2043 Background + RFTA |               |     |       |                  |

1 – Delay expressed as average delay per vehicle in seconds/vehicle

**9<sup>th</sup> St. and Grand Ave. (#16):**

In the 2043 Background scenario, the EB and WB approach movements operate at LOS D or worse. The addition of the RFTA ultimate buildout traffic degrades the operation to LOS E or worse. The intersection still maintains an acceptable overall LOS B (C). The 95<sup>th</sup> percentile queue analysis indicates that the WB and EB left turns exceed the existing storage lengths in both the 2043 Background and 2043 RFTA ultimate buildout scenario.

**5.4 Total RFTA Traffic Auxiliary Turn Lane Analysis**

Auxiliary turn lane requirements for access to Colorado State Highways and many local roadways are determined using the State Highway Access Code (SHAC) and based on the projected DHVs, the speed limit and geometry of the highway adjacent to the access, and the classification of the highway. The City uses the SHAC as the standard for determining the need for auxiliary lanes.

**5.4.1 Wulfsohn Rd. and RFTA GMF/Park and Ride (#20)**

For design purposes, the speed limit of Wulfsohn Rd. adjacent to the project is 25 mph in both directions.

Based on the SHAC 3.12 for a Category NR-C - Non-Rural Arterial, auxiliary turn lanes shall be installed according to the criteria below:

- a. A left turn lane with taper and storage length is required for any access with a projected peak hour left ingress turning volume greater than 25 vph. No deceleration length is required.
  - o *WB left volume 41 vph - Lane warranted*
  - o *EB left volume 21 vph - Lane not warranted*
  - o Storage Length = 50 ft; For reference; using a passenger vehicle length of 20 ft (A bus equals two passenger vehicles, a semi-trailer equals 3 passenger vehicles). The 50 ft length has the following capacity: 2 passenger vehicles, or 1 bus.
- b. A right turn deceleration lane and taper length is required for any access with a projected peak hour right ingress turning volume greater than 50 vph. No deceleration length is required.
  - o *WB right volume: 39 vph - Lane not warranted*
  - o *EB right volume: 33 vph - Lane not warranted*

**TABLE 10 - WULFSOHN / RFTA INTERSECTION AUXILIARY LANE REQUIREMENTS**

| Auxiliary Lane<br>(11 ft width) | Standard Code Design<br>Length + Storage (taper)<br>(ft) | DHV<br>(vph) | Posted<br>Speed<br>(mph) | Storage<br>(ft) | 95th % Q<br>(ft) |
|---------------------------------|----------------------------------------------------------|--------------|--------------------------|-----------------|------------------|
| EB Left Turn                    | --                                                       | 21           | 25                       | --              | 19               |
| WB Left Turn                    | 0 + 50 (90)                                              | 41           | 25                       | 50              | 31               |

The SHAC provides the following design parameters for redirect tapers:

- a. The WB redirect taper is located within a 25-mph speed zone and should have a taper rate of 15:1.

**5.4.2 Midland Ave. and Wulfsohn Rd. (#4)**

For design purposes, the speed limit of Midland Ave. at the intersection with Wulfsohn Rd. is 25 mph in both directions.

Based on the SHAC for a Category NR-C - Non-Rural Arterial, auxiliary turn lanes shall be installed according to the criteria below:

- a. A left turn lane with taper and storage length is required for any access with a projected peak hour left ingress turning volume greater than 25 vph. No deceleration length is required.
  - o *WB left volume 7 vph - Lane not warranted*
  - o *EB left volume 31 vph - Lane warranted*
  - o Storage Length = 40 ft; A 40 ft length has the following capacity: 2 passenger vehicles, or 1 bus.
- b. A right turn deceleration lane and taper length is required for any access with a projected peak hour right ingress turning volume greater than 50 vph. No deceleration length is required.
  - o *WB right volume: 19 vph - Lane not warranted*
  - o *EB right volume: 133 vph - Lane warranted*
  - o Storage Length = 150 ft; A 150 ft. length has the following capacity: 7 passenger vehicles, 1 bus and 5 passenger vehicles, or 1 semi-truck and 4 passenger vehicles.

TABLE 11 - MIDLAND / WULFSOHN INTERSECTION AUXILIARY LANE REQUIREMENTS

| Auxiliary Lane<br>(12 ft width) | Existing Condition<br>Storage (taper) (ft) | Standard Code Design<br>Storage (taper) (ft) | DHV<br>(vph) | Posted<br>Speed<br>(mph) | Storage<br>required<br>(ft) | 95th % Q<br>(ft) |
|---------------------------------|--------------------------------------------|----------------------------------------------|--------------|--------------------------|-----------------------------|------------------|
| EB Left Turn                    | 95 + (70)                                  | 40 + (90)                                    | 31           | 25                       | --                          | 19               |
| EB Right Turn                   | 25 + (75)                                  | 150 + (90)                                   | 133          | 25                       | <b>125</b>                  | 47               |
| WB Left Turn                    | 95 + (70)                                  | --                                           | 7            | 25                       | --                          | 24               |

The State Access Code gives the following design parameters for redirect tapers:

- a. Both redirect tapers are located within a 25-mph speed zone and should have a taper rate of 15:1

The existing EB Left Turn storage bay distance of 95 ft. is sufficient. The existing EB Right Turn storage bay has a length of 25 ft and requires an additional 125 ft. to meet the SHAC Auxiliary Lane Requirements.

## 5.5 Wulfsohn Rd. and RFTA GMF/Park and Ride - Access Assessment

The existing project intersection is a two-way stop-controlled intersection with Wulfsohn Road uncontrolled and stop signs on the north and south approaches. This access lies within a tangent section of Wulfsohn Road. Both the NB and SB approaches are able to provide adequate entering sight distance for a Multi-Unit Truck and Bus, with available sight distance of 425 ft based on the 25-mph posted speed. Consideration needs to be given to the street trees on the south side of Wulfsohn to maintain vision for NB traffic through the required sight triangle. The 85<sup>th</sup> percentile speed on west Wulfsohn as reported in the GMMTS is approximately 35 mph and would require an entering sight distance of 595 ft. The SB approach provides this additional sight distance. The NB approach can provide a maximum distance of 475 ft with attention to tree trimming within the sight triangle of the street trees on the south side of Wulfsohn Road, sight distance beyond that is limited by the horizontal and vertical roadway geometry. Photographs of the existing access conditions are provided below.

FIGURE 5 - RFTA GMF NB APPROACH AT WULFSOHN ROAD (W / E)

FIGURE 6 - RFTA P&amp;R SB APPROACH AT WULFSOHN ROAD (E / W)

The buildout of the RFTA GMF will result in an increase in both vehicular and pedestrian volumes at the Wulfsohn Road project intersection. The CDOT Pedestrian Crossing Guidelines provide guidance for the installation of crosswalks and appropriate treatments based on location, volumes, and roadway type.

Based on the future vehicular traffic on Wulfsohn Road, up to 5000 ADT, and increased pedestrian volumes with the addition of the administration building, employee housing, and park and ride expansion, the installation of a pedestrian crosswalk is recommended. The painted crosswalk should be located on the west side of the Wulfsohn Road intersection as shown in Figure 7. The crosswalk should be installed with warning signage per the MUTCD consisting of a W11-2 pedestrian crossing sign with a W16-7p plaque mounted on the side of the roadway at the crosswalk location and a W11-2 advanced pedestrian warning sign. Guidelines and calculations are provided in the Appendix.

FIGURE 7 - RFTA P&amp;R / GMF AT WULFSOHN ROAD - PEDESTRIAN CROSSING

### 5.6 State Highway Access Permit Evaluation

Based on the SHAC, an access permit is required when a change of greater than 20% occurs when accessing a state highway. Because there is not an existing permit for I-70 Exit #114, CDOT has directed to use the 2022 Existing Adjusted traffic volumes from the K-H GMMTS as the permit threshold, those volumes are calculated in Appendix F shown in Table 12. The table also presents the percentage of DHV added to the Exit #114 Interchange by the RFTA ultimate buildout scenario. The RFTA total traffic falls below the 20% threshold that requires a CDOT Access Permit.

TABLE 12 - RFTA DHV AND 2022 I-70 DHV %

| RFTA              | HOUR | DHV   | % 2023 |
|-------------------|------|-------|--------|
|                   |      |       | DHV    |
| TOTAL             | AM   | 82    | 6.0%   |
| ULTIMATE BUILDOUT | PM   | 94    | 6.3%   |
| 2023 DHV          |      |       |        |
|                   | AM   | 1,359 |        |
|                   | PM   | 1,493 |        |

### 5.7 Total RFTA Traffic - Summary of Conclusions

The analysis of the combined 2043 Background traffic and the RFTA ultimate buildout traffic presented above results in the following conclusions.

- The degradation of LOS at the Midland and Wulfsohn intersection is partially the result of the RFTA ultimate buildout traffic. In terms of percentages, the RFTA share of the volume is as follows.
  - 42% of 2023 Baseline DHV
  - 20% of 2043 Total GM-RFTA DHV

- Improvement of the Midland and Wulfsohn intersection is needed prior to RFTA ultimate buildout or the NB approach LOS will degrade to LOS E/F with up to 250 ft 95<sup>th</sup> percentile queue lengths.
- Depending on timing of potential Midland and Wulfsohn intersection improvements being implemented, consideration should be given to extending the existing EB right turn lane an additional 125 ft, for a total of 150 ft.
- The RFTA ultimate buildout volumes warrant a WB left turn lane from Wulfsohn to the RFTA GMF access driveway. Consideration should be given to providing the corresponding EB left turn lane to the RFTA Park and ride lot which is just under the warrant volume (21 v 25 vph)
- The future development of the residential units and/or additional park and ride spaces should include a consideration for a two-lane SB approach to Wulfsohn Road to help alleviate potential SB queuing issues across the existing park and ride lot access aisle.
- At the NB approach to Wulfsohn, RFTA should work with the City to trim and/or remove trees to provide the maximum sight distance possible with existing geometric limitations (~475 ft).
- At the west side of the Wulfsohn Road project intersection, a painted crosswalk should be installed with warning signage per the MUTCD consisting of a W11-2 pedestrian crossing sign with a W16-7p plaque mounted on the side of the roadway at the crosswalk location and a W11-2 advanced pedestrian warning sign.
- The RFTA ultimate buildout traffic does not trigger a CDOT Access Permit at Exit 114

## 6.0 Total GM+RFTA Traffic (2043) - Background plus GM Developed plus RFTA

### 6.1 Glenwood Meadows Trip Generation and Assignment

The RFTA (Zone 5) traffic was calculated based on the volume and distribution in the GMMTS. Subtracting the Zone 5 trip assignment volumes from the fully developed GMMTS assignment (GMMTS Figure 11) results in the Glenwood Meadows traffic distribution less RFTA (Zone 5) traffic. Adding this to the previous 2043 Background plus RFTA ultimate buildout scenario results in the 2043 Total Traffic, which includes background traffic and fully developed RFTA and Glenwood Meadows Traffic. The Total GM+RFTA traffic volumes are shown in Appendix A.

### 6.2 Total GM + RFTA Traffic Intersection Capacity Analysis

Table 13 shows the overall LOS results of the capacity analysis for the study intersections for the Total GM+RFTA traffic scenario. The Midland and Wulfsohn and 8<sup>th</sup> Street and Colorado Ave intersections overall LOS degrade to LOS E(F) and LOS D(D) respectively when the GM 2040 traffic is added to the 2043 Background plus RFTA ultimate buildout scenario. The remaining study intersections continue to operate at overall LOS C or better.

MOE analysis is also presented in Table 13 and provides an overview of intersection approach movements for Total GM+RFTA scenario to understand the effect of Glenwood Meadows traffic volumes in addition to the Total RFTA traffic. All intersection approach movements operate at LOS C or better except for those highlighted in the table and summarized below.

#### **Wulfsohn Rd. and RFTA / P&R (#20)**

The project intersection operates at overall LOS A and all approach movements operate at LOS C or better in both scenarios. The 95<sup>th</sup> percentile queue lengths are affected by the queuing that occurs at the Wulfsohn NB approach to Midland, which queues through this intersection and results in side street queuing. A solution to the future capacity issues at the Midland and Wulfsohn intersection will result in acceptable operation and queuing at this location.

#### **Midland Ave. and Wulfsohn Rd. (#4)**

The NB approach operates at LOS F during both design hours in the Total GM + RFTA scenario. The 95<sup>th</sup> percentile queue analysis results in approximately 1000 ft of queuing that extends through the Wulfsohn Road project intersection. The capacity issue can be resolved with the implementation of either a traffic signal or roundabout at this location. The GMMTS recommended implementing signal control, or alternatively a two-lane roundabout, at this intersection to alleviate the LOS and queueing issues with 2030 traffic volume projections.

The GMMTS traffic signal analysis maintained the same intersection geometry with permissive-only left turn phasing on all four approaches and a cycle length of 90 seconds, which improved the AM and PM overall LOS to B and C, respectively. The 95<sup>th</sup> queue lengths were reported on the order of 300-400 ft, at least 400 ft clear of (and west of) the project intersection.

A two-lane roundabout was initially discarded as a feasible alternative in the GMMTS, but further preliminary analysis by SGM found that the 2040 Traffic volumes may be acceptable for a roundabout that could fit the topography of the site. (See SGM Memorandum dated 4/27/2023).

TABLE 13 - TOTAL GM+RFTA - OVERALL LOS AND MOE BY MOVEMENT SUMMARY

| Intersection                          | Approach Movement |    | Link/Storage Bay Distance (L_T_R) | 2043 Background + RFTA |               |     |       |                  | 2043 Background + GM + RFTA |               |     |       |                  |
|---------------------------------------|-------------------|----|-----------------------------------|------------------------|---------------|-----|-------|------------------|-----------------------------|---------------|-----|-------|------------------|

1 - Delay expressed as average delay per vehicle in seconds/vehicle

**8<sup>th</sup> St. and Colorado Ave. (#13):**

The addition of the 2040 Glenwood Meadows traffic degrades LOS from B (C) to LOS D (D), still an acceptable LOS for the City. The 95<sup>th</sup> percentile queue analysis results in a 20–25% increase in lengths for the EB / WB movements heading to and from Grand Ave.

**6.3 Total GM+RFTA Traffic - Summary of Conclusions**

The analysis of the combined 2043 Background traffic and the GM developed plus RFTA ultimate buildout traffic presented above results in the following conclusions.

- The degradation of LOS at the Midland and Wulfsohn intersection is worsened by the addition of the 2040 GM traffic volumes.
- Recommendations in the GMMTS should be used for the downtown intersections.

**7.0 Transportation Demand Management Strategies**

Transportation demand management (TDM) is a set of strategies designed at maximizing traveler choices. *Managing demand is about providing travelers, regardless of whether they drive alone, with travel choices, such as work location, route, time of travel and mode. In the broadest sense, demand management is defined as providing travelers with effective choices to improve travel reliability.*<sup>1</sup>

RFTA is in the TDM business. The expansion of the GMF is a primary strategy to help provide future travelers more choices with expanded schedule, reduced travel times, and reliability. The approach to add office space, employee housing, and additional park and ride spaces at this transit hub is an effective land-use strategy. The planned development will serve to provide additional choices for live / work location for management, maintenance, and driver employees; while also serving to reduce vehicle miles traveled and trips. Both have benefits of reducing overall pollutants caused by vehicle emissions.

<sup>1</sup>FHWA, Mitigating Traffic Congestion-The Role of Demand-Side Strategies, prepared by ACT, Report No. FHWA-HOP-05-001, October 2004.

**8.0 Conclusions and Proposed Mitigation Measures****8.1 Summary of Conclusions**

- The Midland and Wulfsohn intersection will need improvement to accommodate the combination of 2023 existing, future background, and Glenwood Meadows / RFTA traffic volumes. In terms of percentages, the RFTA share of the volume at Midland and Wulfsohn intersection is as follows.
  - 42% of 2023 Baseline DHV
  - 20% of 2043 Total GM-RFTA DHV
- The RFTA ultimate buildout traffic does not trigger a CDOT Access Permit at Exit 114
- Except for the Midland and Wulfsohn and project access intersection, the remaining study intersections will operate acceptably in their existing configurations considering the Total RFTA ultimate buildout traffic.

## 8.2 Proposed Mitigation Measures

- Depending on timing of potential Midland and Wulfsohn intersection improvements being implemented, consideration should be given to extending the existing EB right turn lane and additional 125 ft, for a total of 150 ft.
- The RFTA ultimate buildout volumes warrant a WB left turn lane from Wulfsohn to the RFTA GMF access driveway. Consideration should be given to providing the corresponding EB left turn lane which is just under the warrant volume (21 v 25 vph)
- The future development of the residential units and/or additional park and ride spaces should include a consideration for a two-lane SB approach to Wulfsohn Road to help alleviate potential SB queuing issues across the existing park and ride lot access aisle.
- At the NB approach to Wulfsohn, RFTA should work with the City to trim and/or remove trees to provide the maximum sight distance possible with existing geometric limitations (~475 ft).
- At the west side of the Wulfsohn Road project intersection, a painted crosswalk should be installed with warning signage per the MUTCD consisting of a W11-2 pedestrian crossing sign with a W16-7p plaque mounted on the side of the roadway at the crosswalk location and a W11-2 advanced pedestrian warning sign.

## Appendix B - METHODOLOGY / ASSUMPTIONS (CORRESPONDENCE WITH CoGS)

## MEMORANDUM

**DATE:** *Revised February 20, 2023*

**TO:** Terri Partch, City Engineer, City of Glenwood Springs  
Jessica Bowser, Asst. City Engineer, City of Glenwood Springs

**FROM:** Dan Cokley, PE, PTOE

**RE:** RFTA GMF Level Three Traffic Analysis Methodology Proposal

---

A traffic impact study will be prepared using the guidelines of a Colorado Department of Transportation (CDOT) Level Three Traffic Impact Study (TIS) and will satisfy City of Glenwood Springs Engineering Standards Chapter 5.11 Traffic Impact Analysis Standards. The TIS will provide estimates for design hour traffic generation for the RFTA Glenwood Maintenance Facility (GMF) and adjacent Park and Ride lot proposed expansion which is planned to occur in several phases over several years.

This memo documents the methodology and assumptions that SGM intends to use for the RFTA GMF located on the west of Wulfsohn Road in Glenwood Springs, Colorado. The full development of the site and all phasing will be analyzed in this TIS. A summary (to be verified by RFTA prior to TIS) of the future development is provided below.

- Phase 3/4/5/7 - An increase from current operation to a 60-bus option is outlined in this study. 13,100sf of new operations center.
- Phase 6 - 14,400 sf Administration building.
- Phase 8 - 9,600sf Warehouse storage.
- Phase 9 - 74 employee housing units and additional 45-space Park and Ride expansion (total 130-space).

The goal of this memo is to gain the City's acceptance of the data intended for use in the analysis, assumptions proposed for the analysis (directional distribution, trip reduction factors, etc.) and to define the final scope and the overall approach to the TIS.

Figure 1 - RFTA GMF / Park and Ride Site Map

## ADD FIGURE 2 - Overall Site Plan (Ultimate Buildout)

**Background** - We intend to generally use the Glenwood Meadows Master Traffic Study by K-H (GMTS) for future development traffic, distribution and assignment of future traffic, and growth factor beyond the development traffic presented in the GMTS.

**Baseline Traffic** - *The City has had K-H update traffic counts which will be used for this study.*

*New traffic counts will be provided for the following intersections:*

4. Midland and West Wulfsohn
12. 8<sup>th</sup> and Colorado
13. RFTA access and Wulfsohn
14. 9<sup>th</sup> and Colorado
15. 9<sup>th</sup> and Grand

Baseline traffic counts will *NOT* be adjusted using a seasonal factor based on CDOT count station on SH 82 in South Glenwood.

**Figure 3 - RFTA GMF Scoping Map**

**Analysis Years** - Operational analysis of Baseline traffic (2023), 20-year background traffic (2043) and 20-year total traffic (2043) will be completed. Significant and impactful phasing may also warrant additional analysis prior to the 20-year timeframe.

**Development and Growth** - The TIS will input the future development considered in the GMTS for the Glenwood Meadows area, less RFTA (Zone 5) which will be developed in this TIS. This traffic will be distributed and assigned per the GMTS Figure 12. The TIS will use an annual growth rate

of 0.5% applied to volumes outside the immediate Glenwood Meadows travelshed (Intersections a. through e. above and through traffic on Midland Ave).

RFTA Land Use Rates - Trip generation rates from the ITE Trip Generation Manual, 11<sup>th</sup> Edition will be used

- Phase 3/4/5/7 - An increase from current operation to a 60-bus option, 13,100sf of new operations center (office). Use RFTA data for increased buses. General Office Building (Code 710).
- Phase 6 - 14,400 sf Administration building. Use General Office Building (Code 710)
- Phase 8 - 9,600sf Warehouse storage. No additional staffing, no additional trips.
- Phase 9 - 74 employee housing units and additional 45-space Park and Ride expansion (total 130-space). Use Park and Ride (Code 090) and Multi-Family Housing, Mid-rise (Code 221).

RFTA Traffic Distribution - The directional distribution for *RFTA staff and PnR* traffic will match existing travel patterns defined by counts at the RFTA accesses and Wulfsohn Road intersection and downstream intersection distributions. *Existing bus routes at time of GMTS / SGM counts vs future expansion of routes will be analyzed and implemented.*

Access Permits - Evaluation of the need for an Access Permit at Exit #114 and 9<sup>th</sup> / Grand by phase, using GMTS traffic counts.

Operational Analysis - Analysis of the will include intersections 4. - 13. outlined above. LOS, Delay, 95<sup>th</sup> Percentile Queue to be reported for each analysis scenario.

Auxiliary Lane Assessment - The need for auxiliary lanes at the project access intersection will be evaluated per the State Highway Access Code. Wulfsohn is assumed to be a Category NR-C (Non-Rural Arterial). The speed limit in the vicinity of the site is posted at 40 mph.

Multi-modal trip reduction - The location is adjacent to the existing Park and Ride. Given the multi-modal opportunities, a 10% reduction in trips associated with potential future employees (Operations and Administration buildings) and potential future residents (multi-Family housing) is conservatively applied and summarized below.

- Phase 3/4/5/7 - 10% transit reduction applied to office
- Phase 6 - 10% transit reduction applied to office
- Phase 8 - No additional trips.
- Phase 9 - 10% transit reduction applied to housing

*10% reduction will be applied a single time by land use.*

Transportation Demand Strategies - *Review opportunities for management staff, bus drivers, off peak hours.*
